THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. City Water Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD.

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken, before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still shiver from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Daniel H. Williams.]

DR. SWETT—Dear Sir:—I presume you recollect that when I saw you, about a year since, I was very low, and had been for a long time, with dyspeptic complaints, being very weak, with no appetite, and pain in my head, stomach and side; but now my health is comparatively good, and I consider this great deliverance attributable, mainly, to the two bottles of your "Compound Cordial of Dandelion," which you left for me. I consider this the best medicine I ever found for the complaints for which you recommend it on the labels.
MARY E. WILLIAMS.

Concord, N. H., May 28, 1858.

ENFIELD, Sept. 8, 1859.

Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale,** which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.

Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.

Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE.*

NEW STYLE!!
GREELEY'S PATENT ELASTIC
BACK AND CENTRE
SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,

Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making Pants is: they may be made snug to the person, and still be as easy as though they were uncommonly large. Pants that are easy to stand in are easy to sit or stoop in.

Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price 81.25 per gallon.

For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

Dr. B. S. Goodwin, Indian Physician,

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.

Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.

No Mercury! No Bleeding! No Blisters!

Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON

A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.

Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces—Spots taken out without fading or changing color.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, AUGUST 13, 1859.

☞ The *N. H. Gazette* of this week, (Aug. 13,) contains two important political editorials, both of which we intend to copy.

In the article headed Union Democrat, the Gazette does not agree that "Congress has nothing to do with slavery,"—but argues that in certain possible cases "it would become the duty of Congress to protect" it.

The same article maintains that the Kansas-Nebraska bill did *not* give the people of that territory the power to *exclude* slavery, but that the famous declarations in that bill about not legislating slavery into or out of it, and about "leaving the people perfectly free to form their own domestic institutions in their own way," gave them *no* power whatever, and was designed to confer none. And not only so, the editor *proves* this point clearly, by the statement from the record of Congress, that Mr. Fuller's motion to *give* the territory power to establish or exclude *slavery*, was *voted down* by the same men chiefly, who passed the bill.

The Gazette thus shows clearly the truth of what was asserted at the time, viz. that the Nebraska bill was passed and the Missouri restriction line repealed, *simply to extend slavery* and give it more power,—and that the pretence to the contrary, whether set up in the bill or out of it, was a sham and a cheat.

The article on Popular Sovereignty will well repay perusal, for it completely explains away "*the Great Doctrine*," about which we have heard so much, that people of a territory can do what they please, as *simply absurd*, and cannot be maintained! And so the Great Doctrine goes overboard, —a total loss and no insurance.

☞ An abstract of the Kansas Constitution, framed by the late Constitutional Convention, has been published. As a general thing (says the Bath Times) it is unexceptionable. It prohibits slavery and involuntary servitude except for the punishment of convicted criminals, guarantees to the people the right to assemble, to bear arms, to the writ of habeas corpus, to trial by jury, to bail (except for capital offenses, whereof proof is evident or the presumption great), to freedom of speech or publication, to freedom from unreasonable searches and seizures, from imprisonment for debt except in cases of fraud, and from transportation from the State for any offense committed in it. No religious test or property qualification shall be required for "any office of public trust, or for any vote at any election;" "no person shall be incompetent to testify on account of religious belief;" the truth may be given in evidence in actions for libel, "and if it shall appear that the alleged libellous matter was published for justifiable ends, the accused shall be acquitted;" and no distinction shall be made between citizens and aliens, in reference to the purchase, enjoyment or descent of property.

The Times offers this closing remark:

Though this Constitution has been framed by a Convention overwhelmingly republican, it provides that negroes shall have neither the right to hold office nor to vote in the State. This is the practical summing up of the boasted regard of republicanism for equal rights.

This last restriction is common at the West—where the sentiment seems to be in favor of a free white government, unmixed either with slavery or negro suffrage.

☞ The following curious statement appears in a St. Petersburg letter of July 15:

There are many versions in circulation touching the mission of Count Schouvaloff to the French headquarters in Italy. The one most credited is that this personage was ordered by the Emperor Alexander to tell the Emperor of the French that Prussia and England, being alarmed at his great successes, had come to an agreement to check their continuance, and that, in the anticipation of a common action on the part of those powers, Russia felt herself bound in honor to forewarn the French Emperor that she was not prepared to support him in the case of a general war.

This letter, the Traveller says, comes from a tolerably good source, and it goes to confirm an opinion which has of late been prevalent, that Louis Napoleon had been too sanguine in his calculations of support from Russia.

☞ The Newcastle (England) Daily Chronicle says that a well known banker lately observed that several of his clerks had adorned themselves with moustaches. He called into his private room all the moustached, and said, "Gentlemen, I have no wish to interfere with your private amusements or hobbies, but I must insist upon the moustache being off in business hours. After 5 P. M. indulge your hobbies, if you choose."

☞ The New Haven Register says, "We have in Connecticut 284 Congregational churches, of which no less than 63 are vacant, while there are the large number of 155 ministers waiting for calls. If a liberal allowance is made for the aged and infirm, who are unable to perform pastoral duties, still the large number left unemployed leaves room for serious reflection."

☞ The Police Gazette expresses its approbation of the presentation of the Baltimore Grand Jury, which found that in their opinion "the murders and other acts of violence frequently perpetrated in their vicinity, may be attributed to the quality rather than to the quantity of liquor drank by the offenders."

The Newburyport Herald remarks:—

Of the truth of this position no man can entertain a reasonable doubt. There are a multitude of drugs and poisonous substances which exert on the brain and nervous system far more exciting, crazing and pernicious effects generally, than alcohol in its pure form, much as it has been denounced by friends of reform.

Uncle Toby thinks it *perfectly safe* to abstain from *pure* liquor, which used to kill men, and also from the *impure*, which kills people now.

It is very bad, no doubt, to be shot through the head by an ounce bullet; and it might possibly be imagined worse to have the head knocked off by a 24 pound shot. Uncle T. has some considerable objection against getting in the range of either. And so of the liquors—choose *neither*.

PERSONAL.—The Deseret News of July 15th, thus chronicles the arrival of Horace Greeley in Salt Lake City:—

"Horace Greeley, Esq., editor of the New York Tribune, arrived on Sunday evening last in the mail stage from the East, on the way to the Pacific. We understand that he intends to remain here a short time to see the 'lion,' as there is no 'elephant,' and other curiosities that may be found in and about the city."

FOUR CHILDREN LEFT TO STARVE.—In the city of New York, last week, a landlord who called at the house of one of his tenants for the purpose of collecting rent money, found the door of the tenement locked, but hearing the voices of children within he gained access, and here found four children, the oldest 7 years and the youngest 9 months old, in a starving condition. The infant was stretched on a pallet of wet straw, totally naked, much emaciated, covered with flies, and apparently dead.—Two of the other children were partially naked, and the room was wretched in the extreme, and there was not a morsel of food in the house. Upon inquiry he learned that the morning previous the mother of the children was sent to Blackwell's Island as a habitual drunkard, on complaint of her husband, who promised he would take good care of the children. It appeared, however, that he had locked the children in, and had not been home since the mother was taken away, some twenty-four hours previous. The children were sent to the Home of the Friendless.

☞ The Traveller says the country is absolutely flooded with counterfeit money. About every day notice is given of the appearance of a new counterfeit so well executed that many are deceived and suffer loss. Counterfeit fives upon the Abington Bank have been put in circulation, and a number were passed in Salem on Wednesday. A young man was arrested a few days since for passing at Lawrence, counterfeit twos upon the Liberty Bank of Providence, he having hired a team for the express purpose of circulating his bogus bills. Can nothing be done to check this growing evil?

☞ Mr. Elisha T. Stirling, who has been a prominent business man in Cleveland, Ohio, for more than a quarter of a century, came to his death some time during Saturday and Sunday night last, in a manner that awakened suspicions of foul play and produced intense excitement through the city. He was found on the sidewalk in front of a house in which he had been playing cards till three o'clock in the morning. His skull was badly fractured, and he survived but a short time.

THE SUSPECTED SLAVER AT PORTLAND.—The Portland Advertiser says that "it is the current opinion in Commercial street that the Newsboy has accommodations for a slaver. She is ventilated as slavers generally are, and the fact is admitted by her consignees; that her water casks are 'to be shooked up,' shows that she has an unusual number of water casks for a lumber laden vessel. The dimension lumber is such as is used for slave decks—so say old shipmasters. Rice is the usual food given. There is a general opinion among nautical men that she has been a slaver."

☞ The Illustrated Times says that on Monday, July 25, Judge Halliburton made his maiden speech in Parliament. "When he arose, the House was hushed to silence in a moment; but his speech was not a success, and it is clear now that Mr. Halliburton, racy writer as he is, is no orator. It was just such a speech as any country gentleman might have made. The appearance of Mr. Halliburton was that of a sturdy old gentleman farmer, utterly unlike what, from reading his works, you would imagine him to be."

☞ A Bremen ship of 1000 tons, manned and officered entirely by Germans, is now loading at Bangor for Callao, on the Pacific. Her cargo will consist of 600,000 feet of lumber.

☞ The result of the Tennessee election is very gratifying to the Opposition; for though the Democrats carried the State, the Opposition have seven of the ten members of Congress—having gained four. There was no attempt made by the Opposition to render themselves baser than the administration party, by professing greater love for slavery and the slave trade, as they have done in Virginia, Kentucky and some other States.—*Atlas.*

☞ Angelique Duchemis, the daughter and sister of a family of soldiers, who distinguished herself in the wars of Napoleon I., under Gen. Casabianca, and was disabled by a wound received at the seige of Calvi, died recently at the Hotel des Invalides in Paris. She had attained the rank of sub-lieutenant, and Napoleon had conferred on her the cross of the Legion of Honor, and the medal of St. Helena.

☞ A meeting held in Boston, of the friends of education, humanity and religion, have resolved to erect a monument to the memory of Horace Mann, and to make provision for educating his children. The committee to carry out the design are—Hon. Josiah Quincy, Dr. S. G. Howe, ex-Gov. Boutwell, Rev. E. E. Hale, Prof. Crosby, Dr. Gannett, Rev. E. Edmands, Geo. B. Emerson, Rev. Mr. Waterston.

☞ The National Teachers' Association, in session at Washington, have elected J. W. Bulkley, of Brooklyn, N. Y., for President for the ensuing year, and decided to publish a monthly periodical in furtherance of the cause of education. Thursday afternoon the delegates had a pleasant time in visiting President Buchanan.

☞ It is solemnly announced that Sickles was expelled from the order of the Sons of Malta immediately after the fact became known that he had renewed conjugal relations with his wife. Much excitement is said to have existed on the subject, and the case has been appealed by his friends to the Lodge of the Grand Consistory of the order.

☞ The French government have determined to include in the accomplishments of the army, a knowledge of the art of swimming, as a considerable number were drowned in crossing the rivers of Northern Italy.

☞ It is stated as an evidence of the yet unsettled state of Italy, that since the Spanish war of succession (1701) Austria has lost and regained Lombardy no fewer than twelve times. On the 11th of July, 1859, she lost it for the thirteenth time.

☞ Speaking of the law for the suppression of intemperance, the Newburyport Herald well says,—"We will ask for laws to protect the fishes in the river, the sheep in the pasture, the birds in the air, and then crucify a man if he executes a law that protects children at the fireside and in the schoolhouse."

☞ Late accounts from Turks Island state that 130,000 bushels of salt had been shipped from the different ports of the colony since July 1. A considerable quantity remained on hand, with the price ranging from 6 to 8 cents.

☞ Rev. John Wood, late of Townshend, Vt., has removed to Wolfborough, where he has engaged as acting pastor of the Congregational church.

☞ Rev. S. H. Partridge has removed from Kittery Point to York, Me., where he has taken the charge of the 2d Congregational church in Scotland parish.

The Best Medicine in the World.

YES—DECIDEDLY THE BEST—IS

Dr. Langley's Root and Herb Bitters.

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom.—They act at once upon the very seat of disease.—They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the system—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all Bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purity, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs;
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.

So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

Only 25 cts. for a pint, 38 cts. for a large bottle. Sold by all dealers in medicine everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., BOSTON.

SPECIAL NOTICES.

R. R. R.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 30th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow.** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Common Sense rules the mass of the people, whatever the misnamed and misanthrope philosophers may say to the contrary. Show them a good thing: let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified the judgment of a physician, concerning the virtues of HOSTETTER'S BITTERS, as may be seen in the immense quantities of this medicine that are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for diseases of the digestive organs, such as diarrhœa, dysentery, dyspepsia, and for the various fevers that arise from derangement of those portions of the system. Hostetter's name is rapidly becoming a household word from Maine to Texas; from the shores of the Atlantic to the Pacific. Try the article and be satisfied.

Sold by druggists and dealers generally, everywhere.

Dyspepsia.

Considering the various forms in which this disease develops itself, it may well be called hydra-headed. In its train follow *Indigestion, Pain in the Stomach, Heartburn, Water Brash, Costiveness, Piles, Acidity, Oppression after Eating, Jaundice, Flatulency, Torpor of the Liver, Dizziness, Debility, Female Complaints, &c.* Some of the first men in our land have given their written certificates relative to the cures effected in their own persons by the OXYGENATED BITTERS; while testimonials from other sources, editorial opinions and voluntary expressions from persons averse to see their names in print, are perfectly overwhelming.

Read the following from a highly respectable Clergyman:

EAST TAUNTON, Mass., Feb. 9, '58.

To the Editor of the Portland Mirror.—Sir—

OXYGENATED BITTERS—For more than twenty five years I have been a sufferer from the dyspepsia. Besides trying the patience of my family physicians in the almost useless trial of their various prescriptions, I have tried a great variety of patent medicines with a similar result. Through the kindness of my physician, I received last March, half a dozen bottles of the OXYGENATED BITTERS. I began to use them without any hope of deriving help from them. Being determined to give them a fair trial, I continued their use, but without any perceptible benefit till June.

Since then I have gradually improved in health till I am entirely free from acidity of the stomach, and from the consequent flatulency, and the awful and almost distracting sick headache, which often, for days together, has wholly unfitted me for study and for all other ministerial duties, and rendered life a burden.

I feel that I owe it, as an expression of gratitude to Messrs. Fowle & Co., and also a duty to the public, to recommend their Oxygenated Bitters, as, in my estimation, a sure remedy for that most trying, most vexing, and cruel of all diseases, to which poor human flesh is heir, the dyspepsia. Having suffered so long, and tried so many different remedies with no good result, I can recommend the Oxygenated Bitters with a confidence few others can. If any of the readers of the Mirror are suffering, I beg of them to make trial of these Bitters without delay.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious cordial, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnappe so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, GENERAL DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. John Young Brown, chosen to Congress
m the fifth district in Kentucky, will not,
the opening of Congress, have attained
e constitutional age to become a member.
here have been such cases before in both
anches. John Randolph was a member
fore he was twenty-five, and when asked
Ichabod Goodwin, from New Hampshire,
age, made the memorable reply—"go
d ask my constituents." Henry Clay was
o in the Senate before he was thirty. In
cases they have been admitted. Mr.
rown will take his seat on the certificate
election, and the case will not be decided
lhe is old enough.—*Newburyport Herald.*
There is some truth here;—also at least
ne droll error. Ichabod Goodwin from
ew Hampshire never asked John Ran-
lph such a question; neither did Ichabod
artlett, of whom the writer was probably
inking. Mr. Bartlett went to Congress a
oung man, when John Randolph was old,
nd of course could not have proposed the
uery.

SAD.—On Friday evening a little child
amed Katie Barry, aged 2 1-2 years, whose
arents live near the Northern Railroad
rack in Concord, was crossing the track
ust as an engine was passing. The engi-
eer used every effort to avoid hitting her,
ut the "bunter" struck her on the side of
he head and knocked her down, and one
eg falling upon the rail, the wheel passed
ver it, cutting it completely off just above
he ankle joint. We learn that it is doubt-
ul about her surviving.—*Patriot.*

A BOY'S DEFINITION OF THE OHIO.—
A correspondent writes us as follows:—"I
eard the other day a clergyman telling of
is experience as school teacher in Cincin-
nati, some years ago. He gave to a school
f small boys as a subject for composition,
'The Ohio River,' and one little fellow
brought in the following: 'He was born at
the creation. His father is the Alleghany,
and his mother is the Monongahela. He is
bigger than both his parents. It is not
known when he will die.'"—*N. Y. Post.*

COLLAPSED.—There has been considera-
ble discussion with respect to the great bal-
loon in which Wise, La Mountain and their
associates made their late aerial trip, and
whose fault it was that it did not reach its
destination. This question, however, is
nothing in comparison to the more recent
one—who caused the political balloon lately
started by Wise of Virginia, to collapse be-
fore it was fairly on its course towards the
White House? The only solution we have
heard is, that in both cases, the aeronauts
threw away too much ballast.—*N. Y. Jour-
nal of Commerce.*

HOW LUCK CAME TO A FISHERMAN.—
Up near Syracuse, an individual, with
piscatorial proclivities, dropped his line into
the Erie Canal under the shadow of a big
tree. He was as patient as Isaak Walton
himself, and hours went by while he fished.
It was long towards midnight, when he espi-
ied a man approaching seated on one
horse and leading another. As the horses
and rider came opposite the fisherman, he,
hidden from sight, shouted out aimlessly,
"What ye doin' with them horses?" The
effect was astonishing. Instantly, the rider
dropped the horses, slipped from his position,
took to his heels across lots and disappeared
in the darkness—leaving the horses stand-
ing in the road. The fisherman was as-
tounded. But he went up to the horses
and led them to a neighboring stable, to be
disposed of as circumstances would dictate.
He had only to keep them till the next
morning, however, for a man then made
his appearance to inquire after a span which
had been stolen the night before! The an-
imals were delivered up, and we believe the
fisherman got a substantial reward.—*Utica

ATLANTIC TELEGRAPH CABLE.—*New York, Aug* 11.—The Atlantic Telegraph Company has decieded to make the conductor of the new Cable of six copper wires twisted and about six times the size of that of the old cable. There will be no outside covering of iron wire, as on the cable last year, except for a few hundred miles at each end. The new cable is to be made, laid down, and guaranteed in all respects, and is expected to be in order for business early next summer. Mr. Cyrus W Field, of this city, occupies two columns of some of the New York papers with the full statement of the affairs of the company, and it is understood the American public will have an opportunity to subscribe to the new stock, guaranteed by the British government.

THE SLAVE VESSELS AT SALEM.—The Salem Register makes merry over the report that two vessels are fitting out there for the slave trade, and closes a humorous article on the subject by saying:—

"But, seriously, somebody has been 'sold.' There are some half dozen of the regular African traders lying at the wharves, although not one, we believe, is fitting away at present; but there is no slaver in port, or any sugar box or clipper justly liable to suspicion.

"When a vessel does fit away at Salem for the slave trade, we will venture to predict that it will not escape the lynx-eyed observation of the *habitues* of the wharves, who never suffer a craft to arrive, having two more barnacles on her bottom than she ought to have, without duly reporting the fact and discussing the same fully in committee of the whole."

FROM CALIFORNIA.—*New York, Aug.* 11.—Steamer North Star, from Aspinwall 3d inst., has arrived. She brings California dates of the 20th ult., and nearly 500 passengers.

There is nothing important from California.

The excitement on the Isthmus about the Indian mounds is dying out.

The sloop-of-war St. Marys sailed from Panama on the 28th for Realeio.

The California markets were dull, with little prospect of immediate improvement. East India and China products were declining, in consequence of heavy stocks.

Steamer Star-of-the-West, with California dates of the 20th ult., arrived this evening, and brings 500 passengers, $1,860,000 in specie, and the California mails.

CINCINNATI, Aug. 11.—The Ohio Anti-Slavery Convention discussed and amended the resolutions submitted yesterday, and then adopted them. A Standing Committee for the State at large was appointed.—The Convention then, after passing three additional resolutions, adjourned *sine die.*—The next meeting is to be determined by the Standing Committee.

FAILURE.—The failure of Rev. A. B. Wheeler of this town, for $35,000, was reported a few days since. Mr. W. has been extensively engaged in business of various kinds, and the confidence reposed in his shrewdness and management has given him the command of a large capital, much of it probably drawn from persons of small means, who will be affected more or less seriously by this downfall.—*North Bridgewater Gazette.*

☞ Burleigh at Saratoga, writing as usual the fashionable and religious gossip for the Boston Journal. He gives the following important item:

While the crowd is great, and the reign of fashion is supreme, the styles of the ladies' dresses are markedly modest and elegant. Both the morning and the full dresses are high in the neck, and few low neck dresses are seen, and those mostly from the rural districts, where fat and red shoulders are highly cultivated.

☞ The New York correspondent of the Charleston Mercury says:

"Shortly after Sickles was acquitted, several wealthy political friends of his in this city started a subscription for a fund to pay his travelling expenses in Europe until the commencement of the next Congressional session, by which time it was hoped that the unpleasant notoriety attached to the man would have greatly subsided, and that the adventures of travel would have repaired his shattered health and spirits. The fund was to have been $12,000, and $8,000 were subscribed, and the subscription was still going on, I understand, when the news of Sickles' reconciliation with his wife alienated his friends, and put an end to the movement. One Democratic politician had set down his name for $1,000."

☞ The following is a New York Sunday paper's poetical opinion of the present condition of Italy:—

THE ASPECT OF ITALY.

Poor Italy now, like a sinner just dying,
Repentant *too late*, sinks to misery's level!
At the feet of regardless *Emmanuel* lying,
On one side the Pope, on the other the—Emperor of France, Napoleon III.

REPUBLICAN VICTORY IN OREGON.—The overland mail, which reached St. Louis on Sunday, brought the very unexpected intelligence that the Republicans had elected their member of Congress in Oregon.

☞ Commander Wm. Smith has been ordered to the command of the receiving ship at Boston, vice Livingston, detached.

The name of the U. S. steamer Mitadore, now on the Brazil station, has been changed to the Pulaski.

☞ The London Builders' League are on a strike to enforce the system of *nine* hours for a day's labor, and it is said that the combination is so perfect that they are likely to succeed in their demand—for a time at least.

☞ A correspondent sends us an account of Commencement at Waterville College, Me. The music was by Gilmore's Band, and the Poem by Wm. Stark of Manchester.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

UDOLPHO WOLFE,
SOLE MANUFACTURER AND IMPORTER,
DEPOT 22 BEAVER STREET, NEW YORK.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balalum maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very feebingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so.

JOSE LUIS CASASECA.
HAVANA, JANUARY, 1859.

Morning Chronicle.

MISS HELEN M. DRESSER.—This young lady, who has won an enviable reputation as a writer and lecturer against Mormonism, is in Portland, Me., on a visit to her relatives. Miss Dresser's history, says the Advertiser, is a romance stranger than fiction. It seems that six years ago, when she was a mere child of ten years, she left Saccarappa for Utah in company with her parents, who, after a residence of three years in the dominions of Brigham Young, escaped by flight to Missouri. This young girl travelled 600 miles on foot over the prairies of the Great American Desert, and arrived safely at Weston, Mo. She had not been to school since leaving this State, but obtained there a place in a female college, where she worked for her board for a few months.

Last fall she found employment in the family of a gentleman as nursery girl.—While with them she wrote a lecture, and being slightly encouraged, essayed an attempt before the public. She was accepta bly received; soon gained friends, influence and money withal, until at last she became the pet and favorite of society all over the South. She has lectured in almost every city of the Union, and has come to be acknowledged as one of the most talented writers and lecturers of this country. She writes on the evils of Mormonism exclusively, having prepared several lectures, and we learn is now writing a book to be entitled "Three Years among the Mormons."

She exhibits an unusual precocity of talent, and from what we hear, is an exceedingly effective lecturer. She will spend a few days in this vicinity, after which she will return to her parents in Missouri.

☞ The Norwich (Conn.) Bulletin of Wednesday, gives a detailed account of the burning of a store and nine barns, and an attempted murder by a man named Henry Chapman, who finally set fire to the barn of his father-in-law, Mr. Wheeler, attempted to burn his house, and to kill him and some of his family. In this last act, a son of Mr. Wheeler fired on him, hitting him with a ball or two, in the thigh. This happened at 2 or 3 o'clock Tuesday morning, when Chapman, wounded, fled for the woods.

Search was made for the incendiary, with much vigilance, which resulted in the discovery of his dead body in the woods not far from the scene of his crime. He was found Wednesday morning, and had apparently been dead many hours.

DESCRIPTION OF VERMONT.—A Correspondent writes: "In looking over some books in my uncle's library, a few days since, I found a Geography, published in London in 1808, from which I copied the following account of Vermont. One would be puzzled, I think, if he were to try to find that State from this description:

'The State of Vermont, is a vast country, situated east of New Hampshire, south of Massachusetts, and west of New York.—It is one hundred and fifty-five miles in length, and sixty in breadth. The capital of the State is Bennington.

'The Aliens are the chiefs or head men, of the country. It is governed by its own laws, independent of Congress and the States. Hitherto it has been an objecct of contention between the States of New York and New Hampshire. The people had for a long time no other name than Green Mountain Boys, which they Gallicized into Verdmont, and afterward corrupted into the easier pronunciation of Vermont.'"—*Green Mountain Freeman.*

"Everything is black republican here.—The dogs in the street seem to pay more attention to a black of their fraternity than one of a lighter color. Massa Greeley's influence is truly grand. The attaches of the Tribune are idolized. Democracy is nowhere—science and the almighty nigger go hand in hand. I never before wished I was a nigger. If I was, I have no doubt that politeness as experienced in this place, would be far more preferable to me than at present.—*Springfield corr. N. Y. Herald.*

The Republican says that the correspondent may be a "nigger" and welcome—white folks wouldn't object, but how will the black ones like it.—*Post.*

☞ Jacob Little has been unanimously elected to the Brokers' Board of New York, and for the third or fourth time is admitted to the Stock Exchange. He is bold and adventurous in money matters, but there is great confidence in his honor and integrity. Sooner or later, he always pays in full, principal and interest.

☞ Jefferson Davis has prepared the outline of a bill for the abrogation of the laws declaring the slave trade to be piracy.—While Mr. Davis vehemently opposes the introduction of "savages" into Mississippi, he pretends that, as a point of honor, each State should have the power of settling this question for itself.

☞ Mr. Douglas is said to be much elated at the recent Southern elections, inasmuch as his friends write him from those States that the opposition gains are exclusively owing to the sympathy which is felt for his position, and betoken determination on the part of many of the Southern States to support his claims for the Presidency at the Charleston Convention.

☞ Jenny Lind's performance for the Nightingale fund yielded $10,000.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine; NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its marvellous effects and medical virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and *stake our reputation for the fulfilment of what we declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices of others,* stand in the way of procuring this relief that will be SURE — yes, absolutely SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE NERVOUS OR THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most *instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previous to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage,* treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY PERKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I know that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head which lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken, before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose operates as a gentle PURGATIVE.

Only one dose is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that they alone have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House,* and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

S. B. FITTS, Proprietor,

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inronds of certain dangerous maladies, who still suffer from the false shame to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of a healthy and happy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well by the aged and dyspeptic. Price 75 cents.
[From Mrs. Daniel H. Williams.]
DR. SWETT—Dear Sir:—I presume you recollect that when I saw you, about a year since, I was very low, and had been for a long time, with dyspeptic complaints, being very weak, with no appetite, and pain in my head, stomach and side; but now my health is comparatively good, and I consider this great deliverance attributable, mainly, to the two bottles of your "Compound Cordial of Dandelion," which you left for me. I consider this the best medicine I ever found for the complaints for which you recommend it on the labels.
MARY E. WILLIAMS.
Concord, N. H., May 28, 1858.
ENFIELD, Sept. 8, 1859.
Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.
This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

Seven Octave Piano --- New Scale.
The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. H. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale,** which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.
Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.
Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE.*

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

MONDAY, AUGUST 15, 1859.

SUDDEN DEATHS.—In his "Journal of Health" Dr. Hall states that very few of the sudden deaths which are said to arise from disease of the heart, do really arise from that cause. To ascertain the real origin of sudden deaths, the Dr. says, an experiment has been tried in Europe and reported to a scientific congress held at Strasburgh. Sixty-six cases of sudden death were made the subjects of a thorough post mortem examination. It these cases only two were found who died of disease of the heart. Nine out of the sixty-six died from apoplexy, while there were forty-six cases of congestion of the lungs; that is, the lungs were so full of blood they could not work, there not being room enough for a sufficient quantity of air to enter to support life. The Doctor goes on to enumerate the causes that may produce congestion of the lungs. They are:—cold feet; tight shoes; tight clothing; costiveness; sitting still until chilled through after being warmed by labor or a rapid walk; going too suddenly from a close, heated room to the open air, especially after speaking; and sudden depressing news operating on the blood. These causes of sudden death being known, an avoidance of them may serve to lengthen out valuable lives, which would otherwise be lost under the verdict of a heart complaint. That disease is said to be incurable, and hence men may not take the pains they would to avoid sudden death, if they knew it lay in their power.

THE LARGEST HARVEST ON RECORD. The Philadelphia Ledger, a paper well informed, and certainly not given to exaggerated forms of speech, designates the wheat harvest of this year as "the largest wheat harvest probably that ever was produced on this earth." The season has been unusually early; the insects and the rust have not been able to extort from the farmers their usual groans and growlings; and with the exception of a single night of frost, injuring the crops in a few counties of Western Virginia, Pennsylvania, New York and Ohio, the ground sown in wheat has yielded most abundantly. There has been a greater breadth of wheat laid out than ever before, from New York to Arkansas and Alabama; and from California through to the Atlantic, more land, by far, it is said, has been thus cultivated than at any former time.—Whilst the extent and success of the wheat crop in the United States are unprecedented, the same is true in Canada, and in all the old countries of Europe the promise of the harvest at last accounts was extraordinarily good.

EXPERIMENTS ON CURING THE BITE OF THE RATTLESNAKE.—The snakes brought by Prof. Christy, from the South, says the Cincinnati Gazette, have been used at the Ohio Medical College, in a series of experiments to ascertain an antidote for the poison. A few days since a dog was introduced to the snake's cage, and was immediately bitten. Prof. Foote administered to him brandy containing five drachms of bromine, four grains of iodine of potassium, and two grains of corrosive sublimate. He recovered in a short time. To test the question whether his recovery was due to the brandy or to the ingredients it contained in solution, another dog was suffered to be bitten on the 8th ult., and the bromine, iodine of potassium and corrosive sublimate administered alone. An hour after he seemed to be recovering slowly. The next experiment will be to admister the brandy alone, which is claimed to be an effectual remedy.

☞ The Washington correspondent of the New York Herald says that Governor Wise will repay some of the New York politicians for the disclosure of his letter. He is going to publish another letter some twenty or thirty columns long about this business, in which he will give a history of the Albany Regency for the last thirty years that he has known them, from Jackson's days to the present. He will expose all their schemes, treacheries and backslidings, and show the South what kind of men they are who are attempting to control the State of New York and to adjust its delegation to the Charleston Convention to suit their own aims.

☞ "Malakoff" writes to the New York Times from Genoa that the most excitable rumors prevail in regard to public affairs there as elsewhere, and says there can be no doubt that Victor Emmanuel is far from being satisfied with the results of the war.—With the aid of the Lombards, now his subjects, and an organized revolution in the States of the new Confederation, he hopes to be able to finish the work commenced by Napoleon.

☞ From British Columbia we learn that the Americans at Victoria celebrated the Fourth, but the firing of Chinese crackers was suppressed at an early hour. The government had resolved to prevent the landing of abandoned Chinese women.

THE HAY CROP.—An intelligent farmer of Chester sends a note to the Manchester American, in which he estimates the amount and value of the hay crop in New Hampshire. He says: "With the exception of Vermont, our State is unsurpassed by no other in the value of its grass crop. In 1850, the number of tons gathered was 498,854, which at $8 per ton, amounts to $4,790,832. This year the crop cannot be less than 700,000 tons. This at $8 per ton, amounts to $5,600,000, and is not an exaggerated estimate."

☞ A liberal appropriation for out-door concerts by the Portland Band is made by the city government, and from two to four thousand people always listen to the performance. To those who possess the wherewithal to gratify their musical tastes, at concerts and operas, these out-door affairs are comparatively of but little importance; but to a large class of poor mechanics with their families, they are a source of great gratification.

☞ Mr. Ten Broeck's American horse Stark, won the race for the Goodwood stakes against a field of seventeen competitors.—The Goodwood Cup was won with the greatest ease by Promised Land; the American mare Prioress coming in third. The London Times, in describing the race, says:

Mr. Ten Broeck brought from America a stud of half a dozen horses. Prioress, in her second year in England, after running in such a manner as to make all people believe that she would not be able to win a saddle and bridle at Barnet Fair, carried off our chief handicap, and nearly repeated her achievement a second year in succession. Now we have to record the victory of another American importation, Starke, who until to-day, had never shown racing ability worthy of consideration, but who comes and upsets the calculations of our shrewdest turf tacticians by winning a race which the owners of English horses have for months been planning and scheming to obtain.

☞ Col. Titus, late of Kansas, and formerly of Alabama, who has gone into the silver-mining business in Arizona, has recently been on a visit to St. Louis. His testimony as to the meagreness of the population of that region confirms the accounts before received from authentic sources:

Col. Titus is of opinion that any movement for the organization of Arizona, territorially, is premature. Neither the number of the people there nor any want of the country calls for it. Its attachment as a judicial district to New Mexico, and proper divisions for courts, ministers of the law and other officers, are all that are needed there now.

☞ The California papers intimate that the yield of gold continues to be as great as ever, and new discoveries of gold placers are of daily occurrence. By way of variety they have just "scared up" a tin mine.

☞ Colonel Fremont's family and household, says the Mariposa Gazette, are encamped upon the top of Mount Bullion, about 4500 feet above tide-water. This position is lofty enough for anybody's aspirations.

☞ The Turin correspondent of the London Post states that sixty Hungarians who escaped from the Austrian army, were retaken, placed before a battery, fired upon with grape, and all killed but two.

☞ The Shoe and Leather Reporter says the total shipments of boots and shoes from Boston, by rail and sea, for the week, is 26,212 cases. There have been two public sales, at which 996 cases were sold for the aggregate sum of $22,012.

☞ On Friday morning, Messrs. Peck, Carpenter and Fairchild, of Oberlin, who were at Columbus, Ohio, attending the Anti-Slavery Convention, were served with the notice of a suit instigated against them by the U. S. Deputy Marshal, for false imprisonment, the damages being laid at $20,000.

☞ In the Supreme Court, New York, on Wednesday, Wm. B. Coan obtained a divorce from his wife, Ada L. Coan, on the ground of adultery, no answer or refutation being put in by the woman, who is well known as a trance-speaking and ballot-test medium of eminence in the spiritual world.

☞ The city government of Salem has appointed a committee, with instructions to consider and report upon the expediency of placing drinking fountains of pure water in the streets and other public places of that city.

☞ Mr. George Loring, the absconding Grand Master of the Odd Fellows in England, has appeared in Clifton, C. W. It will be recollected that before leaving England he stole $20,000 of the funds belonging to the order.

A spiritual paper mentions that two angels were recently daguerreotyped. That's nothing. Thousands of angels have their pictures taken every week in this country. The best of these pictures are those made on plates known as men's eyes.

☞ Brown, Taggard & Chase have published "Mrs. Partington's Knitting Work," and it is called for faster than the old lady took up the stitches.

NEW ORLEANS, Aug. 12.—Returns from 68 counties in Texas place Gen. Houston 4400 ahead of his competitors. Messrs. Hamilton and Heagan are ahead for members of Congress.

RAILROAD WESTWARD.—Engineers have started on a survey of the Kansas Central Railroad. This road extends from Wyandotte, at the junction of the Kansas with the Missouri river, to Fort Riley. The entire distance is one hundred and fifty miles.—This is the first railroad survey west of the Missouri river, and constitutes another link in the great railroad chain that shall ultimately link the States on the Pacific to their elder sisters on the Atlantic.

☞ A dispatch to the St. Louis Republican contains dates from Denver City to the 3d inst. A convention of 160 delegates was in session for the purpose of taking the steps necessary to forming all the country adjacent to the mines into a territory, to be called Jefferson. The intention is to apply to the next session of Congress for recognition as a territorial government.

☞ Difficulties attend the "hog raid" in New York. A policeman attempted the capture of a porker in which a large German lady claimed an interest. With a tin pot she so severely attacked the officer, and was so ably seconded by her husband's use of a three legged stool, that poor policeman was glad to run away and save his own bacon, leaving her's unmolested.

☞ A letter from Newport represents there as very much afflicted by the fogs.—On the night of the Ocean hop, some of the most splendid doings up of the most astonishing lace, muslin and other ravishing fabrics, had the starch literally taken out of them—a misfortune compared to which the ordinary ills of female life are slight indeed.

☞ Gov. Wise's letter to Mr. Donnelly, is the un-Wisest letter that a Wise man ever wrote. Yet (says the Boston Post,) we do not think it will *lessen* the Governor's chances for the Presidency. The N. Y. Times says the Governor "is a sword without a hilt. Trenchant, terrible, and true as a Toledo blade, he is yet as fatal to his friends as to his foes. There is no handling such a man with safety."

The Plymouth Rock, says of Gov. Banks's recent oration at Plymouth:

"The Governor's oration would have done credit to the most distinguished man of this or any other age, and when we consider that its preparation was not commenced until a few hours prior to its delivery, Gov. Banks not expecting to be present, it reflects the highest honor upon the research of its gifted and self made author."

CLERICAL.—The First Congregational Church and Parish in Saco, have invited Rev Charles B. Rice, of Conway, Mass., to become their pastor.

The Universalist Society at Biddeford, have invited Rev. Mr. Davenport, of Yarmouthport, Mass., to settle with them, and we understand he has accepted.

☞ It is proposed by the influential American papers of New York to hold their State Convention at Syracuse, on the seventh of September, the same day and place as the Republican Convention, and the Tribune hopes that the suggestion will be adopted, with the view to a more thorough union.

☞ Hon. F. Lygon, M. P. for Tewkesbury, says a London correspondent, is just now creating extraordinary excitement in the House of Commons, by the somewhat exceptional nature of his costume. He wears a white hat, crimson neckcloth, yellow waistcoat, *mauve* inexpressibles, red socks, and lemon colored kids.

☞ A recent traveller in the pontifical states reports that the good intentions of Pope Pius IX. are acknowledged by the people, but are pronounced futile. Of what avail is it, ask the Roman people, that he is generous, affectionate, upright? Would to God he were wicked and governed us well!

☞ Dr. Bissell, one of the quarantine physicians at Staten Island, says that infection is often carried from a vessel to a neighborhood by persons whose clothes were all changed, but whose hair was not duly cleaned. Washing the hair would prevent this mode of infection.

☞ In Butler county, Ohio, a few days since, a barn took fire from an over-heated threshing machine, and burned to the ground, with all its contents. The fire spread so rapidly that the horses could with difficulty be detached from the machine in time to save their lives.

Folks must put up wi' their own kin as they do wi' their own noses—it's their own flesh and blood.

The weak and ignorant are apt to mistake their superstitious terrors for moral impressions.

THE BEST LIGHT!!!

Cancemine Oil.

Every one is naturally desirous of obtaining the BEST LIGHT, at the SMALLEST COST; and this can secured by the use of Cancemine Oil,—a new article which is rapidly superseding the Kerosene Oils, for the following reasons, viz.:—IT COSTS LESS, GIVES MORE LIGHT, WILL NOT SMOKE, AND HAS NOT THE OFFENSIVE ODOR OF KEROSENE.

This Oil can be used in the ordinary Kerosene lamps; but an improved burner can be fitted to any lamp at a small expense.

This is by far the best light yet offered to the public. The subscriber has this Oil for sale in any quantity, also a supply of Lamps, &c.—A lamp may be seen in operation at store

The Best Medicine in the World.

YES—DECIDEDLY THE BEST—18

Dr. Langley's Root and Herb Bitters.

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom.—They act at once upon the very seat of disease.—They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all Bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs;
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the bestin Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.

So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

Only 25 cts. for a pint, 38 cts. for a large bottle. Sold by all dealers in medicine everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., BOSTON.

SPECIAL NOTICES.

R. R. R.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

W. R PRESTON agent for Portsmouth.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give-away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow.** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Common Sense rules the mass of the people, whatever the misnamed and misanthrope philosophers may say to the contrary. Show them a good thing; let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified the judgment of a physician, concerning the virtues of HOSTETTER'S BITTERS, as may be seen in the immense quantities of this medicine that are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for diseases of the digestive organs, such as diarrhea, dysentery, dyspepsia, and for the various fevers that arise from derangement of those portions of the system. Hostetter's name is rapidly becoming a household word, from Maine to Texas; from the shores of the Atlantic to the Pacific. Try the article and be satisfied.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

Dyspepsia.

Considering the various forms in which this disease developes itself, it may well be called hydra-headed. In its train follow *Indigestion, Pain in the Stomach, Heartburn, Water-Brash, Costiveness, Piles, Acidity, Oppression after Eating, Jaundice, Flatulency, Torpor of the Liver, Dizziness, Debility, Female Complaints; &c.* Some of the first men in our land have given their written certificates relative to the cures effected in their own persons by the OXYGENATED BITTERS; while testimonials from other sources, editorial opinions and voluntary expressions from persons averse to see their names in print, are perfectly overwhelming.

Read the following from a highly respectable Clergyman:

EAST TAUNTON, MASS., Feb. 9, '58.

To the Editor of the Portland Mirror,—SIR:—OXYGENATED BITTERS—For more than twenty-five years I have been a sufferer from the dyspepsia. Besides trying the patience of my family physicians in the almost useless trial of their various prescriptions, I have tried a great variety of patent medicines with a similar result. Through the kindness of my physician, I received in March, half a dozen bottles of the OXYGENATED BITTERS. I began to use them without any hope of deriving help from them. Being determined to give them a fair trial, I continued their use, but without any perceptible benefit till June.

Since then I have gradually improved in health till I am entirely free from acidity of the stomach, and from the consequent flatulency, and the awful and almost distracting sick headache which often, for days together, has wholly unfitted me for study and for all other ministerial duties, and rendered life a burden.

I feel that I owe it, as an expression of gratitude to Messrs. Fowle & Co., and also a duty to the public, to recommend their Oxygenated Bitters, as, in my estimation, a sure remedy for the most trying, most vexing, and cruel of all diseases, to which poor human flesh is heir, the dyspepsia. Having suffered so long, and tried so many different remedies with no good result, I can recommend the Oxygenated Bitters with confidence few others can. If any of the readers of the Mirror are suffering, I beg of them to make trial of these Bitters without delay.

TO THE CITIZENS OF NEW HAMPSHIRE

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Rye, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent medical men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicious flavor, differing entirely from any other Gin, and is void of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief for those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, liquor sellers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; E. Fecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; F. Stearns & Co., 20 Exchange st.; Gilbert, Abbott & Co., 3 Broad st.; Deland & Snow, 34 Elm st. and others. In Portland, Me., of B. H. Hay & Co., C. W. Stockwell, and C. C. Mitchell & Son.

VOTES AND TAXES.

Messrs. Editors:—I see by an item in r paper, that there is an *increase* of eable polls in this city, this year, of 120. is well known this is not a natural or oper increase; and you have no doubt ced the nature of it truly, that it came m the *new* Irish vote, made last spring, carry the election, and that did carry it this city and Senatorial district.

Look at the votes for Governor—104 es more this year than last, in this city—Goodwin 837, and for Cate 854—but e 100 new Irish votes from this last num-r, and you get 754.

But the Senator vote is a better test;—w had 807; Bennett 886. Take out 120 e Irish votes, or even 100, from Bennett, d you elect Dow.

So the *new* Irish vote probably elected epresentatives in one ward.

They answered the purpose for which ey were made voters. But now how ma-y *poll taxes* do these new rateable Irish ells pay, and how much would anybody ve for the bills against the delinquents?—re they worth ten per cent.

A TAX PAYER.

ROCKINGHAM ASSOCIATION. — The Rockingham Association of Universalists, ill hold its annual session in this city, on Wednesday and Thursday next.

The order of services will be as follows:

Wednesday—The occasional sermon will e preached at 10 1-2 o'clock A. M., by Rev. F. E. Hicks of Dover. At the conlusion of the morning services the Counil will convene in the vestry. A Sabbath School Conference will be holden at 2 1-2 o'clock P. M. Preaching in the evening at 7 1-2 o'clock,—after which, should ime permit, a conference.

Thursday—Prayer meeting at 8 o'clock, and public services at 10 o'clock A. M. At 2 o'clock P. M. a sermon will be preached, at the conclusion of which the Lord's Supper will be administered.

☞ On Sunday morning, about quarter past two o'clock, fire was discovered in a dwelling house at the head of Deer street, near the C. & P. Railroad Depot, and before the engines could get at work, the building was nearly ruined. The inmates barely had time to escape in their night clothes, and but a part of the furniture was saved. The house was occupied by two families, with a shoemaker's shop in the basement, and owned by Messrs. Lombard and Smith. Insured for $700 in the Home Insurance Co.

☞ The reader who wishes well to industry, will be pleased to see, by Mr. Drake's advertisement, that he has rebuilt his iron foundry on the old spot in Mechanic street, and is prepared for business. His works are furnished with an excellent steam engine, made by Mr. Herman Remick of this city, which need not fear comparison with any other of its size built elsewhere. And all his arrangements for work are modern and convenient.

☞ John C. Underwood, Esq., of Virginia, a gentleman who has so much identified himself with the advocacy of liberal sentiments in that State, and whose personal sacrifices for free principles are so well known, is making a short stay in this city, to solicit aid in circulating a work, which excited so much attention a year or two ago, entitled the "Impending Crisis of the South," by Hinton Rowan Helper, of North Carolina.

The work is pronounced to be one of the most instructive and salutary which the slavery question has ever drawn out. Coming from a Southern man who knows whereof he speaks, it will secure attention among the candid and thoughtful men of the South, where Northern authors would fail to secure an examination. The work is especially fitted for that numerous class in the slave States who have no positive interest in slavery, and who have erroneous views of its influence, and entertain violent prejudices against the anti-slavery men of the free States.

Mr. Underwood asks for aid in the enterprise of distributing this work at the North and South. We commend him to the liberality of our citizens, as an earnest and efficient worker for the advancement of civilization.

RAILROAD ACCIDENT.—The half-past 2 o'clock train from Boston, on the Eastern Railroad, met with an accident on Friday afternoon, by which they were detained some two hours. When half way between Lynn and Salem, some cows were observed upon the track, and before the train could be stopped, two of them were run over, which threw the engine some ten feet down an embankment, and the tender and baggage car were thrown off the track, but fortunately no one was injured.

WASHINGTON, Aug. 13.—Gen. Cushing, who is now here, has been tendered the mission to Central America, but his engagements are of such a nature as to render his acceptance impossible. The administration regards the position of great importance under existing circumstances.

WASHINTON, Aug. 12.—Such information has been received at the Indian Bureau as to lead to the belief that the Indians on the Reserves at Brazos Agency, by this time have been removed beyond the limits of Texas, and thus the difficulties between them and the citizens of that State are quieted.

The Creeks and Cherokees, between whom a general war was anticipated, are again at peace.

A few days ago a man calling himself William Evens, put up at one of the hotels here, after having advertised money to lend in small or large sums, and required a certain per cent. to be paid to issue the accommodation. His room was soon beseiged by numerous needy customers, including some of our prominent citizens. The firm was represented as Evans Bros. & Co., of New York, but information from that city to-day shows that it has neither locality or existence. The Washington applicants are about $50,000 minus for their dear bought experience.

ACCIDENT ON THE PASSUMPSIC RAILROAD.—On Tuesday evening last, as an excursion train which came down from Boston, Vermont, with about 300 passengers, to attend a circus at Wells River, was returning home, the train was thrown from the track by running upon a stone, about a mile and a half above St. Johnsbury.

The engine was capsized, and most of the cars thrown off. Many of the passengers were slightly injured, and the fireman, Mr. Charles Pike, was so badly wounded that it was necessary to amputate one of his legs.

The stone was about the size of a half barrel, and on examination of the ground was found to have been rolled up some distance, by two men, from a ditch.

About three weeks since there was a picnic Sunday scoool excursion on the road, and two men, who made much disturbance, were put off the train. These men made some threats at the time, which, with other circumstances, have led to their arrest on a charge of being the perpetrators of this crime.—*Traveller.*

FIRES IN LAWRENCE, MASS. — A fire broke out at about 2 o'clock Friday afternoon, in the United States Hotel building, consuming the Hotel, Central Congregational Church, the new Court House, and one or two small wooden buildings.

At the same time a fire broke out in the Unitarian Church, some distance from the Hotel, which was partially burned. Supposed incendiary.

The loss by these fires is estimated at $150,000.

During the fire, three men were killed by the falling of the walls of the hotel.—Their names were Stanley, a printer, Henry, an auctioneer, and Leighton, wool sorter of the Washington Mills.

SOUTH DANVERS, Aug. 9.—Several cases of varioloid have occurred in a few families in the locality of the foreign population of South Danvers. Chicken-pox has been prevalent during and since the winter.

Some cases of varioloid occurred about four or six weeks since, which were pronounced at the time to be chicken or kine pox, but were most probably varioloid, as some neighboring houses now contain several children with evident varioloid, and two young children who have never been vaccinated are displaying pure small pox.

☞ The latest European news is from Liverpool Aug. 4, by a steamer off Cape Race.

The news from the Continent is of a pacific character.

The French government is preparing for the disarmament of their naval force.

The American Minister at Rome has obtained from the Papal government 3400 Scudi, as compensation for the outrage and robbery of Mr. Perkins, of Boston, by the Swiss troops at the Perugia massacre.

The scudi is equal to $1.08 of U. S. currency, and the sum received by Mr. Perkins is therefore $3672.

Nothing new in regard to the forthcoming Peace Conference has transpired since the departure of the Arabia.

The French Army of Observation of the river Rhine has been dissolved, in accordance with the previously declared intention of the Imperial government.

A new Indian loan of five million pounds sterling is announced as soon to be placed on the market.

FROM EUROPE. — Steamship North American, from Liverpool 3d, passed Farther Point Saturday morning.

Numerous disasters to American shipping are reported. The ship Glance, from New York for Bremen, took fire on the 28th of July—was run ashore near Bremerhaven, and burnt to the water's edge.

Ship Abby Blanchard, (of Yarmouth) Waite, for New Orleans, took fire at Bordeaux July 27th. Damage not stated.

Ship Vancouver, (of Boston) Wood, from New York, was totally wrecked on the South Bank, near Shanghae. The crew were saved, and landed at Shanghae.

Bark Saxonville, Gardner, of and from Boston for Hong Kong, put into Mauritius June 26, leaky, and part cargo thrown overboard.

The "Robert," supposed to be the R. M. Sloman, from Gotteburg for Boston, sprung a leak near Skagen, and run ashore near Jutland, July 25. About fifty persons were landed from her at Hyerling.

Bark Alexander Wise, from Marseilles, bound to New York, was stranded off Point Carners, near Gibralter.

The hull and material of ship Josephine, before reported burnt at Mauritius, had been sold.

☞ In Saratoga, in the article of eggs, three thousand six hundred are used every day.

CAMP-MEETING.

The Adventists will hold a CAMP MEETING of one week, in East Kingston, N. H., to commence Aug. 22d. Tickets may be obtained at Concord Depot, Newmarket Junction, and from the Junction to East Kingston for half price.—All interested are invited to attend. For further information inquire of WM. SHAPLEY, Pleasant St. J. V. HIMES, Superintendent.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bettle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is floooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casabeca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

MAKING AN ACKNOWLEDGEMENT.—Not many years ago, a young man at a seminary in one of the New England States, was found guilty of disobeying the rules of the school, as he had actually walked with a young lady, contrary to orders previously given, and perfectly well understood.

Mr. Edwards, as we will call him, was accordingly *called* upon to make acknowledgement before the school, or be expelled. Whereupon the said Mr. Edwards arose and said:

"I *prefer* by all means to make acknowledgement, to being expelled from the school; and acknowledge that I walked with the lady mentioned, and with my umbrella protected her from the storm! I also acknowledge that had I not done so, she might have taken cold, and a serious illness, or perhaps consumption might have been the result, in which case I should have blamed myself, and my teachers knowing the circumstances, might also have blamed me."

The student resumed his seat with about as strong evidence of contrition in his countenance as was on his confession, and when the proper opportunity occurred, he enquired of the teachers how near a lady and gentleman could walk, and not break the rules of the school.

"Well," said the teacher, "walking a distance of six feet from a lady, would not be considered an infringement of our regulations."

Soon after, Mr. Edwards was seen walking leisurely on the common with a lady, having hold of one end of a light pole, measuring six feet in length, while the lady had hold of the other end.

As they carried about the stick—which in fact was no impediment to their enjoyment—they chatted and talked and laughed to their hearts' content; but Mr. Edwards was never called upon to make but one acknowledgement.—*Olive Branch.*

THE GUINEA FOWL.—The Guinea hen, or Pentado, is nearly an everlasting layer. They are said to unite the properties of the turkey and pheasant. They are a native of Africa, though said by some to belong equally to this country, and are easily domesticated. Its flesh is more like that of the pheasant than the common fowl, both in color and taste, and is reckoned a very good substitute for that bird. It assimilates perfectly with the common fowl in its artificial habits and kinds of food. Its gait is peculiar as are its cries. They are fond of marsh places—always perch during the night in high situations or on trees. It is a little singular that American farmers do not turn their attention to these fowls. A knowing Jerseyman, named David Bonner, from England, hired a patch of five acres, four years ago, and commenced raising eggs for the New York market. Bonner has never hired any help, and at this moment owns a farm for which he paid $4700, of which the buildings cost over $3000. His farm is all paid for; he owes not a cent in the world, and he owns a flock which varies from 800 to 1200 Guinea hens.

MODERN ELIJAHS.—It is not well always to look on the shady side of affairs.—There are men who came into existence under a shadow, and the shadow has dogged their lives, and all that is bright and pure and beautiful, takes the sombre hue of their own fancies. Their religion consists in bemoaning the evils of the world, in lamenting the gradual decadence of good, and in regarding all home evils and foreign complications as "signs of the times." They are the Elijahs, who retire into the wilderness of their own contemplations, saying, "I, even I only am left," unconscious that all the time there are not only the "seven thousand who have not bowed the knee unto Baal," but the multitudes are everywhere obeying the gospel call. They are the Jonahs sitting under the gourds of their own security, amazed that the judgments of God do not descend upon a guilty world. These hypochondriacs are seldom found among the earnest workers, who seek to leave the world better than they found it, but among those who see its evils and sit by with folded hands.

Mr. Rarey's Exhibitions.—Entertainment for man and horse.

Hapsburg.—This celebrated House, which has lately received such a severe shaking, is about to change its name. So much has it been subject to crosses and reverses lately—so much so that its foundation is by no means so sound as it used to be—that for the future it is to be called "the House of Mishapsburg."

How to Sweat Sovereigns.—This process is done most effectually by a series of revolutions following closely one upon another. A long line of sovereigns has been known to disappear in this way very quickly. The Bourbon dynasty in France vanished entirely by means of this process, and so completely that there is not a feature of them left in the country, excepting in some old antiquarian's museum.

☞ Mr. Adam Hardway of Cohasset was sitting upon the driver's seat of a coach at the Old Colony House, in Hingham, on Tuesday, when the horses started, throwing him off, and killing him instantly.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, in confidence and truth, of it, what we have never been able to say of any other medicine, NEVER HAS IT FAILED, IN A SIN GLE INSTANCE, to EFFECT A CURE, when timely used. Nor did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, "*what we know,*" after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will follow in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England, and has been used with THOUSANDS OF CASES. It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHEA IN CHILDREN from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices or others, prejudices between your suffering child and the remedy that will* ABSOLUTELY SURE—yes, sure to relieve and cure—you to follow the use of this medicine, if timely used. Full directions each bottle. None genuine unless the *fac-simile* CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

LAW SCHOOL OF THE UNIVERSITY

AT CAMBRIDGE, MASS.

The Instructors in this School are:

Hon. JOEL PARKER, LL. D., Royall Professor.
Hon. THEOPHILUS PARSONS, LL. D., Dane Prof.
Hon. EMORY WASHBURN, LL.D., University Prof.

THE COURSE OF INSTRUCTION embraces the various branches of the Common Law, and of Equity, Admiralty, Commercial, International, and Constitutional Law; and the Jurisprudence of the United States. The Law Library consists of about 14,000 volumes, and as new works appear they are added, and every effort is made to render it complete.

Instruction is given by oral lectures and expositions, (and by recitations and examinations in connection with them,) of which there are two every week. Two Moot Courts are also holden in each week, at each of which a cause previously given out is argued by four students and an opinion delivered by the Presiding Instructor. Rooms and other facilities are also provided for the Club Courts; and an Assembly is held weekly for practice in debate, and acquiring a knowledge of parliamentary law and proceedings.

Students may enter the School in any stage of their professional studies or mercantile pursuits, and at the commencement of either term, or in the middle, or other part of the term.

They are at liberty to elect what studies they will pursue, according to their views of their own wants and attainments.

The Academical year, which commences on Thursday, six weeks after the third Wednesday in July, is divided into two terms of twenty weeks each, with a vacation of six weeks at the end of each term.

During the winter vacation, the Library is opened, warmed and lighted, for the use of the members of the School.

The exercises of the next term will commence on MONDAY, September 5th, 1859.

Applications for admission, or for catalogues, or any further information, may be made to either of the Professors at Cambridge.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY OR THE ELEMENTS OF THE BODY, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PRESERVATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION OF THE ABOVE, which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure.* My *fac simile* signature is upon every bottle.

☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. THE GREAT ENGLISH REMEDY.

Sir Jas Clarke's celebrated Female Pills

Prepared from a prescription of Sir Jas. Clarke, M. D., Physician Extraordinary to the Queen.

Unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

CAUTION.—*These Pills should not be taken by females that are pregnant, during the* FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time, they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and do not contain any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,

JOB MOSES, ROCHESTER, N. Y.

$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail. july9

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll sts., Brooklyn.

LEVIGNESTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact bald. After using one and two pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best FURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

LOTTERIES.

THE LOTTERIES OF

WOODY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of WOOD, EDDY & CO., are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directions as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inserted upon his books as perfect cures.

Patients can at any time by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a new and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimming, or taking to pieces.—Spots taken out without fading or changing color. Silks, Silk Dresses and Ribbons watered.

THE TWO FOOLS.—When quite a small boy, like most other youths, I had a great inclination to tend all shows, circuses, negro dances, concerts, etc., that came along. On one occasion I was very much amused at the wit of the clown, who was convulsing the crowd by his grotesqe appearance and witty sayings. After a while he said something the crew considered not very "funny," and at which no one laughed, when a drunken man, no longer able to hold his tongue, cried out, "You're a fool!" "True," responded the clown, "and so are you; the only difference between us is, I am a fool for money and you are a fool for nothing."

Now whenever I see large placards stuck up, announcing the arrival of a "strange animal," "unrivaled circus," "wonderful attraction," etc., I invariably think of the saying of the clown, "I am a fool for money, and you're a fool for nothing," and stay away. There is generally but one clown, but a great many of the others.

When I see advertised in the paper, "splendid lottery schemes," "sixty thousand dollar prizes," "great inducements to buy," "almost certain of a prize," etc., I think of the clown's "two fools," and how many buy and but one sells, and excuse myself from buying a ticket. "One is a fool for money," and the other is "a fool for nothing."

When I pass a splendid saloon, with decanters of sparkling wine and brandies set around in the most inviting manner, with smiling clerks ready to hand you "a glass," I am sure to think "there is a fool for money," and as the deluded wretches crowd around the counter, "these are fools for nothing."

When I hear of some "divine" woman going about singing Italian songs, and men paying from four to ten dollars a night for seats to hear, and when they cannot understand one word of it, I think of the "two fools," and keep my money in my pocket.

In short, sir, whenever any "unusual attraction," a "rare chance for speculation," offers, I suspect at once, that if I take hold of it, there will be another fool at the other end, and so I let it alone.

THAT FROZEN WELL.—For some months the discovery of a frozen well at Brandon, Vt., has elicited much discussion in scientific circles. It is a singular phenomenon. The well was dug last November. For ten feet it passed through gravel; then about four feet of clay, then came a deposit twelve to fifteen feet thick, of frozen gravel, with lumps or boulders of ice intermixed, and finally water was reached not far from thirty-five feet below the surface. The frozen part was precisely as if the same materials had been frozen hard at the surface in the winter season. The geological character of the vicinity is just such a region of sand and gravel, as may be seen all over New England, being what is called drift. On the 25th of June 1859, the stones in the well for four or five feet above the surface of the water were loaded with ice, and the temperature of the water was only one degree above freezing. July 15th there was ice still in the well, when it was visited by Professor Hitchcock, of Amherst College. There have been one or two similar wells discovered in this country, but the phenomenon is not half so marked as at Brandon.

The enquiry arrises, when, and by what agency was the congelation produced so deep beneath the surface? By what means is the frost reserved from external and internal heat? In reply there are two suggestions to be made; 1st, These frozen deposits, may have been produced during the glacial period that accompanied the formation of the drift at a vast distance of time past. 2d, In porous depositions, especially when interstratified with those nearly impervious to air, ice may be formed in large quantities at any depth and remain unmelted for a great length of time. Upon the whole, though it is posible that the Brandon deposit is a remnant of a glacial period, scientific men look with more favor upon the supposition that it is the result of operations now going on, produced by currents of air through the porous deposit.

SHARK AT CHELSEA BEACH.—At Chelsea beach, yesterday afternoon the surf was vigorous and graceful, the temperature delightful, and the sea breeze splendid. In view no doubt, that so uncommonly attractive afternoon would draw bathers in unusual numbers to the spot, a large sized shark paid the beach a visit. While the maneater was watching his opportunity within the bar, the receding tide deprived him of water enough to recross it; while observers attracted by his dashing and splashing as the water became more shallow, sallied out and dispatched him. He was about twelve feet long, and his frightful jaws looked as though he could have taken in a good sized boy at a mouthful, or chopped up a man very quick. We are told by old residents that it is very rare that sharks are seen on Chelsea Beach.—*Boston Post.*

THE FASHION.—It has become the practice of ladies this season to wear dresses with short sleeves and shockingly low in the neck, so that above the waist there is but very little covering. They thus disturb nursing infants that frequently need food, and also invite the attentions of lascivious men. Where there is a sign of a hotel before a building, it is not deemed necessary to knock or ring for admission.—*Newburyport Herald.*

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, AUGUST 16, 1859.

☞ The Newburyport Herald says "the democrats have opened the elections this year with a general discussion of the slave question. Formerly they denounced everybody that spoke on slavery as agitators; but who are the agitators now? This discussion of the domestic institution, which also includes the domestic slave trade, has been carried into the very heart and centre of the slavery country. In the free states it has divided the democratic party; and just as much has it in the southern states.—If they should happen to split the Union thereby it would be a terrible thing; and they have told us for these twenty years that this question could not be discussed without leading to such a result.

☞ Kansas asks of the general government lands to the amount of some 7,000,000 acres, and other favors. Really, it costs so much to set up a State in these times that it would be about as well to "shut down the gate" on all applicants for admission into the Union, and *govern* our territory. Marriages are said to have decreased with the increased cost of living, and unions of another kind might be served in the same way for the same reason. We should, too, in that way, get rid of much of the "agitation" of the slavery question that is now so common. If no States were admitted, we could not discuss the character of State institutions.

☞ The Massachusetts Reform School building at Westborough has been two-thirds burnt. On Saturday morning, at 5 o'clock, a fire was discovered in the store house of the building, and in a few hours the west wing and a large part of the east wing were in ruins. There were four watchmen employed on the premises, but this is supposed to be the work of an incendiary, and one of the boys suspected of the crime has been arrested. There were 600 boys at the time in the institution, but they were all got out in safety, and to prevent any trouble a dozen policemen were sent up from Boston. This edifice was completed and opened in 1849, since which time about 2500 boys have been received into the institution.—The value of the property destroyed is variously estimated at from $75,000 upwards.—One of the buildings destroyed measured two hundred and twenty-five feet on the front and rear, and two hundred feet on the easterly end, and was calculated to accommodate two hundred and fifty boys, with the officers and assistants, containg also the chapel, school rooms, hospital, &c. The library of the institution, containing about 1400 volumes, is said to be destroyed.

FAILURE AT THE WEST.—The Commercial Bulletin has a letter from Chicago, in which the failure of James Peck & Sons is announced: one of the largest houses in Chicago, and one of the most extensive ship owners on the Lakes; the failure is attributable to the present low prices of grain and their consequent loss on old stock.—The same writer says that this failure is but the commencement upon what must inevitably folllow. The wheat speculations have been disastrous. The Banks of Western New York are largely involved in these transactions, as the Chicago operators have obtained loans freely.

☞ It may not be generally known that the brine in which pork and other meats have been pickled, is a deadly poison to horses and hogs. Mr. Reynal, the celebrated veterinary surgeon of France, first called up attention to the fact; and the editor of the Kentucky Turf Register says he was witness to the practical demonstration of it. He saw a horse and seven out of a drove of nine hogs, die in less than six hours from the time they had access to a barrel of such brine.

ATTEMPTED ESCAPE.—Wm. McNulty, confined for life in the State Prison, Charlestown, for murdering police officer Hodsdon of East Boston, attempted to escape from that institution a few nights since. In the morning he was found in the corridor of that part of the Prison where his cell is situated, having escaped from his cell, but he had not succeeded in getting further. It is supposed that he had placed a piece of wood or some other article, in the door when the cells were closed at night, so that the door could not be locked.

☞ The rain seems to fall only on "the unjust," now-a-days—for while at the South they are deloged, up this way we are suffering from drought.

Even where praise is deserved, ill-nature and self-conceit,—passions that poll a majority of mankind,—will, with less reluctance, part with their money than their approbation.—*Ezch.*

☞ A correspondent of the Lewiston Journal wishes all the readers of that paper to unite in a prayer to God for rain to water the earth.

Knowledge without justice becomes craft; courage without reason becomes rashness.

☞ Early on Sunday morning, about 2 o'clock, a respectable young woman in Boston, who had been ill and partially insane, got up for a walk, mistaking the hour for 4 o'clock, her usual hour. She was rudely accosted, near the Fitchburg Depot, by two men, from whom she fled in terror.

She had proceeded but a short distance, when she met James G. Hamilton. He stopped her and inquired the cause of her agitation. She informed him of the circumstance, and he promised to afford her protection and accompany her home. She expressed her gratification, and alluded to the fact that she was thirsty. He informed her that he kept a saloon near by, and if she would accompany him he would furnish her with a glass of water.

She consented to accompany him, and on reaching the saloon was reluctantly induced to enter, whereupon Hamilton locked the door, and in spite of her efforts and screams inflicted the grossest injuries and insults, and then put her into the street.

Officers soon broke open the door of the rum and gambling den (for so it was) and arrested Hamilton, the keeper, and two other men, Buttricka and Jemmison, who were there in an adjoining sleeping room, pretending to know nothing of the matter—but who were probably the two men who first accosted the young woman.

Mr. Hume, the medium, put his "foot into it" lately at Paris, says the Medical Times. At one of his *seances*, one of the audience made a grab at the moment of a spiritual manifestation upon his leg, and caught in his hand the foot of Mr. Hume.

For those who, after all that has been said and done, still believe that the spiritual manifestations, so called, are all the result of trickery, as in the story above, the prayer "God help thy capacity" would seem to be appropriate.

☞ The following is a list of revolutionary soldiers supposed to be living, and pensioners on the roll of the State of Connecticut, with their age in 1859:—David Bostwick, Litchfield county, 90 years; John Brooks, Fairfield county, 96 years; Benjamin Cobb, Middlesex county, 98 years;—Jacob Hurd, Middlesex county, 97 years; Neh. W. Lyon, Fairfield county, 100 years; William Williams, Litchfield county, 97 years.

About thirty or forty marriages have been concluded at St. Catharines, Canada, between white women and colored men.

Revolting enough, certainly, if true—but why any more so than the amalgamation without marriage, so universal between white men and black women in the slave States.

THE ULTIMATUM OF INTEMPERANCE. No man and no woman is safe who has once formed the fatal habit of looking to drink for solace, or cheerfulness, or comfort. While the world goes well they will likely be temperate; but the habit is built; the railroad to destruction is cut ready for use, the rails are laid down, the stationhouses erected, and the train is on the line waiting only for the locomotive; it comes to us, it grapples us, and away we go in a moment, down the line we have been years constructing, like a flash of lightning, to the deuce.—*Charles Reade.*

☞ A physician in South Reading was recently called to a lady who was seriously ill, upon her return from an excursion party, and in reply to his query "what she had eaten?" enumerated no less than fourteen different articles of food of which she had partaken. No wonder she was sick.

☞ The N. Y. Post says that upon certain conditions, which have been duly considered by his personal friends, Mr. Sickles will voluntarily surrender his claims to represent the third Congressional District.—The plan is to hold a special election, the parties agreeing to nominate an anti-Lecompton Democrat.

SEVEN THOUSAND SLAVES CELEBRATING.—The twenty-fifth anniversary of the emancipation of slaves in the British West Indies, was celebrated Aug. 1st, at Sandwich, Canada, with great spirit by the colored citizens, mostly American slaves, who had freed themselves.

☞ The late Col. Thorne died "worth" two millions, a very pretty sum, as Erskine said of another gentleman whose circumstances were like those of the Colonel, "to begin the next world with." The Colonel's life was passed mostly among the roses.

☞ Mr. John Smith of Andover, Mass., has conveyed property valued at $16,000 to the Free Church of that town. The land and building used by the society as a place of worship, was included in the gift.

☞ The Cambridge Chronicle says that a slave from Virginia was taken in hand, a few days since, by a "race of Samaritans" in that city, and after being furnished with the necessary means, was sent to Canada—"the land of the free."

☞ A Baptist church in Indianapolis is about to extend a call to the Rev. Anthony Burns, the hero of the celebrated slave case in Boston.

The London Post says that Garibaldi has sent a circular to all the free states of Italy, in which he declares his army to be ready at any moment to continue the Italian war of independence.

The Prague Gazette says that a terrible fire broke out in the town of Rdosterle, containing about 165 houses and 1000 inhabitants, few of whom saved any of their goods or houses. The entire town was destroyed in 1782.

FRANCE.—The Times' correspondent says that the Count de Persigny has left Paris on his return to London. The Minister of War has issued an order to all colonels of regiments to send home all soldiers whose absence had been recalled after the declaration of war with Austria, and likewise all those who are entitled by their services to leave of absence for six months, so that they may be at the disposal of the farmers who may require them for getting in the harvest.

There is no change to be noticed in the commercial situation of France. The accounts from the agricultural districts are not unfavorable. The wheat crop has not sustained much injury. The barley crop is not expected to be productive, but the stock on hand is immense. The crop of oats will probably be more productive than was expected ten days since. The harvest altogether will exceed that of a given ordinary year, and there will be an overplus for exportation.

THE PAPAL STATES.—The Times correspondent from Rome, says that there is great dissatisfaction there, and remarks: "I have no hesition in saying that the French soldiers alone keep down a general outbreak. The Jesuits have been driven out of Fanenza, Forti and Ferrara. In this last named city only one hour was given to leave, and in the others 24 hours.

The Bologna Gazette publishes a declaration to the effect that the provinces of Romagna have shaken off the papal yoke, never to return to it again, and that it is their wish to be annexed to Sardinia.

TUSCANY.—Turin, July 30.—The Dictator of Modena has convoked the Popular Assemblies. All persons competent to *read* and *write*, and whose age is 21, will be entitled to vote. Perfect order prevails.

The Piedmontese Gazette publishes the decree, relative to the erection, at the expense of the State, of a monument at Solferino, which it says would be a memorial of the victories of the Allied Armies, and a lasting testimony to the gratitude of the gratitude of the Italians to the French army, commanded by the Emperor Napoleon, who so heroically perilled himself in the cause of Italian independence in the memorable battle of June 28th.

The other day, a gentleman riding on the Frankfort (Ky.) Railroad was waving his hand from the car window, when his hand was brought against a projecting plank with such force as to break it into two pieces.—*Boston Courier.*

On SUNDAY Evening, Aug. 21st,

at the usual hours. All are respectfully invited.

AFFAIR ABOUT HOME.

Last Tuesday night, I went before the Board of Assessors to get my poll tax taken off, being over seventy years of age, and so exempt, and tax on property which I had not got, and before I had time to tell my complaint—which would have taken about ten minutes—one of the Board made a motion to take up the next case; there was no other person in the room awaiting, and no person taking notice of his motion, he pointed to my hat which lay on the floor, and said to me, "there is your hat." I received this insult from one *Hoyt.*

Seven Octave Piano --- New Scale.

The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale**, which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.

Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.

Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE.*

SPECIAL NOTICES.

R. R. R.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

☞ **Mrs. Winslow.** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Common Sense rules the mass of the people, whatever the misnamed and misanthrope philosophers may say to the contrary. Show them a good thing: let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified the judgment of a physician, concerning the virtues of HOSTETTER'S BITTERS, as may be seen in the immense quantities of this medicine that are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for diseases of the digestive organs, such as diarrhœa, dysentery, dyspepsia, and for the various fevers that arise from derangement of those portions of the system. Hostetter's name is rapidly becoming a household word, from Maine to Texas; from the shores of the Atlantic to the Pacific. Try the article and be satisfied.

Sold by druggists and dealers generally, everywhere.

Dyspepsia.

Considering the various forms in which this disease developes itself, it may well be called hydra-headed. In its train follow *Indigestion, Pain in the Stomach, Heartburn, Water Brash, Costiveness, Piles, Acidity, Oppression after Eating, Jaundice, Flatulency, Torpor of the Liver, Dizziness, Debility, Female Complaints, &c.* Some of the first men in our land have given their written certificates relative to the cures effected in their own persons by the OXYGENATED BITTERS; while testimonials from other sources, editorial opinions and voluntary expressions from persons averse to see their names in print, are perfectly overwhelming.

Read the following from a highly respectable Clergyman:

EAST TAUNTON, Mass., Feb. 9, '58.

To the Editor of the Portland Mirror,—Sir:—

OXYGENATED BITTERS—For more than twenty five years I have been a sufferer from the dyspepsia. Besides trying the patience of my family physicians in the almost useless trial of their various prescriptions, I have tried a great variety of patent medicines with a similar result. Through the kindness of my physician, I received last March, half a dozen bottles of the OXYGENATED BITTERS. I began to use them without any hope of deriving help from them. Being determined to give them a fair trial, I continued their use, but without any perceptible benefit till June.

Since then I have gradually improved in health till I am entirely free from acidity of the stomach, and from the consequent flatulency, and the awful and almost distracting sick headache, which often, for days together, has wholly unfitted me for study and for all other ministerial duties, and rendered life a burden.

I feel that I owe it, as an expression of gratitude to Messrs. Fowle & Co., and also a duty to the public, to recommend their Oxygenated Bitters, as, in my estimation, a sure remedy for that most trying, most vexing, and cruel of all diseases, to which poor human flesh is heir, the dyspepsia. Having suffered so long, and tried so many different remedies with no good result, I can recommend the Oxygenated Bitters with a confidence few others can. If any of the readers of the Mirror are suffering, I beg of them to make trial of these Bitters without delay.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use. It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS Imported.

Dr. Langley's Root and Herb Bitters!

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom. They act at once upon the very seat of disease. They remove all obstructions from the body. Regulate the Bowels—purify the Blood—Strengthen the organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all serious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house we live in."

Doctors' prescriptions, clothed in Latin verse, Now yield the palm to Langley's Roots and Herbs;
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues pour,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.

So if you wish to feel well, act well, do well, keep well, use this standard valuable medicine.

Moses Darton, for beating his wife (because she would not get him liquor) was sent to House of Correction for 30 days, costs 3.36.

Robert Walker, for assault on Pelatiah Moulton with intent to kill, was held to bail in $800,—for want of which he was committed.

☞ In a communication on the Cabot street school-house, a few days since, the types stated the length of the proposed one-story building at 63 feet—it should have been 93, as written.

The school-house, which should be built the present season, is delayed by the following circumstances. Both boards of the City Council have voted $4500 for the purpose. The Common Council adopted a one-story plan, to be built by contract for that sum at most. The Aldermen adopt a two-story plan. The only obstacle to the Aldermen doing as they please in the matter (the Common Council having voted the money) is the *old* school-house—which can not be taken down without a joint vote.—And from appearances, this won't be forthcoming very soon—unless the wish of the district, as expressed by their committee, shall be heeded. They have asked for a one-story building, and do not desire an expensive one—any more than do our taxpayers generally.

ROCKINGHAM ASSOCIATION. — The Rockingham Association of Universalists, will hold its annual session in this city, on Wednesday and Thursday next.

The order of services will be as follows:

Wednesday—The occasional sermon will be preached at 10 1-2 o'clock A. M., by Rev. F. E. Hicks of Dover. At the conclusion of the morning services the Council will convene in the vestry. A Sabbath School Conference will be holden at 2 1-2 o'clock P. M. Preaching in the evening at 7 1-2 o'clock,—after which, should time permit, a conference.

Thursday—Prayer meeting at 8 o'clock, and public services at 10 o'clock A. M. At 2 o'clock P. M. a sermon will be preached, at the conclusion of which the Lord's Supper will be administered.

THE OLD WASHINGTONIAN

Champion, Mr. Daniel Berry, will address his old friends and the public generally, at the Temple, on Wednesday evening, Aug. 17, at half-past 7 o'clock, at a social meeting of the society. Meeting free.

☞ A gentleman informs us that a person who has for years paid upwards of $50 tax in this city (this year $54) on property easily transferrable, has decided to pay no more taxes here—being much dissatisfied with the condition of our streets and roads.

☞ The sale of the Horse and Wagon, prevented by the rain on Saturday last, is annonnced for this forenoon, at Wendell's auction room.

☞ The salute from the Navy Yard on Monday at noon, was in honor of Capt. Ingraham, Chief of the Bureau of Ordnance, who paid the station an official visit.

In the Chronicle of Wednesday morning was a notice of the marriage of a gentleman of Portsmouth to a lady of Boston — which was basely made up of whole cloth by some anonymous knave, who, if he had any sense of propriety, would forever hide his head in shame for the dastardly act.—*Journal.*

This, we think, is only the second instance in which we have been thus deceived, during the seven years of the publication of the Chronicle. We usually take no notice of such announcements, unless accompanied by a responsible name. In this instance, however, the notice was dropped into the letter-box in our office door, in the evening, and set up by one of our compositors in the morning.—Having been absent from town on the previous day, we supposed all was correct, and let it pass. When the matter was explained to us, we endeavored to prevent the spread of the notice, by crossing it from all copies of our paper sent to exchanges—but we regret to see our precaution was unavailing, and the false announcement has been copied into the papers generally. Perhaps the fellows who perpetrate such witless, heartless jokes might be more mindful of their own safety, if not of the feelings of others, did they know they were liable to a penalty if discovered.

☞ Mr. George Washington Crockett, a retired merchant and President of the bank of North America, died at his residence in Boston on Sunday morning, aged 69. He was a well known and much esteemed citizen of Boston, and was a trader in Portsmouth forty years ago.

☞ The remains of Horace Mann were buried on the 4th inst., in the park immediately in front of Antioch College, where the students will erect a monument to his memory. His disease was called by some typhoid fever, and by others dyspepsia; but it was literally exhaustion. He had been doing for some time work enough for two men, and was literally worn out.

☞ In one of the crack hotels of Saratoga lately, the elderly men were sitting up in the office or bar-room during the jolly hours, drinking and telling stories, when suddenly a stately lady appeared, seized her husband by the arm and walked him off to bed. The action produced quite a melancholy effect upon the others.

☞ There have been extraordinary showers in Utah, the rain falling on the unjust as well as the just, there as elsewhere. The crops are good, and the Saints will have enough for the flesh's support.

☞ The Bishop of Troyes commenced a recent circular to his clergy thus: "God has written a magnificent page of history, *with the assistance of France.*" After this fashion, a Frenchman patronizes the Deity whenever he wishes to do some tall writing.

☞ Michael Joy, a man of Chicago, just sent to the Penitentiary for five years, for conspiring with others to ruin a young girl, has fallen heir to $30,000 bequeathed by a brother who lately died in California.

☞ A foreign correspondent of the London Times says: "A gentleman, who had just arrived from Italy, states that he saw the people in Nice drag the bust of the French Emperor through the kennels of the town."

☞ We learn from the Boston Post that the democracy of Massachusetts is perfectly harmonious. There are no Hallett and Butler factions, no friends and enemies of Douglas. In fact, there is not known to be any difference.

☞ The Douglas men are organizing at Buffalo and other places under the name of "Spartans;" their avowed purpose being to head off the post office and custom house influence in controlling the nominations and elections.

☞ Mons. Derate is having a dispute with Mons. Blondin, at Niagara. He offers to "fight Blondin on the rope, for $500."—The fight, the New York Post imagines, will result in one blow, one clinch, and two drowns.

☞ The Manchester American mentions a field of corn famous for its growth, on the Massabesic road, which averages eight feet in height. There are five acres in the field. Some stalks are ten feet high.

☞ The steam mill of Jonathan Knights, in Amherst, was damaged by fire on Thursday evening last, to the amount of $200.—The fire caught from a spark from the engine, lighting in some shavings.

☞ There are 4,000,000 students and 150,000 teachers in the United States.—There is one student for every five persons. In Great Britain there is one student to every eight persons. In France, one to every ten.

☞ Rev. John W. Ray has accepted, been qualified, and now enters upon his duties as Superintendent of the schools of Manchester, N. H. This is an excellent appointment.

In Madrid the Romanists are half frightened out of their half wits, because somebody is circulating the Bible there. What a yell about persecution there would be if any one should complain about the circulation of Romish books here.

An old lady was accused of a design to poison her husband, because some white powder was found in her possession; but it proved to be only for removing pimples from the face, not married men from life.

☞ Margaret Harrington, of Fall River, committed to the House of Correction in New Bedford, Thursday, as a common drunkard, died in the evening.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

ENFIELD, Sept. 8, 1859.

Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.

A. K. CURRIER.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

1859.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is floooded with them
UDOLPHO WOLFE,
SOLE MANUFACTURER AND IMPORTER,

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casabeca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and the agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

Ayer's Cathartic Pills.

From the Journal.

Our cotemporary of the Gazette in getting into line with the Administration, finds itself out of line with a portion of the democratic party hereabout. This was inevitable. The purposes of the leaders of the democratic party are not acceptable to the rank and file. The doctrine of the equality of the states, means only the sovereignty of the owner over his property whether it be a slave or a horse. The real point to which the democratic party is now tending is, to place the slave trade upon the same footing as any other commerce in property, and to base slavery itself, not upon local law, but the sovereignty of the owner of the slave; a sovereignty which accompanies the owner wherever he goes within the limits, state or territorial, of the Union. This principle divests the states and territories of all power over the subject and imposes the obligation simply of protecting this species of other property. If slavery exists under the constitution in the territories, there can be no power which can legally prohibit it. If slavery exists then as a matter of constitutional right, there is a corresponding obligation to protect it.—There can be no divided sovereignty. The general government is supreme when acting within its constitutional limits. The states are supreme only when acting within the limits of their power.—Now if the position be sound that slavery exists in the territories under the constitution, it must, because of the sovereignty of the owner over his property; and it is just as sound when applied to a state as to a territory. What is the reason that a slaveholder may not bring his slave into New Hampshire and retain him and set him to work on his farm? Our local law? What right have we to enact a local law which interferes with or abrogates a right conferred by the Constitution of the United States? These are the questions which the readers of the N. H. Gazette are asking,—and the new Editor will find it rather hard to reconcile the popular feeling in a portion of the democratic party with the principles and practices of the administration.

STRIKE AT THE BOOT.—The importations are again becoming enormous. A large part of what is now coming into the country is not needed for comfort, and will do great harm, fostering habits of extravagance, and sending coin abroad. Although our harvest promises abundance, the foreign demand will, from present appearances, be limited. As the Government will do nothing to check this improvident importation, it is important that those individuals who wish to avoid that embarrassment which large importations will bring upon the country, and upon extravagant people, should do for themselves, what the Government neglects to do for all, check the consumption of foreign gewgaws. The European manufacturer and merchant cater to the vitiated and extravagant taste of the Americans, somewhat in the same way that our traders formerly met the love of Indians for trashy ornaments. If our country is, at shorter recurring periods, to be paralyzed by these extravagant habits, it becomes respectable people to avoid for themselves, and by their example to influence others to do so, the consequences of this general folly. The bad taste which creates a demand for many of the European gewgaws is as injurious as the embarrassment which follows its indulgence.—Poverty has no phase so repulsive to a refined taste, as vulgar extravagance.

ACCIDENT.—The buildings on the scene of the late fire near Mr. Walker's hotel, corner of Market and Green streets are being rebuilt. A serious accident occurred there on Tuesday afternoon last by the giving way of a staging on the shed connected with the hotel, by which Mr. Thomas Norton and a young man about seventeen years of age named Henry Tucker, were precipitated to the ground, about twenty feet. Mr. Norton was considerably injured, and young Tucker had an arm fractured, but we understand both are getting along very well. Their escape from being immediately killed was very providential. At the time of the fire Mr. Norton was somewhat injured by a blow on the face on this same spot.

KNITTING WORK: A Web of Many Textures. wrought by Ruth Partington (B. F. Shillaber). Boston: Brown, Taggard & Chase. 1859. pp 408.

After an unavoidable delay the public were at length gratified on Wednesday last by the appearance of the Web which Mrs. Partington has for awhile been industriously spinning. She has in wrought six characteristic illustrations. The book is not altogether a reticule of Partingtonisms, but through a thread of wise-saws by the old lady, the shuttle has flung in a miscellaneous filling of the popular author's pithy productions, and the fabric will wear well. The announcement of the book from the well-earned reputation of the author, was gladly hailed, and the occasion of the delay in bringing it before the public was the multiplicity and extent of the orders that most unexpectedly poured in upon the publishers, bespeaking an unprecedented success. Portsmouth people will find the work at Mr. Foster's.

N. H. HISTORICAL SOCIETY.—This Society was established in 1823, and its members are extended throughout the State. Its object is "to discover, procure and preserve whatever may relate to the natural, civil, literary and ecclesiastical history of the U. S. in general and this State in particular." It has published seven volumes of "Collections," of a nature interesting to New-Hampshire people. We wish much success to the institution, and are happy to learn from Mr. N. F Goodwin, who is now collecting assessments, the interest taken in this section of the state, and hope that the same feeling may exist throughout the whole society.

A CENTENARIAN.—Mrs. Lucy Shores, the mother of the wife of Samuel Hall, Esq. (with whom she resides,) and of Mrs. Thomas Kittson, will be 100 years old Monday next. She is infirm—but has a good recollection of early events. She is the oldest person in Portsmouth.

A FASHION WORTH IMITATING.—The latest "fashion" announced from Europe is that of dressing very plainly when going to church. Some of the ladies of the "first circles" go up to worship in plain calico. It is thus sought to encourage the attendance of the very poor, who have hitherto withheld their presence for lack of Sunday clothes.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, in confidence and truth, of it, what we have never been able to say of any other medicine, —NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its medicinal effects and medical virtues. We speak, in this matter, "what we do know," after ten years experience, and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with never-failing success, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—Do not let your own prejudices, or the prejudices of others, stand between your suffering child and the relief that will be SURE — yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine but those bearing the fac-simile signature of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.

Price only 25 cents per bottle.

LAW SCHOOL OF THE UNIVERSITY

AT CAMBRIDGE, MASS.

The Instructors in this School are:

Hon. JOEL PARKER, LL. D., Royale Professor.
Hon. THEOPHILUS PARSONS, LL. D., Dane Prof.
Hon. EMORY WASHBURN, LL.D., University Prof.

THE COURSE OF INSTRUCTION embraces the various branches of the Common Law; and of Equity, Admiralty, Commercial, International, and Constitutional Law; and the Jurisprudence of the United States. The Law Library consists of about 14,000 volumes, and as new works appear they are added, and every effort is made to render it complete.

Instruction is given by oral lectures and expositions, (and by recitations and examinations in connection with them,) of which there are ten every week. Two Moot Courts are also holden in each week, in each of which a case previously given out is argued by four students and an opinion delivered by the Presiding Instructor. Rooms and other facilities are also provided for the Club Courts; and an Assembly is held weekly for practice in debate, and acquiring a knowledge of parliamentary law and proceedings.

Students may enter the School in any stage of their professional studies or mercantile pursuits, and at the commencement of either term, or in the middle, or other part of the term.

They are at liberty to elect what studies they will pursue, according to their views of their own wants and attainments.

The Academical Year, which commences on Thursday, six weeks after the third Wednesday in July, is divided into two terms of twenty weeks each, with a vacation of six weeks at the end of each term.

During the winter vacation, the Library is opened, warmed and lighted, for the use of the members of the School.

The exercises of the next term will commence on MONDAY, September 5th, 1859.

Applications for admission, or for catalogues, or any further information, may be made to either of the Professors at Cambridge.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America; they established the claim of the discoverer, that they are a SUE PRETVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases in the third or last stage, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and chemically pure. My fac simile signature is upon every bottle.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; makes it soft, glossy, healthy and beautiful; and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and that best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

YOURS, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of life, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose will cure DIARRHŒA in its worst form, while SCURVY, BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a first class House; and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surreptitiously drag their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics, have become under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 18 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is precise and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—18 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

GREELEY'S PATENT ELASTIC BACK AND CENTRE
SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making pants is: they may be made snug to the person, and still be as easy as though they were uncomfortably large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-block or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Morning Chronicle.

KIND MANNERS.—"Will you lend me your knife to sharpen my pencil, George?" asked little Mary Green, of her brother, who was sitting at the opposite side of the table.

George drew the knife from his pocket, and pushed it rudely towards her, saying, at the same time—"Now don't cut your fingers off."

The knife fell upon the floor, and as it was evening, it took Mary some minutes to find it, and her brother made no offer of assistance. He was studying a geography lesson for the next day, and seemed to be very much engaged with it. At length he closed his book and atlas, exclaiming:

"Well, I'm glad that lesson is learned."

"And now will you please to show me how to do this sum before you begin to study again," said Mary, who had been for some time puzzling over a sum in subtraction, which appeared to her very difficult.

"You are big enough to do your own sums, I should think, Miss Mary," was the answer.

"Let me see. What! this simple question. You must be stupid, if you cannot do that. However, I suppose I must help you Give me the pencil."

The sum was soon explained, quite to Mary's satisfaction, and several hints were given to her as to those which followed, which prevented her from meeting with further difficulty. Her brother did not mean to be unkind. He loved to help her. It was only his manner which seemed harsh and cross. Presently his mother took her sewing and sat down at the table where the children were studying. George wished for the large dictionary which was in the bookcase at the further end of the room, and he took the lamp and went to look for it, leaving his mother and sister to sit in darkness until his return.

"That is impolite, George," said his mother, "there is another lamp upon the mantlepiece, which you can light, if you wish to use one."

George made no reply, but instantly replaced the lamp and lighted another. After finding the dictionary he returned to his seat and hastily blew out the lamp, instead of placing the extinguisher over the flame. The disagreeable smell of the oil filled the room, and his father, who was sitting near, reading the newspaper, looked up and said,

"You are impolite again, my son. Have you not often been told that it is not good manners to blow out a lamp in that way?"

"I cannot always think about manners," replied George, rather rudely.

"And yet they are of great consequence, George. A person whose intentions are really good, and who desires to be of use to his fellow beings, may impair his usefulness very much by harsh words and unkind manners."

If we do what is right, father, I should not think it much matter how we do it."

"You are mistaken, George. It makes a vast difference in the amount of good we perform. I will tell you of a little instance which will show the truth. I visited this morning a very poor woman in the neighborhood. My means did not enable me to do a great deal for her relief, but for the little I gave her she appeared deeply grateful. Finding that she had formerly been employed as a washer-woman by a gentleman whose office is near mine, and whom I knew to be wealthy and benevolent, I asked why she did not apply to him for relief.—The tears came into her eyes as she replied, 'Indeed, sir, I know the gentleman is very kind, and he has helped me before this when things went hard; but, indeed, I had rather suffer than go to him; he has such a harsh way of speaking to a poor body. A kind word is a good thing, sir; it comforts the troubled heart. A penny from some is worth a dollar from others."—*Little Truth Teller.*

A BRIDGE ON ITS TRAVELS.—During the freshet of last spring, "Lottery Bridge," over the Sugar River, near its confluence with the Connecticut, was gently lifted from its piers, floated off and landed, after gyrating about in circles in the back-water for a day or two, in a fine meadow belonging to the Sumner farm, right side up, and straight and sound as the day it was finished. The question was how to get it back. Mr. James Tasker, a Yankee, of Cornish, after looking the property over, closed a contract with the selectmen to perform that little job for the modest sum of $450. The bridge, a covered, modern built structure, weighs over one hundred tons, and the distance it strayed was about half a mile. Mr. Tasker, with four men and two horses, has just put the truant back into its proper position, without breaking a stick or starting a shingle, and besides paying his help has realized five dollars a day for his own labor for fifty days!

We think the best thing our great Uncle Samuel could do would be to let some of his heavy jobs to Mr. Tasker.—*Claremont Eagle.*

The Gloucester News says: "The Hon. F. P. Blair, Jr., who is sojurning with us, is a fisherman as well as a statesman of growing importance. In his piscatorial excursions he is generally 'high line,' a fact which speaks well for his dexterity or for the generous hospitality of the fish, who might with propriety retaliate for the injury inflicted upon them by his vote in favor of the fishing bounties."

A correspondent at Newport gives an account of an entirely new kind of women in that city, girls "all unconscious of their charms." We don't think the dear creatures have yet been seen in any less favored region.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, AUGUST 17, 1859.

☞ In the early history of Harvard College, says the Boston Transcript, corporal punishment was one of the most common means of correction,—the tutors chastising the students at discretion. By the college annals it appears that when one Thomas Sargeant was publicly whipped in the Hall, the exercises were opened and closed with prayer!

Who says the world don't move? If a tutor should strike a student, now-a-days, he would be knocked down pretty soon, as he would deserve, and be hooted from his situation afterwards. He who takes the sword, shall perish by the sword.

But the world has not moved far enough yet. It has come to be impolitic, unfashionable and unchristian to flog criminals, sailors, apprentices and students—when is the same clemency to be extended to children at home and scholars in school? The time is coming—must come, when moral influence will be *universally* acknowledged superior to brute force, and the old advice be read aright: "Spoil the rod, and spare the child." F.

☞ John C. Underwood of Virginia tells an incident of plantation life, which not only illustrates the cruelty of the slave system, but the strength of domestic attachment in slave families—the natural result of being deprived of all the usual incitements of free men, such as the acquisition of knowledge, wealth, social or political position—and consequently centering all hopes of earthly happiness on the only thing left him by compensating nature, his domestic relations.

One of the kindest of masters became embarrassed, and his property was all to be sold on execution for the payment of his debts. He had a faithful and intelligent servant, Jupiter by name, whose wife and children belonged to a neighboring master. Jupiter made every possible effort to find a purchaser in the neighborhood, so that he might be permitted occasionally to see his wife and children. But everything seemed against him, and nothing was left him but the slave gang and the dreary journey to the Southern plantation, a journey as returnless as the road to death and the grave. In his desperation he saw an axe, and seizing it, and laying his left wrist upon a block, with one blow from his right hand, his left hand fell upon the ground. Then holding up the bleeding stump, with exultation he exclaimed, "Now the traders won't want me." The man a moment before worth $1000, was now worthless for picking cotton, but his end was gained, and Jupiter was permitted to remain with his family.

☞ A local reporter of the N. O. True Delta was married in New Orleans lately to a rich Southern belle. The wedding took place between eight and nine in the evening, and from that time to an advanced hour next morning the festivities were kept up with unceasing activity. The entertainments provided for the guests, who numbered over five hundred, were dancing, fireworks, a concert, poetical and dramatic recitations, and then dancing again until daylight reminded the company that it was time to separate. One of the features of the evening was the employment of a colored orchestra instead of the German band usually hired for these occasions.

GARIBALDI AS DICTATOR OF LOMBARDY.—The Paris correspondent of the London Star says that serious rumors have reached Paris from Italy; a secret manifesto, announcing the only solution to the intricate question which has been raised by the war, is said to have been distributed throughout Lombardy. This solution purports to be the election of Garibaldi as dictator, which would immediately rally the whole of Italy beneath the patriot banner of the only chief accepted by all Italians—the only one whose disinterested patriotism has inspired confidence in all parties. Garibaldi has had no voice in the affair, which has been got up at the instigation of some of the members of the ex-municipality of Milan, who, alarmed at the revolutionary turn which affairs are taking in that city, seek to arrive at the solution of the problem at once, by accepting all its consequences without disguise, and thus avoiding the bloodshed and opposition which must arise from the false position in which all parties at present stand.

☞ Two boys, James Cogan and John Daily, were smothered in a grain bin at Milwaukee, on the sixth inst. The grain was being loaded in a canal boat by means of a spout from the bottom of the bin, and the boys, seeing the wheat sinking in the middle, thought it would be fine fun to jump into the rapidly settling centre. They went out of sight so suddenly that they could not be rescued, and their dead bodies were not recovered until a quarter of an hour had elapsed.

Do not believe one half that you hear, but make sure that you believe all you *say*.

REFRESHING LIBERALITY.

A New York correspondent of the Boston Post thus refers to the liberality and wealth of the society of which Rev. Dr. Jas. Alexander was the pastor. "I have learned that the affectionate remembrance of the people, for their pastor, is to take a practical form, which must commend itself as a rare example of sanctified common sense. A few years ago the financial managers of the society voted to advance their Minister's salary from four thousand to five thousand dollars per annum. Upon communicating this resolution to Dr. Alexander, they were surprised to receive from the intended beneficiary a courteous but firm declination of the proposed addition to his income, upon the ground that his style of living was already more than met by his salary; and his preference was plainly expressed that the money thus offered him should be made more useful in some needier family circle. The money, however, had been by formal vote appropriated, and must be expended in accordance with the original design. It was, therefore, in part, put into the shape of a policy upon the pastor's life for five thousand dollars. This amount, consequently, is now, together with accumulated savings from his income, in all amounting to about twelve thousand dollars, a legacy to the widow and children who survive.

"The whole-souled, whole-hearted members of the church, not satisfied with this, have discussed and are perfecting a plan to raise a sufficient sum, in addition to that above-named to form a fund of twenty-five or thirty thousand dollars for the independent support of the family of him, who, in humble and devoted imitation of the Saviour whose Gospel he preached, "laid down his life for them;" and whose whole ministerial career among them served to inculcate a lesson which they have learned by heart, viz.: that "the liberal deviseth liberal things; and by liberal things shall he stand." If the position thus voluntarily and quietly assumed by the Presbyterian Church on Fifth avenue and Nineteenth street, does not deserve, in spite of all attempts to avoid, a 'first rate notice,' I shall lapse into disbelief of the old axiom that '*example* is better than precept.' I am simple enough to admire and commend to general emulation an 'example' so resplendent as this.

THE GRAVE DIGGERS.—By the North Star, later accounts from Central America have been received. Letters from David, dated July 14th, states that the people from all directions continue to flock to the gold diggings, and that the yield of gold obtained from the "huacas" continues undiminished. All kinds of ghost stories are afloat among the natives, who report hearing unearthly noises and tambores (drums) in the Cordilleras, which they attribute to his sable majesty, who does not wish the graves to be molested for fear the dead may not be able to find their bones at the last day.

CONFESSION OF AN INCENDIARY.—*Worcester, Aug.* 15.—The boy Creadon, who was suspected of burning the State Reform School buildings, in Westboro', has made a full confession of circumstances, this afternoon, to J. S. Brown, one of the Trustees, and also to officer Newton, of Westboro', who had him in charge. It seems that the matter had been contemplated for some time, and young Creadon implicates other boys in the transaction. Combustible materials had been carried from the chair-shop in the pockets of Creadon, and placed in the ventilator, ready for use. A match was obtained from Mr. Greenwood, the overseer in the chair-shop, and all things being ready, the fire was kindled in the ventilator on Saturday morning, about 5 o'clock. The names of other boys implicated are suppressed until a full investigation is made by the Trustees into all the circumstances. Young Creadon was lodged in jail for safe keeping.

☞ John Lewis, a gambler from Cincinnati, having been suspected of complicity in the murder of Harding, at Napoleon, was attacked by a body of men there, while on his way from his hotel to a steamboat, on which he was coming North. Lewis attempted to defend himself, drawing his revolver and discharging two or three barrels without injuring any one. The entire party, some eighteen or twenty, then fell upon him with their bowie knives, and literally carved him to pieces. He must have received at least seventy or eighty mortal wounds, besides innumerable stabs or cuts all over the body.

No tune is so popular, and yet so hard to catch, as for-tune.

A young man whose love is not reciprocated soon experiences *lassitude*.

Fops who at home would not associate with their boot-maker, abroad are seldom seen except in company with a "cobbler."

A friend complains of a feline Thomas whose evenings are spent in courting the *mews* under his window. He don't like such *cattle*!—*Post.*

BROTHERLY LOVE.—A whole psalm—the one hundred and thirty-third; a whole chapter—First Corinthians, thirteenth chapter; a whole book—First John, have been written to commend brotherly love.

A man that hoards riches and enjoys them not, is no better off than the ass that carries gold and eats thistles.

A man can't avoid the companionship of his own conscience, so he had better make it his friend.

☞ Horace Greely writes from Big Sandy, Oregon, July 6, that "white men with two or three squaws each are quite common throughout this region, and young and relatively comely Indian girls are bought from their fathers by white men, as regularly and openly as Circassians at Constantinople. The usual range of prices is from $40 to $80—about that of Indian horses. I hear it stated that, though all other trade may be dull, that in young squaws is always brisk on Green River and the North Platte."

☞ The Christian Register is talking right out in meeting on the "Broad Church" question. It says, with much truth, that "the simple prescription for the construction of a Broad Church is for Christians to stop quarrelling. One place is not necessary for union, nor one way of thinking on technicalities, nor one way of exhibiting our feelings before Him who looks through all outward manifestations to the heart that prompts them."

☞ The hippotamus of the *Jardin des Plants* at Paris had a son last year, which she killed by pressing it against the side of the tank. This year another callow hippopotamus was born. He seemed at home in the watery cradle provided for him, and enjoyed his short lease of life immensely.—His mother was kind to him, yet when he had reached his fifth day she brutally and unfeelingly killed him with her tusks. The next scion of this family will be "raised by hand," and apart from the cruel instincts of its mother.

☞ A Western correspondent says, there is one feature which is apparent all over the West; while the towns and cities have diminished in business and population, the country has increased in both. Men who could not live in town have gone out upon the prairies, put their hands to the plow, and determined that it is better to raise wheat at fifty cents per bushel than it is to trade on credit with no securities and no pay.

☞ A correspondent commences a letter thus: "I write from a cockloft of the Amherst House, in a room about twice as large as a Saratoga trunk."

☞ A letter from Florence says—"The weather is as hot as Austrian wrath, and the fruits ripen apace."

The weak and ignorant are apt to mistake their superstitious terrors for moral impressions.

Seven Octave Piano --- New Scale.

The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale**, which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.

Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.

Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE*

SPECIAL NOTICES.

R. R. R.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 30th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

W. R PRESTON agent for Portsmouth.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Common Sense rules the mass of the people, whatever the misnamed anti misanthrope philosophers may say to the contrary. Show them a good thing: let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified the judgment of a physician, concerning the virtues of HOSTETTER'S BITTERS, as may be seen in the immense quantities of this medicine that are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for disease of the digestive organs, such as diarrhœa, dysentery, dyspepsia, and for the various fevers that arise from derangement of those portions of the system. Hostetter's name is rapidly becoming a household word, from Maine to Texas; from the shores of the Atlantic to the Pacific. Try the article and be satisfied.

Sold by druggists and dealers generally, everywhere.

Dyspepsia.

Considering the various forms in which this disease developes itself, it may well be called hydra-headed. In its train follow *Indigestion, Pain in the Stomach, Heartburn, Water Brash, Costiveness, Piles, Acidity, Oppression after Eating, Jaundice, Flatulency, Torpor of the Liver, Dizziness, Debility, Female Complaints, &c.* Some of the first men in our land have given their written certificates relative to the cures effected in their own persons by the OXYGENATED BITTERS; while testimonials from other sources, editorial opinions and voluntary expressions from persons averse to see their names in print, are perfectly overwhelming.

Read the following from a highly respectable Clergyman:

EAST TAUNTON, MASS., Feb. 9, '58.

To the Editor of the Portland Mirror.—Sir:—

OXYGENATED BITTERS—For more than twenty five years I have been a sufferer from the dyspepsia. Besides trying the patience of my family physicians in the almost useless trial of their various prescriptions, I have tried a great variety of patent medicines with a similar result. Through the kindness of my physician, I received last March, half a dozen bottles of the OXYGENATED BITTERS. I began to use them without any hope of deriving help from them. Being determined to give them a fair trial, I continued their use, but without any perceptible benefit till June.

Since then I have gradually improved in health till I am entirely free from acidity of the stomach, and from the consequent flatulency, and the awful and almost distracting sick headache, which often, for days together, has wholly unfitted me for study and for all other ministerial duties, and rendered life a burden.

I feel that I owe it, as an expression of gratitude to Messrs. Fowle & Co., and also a duty to the public, to recommend their Oxygenated Bitters, as, in my estimation, a sure remedy for that most trying, most vexing, and cruel of all diseases, to which poor human flesh is heir, the dyspepsia. Having suffered so long, and tried so many different remedies with no good result, I can recommend the Oxygenated Bitters with a confidence few others can. If any of the readers of the Mirror are suffering, I beg of them to make trial of these Bitters without delay.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnappe so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DIFFICULTY OF URINE, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 72 Broad st.; Deland & Snow, 34 Elm st. and others in Portland, Me., of H. H. Hay & Co., C. W. Atwell, and C. C. Mitchell & Son.

THE BEST LIGHT!!!

Cancemine Oil.

Every one is naturally desirous of obtaining the BEST LIGHT, at the SMALLEST COST; and this can be secured by the use of Cancemine Oil,—a new article which is rapidly superseding the Kerosene Oils, for the following reasons, viz.:—IT COSTS LESS, GIVES MORE LIGHT, WILL NOT SMOKE, AND HAS NOT THE OFFENSIVE ODOR OF KEROSENE.

This Oil can be used in the ordinary Kerosene lamps; but an improved burner can be fitted to any lamp at a small expense.

This is by far the best light yet offered to the public. The subscriber has this Oil for sale in any quantity, also a supply of Lamps, &c.—A lamp may be seen in operation at store

The Best Medicine in the World.

YES—DECIDEDLY THE BEST—IS

Dr. Langley's Root and Herb Bitters

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom. They act at once upon the very seat of disease. They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs, Now yield the palm to Langley's Roots and Herbs. Forsake vile drugs and cull from Nature's store, As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store, From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend, And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.

So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

Only 25 cts. for a pint, 38 cts. for a large bottle. Sold by all dealers in medicine everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., BOSTON.

LOCAL.

☞ The Portsmouth Cornet Band will make an excursion to the Shoals on Friday, August 18th, in the new and fast-sailing schooner, H. E. Bishop, Capt. Joseph Amazeen. Leave Lyman's Wharf, near Spring Market, at 8 o'clock.

N. B.—Should the weather prove unfavorable, the excursion will take place the first fair day. All are invited! Tickets 50 cents.

ROCKINGHAM ASSOCIATION. — The Rockingham Association of Universalists, will hold its annual session in this city, on Wednesday and Thursday—this day and to-morrow.

The order of services will be as follows:

Wednesday—The occasional sermon will be preached at 10 1-2 o'clock A. M., by Rev. F. E. Hicks of Dover. At the conclusion of the morning services the Council will convene in the vestry. A Sabbath School Conference will be holden at 2 1-2 o'clock P. M. Preaching in the evening at 7 1-2 o'clock,—after which, should time permit, a conference.

Thursday—Prayer meeting at 8 o'clock, and public services at 10 o'clock A. M. At 2 o'clock P. M. a sermon will be preached, at the conclusion of which the Lord's Supper will be administered.

THE OLD WASHINGTONIAN Champion, Mr. Daniel Berry, will address his old friends and the public generally, at the Temple, This Evening, Weln'sday, Aug. 17, at half-past 7 o'clock, at a social meeting of the society. Meeting free.

☞ The Adventists are to hold their Camp Meeting this year at East Kingston, N. H., beginning Monday, Aug. 22.

And the Methodists will hold theirs at the Camp Ground near New Market Junction, beginning September 5.

The General Association of Orthodox Congregational Ministers in New Hampshire, will hold their annual meeting at Boscawen, beginning Tuesday, Aug. 23.

FIREMEN.—Protector No. 2, Capt. F. A. Johnson, of Milford, accompanied by the Milford Brass Band, will visit the Isles of Shoals on Tuesday, Aug. 23d, and have extended an invitation to Protector Co. No. 3, of Newburyport to accompany them. Both companies will visit Portsmouth on Wednesday, 24th.

NEW YORK, Aug. 16.—Three men were drowned in our bay yesterday by the capsizing of a yawl, from which they were attempting to board the brig Brothers, which was in tow of a tug.

The researches thus far by the Croton Water Board to detect the cause of the unpleasant taste in the water, have been without effect. The story circulated that forty dead bodies had been raked up in the reservoir, is pronounced false. The Tribune attributes the deterioration in the water to the many recent heavy showers, which have overflowed the swamps along the river.

Advices from Havana state that three cargoes of slaves from Africa are hourly expected at Cienfuegos.

The rowing regatta which took place at Staten Island, yesterday, attracted five to six thousand spectators. There were three races, the prizes ranging from $100 to $20. In the third race of four-oared boats, Dan Bryant, No. 1, won the prst prize of one hundred dollars,

TEXAS.—A New Orleans dispatch of the 13th, says that the returnss from eighty-two counties of Texas give Gen. Houston 8000 majority. The regular democratic candidates for Lieut. Governor and Land Commissioner were ahead. From the legislative districts, we have the returns of fifty-four members, twenty-nine of whom are understood to be in favor of the re-election of Gen. Sam Houston to the U. S. Senate.—The opposition candidates known to be elected number twenty.

☞ In Boston, on Monday, Justice Wells examined Hamilton, the keeper of the groggery and gambling den, in which he assaulted and injured a young woman. The result was, that the justice ordered the criminal in jail for trial, *without bail*.—This is right:—and a little such wholesome restraint on a few rascals in this State, might have a good effect.

☞ The law is not quite a dead letter in Maine; for the Portland Argus of Tuesday tells us that in the Supreme Court, Judge Davis presiding, most of the liquor cases appealed from the Municipal Court were settled by the defendants *paying the fines and costs* imposed by the lower Court.

☞ The new Sunday order issued by Mr. Pillsbury, the new Superintendent of Police of New York, went into effect Sunday, and produced a slight change as far as relates to the sale of intoxicating liquors. There were fewer liquor saloons open than on any of the past few Sundays.

☞ Mrs. Elizabeth Rudisill died on the 20th ult., near Hanover, Pa., at the advanced age of 111 years 9 months and 22 days.

No roads are so rough as those which have just been mended, so no sinners are so intolerant as those that have just turned saints.

THE GREAT EASTERN STEAMSHIP.—This floating town is progressing towards completion. The current opinion on board the ship is that she may be ready for sea in October ar November, so that she will be tested in the autumn.

CALL ACCEPTED.—A letter from Rev. Wm. H. Channing of Liverpool, was received on Friday by the Committee of the Thirteenth Congregational Church of Boston, accepting the call of that society as the successor of the Rev. Mr. Coolidge.—*Trav.*

☞ A letter from a visitor to the Saguenay River relates that when the steamer was in sight of points Trinity and Eternity, the captain startled an inquirer by saying that dinner would be served when they had got "beyond Eternity."

A man falls in love just as he falls down stairs. It is an accident, perhaps, and very probable misfortune; something which he neither intended nor foresaw. But when he runs in love, it is as when he runs in debt; it is done knowingly and intentionally, and very rashly and foolishly, even if not ridiculously, miserably and ruinously.

☞ Some of the sailors of the N. Y. yacht squadron were very disorderly at Newport. The Mayor of the city drew his revolver on two of them who were intent upon giving him a beating, whereupon they retired.

Wise men and handsome women have always been in great demand. Yet the supply of the latter is much the larger. Reason why—they are far more quickly appreciated. Beauty is more praised than wisdom, and accordingly finds a better market. Sad, but so.

☞ A first class locomotive costs about $10,000; a passenger car $2000; a baggage car $1500; a freight car $650; a gravel car $450. The iron of a railroad costs from $5000 to $8000 per mile.

A rope dancer, by the name of Delanc, is making arrangements to walk a rope stretched over the chasm below the Gennessee Falls at Rochester, on Tuesday. The rope is about nine hundred feet long and an inch and three-fourths in diameter. There will be a funeral before these fool-hardy performances are over.—*Boston Post.*

☞ As Deacon Samuel Jewett, of Rowley, was driving a three year old heifer into the pasture, she attacked him and drove one of her horns completely through his arm, inflicting a very serious wound.

Napoleon has not been seen in Paris since his return from the war, but the news has been sent to the Journal du Havre that he no longer wears the points of his moustache turned up and stiffened with Hungarian pomatum, but allows them to curve downward, as they did before his marriage. Some imaginative person suggests that this signifies an intention to relinquish a pursuit for miltary honors for the future.

☞ War increases the price of rags. So great a quantity of rags has been bought up to make lint for the wounded soldiery in Lombardy, as to cause a rise of about a farthing a pound in some kinds of paper.

It is said to be dangerous working with a sewing machine near a window in a thunder-shower. It is dangerous sitting near *some* sewing machines when there is no shower.

☞ Mr. Wetmore, owner of the palatial residence at Newport, known as the "Chateau sur Mer" was stricken by a paralytic shock at the breakfast table Sunday morning, and now lies in a very critical condition. At last accounts he was unable to speak.

☞ Although Gen. Houston ran, and appears to have been elected Governor of Texas, in distinct opposition to the Administration, and so publicly stated his position, his success is now claimed by the Washington Constitution as an Administration triumph.

☞ The Bangor Whig says that Ettie, the older of the little Dutton sisters, has been seriously ill at that place, but is now much better. She ate too much fruit.

☞ We are indebted to Mr. Alonzo F. Brown, of this city, now at San Francisco, for liberal supplies of late California papers.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.
IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.

ENFIELD, Sept. 8, 1859.

Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 13 CABOT ST., Portsmouth, N. H.

1859.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casabeca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balaium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifilingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

Ayer's Cherry Pectoral.

From the N. H. Gazette.

The Union Democrat.

Either we have been very unfortunate in the use of language, or our usually clear-headed friend of the Democrat has strangely misapprehended us. We think it is the latter, and that since our brother went astray on the Territorial question he has got a trifle "mixed up," befogged, and does not perceive with his usual quickness and clearness.

In rejoining to the article in our last having reference to himself, he says that we seem to "confound the terms 'squatter' and 'popular' as applied to sovereignty." Now we think our readers generally will bear us out in the statement that if we have endeavored to establish any point, it is precisely *the wide difference* which exists between these terms, approving that of "popular" and condemning that of "squatter."

Again he says, "We (that is, he and ourselves) agree upon the only essential point—that Congress has nothing to do with slavery anywhere." Here, too, he is at fault. We agree to no such thing, and have said no such thing. On the contrary, our remarks have plainly implied, we think, that the contingency might possibly arise, although we do not think it very probable, when it would become the duty of Congress to interpose its power to protect the constitutional rights of the South in the Territories.

We announced our purpose last week not to occupy our time and space with replies to the exceptions that may be taken to our views, and in accordance with that purpose, we shall notice but one or two other points in our friend's strictures; and this, indeed, would seem to be as much attention as his article under any circumstances would require.

As in the case noticed in our last, of a distinction without a difference in our brother's views, he seems to commit a similar error in the present article, in the distinction he makes between the terms "squatter" and "popular," and the powers which he claims *they* respectively express. If, as he holds, "the people of an organized Territory have the right—not delegated but inherent—to form and regulate their domestic institutions in their own way and time,'" will he be kind enough to inform us why the people in an *un*-organized Territory have not the same right? If the right is *inherent*, how can the circumstance of organization strengthen it, or the absence of organization impair it?

Our friend is also in error, we think, in supposing that the declaration in the Kansas act, that it was its purpose to "leave the people perfectly free to form and regulate their domestic institutions in their own way, subject only to the Constitution of the United States," gave the people the power to prohibit slavery therein. This is a mere negative declaration, conferring *no* power, and designed to confer none. Its purpose, as we understand it, was to meet objections raised to the repeal of the Missouri Compromise—that the intent of that measure was to extend slavery over Territory then free,—and its meaning and import, as having reference to slavery, were simply that Congress proposed to do neither one thing nor another with that institution, but would leave it, where it must in fact, though it passed a hundred laws and declarations upon the subject, precisely where the Constitution placed it, to go where it had the right and to be stayed where it had it not, by the provisions of that instrument. This view is sustained not only by the language of the clause and the facts and circumstances of the case, but by the Congressional record. When the Kansas bill, containing the provision in question, was before the House of Representatives, Mr. Fuller of Maine, moved, the following amendment to it:—

"*And the Territorial Legislature shall have the power to establish or exclude slavery, as to them shall seem proper.*"

This amendment was rejected after debate—ayes 75, noes 91—thus plainly and conclusively showing, as we think, that the Kansas-Nebraska bill had no such absurd purpose and intent as our brother claims for it—that Congress did *not* design in that act to confer upon the Territorial Legislature the power to establish or exclude slavery.

Although the Democratic party admits of differences of opinion, and the utmost boldness in the honest expression of such differences, it lends no countenance to those who make principle the excuse for factious and malignant assaults upon the President and his Administration. True Democrats of all shades of opinion see that these assailants are really working for the common enemy, and for this reason they have been repudiated and denounced. It is an observable fact, that a number of journals in this and other States, which thought to strike a popular vein by opposing the Administration in a factious spirit, have been compelled to change their course by a sound and healthful party spirit. A recent case of this description is that of the New Hampshire Gazette, a leading organ of Democratic opinion in the old Granite State. The former editor, finding that he was not sustained in fighting the Administration, has disposed of his paper, and under the new editor it assumes a tune more in conformity to public opinion. —*Harrisburg (Penn.) MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say*, in *confidence and truth*, of it, what we have never been able to say of any other medicine, NEVER HAS IT FAILED IN A SINGLE INSTANCE, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of highest comendation of its medical virtues. We speak, in this matter, "*what we do know*," after ten years experience, and *pledge our reputation for the fulfilment of every* assertion *here declared*. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects, acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others*, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions to accompany each bottle. None genuine unless the *fac-simile* signature of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 10 Cedar st. New York.

Price only 25 cents per bottle.

LAW SCHOOL OF THE UNIVERSITY

AT CAMBRIDGE, MASS.

The Instructors in this School are:

HON. JOEL PARKER, LL. D., Royale Professor.
HON. THEOPHILUS PARSONS, LL. D., Dane Prof.
HON. EMORY WASHBURN, LL.D., University Prof.

THE COURSE OF INSTRUCTION embraces the various branches of the Common Law; and of Equity, Admiralty, Commercial, International, and Constitutional Law; and the Jurisprudence of the United States. The Law Library consists of about 14,000 volumes, and as new works appear they are added, and every effort is made to render it complete.

Instruction is given by oral lectures and expositions, (and by recitations and examinations in connection with them,) of which there are ten every week. Two Moot Courts are also holden in each week, at each of which a cause previously given out is argued by four students and an opinion delivered by the Presiding Instructor. Rooms and other facilities are also provided for the Club Courts; and an Assembly is held weekly for practice in debate, and acquiring a knowledge of parliamentary law and proceedings.

Students may enter the School in any stage of their professional studies or mercantile pursuits, and at the commencement of either term, or in the middle, or other part of the term.

They are at liberty to elect what studies they will pursue, according to their views of their own wants and attainments.

The Academical year, which commences on Thursday, six weeks after the third Wednesday in July, is divided into two terms of twenty weeks each, with a vacation of six weeks at the end of each term.

During the winter vacation, the Library is opened, warmed and lighted, for the use of the members of the School.

The exercises of the next term will commence on MONDAY, September 5th, 1859.

Applications for admission, or for catalogues, or any further information, may be made to either of the Professors at Cambridge.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, render and the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken, before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPATION.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything, connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

S. B. FITTS. Proprietor,

Appledore House,

ISLES OF SHOALS.

This well known establishment, having been much enlarged and improved, is now open for the reception of boarders.

The Yacht **Sibyl** will run daily from Pier Wharf, Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

june28 2m THOMAS B. LAIGHTON.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrounded by their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the risk of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a worthless article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

Seven Octave Piano - - - New Scale.
The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale,** which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.
Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.
Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE.*

Morning Chronicle.

A RATHER LOUD GAME OF EUCHRE, we learn, was played the other day on board a steamer at the levee. A four handed game was quietly progressing, the dealer, whom we shall call A., had just dealt and turned up jack for trump. B., the man next him, passed, and remarked that if poker was the game, his hand would be some. It was C.'s say next: he also passed, and added that if poker was the game he would have something of a hand too.—'And so would I have a hand,' said A., 'if you'd just let me take up the deck hand.'—All agreed to change the game to poker, and bet on the hands they held, whilst B. and C. consented that A. should take up the jack. B., who held four queens, opened the game by a bet of ten dollars. C. held four tens, was bluffed by this, and took an outside seat with his friend D. A. saw B.'s ten, and went ten better. A. pulled out all the money he had, some eighty or ninety dollars, and remarked that it was no use to bet against him, as he thought he had the thing dead, saw B.'s fifty and went the rest of his money better. B. commenced getting uneasy, but he concluded to cover A.'s stake and see what he had. He covered the pile, laid down his four queens, and looking over into A.'s hand, was thunderstruck to behold four *aces!* 'Aces! he exclaimed, 'what did you want that jack for?' 'O, just for fun!' complacently replied A., as he pocketed the winnings and proposed a return to euchre.—*N. O. Crescent.*

☞ We have received from George Roberts, New York, a copy of his mastodon newspaper—the "Illuminated Quadruple Constellation," which he says is the largest sheet of paper ever made and printed, measuring 70 by 100 inches! In its imperial folds, says the publisher, is embraced more matter than is contained in six different numbers of Harper's Monthly, or fifteen different numbers of the New York Ledger. Four of its immense pages are largely occupied with engravings. Single copies 50 cents—three copies $1.

Notwithstanding its immense size, it is finely printed, on excellent paper—and we are ready to believe that "the press" this sheet was printed on, *is* the lever which *might* move the world.

Mrs. Sickles is to take up her residence in Italy. She should have done so sooner, as Lady Macbeth should have died earlier instead of later. All her family contemplate going with her, and the "injured husband" will follow them, should he turn out a damaged Congressman. He will find plenty of his kind there to keep him in countenance, who will easily understand that he should have overlooked the false step of his wife, but to them the slaughter of her lover will be an utterly incomprehensible act. Mrs. Sickles will have the *right* to a *cicisceho* in Italy, and Daniel would be brought to judgement very quickly if he should object to the existence of such an appendage. Jealousy is neither green, blue, nor red in the country that produced "Boccaccio's tales of Florence and the Arno.—*Traveller.*

DEATH FROM THE BITE OF A TURTLE. The Middleton Gazette chronicled last week the death of a boy in Plympton, in consequence of the bite of a turtle. The lad brought from a pond of water near by a number of turtles to play with, and while engaged in this sport one of them bit his finger. Not long after he began to be sick and feverish. The finger was at length lanced and matter discharged. Black spots appeared on his other hand and there were indications of some virus rankling in his system.

He finally went into paroxysms and began to snap and bite at his bed clothes and everything coming in his way, after the manner of a turtle The physicians fearing the result, charged those who had the care of him to avoid all means a bite from him. In this way the poor fellow died.

☞ The last Grand Jury of Santa Clara county, California, denounced the system under which they were empanelled, as being cumbersome, uncertain and expensive in its workings, and inefficient as a means of protecting the innocent and punishing the guilty. They recommend the entire abolition of the system, and the adoption of something more simple, certain, speedy and direct.

☞ Within five years, in Indiana, there have been erected twenty-seven hundred school-houses, at an expense of eleven hundred thousand dollars. In the last year six hundred and fifty school-houses were built at a cost of three hundred thousand dollars. The sum is obtained by a special school tax that was paid by the people with general cheerfulness.

He that dies a martyr proves that he was not a knave, but by no means that he was not a fool.

Portsmouth, N. H.

THURSDAY, AUGUST 18, 1859.

BUDGET OF BLUNDERS.

We have rarely seen more looseness of statement, or error in detail, crowded into a small space, than in the following article from the Manchester Democrat. We insert it in slices, with the corrections sandwiched in between them, dialogue fashion.

Union Democrat.—A year or two since a man named John C. Underwood was dismissed the State of Virginia for the utterance of insurrectionary sentiments among the slaves.

Uncle Toby.—He was not dismissed at all, and he never uttered insurrectionary sentiments among the slaves.

U. Dem.—We do not remember the precise charges brought against him, but it is very easy to conceive of circumstances which would justify his expulsion.

Uncle T.—The precise charge, and the true one, was that he attended a Republican convention out of the State, and took part in it. It is very easy to *conceive* of circumstances—but none existed except the one named.

U. Dem.—Whether these circumstances existed, it is immaterial to inquire.

Uncle T.—We think it quite material. It might be very easy to *conceive* that some particular man committed murder, on a body found in the river—and in the absence of direct testimony, certain circumstances are published in a newspaper. Now it strikes us that it would be *material* to inquire whether these circumstances *existed*, or whether the reporter merely *conceived* them *possible!*

U. Dem.—The men whose property and lives were secure from the incendiary and the assassin only in the subordination of the negroes around them, believed they were imperilled by the course Mr. Underwood thought proper to take, and if they sent him off harmless, it is quite as lenient a judgment as he would have received at the hands of any people on the face of the earth.

Uncle T.—This is all moonshine; it never happened; the people did not believe such nonsense; they did not send him off harmless; but they threatened various things if he came back. He staid away several months, and when he went home he staid but a short time.

U. Dem.—Well, Mr. Underwood left, and concluded to become a martyr for freedom. From agitating the Southern slaves, he has turned his attention to agitating their Northern sympathizers. He was in Manchester last week, soliciting subscriptions to an abolition pamphlet, for distribution in the States of Pennsylvania, New Jersey, Indiana and Illinois. The sum called for is $16,000, which is expected to circulate 100,000 copies in the localities named. The book is called 'The Impending Crisis,' by which we suppose is meant the Presidential election. It relates to slavery, and its purpose is to abolitionize the Northern States which voted for Mr. Buchanan in 1856.

We have not seen the book, and do not know what tendency it may have in that direction.

Uncle T.—Well, he did not have to *leave*, for he was already *away*—and his fellow citizens, the chivalry of Virginia, made him so much of a martyr as to denounce and threaten him for daring to differ from them in political opinions.

The Democrat has *not seen* the book, does *not know* its tendency—but denounces it in the *dark!*

We *have* seen the book; and it is a strong accumulation of facts and figures, from the most authentic sources, as public documents, State and county records and returns, official reports, &c., going to show a fair comparison between the products, industry, population and wealth of the Northern and Southern States, or rather of the slave States and free.

Its original purpose was to arouse the whites of the South, particularly the non-slaveholders there, to the bad economy of slavery, and its effects upon the whites, in discouraging enterprise and industry.

U. Dem.—But we tell Mr. Underwood and all the contributors to his scheme, that they are engaged in a very disgraceful business. There is ill blood enough now between the North and South, and he is an enemy to both who seeks to stimulate it to a higher pitch of frenzy.

Uncle T.—This is a mere cry of "*mad dog!*" at a book of which the editor confesses he knows nothing. And we do not see the exhibition of half so much ill blood between the *North* and *South* at this moment, as we see every week between the newspapers in New Hampshire that call themselves Democrats. That the book is calculated as well as intended to favor freedom and condemn slavery, there is no question; and surely no true democrat or republican, North or South, need to be afraid of this!

Finally, the book itself is a fixed fact—and it will be sold by the hundred thousand, and read by a million readers, North and South. No good cause need be afraid of light or of discussion.

A stranger meeting a man in the streets of Boston a few days since, roughly accosted him with, "Here, I want to go to the Tremont House!" The deliberate reply was, "Well, you can go if you don't be gone too long!"

☞ A Kansas correspondent of the Salem Gazette, speaking of their new proposed Constitution, says it gives general satisfaction. The Democrats numbered seventeen out of the fifty-two members of the convention, and they were indefatigable in their efforts to give the Constitution a pro-slavery charachter, and to make distinctions of color as odious as possible.—They tried to "exclude all free persons of African descent from ever coming into the State, but their propositions were voted down by a large majority. They then labored to incorporate snto the organic law of the proposed State a provision protecting slavery in Kansas for one year, after the adoption of the Constitution. In this they failed. They worked assiduously against every proposed measure of reform, and tried to make the Constitution as infamous as the Lecompton swindle. When the Constitution was complete, it came up for final adoption; *every* Democrat voted *against* it; they protested against it, and refused to sign their names to it."

It would seem, then, that in Kansas the term Republican means a *free* State man, and the term *Democrat* means an advocate of *slavery*.

☞ A letter from St. Petersburg, of the 25th of July, states that the people there were greatly and disagreeably surprised at the announcement of the treaty of Villafranca. Napoleon's popularity, which had stood very high in the city, was on the wane as the inhabitants thought that Austria had not been sufficiently humiliated. It was said, however, that the Czar did not share in the feeling, as previous to the treaty day, an active correspondence had been kept up between his Cabinet and the Russian Ministers in Paris and Vienna. The Russian Ambassador to Pekin had enjoyed a most splendid reception. Government and the people were very proud of the frigate General Admiral. The Archduke Constantine had left for Spithead, London and Cherbourg.

☞ The Overland Friend of India, in an article referring to the great rebellion in China, remarks that there was no very clear evidence that it would succeed, or no great certainty that the government would be able to subdue it. A letter from one of the provinces in partial possession of the rebels states that the insurgents were publishing the Bible or certain parts of it, demolishing idols or certain Budhistic images, opening schools, &c.

THE DISAPPOINTED PIKE'S PEAK MINERS.—An Independence, Mo., correspondent of the St. Louis Republican says that the miners who had gone away disappointed from Pike's Peak were assembling in considerable numbers in Santa Fe, and it was thought that an expedition by them into Mexico might not be far distant. It was, however, merely surmised that this was their object, but the cry was "still they come."

☞ The San Francisco papers mention the discovery of a tin mine about sixty miles from Los Angelos, in the vicinity of Temascal. The ore has been assayed, and found to contain 32 per cent. of metal. This is an important and valuable discovery, and it is probable that capital will be promptly furnished for the profitable working of the metal.

☞ The Empress Eugenie is to have a sewing machine given her, by some Philadelphia manufacturers of the article. If her husband fails, she can earn an honest living by using the machine, and so make herself a useful member of society. He would seem to be in a fair way to be 'sewed up,' without the aid of any Yankee invention.

☞ In a town not five miles from Worcester, a creditor lately employed a rainy day by calling on his debtor for pay. The latter thought the creditor called too often, and after an angry discussion ordered him out of the house. The creditor obeyed, taking the debtor into the rain with him by the collar of the coat.

☞ An Irishwoman dressed in a black flounced silk, with a half pint bottle of gin for a companion, was picked up in the Springfield cemetery Saturday afternoon, pretty drunk, and taken to the lock up.—She had accompanied a funeral procession thither, and for some reason did not leave with it.

SALEM.—The valuation of the city of Salem this year is $14,102.220, of which $7,127,020 is real and $6,975,200 personal property. The total valuation is $111,500 less than in 1858, the decrease being in personal property. The number of polls is 4433. The rate of taxation is $8 on $1000; last year it was $7.40.

SALISBURY.—Rev. T. D. P. Stone of Salisbury has been engaged for orator, and John G. Whittier for poet, by the Amesbury and Salisbury Agricultural and Horticultural Society, for their annual Fair at the Mills Village on the 28th and 29th of next month. The music will be by the Union Band.

☞ Dr. Nott, President of Union College, has resigned. His age is 86, and he has been president 55 years or thereabouts.

DROWNED.—Sunday afternoon Rodney H. and George Hutchinson of Francestown, brothers, went into the river at Manchester, and swam to the opposite side. On their return, about midway of the river, Rodney was seen to struggle as if in want of help, when his brother immediately went to his assistance, but failed to keep him above water.

☞ Isaac C. Flanders, Esq., and wife were thrown from a carriage upon the side walk, in Manchester, and considerably injured. The horse was frightened by a kite thrown up from the street, and suddenly started, throwing them with their little son out violently.

☞ The Independent says Theodore Parker's last book, "in egotism, malignity, censoriousness and irreverence, must take rank with the worst effusions of Thomas Paine;"—that he is "in the lowest grade of infidelity, conceited, boisterous, discourteous, declamatory, profane;"—and that Dr. Holmes is "not one whit behind him in conceit and malignity against the Bible."

☞ The Exeter News Letter, speaking of the man killed in East Kingston on the railroad, with the rum-bottles in his pocket, says:—

We learn that the name of the man killed as above stated was Davis. He belonged in South Hampton. His wife with a child was sitting on a bank at the side of the railroad, when the accident happened.

The Boston Post says that brandy applications are recommended for baldness, continued externally until hair is well started, and afterwards taken in generous quantities internally, to clinch the roots.

A miserable sottish plea for a destructive and desolating vice.

☞ Buy Ayer's Cherry Pectoral for Coughs, Ayer's Sarsaparilla for Scrofulous complaints, and Ayer's Pills for all the purposes of a Purgative Medicine.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

SPECIAL NOTICES.

R. R. R.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Common Sense rules the mass of the people, whatever the misnamed and misanthrope philosophers may say to the contrary. Show them a good thing: let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified the judgment of a physician, concerning the virtues of HOSTETTER'S BITTERS, as may be seen in the immense quantities of this medicine that are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for diseases of the digestive organs, such as diarrhœa, dysentery, dyspepsia, and for the various fevers that arise from derangement of those portions of the system. Hostetter's name is rapidly becoming a household word, from Maine to Texas; from the shores of the Atlantic to the Pacific. Try the article and be satisfied.

Sold by druggists and dealers generally, everywhere.

Dyspepsia.

Considering the various forms in which this disease developes itself, it may well be called hydra-headed. In its train follow *Indigestion, Pain in the Stomach, Heartburn, Water Brash, Costiveness, Piles, Acidity, Oppression after Eating, Jaundice, Flatulency, Torpor of the Liver, Dizziness, Debility, Female Complaints, &c.* Some of the first men in our land have given their written certificates relative to the cures effected in their own persons by the OXYGENATED BITTERS; while testimonials from other sources, editorial opinions and voluntary expressions from persons averse to see their names in print, are perfectly overwhelming.

Read the following from a highly respectable Clergyman:

EAST TAUNTON, MASS., Feb. 9, '58.

To the Editor of the Portland Mirror,—Sir:—

OXYGENATED BITTERS—For more than twenty five years I have been a sufferer from the dyspepsia. Besides trying the patience of my family physicians in the almost useless trial of their various prescriptions, I have tried a great variety of patent medicines with a similar result. Through the kindness of my physician, I received last March, half a dozen bottles of the OXYGENATED BITTERS. I began to use them without any hope of deriving help from them. Being determined to give them a fair trial, I continued their use, but without any perceptible benefit till June.

Since then I have gradually improved in health till I am entirely free from acidity of the stomach, and from the consequent flatulency, and the awful and almost distracting sick headache, which often, for days together, has wholly unfitted me for study and for all other ministerial duties, and rendered life a burden.

I feel that I owe it, as an expression of gratitude to Messrs. Fowle & Co., and also a duty to the public, to recommend their Oxygenated Bitters, as, in my estimation, a sure remedy for that most trying, most vexing, and cruel of all diseases, to which poor human flesh is heir, the dyspepsia. Having suffered so long, and tried so many different remedies with no good result, I can recommend the Oxygenated Bitters with a confidence few others can. If any of the readers of the Mirror are suffering, I beg of them to make trial of these Bitters without delay.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. Dr. Langley's Root and Herb Bitters

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom. They act at once upon the very seat of disease. They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs, Now yield the palm to Langley's Roots and Herbs; Forsake vile drugs and cull from Nature's store, As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store, From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend; And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.

So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

LOCAL.

ROCKINGHAM ASSOCIATION. — The Rockingham Association of Universalists, began its annual session on Wednesday morning at the Universalist Church in this city.

The services were commenced with a voluntary and chant, prayer was offered by Rev. Mr. Greenwood of Malden, Mass., and the occasional sermon was delivered by Rev. Mr. Hicks of Dover.

At the close of these services, the council was organized in the usual form. Rev. Mr. Miller, moderator, Rev. Mr. Hicks, secretary.

In the afternoon there was a Sabbath School Conference, in which the singing was performed by the children, and addresses made by several gentlemen, viz:—Rev. Messrs. Goodrich, Spaulding, Campbell, Greenwood and Cobb, and by Wm. Richardson, Esq., of Malden. The services were opened with prayer by Rev. Mr. Wood of Ohio.

In the evening a sermon was preached by Rev. Mr. Chambre of Newark, N. J.

The services for to-day are to be as follows:

Thursday—Prayer meeting at 8 o'clock, and public services at 10 o'clock A. M. At 2 o'clock P. M. a sermon will be preached, at the conclusion of which the Lord's Supper will be administered.

DROWNED.—A man named John Jenkins, aged about 45, belonging in Kittery, mate of a fishing schooner recently arrived at this port, was found drowned on the southern shore of Noble's Island, near his vessel, on Wednesday morning. The Mayor, with others, examined the body, but found no bruises or evidence of foul play; and it is supposed that he fell overboard while going on board the schooner. He was in a drinking saloon in this city on Tuesday evening; and we are informed that his habits were such as to lead to the suspicion that some other liquid besides water may have been instrumental in his death. We believe he left no family.

☞ Brewery No. 3, in this city, is being erected by John Swindell (the original brewer here) and others, in a conspicuous position at the junction of Islington and Creek roads. Probably the tax, direct and and indirect, to support these three establishments—that is, the loss and injury induced by them—is more than the aggregate city expenses. However, if the people favor them, they will have them—but it is a pity they can't be as willing to contribute to something to elevate the public taste and improve the race.

☞ The hay crop in this vicinity is now about secured. The average yield is less than last year; low ground grass falling short about one-third, and in some cases one-half, having been winter-killed by the ice which was so abundant last winter.—High lands have yielded well, and the weather during the haying season has been uncommonly favorable, so that the crop has been secured in prime order.

KIRBYE'S OLYMPIC VARIETIES.

This company of old favorites in this city have returned, and will give three performances at the Temple, commencing Saturday afternoon, Aug. 30th, at three o'clock; and in the evening at 8 o'clock. The last levee will be given Monday evening, Aug. 22d. Admission in the afternoon 10 cts.: in the evening 16 cts. These entertainments are everywhere spoken favorably of by the press. Nearly two years have elapsed since Prof. Kirbye appeared before large and highly entertained audiences here, and his old friends may fully expect to see many improvements in his entertainments since that time. He has an excellent programme—for which see bills.

Messrs. Editors':—Hardly a night passes but some outrage is committed on the business streets of our city, by a set of brainless rowdies who nightly congregate on the corners of the streets, to the great annoyance of all well disposed persons.

Sometimes their heathenish propensities are gratified by mutilating awnings, scratching shutters, signs, &c.; at others, filling up key holes with mud or water, or doing other things too contemptible to mention.

We think it is high time such proceedings were put a stop to.

Could not our very efficient (?) watch take the matter in charge and save, private citizens the trouble of taking the law into their own hands?

A LOVER OF LAW AND ORDER.

☞ Pioneer Engine Co. No. 8, of Fisherville, accompanied by the Fisherville Brass Band, arrived in this city Wednesday morning, and were received by Chief Engineer Hadley, Foreman Grogan of No. 2, and other members of the Fire Department, and the usual hospitalities of the order extended. They partook of a collation in the Hall of No. 6, dined at the City Hotel; and made an excursion to the Shoals in schooner H. E. Bishop, in the afternoon. They will return home this afternoon.

☞ The Portsmouth Cornet Band will make an excursion to the Shoals on Friday, August 19th, in the new and fast-sailing schooner, H. E. Bishop, Capt. Joseph Amazeen. Leave Lyman's Wharf, near Spring Market, at 8 o'clock.

N. B.—Should the weather prove unfavorable, the excursion will take place the first fair day. All are invited! Tickets 50 cents.

☞ Arrangements will be made with Fire Companies proposing to attend the Firemen's Muster at Manchester, by which they will be passed over the Concord, Manchester & Lawrence and Concord & Portsmouth R. Rs., Wednesday, Thursday and Friday, September 14th, 15th and 16th, with the music accompanying them, for half fare for each and every man transported. This arrangement applies only to companies attending as a body, and making special application to the Superintendent in advance. All others will be charged regular fare. Fire engines will be transported free. Extra trains will be run to accommodate all who may wish to attend the Muster.

JOSEPH A. GILMORE, Supt.

Concord, Aug. 15.

☞ We have received from Mr. P. H. Niles, No. 3 Arch street, Boston, a handsome pamphlet of a hundred pages, treating of the wonderful efficacy of the "Hypophosphites," which will be found advertised on our fourth page. The book is entitled, "Treatise on the immediate cause and specific treatment of pulmonary phthisis, and tubercular diseases."

OBITUARY.—The Barnstable Patriot announces the death, in Falmouth, of Hon. John Jenkins, who had been a State Senator, member of the Constitutional Convention, and for twenty years, President of the Falmouth Bank. He was a most industrious, intelligent and conscientious man.

REV. A. L. STONE.—A Paris correspondent of the New York Journal of Commerce, writes:—

"I attended to-day, as I did last Sunday, the American Chapel, and had the great satisfaction of hearing a sermon from Rev. A. L. Stone, of Boston. It was from the text, 'Who will show us any good? Lord, lift thou up the light of thy countenance upon us.' It was rich in thought, and beautiful in diction; a string of pearls, possessing intrinsic value and lustrous beauty."

☞ About 12 o'clock Tuesday, a shed adjoining the track of the Northern Railroad at West Andover, N. H., was discovered to be on fire, caused probably by sparks from the locomotive of the up train, which had just passed. The shed was 200 feet long by 28 feet wide, and was filled with dry wood, which burnt with great rapidity, making an intense heat for half a mile, twisting the rails and consuming the sleepers on the track, rendering it impossible for the trains to pass.

CALIFORNIA AND SANDWICH ISLANDS. *St. Louis, Aug.* 17.—The overland California mail of July 25 has arrived. A fire occurred on the 23d ult. at Grizzly Flats, which destroyed 30 buildings. Loss not stated.

The political excitement in the State was increasing, and the quarrel between Broderick and Gwin had reached the grossest personalities.

Advices from Sandwich Islands state that the new 10 per cent. tariff was not to be enforced until September, 1860.

OSWEGO, Aug. 17.—The Ontario Grain Elevator was burned this morning. The warehouse contained about 150,000 bushels Chicago spring wheat and corn. Loss $150,000; insured mostly in New York companies.

CONCORD, N. H., Aug. 17.—A two-story dwelling house, occupied by L. W. Nichols, on Thompson street, was nearly destroyed by fire this morning. Furniture badly damaged; uninsured. House insured for $800.

NEW YORK, Aug. 17.—The public Tea Sale, this morning, was not very spirited, and composed mostly of greens, which sold at a decline from the last sale.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

ENFIELD, Sept. 8, 1859.

Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S Swett's Cordial of Dandelion, and the disease left me, and has not returned.

A. K. CURRIER.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is floooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balaium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 67 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable favor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

Ayer's Cherry Pectoral.

From the N. H. Gazette.

True Popular Sovereignty.

The prominence which has been given to the theme of Popular Sovereignty by a portion of the public press within the past two years, has almost made us disgusted with the name, and we had about concluded to forbear even its further mention in our columns. But the very fact that so much has been said, and absurdly said, upon this theme, seems, on reflection, to call for a further discussion of the subject, for the purpose of correcting the errors which have been so assidunously instilled into the public mind in regard to it.

True Popular Sovereignty, then, as applied to the Territories, is the privilege of the people therein residing to manage their local or domestic affairs in their own way, *subject always to the Constitution of the United States and the just and proper laws of Congress.* We say *privilege*, because we utterly deny that such a thing as sovereignty attaches to a Territory while in its Territorial condition; and without sovereignty there can be no *rights* of self-government—only privileges. These privileges are conferred by Congress, the sovereign in the case under the Constitution, and must be exercised in accordance with the will of the granting power, and subject to the limitations of the fundamental law or the Constitution. Congress delegates its power to the Territorial Legislature, but it can transfer no power which it does not itself possess under the Constitution; and the Territorial authorities, in the exercise of the privileges and powers conferred, must conform to the requirements of Congress and the Constitution.

This is the doctrine and practice which has obtained in the role of the Territories from the foundation of the government. It perfectly accords with the Cincinnati Platform, and even with the Kansas-Nebraska bill, for that act expressly declares that the powers conferred by it are subject to the Constitution of the United States—thus plainly implying, what is indeed a truth, that Congress can neither transcend the Constitution itself nor delegate such power to any other body. That it is a sound, just and constitutional doctrine, it seems to us a very little reflection will satisfy every honest mind, and it is to such only that this article is addressed.

The Territories are the common property of the United States, purchased by the common treasure or common blood of the nation. Being such, the duty of guarding and protecting them necessarily devolves on Congress, as the agent or trustee of the nation; and besides, the Constitution expressly provides that Congress shall have power to dispose of and make all needful rules and regulations respecting the Territories. This provision alone would seem to settle the question as to where the sovereignty of the Territories resides—to show that it is vested in Congress and nowhere else, to be exercised always in accordance with the requirements of the Constitution. No prominent statesman of any party, so far as we know, claims now, or ever has claimed, that the Territories are sovereign. Mr. Douglas himself concedes that they are not, and that they derive all their powers from Congress. Indeed, the fact that acts of organization are required from Congress, and the very terms of these acts, even of the Kansas bill, furnish a sufficient argument to disprove the idea that sovereignty resides in the people of the Territories. If the Territories are sovereign, why are acts of Congress necessary for their organization and government, and why do these acts grant only certain limited powers to the people, while they reserve all other powers to the federal government—such as the fixing of boundaries, disposing of lands, appointment of Governor, judges and other officers, and the like? If the people are sovereign while in the Territorial condition, why do they not exercise all these powers for themselves, without permission or hindrance from any source, as it would be their right to do?

From these facts and considerations, we think it results conclusively that sovereignty does not belong to the people of the Territories, but, on the contrary, that until they attain to the numbers and strength to enable them to assume the burdens as well as to enjoy the privileges of self-government, and are admitted into the Union as States, they possess no powers except such as they derive from Congress, and also that Congress can delegate no authority that it does not itself enjoy. This conclusion brings us back to the position we started with, to wit: that true Popular Sovereignty, as connected with the Territories, is the privilege of the people to conduct their local affairs in their own way, always within the limits of the Constitution of the United States and the constitutional requirements of Congress. This is a rational and proper privilege, to which all Democrats assent, and which none would abridge or interfere with. It is akin to the Popular Sovereignty enjoyed by the people of the sovereign States, for they can exercise the rights of self-government only in conformity with constitutions and law. To claim greater power than this for the inhabitants of the Territories—that they can disregard constitutional requirements and trample on constitutional rights at will, and none can stay their hand or say "why do ye so?"—is simply absurd, and cannot be maintained.

To the true doctrine of Popular Sovereignty, as thus defined and set forth—the privilege of the people of the Territories to conduct their local affairs in their own way, subject to the Constitution and the proper requirements of Congress—we yield our hearty assent and shall always give our cordial support; while the absurd heresy of *squatter* sovereignty, or the right of the people to do as they will in the Territories, regardless alike of any power above them and of the demands of a decent morality and civilization, we as heartily condemn and shall as persistently oppose. It is opposed alike to justice, the Constitution, the Democratic platform and the entire course of the government in reference to the Territories. We deny that "unfriendly legislation," or any other legislation or means, can rightfully be employed by the majority in a Territory, any more than in a State, to destroy or in any way impair the just and constitutional rights of any portion of the people. And we insist that whenever, if ever, such an attempt shall be made, as we cannot think it will be, the minority will be entitled to full and adequate protection.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and can say, of it, what we have of any other medicine, NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who tried it. On the contrary, all are delighted with its operations, and speak in terms of the highest encomiums of its magical effects and medicinal virtues. We speak, in this matter, *what we do know*, after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, a single dose will be followed in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST SKILLFUL NURSES EXPERIENCED and in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will also relieve

GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe this to be the best and surest REMEDY EVER OFFERED IN ALL CASES OF DYSENTERY AND DIARRHEA, IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others*, stand between your suffering child and the relief that will be THEIR SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper of each bottle. Principal Office, No. 13 Cedar st. New York.

Price only 25 cents per bottle.

LAW SCHOOL OF THE UNIVERSITY

AT CAMBRIDGE, MASS.

The Instructors in this School are:

Hon. JOEL PARKER, LL. D., Royale Professor.
Hon. THEOPHILUS PARSONS, LL. D., Dane Prof.
Hon. EMORY WASHBURN, LL.D., University Prof.

THE COURSE OF INSTRUCTION embraces the various branches of the Common Law; and of Equity, Admiralty, Commercial, International, and Constitutional Law; and the Jurisprudence of the United States. The Law Library consists of about 14,000 volumes, and as new works appear they are added, and every effort is made to render it complete.

Instruction is given by oral lectures and expositions, (and by recitations and examinations in connection with which there are ten exercises every week. Two Moot Courts are also holden in each week, at each of which a case previously given out is argued by four students and an opinion delivered by the Presiding Instructor. Rooms and other facilities are also provided for the Club Courts; and an Assembly is held weekly for practice in debate, and acquiring a knowledge of parliamentary law and proceedings.

Students may enter the School in any stage of their professional studies or mercantile pursuits, and at the commencement of either term, or in the middle, or other part of the term.

They are at liberty to elect what studies they will pursue, according to their views of their own wants and attainments.

The Academical year, which commences on Thursday, six weeks after the third Wednesday in July, is divided into two terms of twenty weeks each, with a vacation of six weeks at the end of each term.

During the winter vacation, the Library is opened, warmed and lighted, for the use of the members of the School.

The exercises of the next term will commence on MONDAY, September 5th, 1859.

Applications for admission, or for catalogues, or any further information, may be made to either of the Professors at Cambridge.

THE GREAT ENGLISH REMEDY.

Sir Jas Clarke's celebrated Female Pills

Prepared from a prescription of Sir Jas. Clarke, M. D., Physician Extraordinary to the Queen.

Unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

CAUTION.—*These Pills should not be taken by females that are pregnant, during the* FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time, they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and do not contain any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,

JOB MOSES, ROCHESTER, N. Y.

$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail. july9

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets nail tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance, being quite glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 19, 1858.

PROF. WOOD—DEAR SIR: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks, and find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD.

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose will cure DIARRHŒA in its worst form, in a little time. DYSENTERY & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received before 12 M. will be in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.

Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. Its pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be by return mail or any other wise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be induced to try incompetent pretenders and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions and cheating practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey; Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Steam Scouring and Fancy Dyeing,
IN BOSTON
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the Art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing in a new and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color. Silks, Silk Dresses and Ribbons watered.

Seven Octave Piano --- New Scale.
The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale,** which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.
Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.
Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE.*

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1857.
76 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWIX rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, TUMORS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the encurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, many feel better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsparilla for one dollar. Most of these have been worthless upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cursed, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the Blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick man the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

The Chronicle.

Portsmouth, N. H.

FRIDAY, AUGUST 19, 1859.

☞ We see by a Philadelphia paper that there are in that city three hundred and ten churches, valued at four million dollars, which are free from taxation. We cannot for the life of us, says the Newburyport Herald, see why, under a government like ours, where there is no established religion, and where every man by the constitution is free to worship God according to the dictates of his conscience, or not at all, if such is his pleasure, he should nevertheless be called upon to contribute indirectly to the support of any and every denomination, Catholic, Protestant, Mormon,—and in California, even Chinese paganism,—by being forced to bear an undue share of the public taxes in consequence of thousands of costly churches, cathedrals and pagodas being thus exempted from all participation in the burden. Some of these establishments hold real estate to the amount of several millions, and yet keep closed doors against all poor outside sinners who may desire to hear the gospel, except the overgrown merchant princes who find it for their advantage to invest in such preferred stock. We are in this respect behind poor misgoverned Mexico, where the efforts of the liberal party have been directed to relieving the people from the burden of their ecclesiastical establishment, which had well nigh absorbed all the wealth of the nation.

☞ The Portland Argus, an anti-Maine Law paper, says great excitement was caused in that city Wednesday forenoon, by the City Marshal breaking open an iron safe in quest of liquors at a saloon. The Marshal, with two deputies, proceeded to the Exchange Coffee House, with a search and seizure warrant. Upon entering the premises the Marshal observed Mr. Annis, the keeper, putting some bottles into the iron safe. He requested Mr. Annis to open the safe, which the latter declined to do.—The Marshal then requested the key of the safe, but Mr. A. refused to deliver it to him. A machinist was sent for, and in spite of the commands of the storekeeper, cut off the hinges and took off the iron strip on the side, in doing which he was at hard work for an hour and a half, and the safe was spoiled. In it were found nine bottles of various kinds of liquors, averaging about one pint each, which were taken to the police office. The Marshal consulted the County Attorney before he ordered the safe to be broken open. The Argus says a very large and excited crowd gathered, and that they have not witnessed so much excitement since the June rum riot in 1855.

BEWARE OF PORK!—We should advise all New Yorkers who value their health and happiness, not to say their lives, to rigidly abstain from the use of pork for several weeks to come. We have good authority for knowing that some hundreds, if not thousands, of hogs have lately died, of some disgusting disease, in the neighborhood of the city, and that, in spite of the authorities, their flesh has got into the markets. The only protection people now have is, on no account to buy or eat a bit of pork until time has been given to get rid of the horrid carrion. Even in the country folks should be careful; for, if it does not find a sale here, it may be sent out of town to be disposed of. Miscellaneously fed pork is abominable enough, as an article of food, at any time. Just now it is neither more nor less than a broadcast pestilence.—*Porter's Spirit.*

Will Porter's Spirit please to tell the public whether these diseased hogs were distillery, brewery, slaughter-house, or farmers' hogs. We presume from their being near the city, they must have belonged to some "Institution."

THE MORMONS.—The Utah Valley Tan—the organ of the Gentiles—states that the Mormons estimate their whole number in Europe and America at 123,000. In 1857 there appears to have been a decrease in the population of Utah—the number being only 31,022, of which 9,000 were children, about 11,000 women, and 11,000 men capable of bearing arms. There are 2,388 men with eight or more wives—of these, 13 have more than 19 wives; 730 men with five wives; 1,100 with four wives, and 2,400 with more than one wife. Recapitulation: 4,617 men, with about 16,500 wives.

☞ Hon. Daniel Hoit of Sandwich, N. H., one of the earliest and most successful merchants and farmers of Carroll county, died at his residence in that town, on Monday. He was the earliest candidate of the anti-slavery party for Governor, having first been put in nomination twenty years ago. Gen. Hoit was 83 years of age, and retained his full mental vigor to the last. He was President of the Carroll County Bank, at the time of his decease.

☞ "Dress," says Theodore Parker, "is the vicarious atonement whereby ugliness hopes for redemption."

☞ Rev. Dr. Bellows denominates spiritualism one of the diseases of the human mind.

How were Adam and Eve turned out of Paradise? They were *snaked* out.

THE PEACH CROP.—As a general thing, the peach crop of New England will prove an utter failure the present season. In a few favored localities a small number may be gathered, but these cases will be exceptions to the general rule. The Traveller is informed by Mr. George Hyde of Newton, who is the owner of one of the largest fruit orchards in Massachusetts, that he did not discover a single blossom upon his peach trees last spring; but he has since found three peaches growing upon one branch, which will constitute his entire crop for the year.

☞ A member of the Mississippi Legislature, at one of its late sessions, introduced a bill to change the name of a certain county in that State to Cass county. One of the opposition moved, as an amendment, that the letter C be stricken out of the proposed name. This motion created some laughter at the expense of first member offering. Nothing daunted, however, he arose in reply, and said, "Mr. Speaker, this is the first instance that has come to my knowledge in which a member has had the assurance, upon the floor of any legislature, to propose to name a county after himself."

☞ On the 25th ult., the citizens of New London, Conn., in city meeting assembled, took measures to repudiate certain scrip to the amount of $100,000, issued by said city. On Thursday last, in pursuance of a call signed by nearly 400 citizens, a meeting was held, at which it was proposed to rescind this resolution, and remove the disgrace of repudiation from New London.—On the reconsideration the whole number of votes cast was 915; of which 421 were in favor of the resolution to rescind, and 494 against it—and it was accordingly declared to be lost by 73 majority.

☞ The Manchester Union Democrat sets down the next House of Representatives, as probably Democrats, 96; A. L. Democrats, 9; Republicans, 113; Americans, 19,—and then says:—

Now, who can get 119 votes for Speaker? The Republicans will lack six. We do not think they can get them for a straightouter, for they will have but nine to get them out of, and we confidently expect four or five of the Anti-Lecompton men will act with the Democratic party, and that the rest will stand alone, unless they are secured to the Republicans by some trade which will not be very satisfactory to the mass of the party. If a distinct negro issue is made, we suppose the whole South American strength will be given to the Democratic candidate, which brings him about as near an election as the Republicans are likely to get. Thus it seems that the little squad of Anti-Lecomptonites are in a position to *command* a great deal more respect than they deserve. If a peace is patched up with Douglas, he will let them all go with the Democratic party again, and the choice of Speaker will probably depend upon the presidential look at that time.

This certainly does not look like a *finality*,—nor yet does it look like any body's walking over the presidential course.—Newspapers will be read next winter, and Congress will have a lively session, perhaps somewhat excited.

The loss of the next House by the democrats is now fully assured. The only question is whether it shall be organized by the republicans, pure and simple, or by a coalition of them and the northern anti-Lecompton democrats and southern opposition. The latter is the course most likely to be pursued, even if the former be possible.—*Manchester American.*

ASSAULTS UPON FEMALES.—In the Superior Court, Criminal Term, held at Fitchburg, Mass., Andrew Laverty, convicted of an assault upon the person of Ellen M. Price of West Boylston, was sentenced to the State Prison for life. George Bartlett of Leicester, for an assault on Eunice B. Russell, was sentenced to ten years in the State Prison.

☞ A Chicago paper says:—

The Republican Club of the Seventh Ward will hold a great People's Festival, on Clybourne avenue, on *Sunday*, July 31, 1859. The Great Western Band is engaged, and will do their best. For plays, *drinks*, sports and eatables, everything is provided. Many favorite speakers will address the assembly.

These must be *white* republicans, and drunken ones too.

☞ The St. Louis, Alton and Chicago Railroad were obliged to suspend operations on Wednesday, in consequence of a strike of the employees of the road. It was supposed matters would be arranged in a few days.

MODESTY.—An Irish corporal, who now and then indulged in a noggin of right good poteen, was thus accosted by his captain, whilst standing at ease: "Pat, what makes your nose so red?" "Plase yer honor," replied Pat, "I always blush when I spakes to an officer."

☞ The Pope has been witty about his honorary Presidency, and has declared that it "puts him, like the ball at the top of St. Peter's dome, out of reach of the earth, and lost in the clouds."

☞ A drunken biped, Chas. H. McComb, at West Roxbury, choked and almost killed a girl of 14 years, who was stopping with his wife. McCobb is in Dedham jail.

☞ Camping out excursions to the White Mountains are becoming frequent.

FROM EUROPE.—By the steamer Saxonia, at New York, we have details of European news to the 4th inst. All vessels at the various French ports are being disarmed, those in the roads are ordered back into port, and all sailors that have served five years are discharged.

The Sardinian Minister has declared that Sardinia cannot accede to the proposals of France to make efforts to have the Grand Dukes recalled. An article in the Paris Constitutionnel, headed "Ingratitude of Italy," reminds Italy that if the powerful hand which is extended over it is withdrawn, neither the fine speeches of the English Parliament nor the sterile sympathies of the liberal party can prevent Austria from dominating again in Italy, from Turin to Messina.

Piedmont declines entering the Italian Conference, if Austria forms a part of it.

☞ The New York Tribune says that a dinner was given to Mrs. Stowe, previous to her departure for Europe, at the Revere House, Boston, by the Atlantic Club, we believe. She accepted the invitation on condition that wine should be prohibited.—Prof. Stowe, Miss P——, and Mr. J. G. Whittier were also of the party. The table was innocent of wine, until the invited guests had departed.

RUSSIAN DEMAND FOR AMERICAN BOOKS.—The New York Post observes that few people have any idea of the extent to which some of the book publishers of New York are interested in the Russian trade.—Last week the Appletons filled an order for three hundred dozen American works, chiefly of American authors, with a few reprints, for St. Petersburg. These American books go to stock a circulating library in the Russian capital.

☞ A Newport letter eulogizes "a lady from the Palmetto State," who is the patron saint of the Bellevue House, for originating "dancing mornings," where "the orchestra play splendidly, and the ladies, aided by the gentlemen, dance most bewitchingly.—There is an entire absence of the usual formality of the ball room, and of the evening dance, as well as of the strictness in dress, so that it appears, in its easy manner, charming."

TERRIBLE SHOWER AT BALTIMORE.—On the afternoon of Saturday last, Baltimore and its vicinity was visited by one of the most terrific thunder storms that has occurred there for years. Rain fell in torrents for about an hour, floating the lower part of the city, and the lightning struck in many places. The only serious disaster was the killing by lightning of two persons who had taken refuge under a tree. Their names were George H. Hall and his son, Wm. H. Hall. Another son was stunned by the same stroke, but he shortly recovered to find his father and brother both dead.

☞ Rev. Dr. Baird, referring in a recent letter to a biographical sketch of the late Robert Walsh, prepared in Paris by M. Lomard, says:—

"I have said that M. Lomard must now be an old man, but perhaps I ought to take that back—for men in France and Europe generally, are not as old at *eighty* as we are at *sixty*. Humboldt at fourscore was not beyond his prime, and Lord Palmerston at threescore and fifteen scarcely began to think of being old. We live *too fast* in this country."

A RIGHTEOUS SENTENCE.—In the Superior Court, Boston, Judge Russell sentenced Orlando B. Merrill, of East Boston, for incest, to *twenty years* at hard labor in the State Prison, the first five days to be solitary confinement. The sentence is a just one.

☞ The Norwich (Ct.) Bulletin states that Mons. Blondin will not come to that city, and walk upon his rope across the Thames. He wants $1500 for the trip, and the Agricultural society will give but $1000, and have a man partially engaged for that sum.

An agricultural exhibition on the tight-rope! Such agriculture as this seems to be a humbug.

VICTOR EMANUEL AND FRANCIS JOSEPH.—A Turin letter in Le Nord, of Brussels, says that Victor Emanuel had an interview with Francis Joseph after the signing of the preliminaries of Villafranca, and that these personages have a perfect understanding with each other as to the affairs of Italy.

A letter from Rev. Theodore Parker has been received in Boston. He was still at Montrieux, Switzerland, on the 20th of July. His distressing cough has nearly disappeared, though a slight cold caught during a journey upon the Lake had retarded his recovery. His friends are encouraged to believe that he will ultimately return to this country a well man.—*Traveller.*

☞ A table compiled from official documents, gives the number of free-masons in the United States as 211,538, and the income of all the lodges is about $1,450,000.

NEW YORK, Aug. 16.—In the two mile trot to-day, between Flora Temple and Princess, the former won in two straight heats. Time—4:50 1-2, 5:05.

Let us be always cheerful; if life is a burden, let it be the burden of a song.

BOSTON — VALUATION, TAXES, &C.—The valuation of property in the city of Boston for 1859, is just concluded. The following is the result: Real estate, $157,092,800; personal, $104,921,700. Polls, $33,323. Total valuation, $562,014,500. The amount to be raised the present year to meet the expenses of the city, is $2,500,000. In 1858, it was $2,170,000. The rate of taxation this year, is 97c per $100—last year, 86c. The increase of polls this year, over the last, is 702.

GRAND DUKE OF TUSCANY SCOUTED. The *Opinione* of Turin declares that the Grand Duke Leopold, in abdicating in favor of his son, has relinquished a power which he no longer possesses. It is too late, it says; Tuscany will have nothing more to do with Austrian princes, colonels and proprietors of regiments, vassals of Austria.

EXTRAVAGANT DINNERS AT SARATOGA.—One lady is reported to have given a dinner to twenty friends which cost $400, and a New York banker paid $750 for twenty-eight persons. A Southerner, however, surpassed that, he having paid $1400 for one dinner, the largest private dinner ever given at that fashionable resort.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Sold by druggists and dealers generally, everywhere.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a household word, and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

CONCORD, N. H., March 2.

MESSRS. SETH W. FOWLE & CO.,—*Gentlemen*:—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,

HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all Bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strength, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs;
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.
So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

LOCAL.

☞ The Rockingham Association of Universalists continued and closed their annual session in this city on Thursday; the council meeting at 7 o'clock A. M., and a prayer meeting at 8. The forenoon sermon was delivered by Rev. Mr. Spaulding of Newburyport; and that in the afternoon by Rev. Mr. Greenwood of Malden. The administration of the Lord's supper closed the public services, which were well attended throughout.

The church was decorated with numerous and beautiful flowers, tastefully arranged in elegant vases; all being in admirable harmony with the finish of the house, and with the tone of the services.

The Association voted to hold its next annual meeting at Dover, and to have a quarterly conference at Epping, Oct. 26 and and 27.

☞ A friend wants to know what we have against the Brewers? Nothing—we have done business with all of them, and have no fault to find with any of them personally. It is only the *brewing* that we dislike,—and not that so much, either, as the *drinking*. We believe the accursed stuff rightly named "Dutch swill," is not a whit better than other liquors; at least it leads to the drinking of the others. All drunkards drink beer, if all beer-drinkers are not drunkards—which last they probably all *will* become.

Doctors may order it, and men and women of ever so much respectability may guzzle it down—yet vile stuff it is, and ever will be. Science says so, and experience and observation agree.

In the least important view, the pecuniary—the sum wasted for tobacco and injurious drinks in Portsmouth, in a single year, would probably build us a splendid City Hall, to say nothing about the injury produced.

ROCKINGHAM FAIR.—The Seventh Annual Cattle Show and Fair for Rockingham county, is to be holden at Exeter on Thursday and Friday, the 22d and 23d of September. A new feature will be added to the usual attractions, in a Market Day, on Saturday, which will afford a rare opportunity for the purchase and sale of stock, &c., besides having a tendency to keep all the premium stock at the show throughout the exhibition. More particulars will be given in our columns as soon as definite arrangements are made.

☞ The Portsmouth Cornet Band will make an excursion to the Shoals on Friday, August 19th, in the new and fast-sailing schooner, H. E. Bishop, Capt. Joseph Amazeen. Leave Lyman's Wharf, near Spring Market, at 8 o'clock.

N. B.—Should the weather prove unfavorable, the excursion will take place the first fair day. All are invited. Tickets 50 cents.

☞ The "Pioneer" Fisherville Fire Company returned from their excursion to the Shoals on Thursday afternoon, and took the afternoon train for Concord. The whole company on board the schooner numbered ninety-four, of whom seventy-two tested the depth of human misery termed sea sickness which we wouldn't experience for a view of "all creation."

KIRBYE'S VARIETIES, a series of which exhibitions are to commence at the Temple Saturday afternoon at 3 o'clock, and continue in the evening at 8, are thus spoken of by a Haverhill paper of July 15:

"Both the man and his exhibitions are of peculiar excellence, and deserve the support of the community."

All who have visited Prof. Kirbye's entertainments will testify to their excellence.

☞ "All is not gold that glitters," to be sure—but they *are* selling a large amount of Watches and fine gold Jewelry at Adams' sales rooms every evening.

☞ Elder Edwin Burnham will preach in the Advent Chapel Sunday forenoon and afternoon, and at six o'clock on Market Square.

CITY HOTEL.—This old hotel, after many changes, has passed into the hands of Mr. Joseph B. Flagg, (long may he wave,) formerly of Exeter. In the capacity of host Mr. Flagg is becoming deservedly popular. The house is orderly kept, and those who feed at his table speak in high terms of the excellence of his *cuisine*.—*Ballot.*

☞ The Ballot says there are 14 lawyers in our city to look after our worldly affairs, and only 8 clergymen to attend to our eternal interests.

A STABBING CASE.—On Monday evening last Antonia Graft, an Italian organ grinder, was set upon by a gang of hilarious young bloods of Newmarket, and badly beaten. He finally turned upon his assailants, and with a screw driver stabbed one of them, John S. French, just below the breast bone, inflicting a wound which it was believed might prove fatal. The *organist* was brought before Samuel A. Hasey, Esq., on Tuesday, to answer to the charge, but the examination was postponed to await the result of the wound.—*Ballot.*

OREGON ELECTION.—Official returns from every county elect Stout, dem., to Congress by forty-five majority.

CAMP MEETING AT HAMILTON.—The Eastern Railroad are making extensive arrangements to transport passengers to and from the Camp Meeting at Hamilton next week. It is anticipated that this will be one of the largest gatherings of the kind ever seen in Massachusetts.

The spot on which the meeting will be held was selected after a long and careful examination of many localities, and has peculiar fitness for the purpose designed.—The arrangements for the week commencing Aug. 22d, are that persons leaving Portsmouth for the Camp Meeting will take the regular Boston trains at 7.15, 11.15 A. M. and 5.30 P. M., and returning will leave Hamilton for Portsmouth at 8.35 A. M., 4.05 and 6.05 P. M.

☞ The Manchester Mirror says, Judge Sawyer of Nashua will retire from the Suprome Bench of New Hampshire during the coming autumn. This will make two vacancies, Chief Justice Perley having already resigned.

OFF IN A TANGENT.—We have of late often made extracts from the papers of the Democratic party in this State, to keep our readers posted up on the *various* views of popular sovereignty, slavery, &c., entertained by those papers—especially by the N. H. Gazette, as it *was* and as it *is*.

Alluding to recent matters in the Gazette as it *is*, the Union Democrat says:

We shall not continue a quarrel with the Portsmouth Gazette upon the negro question. We have said enough to indicate the views we entertain, and to repel for ourselves the imputation of *duplicitly* and *falsehood* to which, we fear, some of our political friends may become obnoxious. We drop the matter the more cheerfully, because we know it involves an abstraction only. * * *

We would be glad to secure a recognition of popular sovereignty as *we* understand it; for it clears the way for the annihilation of Republicanism in 1860, and certainly does nobody any practical wrong. * * * But here is an *abstraction* in the way—just one of those beautiful little concerns which have so effectually tripped us for the last five years.

We speak of the negro question with sentiments of profound disgust. There is slavery, and there are the territories. There is *no* power in *any* government which can even modify the inflexible *destiny* by which they are controlled; and we are vexed that honest and patriotic men should be eternally sacrificed, and knaves and traitors promoted, by the empty abstractions which grow out of these matters. * * * *

We beg our friend will understand that we abate no jot nor tittle of our convictions as before expressed; but we leave the field in pure disgust, which a column of arguments would not remedy. Shades of Webster and Clay, and all the sages of 1850—builders of the Baltimore platform, and thou, Stephen A. Douglas, inventor and patentee of popular sovereignty! vouchsafe another dispensation, for *some of us* are still groping in Egyptian darkness. Office of the Gazette No. 31 Daniel street, Portsmouth, N. H.

The Sparkling volume of Colonel Fuller, entitled "Sparks from a Locomotive," speaks of ex-President Pierce in Rome in this wise:—

"But of all the strangers of distinction of Rome, none is more courted or more respected than our much abused ex-President, Franklin Pierce. Modest, affable and courteous, everybody is seeking his society with as much eagerness as he avoids publicity. He refuses all invitations except it be to join a few Americans: and then,—for instance at a 'codfish dinner' at Harry Stone's,—we find him the most entertaining and the most agreeable companion. He will leave soon for England, which he has never visited, and where he will find it difficult to avoid all the honors that await him.

I see some American papers are urging General Pierce's name as a candidate for the next Presidential term, but it is utterly useless. Nothing can induce him to accept a second nomination, nor a public office of any grade. Notwithstanding my own 'official head' was one of the first to roll into the bushel under General Pierce's administration, yet I cannot forbare saying, in all sincerity and truth, that I would sum up his biography in these brief words:—'He was a brave General; a patriotic President; an honest man. His enemies found it easy to abuse but impossible to impeach him.'"

SARATOGA GOSSIP.—Burleigh in the Boston Journal, says of Saratoga:—

The daily morning prayer meetings increase in interest and are now crowed.—The largest churches are full as can well be.

The ladies paint this season; it is all the rage. Not the old, the faded, those whose beauty is on the wane, but the young also; not rouge laid on with delicate fingers, and with tints hardly discernable to the eye, but laid on with a heavy hand, and with an openness that is worthy of a better cause.—In the night the complexion really is dazzling, and the face wears a hue almost angelic in brilliancy. But in the morning, bah! the face looks boiled, and resembles a white enameled side of leather, cracked by the cold weather. If this habit were omitted, and the dresses outside were longer than the under dresses, or if the latter were of better material, if they must be seen, or were more comely, the crowds at this place would be more worthy of inspection. It is the universal remark that there are more commonly dressed women at Saratoga than at any other season, and this, too, is my judgment. Tinsel and untidyness do not go well together. On this account the balls are not attractive.

☞ The Islander of the 5th inst. says that oats, barley, turnips and potatoes will be abundant in Prince Edward Island this season. The hay crop will be deficient, and the early sown wheat has been attacked by the weevil.

A fellow was arrested for stealing ducks, and after a description of them, the counsel for the prisoner said, "Why, they can't be such a rare breed, for I have some of them in my own yard." "Very likely," said the complainant, "I have lost a good many ducks lately."

CRINOLINE AT CHURCH.—A visitor was condoling with the old woman who opens the pews for the congregation of an English church, on the great amount of work she had to do. "Yes," replied she, "we used to have to only open the doors, but now we have to push in the dresses."

No man should be so much taken up in the search of truth, as thereby to neglect the more necessary duties of active life; for after all is done, it is action only that gives a true value and commendation to virtue.

If God designed men to worship the *past* instead of pressing forward to new discoveries and new acquisitions, why didn't he place the eyes on the back side of the head?

Be not angry that you cannot make others as you wish them to be, since you cannot make yourself what you wish to be.

SPIRITUAL MEETING.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.
Exeter, June 1, 1859.
This testimony of my wife is correct.
IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]
GREENLAND, Nov. 20, 1858.
DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.
ENFIELD, Sept. 8, 1859.
Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.
This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS.
We have put up and sold this article for over ten years, and *can say*, in *confidence and truth*, never been able to say of it, that we have ever NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of the highest comendation of its magical effects and medical virtues. We speak, in this matter, "*what we do know*," after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. The Chronicle.

Portsmouth, N. H.

FRIDAY, AUGUST 19, 1859.

☞ We see by a Philadelphia paper that there are in that city three hundred and ten churches, valued at four million dollars, which are free from taxation. We cannot for the life of us, says the Newburyport Herald, see why, under a government like ours, where there is no established religion, and where every man by the constitution is free to worship God according to the dictates of his conscience, or not at all, if such is his pleasure, he should nevertheless be called upon to contribute indirectly to the support of any and every denomination, Catholic, Protestant, Mormon,—and in California, even Chinese paganism,—by being forced to bear an undue share of the public taxes in consequence of thousands of costly churches, cathedrals and pagodas being thus exempted from all participation in the burden. Some of these establishments hold real estate to the amount of several millions, and yet keep closed doors against all poor outside sinners who may desire to hear the gospel, except the overgrown merchant princes who find it for their advantage to invest in such preferred stock. We are in this respect behind poor misgoverned Mexico, where the efforts of the liberal party have been directed to relieving the people from the burden of their ecclesiastical establishment, which had well nigh absorbed all the wealth of the nation.

☞ The Portland Argus, an anti-Maine Law paper, says great excitement was caused in that city Wednesday forenoon, by the City Marshal breaking open an iron safe in quest of liquors at a saloon. The Marshal, with two deputies, proceeded to the Exchange Coffee House, with a search and seizure warrant. Upon entering the premises the Marshal observed Mr. Annis, the keeper, putting some bottles into the iron safe. He requested Mr. Annis to open the safe, which the latter declined to do.—The Marshal then requested the key of the safe, but Mr. A. refused to deliver it to him. A machinist was sent for, and in spite of the commands of the storekeeper, cut off the hinges and took off the iron strip on the side, in doing which he was at hard work for an hour and a half, and the safe was spoiled. In it were found nine bottles of various kinds of liquors, averaging about one pint each, which were taken to the police office. The Marshal consulted the County Attorney before he ordered the safe to be broken open. The Argus says a very large and excited crowd gathered, and that they have not witnessed so much excitement since the June rum riot in 1855.

Beware of Pork!—We should advise all New Yorkers who value their health and happiness, not to say their lives, to rigidly abstain from the use of pork for several weeks to come. We have good authority for knowing that some hundreds, if not thousands, of hogs have lately died, of some disgusting disease, in the neighborhood of the city, and that, in spite of the authorities, their flesh has got into the markets. The only protection people now have is, on no account to buy or eat a bit of pork until time has been given to get rid of the horrid carrion. Even in the country folks should be careful; for, if it does not find a sale here, it may be sent out of town to be disposed of. Miscellaneously fed pork is abominable enough, as an article of food, at any time. Just now it is neither more nor less than a broadcast pestilence.—*Porter's Spirit.*

Will Porter's Spirit please to tell the public whether these diseased hogs were distillery, brewery, slaughter-house, or farmers' hogs. We presume from their being near the city, they must have belonged to some "Institution."

The Mormons.—The Utah Valley Tan—the organ of the Gentiles—states that the Mormons estimate their whole number in Europe and America at 123,000. In 1857 there appears to have been a decrease in the population of Utah—the number being only 31,022, of which 9,000 were children, about 11,000 women, and 11,000 men capable of bearing arms. There are 2,388 men with eight or more wives—of these, 13 have more than 19 wives; 730 men with five wives; 1,100 with four wives, and 2,400 with more than one wife. Recapitulation: 4,617 men, with about 16,500 wives.

☞ Hon. Daniel Hoit of Sandwich, N. H., one of the earliest and most successful merchants and farmers of Carroll county, died at his residence in that town, on Monday. He was the earliest candidate of the anti-slavery party for Governor, having first been put in nomination twenty years ago. Gen. Hoit was 83 years of age, and retained his full mental vigor to the last. He was President of the Carroll County Bank, at the time of his decease.

☞ "Dress," says Theodore Parker, "is the vicarious atonement whereby ugliness hopes for redemption."

☞ Rev. Dr. Bellows denominates spiritualism one of the diseases of the human mind.

How were Adam and Eve turned out of Paradise? They were *snaked* out.

The Peach Crop.—As a general thing, the peach crop of New England will prove an utter failure the present season. In a few favored localities a small number may be gathered, but these cases will be exceptions to the general rule. The Traveller is informed by Mr. George Hyde of Newton, who is the owner of one of the largest fruit orchards in Massachusetts, that he did not discover a single blossom upon his peach trees last spring; but he has since found three peaches growing upon one branch, which will constitute his entire crop for the year.

☞ A member of the Mississippi Legislature, at one of its late sessions, introduced a bill to change the name of a certain county in that State to Cass county. One of the opposition moved, as an amendment, that the letter C be stricken out of the proposed name. This motion created some laughter at the expense of first member offering. Nothing daunted, however, he arose in reply, and said, "Mr. Speaker, this is the first instance that has come to my knowledge in which a member has had the assurance, upon the floor of any legislature, to propose to name a county after himself."

☞ On the 25th ult., the citizens of New London, Conn., in city meeting assembled, took measures to repudiate certain scrip to the amount of $100,000, issued by said city. On Thursday last, in pursuance of a call signed by nearly 400 citizens, a meeting was held, at which it was proposed to rescind this resolution, and remove the disgrace of repudiation from New London.—On the reconsideration the whole number of votes cast was 915; of which 421 were in favor of the resolution to rescind, and 494 against it—and it was accordingly declared to be lost by 73 majority.

☞ The Manchester Union Democrat sets down the next House of Representatives, as probably Democrats, 96; A. L. Democrats, 9; Republicans, 113; Americans, 19,—and then says:—

Now, who can get 119 votes for Speaker? The Republicans will lack six. We do not think they can get them for a straightouter, for they will have but nine to get them out of, and we confidently expect four or five of the Anti-Lecompton men will act with the Democratic party, and that the rest will stand alone, unless they are secured to the Republicans by some trade which will not be very satisfactory to the mass of the party. If a distinct negro issue is made, we suppose the whole South American strength will be given to the Democratic candidate, which brings him about as near an election as the Republicans are likely to get. Thus it seems that the little squad of Anti-Lecomptonites are in a position to *command* a great deal more respect than they deserve. If a peace is patched up with Douglas, he will let them all go with the Democratic party again, and the choice of Speaker will probably depend upon the presidential look at that time.

This certainly does not look like a *finality*,—nor yet does it look like any body's walking over the presidential course.—Newspapers will be read next winter, and Congress will have a lively session, perhaps somewhat excited.

The loss of the next House by the democrats is now fully assured. The only question is whether it shall be organized by the republicans, pure and simple, or by a coalition of them and the northern anti-Lecompton democrats and southern opposition. The latter is the course most likely to be pursued, even if the former be possible.—*Manchester American.*

Assaults upon Females.—In the Superior Court, Criminal Term, held at Fitchburg, Mass., Andrew Laverty, convicted of an assault upon the person of Ellen M. Price of West Boylston, was sentenced to the State Prison for life. George Bartlett of Leicester, for an assault on Eunice B. Russell, was sentenced to ten years in the State Prison.

☞ A Chicago paper says:—

The Republican Club of the Seventh Ward will hold a great People's Festival, on Clybourne avenue, on *Sunday*, July 31, 1859. The Great Western Band is engaged, and will do their best. For plays, *drinks*, sports and eatables, everything is provided. Many favorite speakers will address the assembly.

These must be *white* republicans, and drunken ones too.

☞ The St. Louis, Alton and Chicago Railroad were obliged to suspend operations on Wednesday, in consequence of a strike of the employees of the road. It was supposed matters would be arranged in a few days.

Modesty.—An Irish corporal, who now and then indulged in a noggin of right good poteen, was thus accosted by his captain, whilst standing at ease: "Pat, what makes your nose so red?" "Plase yer honor," replied Pat, "I always blush when I spakes to an officer."

☞ The Pope has been witty about his honorary Presidency, and has declared that it "puts him, like the ball at the top of St. Peter's dome, out of reach of the earth, and lost in the clouds."

☞ A drunken biped, Chas. H. McComb, at West Roxbury, choked and almost killed a girl of 14 years, who was stopping with his wife. McCobb is in Dedham jail.

☞ Camping out excursions to the White Mountains are becoming frequent.

From Europe.—By the steamer Saxonia, at New York, we have details of European news to the 4th inst. All vessels at the various French ports are being disarmed, those in the roads are ordered back into port, and all sailors that have served five years are discharged.

The Sardinian Minister has declared that Sardinia cannot accede to the proposals of France to make efforts to have the Grand Dukes recalled. An article in the Paris Constitutionnel, headed "Ingratitude of Italy," reminds Italy that if the powerful hand which is extended over it is withdrawn, neither the fine speeches of the English Parliament nor the sterile sympathies of the liberal party can prevent Austria from dominating again in Italy, from Turin to Messina.

Piedmont declines entering the Italian Conference, if Austria forms a part of it.

☞ The New York Tribune says that a dinner was given to Mrs. Stowe, previous to her departure for Europe, at the Revere House, Boston, by the Atlantic Club, we believe. She accepted the invitation on condition that wine should be prohibited.—Prof. Stowe, Miss P——, and Mr. J. G. Whittier were also of the party. The table was innocent of wine, until the invited guests had departed.

Russian Demand for American Books.—The New York Post observes that few people have any idea of the extent to which some of the book publishers of New York are interested in the Russian trade.—Last week the Appletons filled an order for three hundred dozen American works, chiefly of American authors, with a few reprints, for St. Petersburg. These American books go to stock a circulating library in the Russian capital.

☞ A Newport letter eulogizes "a lady from the Palmetto State," who is the patron saint of the Bellevue House, for originating "dancing mornings," where "the orchestra play splendidly, and the ladies, aided by the gentlemen, dance most bewitchingly.—There is an entire absence of the usual formality of the ball room, and of the evening dance, as well as of the strictness in dress, so that it appears, in its easy manner, charming."

Terrible Shower at Baltimore.—On the afternoon of Saturday last, Baltimore and its vicinity was visited by one of the most terrific thunder storms that has occurred there for years. Rain fell in torrents for about an hour, floating the lower part of the city, and the lightning struck in many places. The only serious disaster was the killing by lightning of two persons who had taken refuge under a tree. Their names were George H. Hall and his son, Wm. H. Hall. Another son was stunned by the same stroke, but he shortly recovered to find his father and brother both dead.

☞ Rev. Dr. Baird, referring in a recent letter to a biographical sketch of the late Robert Walsh, prepared in Paris by M. Lomard, says:—

"I have said that M. Lomard must now be an old man, but perhaps I ought to take that back—for men in France and Europe generally, are not as old at *eighty* as we are at *sixty*. Humboldt at fourscore was not beyond his prime, and Lord Palmerston at threescore and fifteen scarcely began to think of being old. We live *too fast* in this country."

A Righteous Sentence.—In the Superior Court, Boston, Judge Russell sentenced Orlando B. Merrill, of East Boston, for incest, to *twenty years* at hard labor in the State Prison, the first five days to be solitary confinement. The sentence is a just one.

☞ The Norwich (Ct.) Bulletin states that Mons. Blondin will not come to that city, and walk upon his rope across the Thames. He wants $1500 for the trip, and the Agricultural society will give but $1000, and have a man partially engaged for that sum.

An agricultural exhibition on the tight-rope! Such agriculture as this seems to be a humbug.

Victor Emanuel and Francis Joseph.—A Turin letter in Le Nord, of Brussels, says that Victor Emanuel had an interview with Francis Joseph after the signing of the preliminaries of Villafranca, and that these personages have a perfect understanding with each other as to the affairs of Italy.

A letter from Rev. Theodore Parker has been received in Boston. He was still at Montrieux, Switzerland, on the 20th of July. His distressing cough has nearly disappeared, though a slight cold caught during a journey upon the Lake had retarded his recovery. His friends are encouraged to believe that he will ultimately return to this country a well man.—*Traveller.*

☞ A table compiled from official documents, gives the number of free-masons in the United States as 211,538, and the income of all the lodges is about $1,450,000.

New York, Aug. 16.—In the two mile trot to-day, between Flora Temple and Princess, the former won in two straight heats. Time—4:50 1-2, 5:05.

Let us be always cheerful; if life is a burden, let it be the burden of a song.

Boston — Valuation, Taxes, &c.—The valuation of property in the city of Boston for 1859, is just concluded. The following is the result: Real estate, $157,092,800; personal, $104,921,700. Polls, $33,323. Total valuation, $562,014,500. The amount to be raised the present year to meet the expenses of the city, is $2,500,000. In 1858, it was $2,170,000. The rate of taxation this year, is 97c per $100—last year, 86c. The increase of polls this year, over the last, is 702.

Grand Duke of Tuscany Scouted. The *Opinione* of Turin declares that the Grand Duke Leopold, in abdicating in favor of his son, has relinquished a power which he no longer possesses. It is too late, it says; Tuscany will have nothing more to do with Austrian princes, colonels and proprietors of regiments, vassals of Austria.

Extravagant Dinners at Saratoga.—One lady is reported to have given a dinner to twenty friends which cost $400, and a New York banker paid $750 for twenty-eight persons. A Southerner, however, surpassed that, he having paid $1400 for one dinner, the largest private dinner ever given at that fashionable resort.

☞ Godey's Lady's Book, for the month of September, contains engravings of the Heroic Women of the Revolution, elegant colored fashion plate of four figures, &c.

☞ Mr. Moses Rives, of Wiscasset, lost an eye, a few weeks since, by having a pitch-fork tine accidentally stuck in it. He is now entirely blind, having lost his other eye some years since.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

Concord, N. H., March 2.

Messrs. Seth W. Fowle & Co.,—*Gentlemen*:—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,

HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., had a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

She felt her condition improve on the second day.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

She was sound.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Ridway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

Charles's London Cordial Gin.

The Original and only London Gin Imported.

This Gin, distilled in London, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—None other is Imported.

THE BEST LIGHT!!!

Cancemine Oil.

Every one is naturally desirous of obtaining the BEST LIGHT, at the SMALLEST COST; and this can be secured by the use of Cancemine Oil,—a new article which is rapidly superseding the Kerosene Oils, for the following reasons, viz.:—It CONSUMES LESS, GIVES MORE LIGHT, WILL NOT SMOKE, AND HAS NOT THE OFFENSIVE ODOR OF KEROSENE.

This Oil can be used in the ordinary Kerosene lamps; but an improved burner can be fitted to any lamp at a small expense.

This is by far the best light yet offered to the public. The subscriber has this Oil for sale in any quantity, also a supply of Lamps, &c.—A lamp may be seen in operation at store

The Best Medicine in the World.

YES—DECIDEDLY THE BEST—IS

Dr. Langley's Root and Herb Bitters.

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom—They act at once upon the very seat of disease.—They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all Bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs:
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.
So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

Only 25 cts. for a pint, 38 cts. for a large bottle. Sold by all dealers in medicine everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., Boston.

LOCAL.

☞ The Rockingham Association of Universalists continued and closed their annual session in this city on Thursday; the council meeting at 7 o'clock A. M., and a prayer meeting at 8. The forenoon sermon was delivered by Rev. Mr. Spaulding of Newburyport; and that in the afternoon by Rev. Mr. Greenwood of Malden. The administration of the Lord's supper closed the public services, which were well attended throughout.

The church was decorated with numerous and beautiful flowers, tastefully arranged in elegant vases; all being in admirable harmony with the finish of the house, and with the tone of the services.

The Association voted to hold its next annual meeting at Dover, and to have a quarterly conference at Epping, Oct. 26 and and 27.

☞ A friend wants to know what we have against the Brewers? Nothing—we have done business with all of them, and have no fault to find with any of them personally. It is only the *brewing* that we dislike,—and not that so much, either, as the *drinking*. We believe the accursed stuff rightly named "Dutch swill," is not a whit better than other liquors; at least it leads to the drinking of the others. All drunkards drink beer, if all beer-drinkers are not drunkards—which last they probably all *will* become.

Doctors may order it, and men and women of ever so much respectability may guzzle it down—yet vile stuff it is, and ever will be. Science says so, and experience and observation agree.

In the least important view, the pecuniary—the sum wasted for tobacco and injurious drinks in Portsmouth, in a single year, would probably build us a splendid City Hall, to say nothing about the injury produced.

ROCKINGHAM FAIR.—The Seventh Annual Cattle Show and Fair for Rockingham county, is to be holden at Exeter on Thursday and Friday, the 22d and 23d of September. A new feature will be added to the usual attractions, in a Market Day, on Saturday, which will afford a rare opportunity for the purchase and sale of stock, &c., besides having a tendency to keep all the premium stock at the show throughout the exhibition. More particulars will be given in our columns as soon as definite arrangements are made.

☞ The Portsmouth Cornet Band will make an excursion to the Shoals on Friday, August 19th, in the new and fast-sailing schooner, H. E. Bishop, Capt. Joseph Amazeen. Leave Lyman's Wharf, near Spring Market, at 8 o'clock.

N. B.—Should the weather prove unfavorable, the excursion will take place the first fair day. All are invited. Tickets 50 cents.

☞ The "Pioneer" Fisherville Fire Company returned from their excursion to the Shoals on Thursday afternoon, and took the afternoon train for Concord. The whole company on board the schooner numbered ninety-four, of whom seventy-two tested the depth of human misery termed sea sickness which we wouldn't experience for a view of all creation."

KIRBYE'S VARIETIES, a series of which exhibitions are to commence at the Temple Saturday afternoon at 3 o'clock, and continue in the evening at 8, are thus spoken of by a Haverhill paper of July 15:

"Both the man and his exhibitions are of peculiar excellence, and deserve the support of the community."

All who have visited Prof. Kirbye's entertainments will testify to their excellence.

☞ "All is not gold that glitters," to be sure—but they *are* selling a large amount of Watches and fine gold Jewelry at Adams' sales rooms every evening.

☞ Elder Edwin Burnham will preach in the Advent Chapel Sunday forenoon and afternoon, and at six o'clock on Market Square.

CITY HOTEL.—This old hotel, after many changes, has passed into the hands of Mr. Joseph B. Flagg, (long may he wave,) formerly of Exeter. In the capacity of host Mr. Flagg is becoming deservedly popular. The house is orderly kept, and those who used at his table speak in high terms of the excellence of his *cuisine*.—*Ballot.*

☞ The Ballot says there are 14 lawyers in our city to look after our worldly affairs, and only 8 clergymen to attend to our eternal interests.

A STABBING CASE.—On Monday evening last Antonia Graft, an Italian organ grinder, was set upon by a gang of hilarious young bloods of Newmarket, and badly beaten. He finally turned upon his assailants, and with a screw driver stabbed one of them, John S. French, just below the breast bone, inflicting a wound which it was believed might prove fatal. The *organist* was brought before Samuel A. Hardy, Esq., on Tuesday, to answer to the charge, but the examination was postponed to await the result of the wound.—*Ballot.*

OREGON ELECTION.—Official returns from every county elect Stout, dem., to Congress by forty-five majority.

CAMP MEETING AT HAMILTON.—The Eastern Railroad are making extensive arrangements to transport passengers to and from the Camp Meeting at Hamilton next week. It is anticipated that this will be one of the largest gatherings of the kind ever seen in Massachusetts.

The spot on which the meeting will be held was selected after a long and careful examination of many localities, and has peculiar fitness for the purpose designed.—The arrangements for the week commencing Aug. 22d, are that persons leaving Portsmouth for the Camp Meeting will take the regular Boston trains at 7.15, 11.15 A. M. and 5.30 P. M., and returning will leave Hamilton for Portsmouth at 8.35 A. M., 4.05 and 6.05 P. M.

☞ The Manchester Mirror says, Judge Sawyer of Nashua will retire from the Suprome Bench of New Hampshire during the coming autumn. This will make two vacancies, Chief Justice Perley having already resigned.

OFF IN A TANGENT.—We have of late often made extracts from the papers of the Democratic party in this State, to keep our readers posted up on the *various* views of popular sovereignty, slavery, &c., entertained by those papers—especially by the N. H. Gazette, as it *was* and as it *is*.

Alluding to recent matters in the Gazette as it *is*, the Union Democrat says:

We shall not continue a quarrel with the Portsmouth Gazette upon the negro question. We have said enough to indicate the views we entertain, and to repel for ourselves the imputation of *duplicity* and *falsehood* to which, we fear, some of our political friends may become obnoxious. We drop the matter the more cheerfully, because we know it involves an abstraction only. * * *

We would be glad to secure a recognition of popular sovereignty as *we* understand it; for it clears the way for the annihilation of Republicanism in 1860, and certainly does nobody any practical wrong. * * * But here is an *abstraction* in the way—just one of those beautiful little concerns which have so effectually tripped us for the last five years.

We speak of the negro question with sentiments of profound disgust. There is slavery, and there are the territories. There is *no* power in *any* government which can even modify the inflexible *destiny* by which they are controlled; and we are vexed that honest and patriotic men should be eternally sacrificed, and knaves and traitors promoted, by the empty abstractions which grow out of these matters. * * * *

We beg our friend will understand that we abate no jot nor title of our convictions as before expressed; but we leave the field in pure disgust, which a column of arguments would not remedy. Shades of Webster and Clay, and all the sages of 1850—builders of the Baltimore platform, and thou, Stephen A. Douglas, inventor and patentee of popular sovereignty! vouchsafe another dispensation, for *some of us* are still groping in Egyptian darkness. Office of the Gazette No. 31 Daniel street, Portsmouth, N. H.

The Sparkling volume of Colonel Fuller, entitled "Sparks from a Locomotive," speaks of ex-President Pierce in Rome in this wise:—

"But of all the strangers of distinction of Rome, none is more courted or more respected than our much abused ex-President, Franklin Pierce. Modest, affable and courteous, everybody is seeking his society with as much eagerness as he avoids publicity. He refuses all invitations except it be to join a few Americans: and then,—for instance at a 'codfish dinner' at Harry Stone's,—we find him the most entertaining and the most agreeable companion. He will leave soon for England, which he has never visited, and where he will find it difficult to avoid all the honors that await him.

I see some American papers are urging General Pierce's name as a candidate for the next Presidential term, but it is utterly useless. Nothing can induce him to accept a second nomination, nor a public office of any grade. Notwithstanding my own 'official head' was one of the first to roll into the bushel under General Pierce's administration, yet I cannot forbare saying, in all sincerity and truth, that I would sum up his biography in these brief words:—'He was a brave General; a patriotic President; an honest man. His enemies found it easy to abuse but impossible to impeach him.'"

SARATOGA GOSSIP.—Burleigh in the Boston Journal, says of Saratoga:—

The daily morning prayer meetings increase in interest and are now crowed.—The largest churches are full as can well be.

The ladies paint this season; it is all the rage. Not the old, the faded, those whose beauty is on the wane, but the young also; not rouge laid on with delicate fingers, and with tints hardly discernable to the eye, but laid on with a heavy hand, and with an openness that is worthy of a better cause.—In the night the complexion really is dazzling, and the face wears a hue almost anomost angelic in brilliancy. But in the morning, bah! the face looks boiled, and resembles a white enameled side of leather, cracked by the cold weather. If this habit were omitted, and the dresses outside were longer than the under dresses, or if the latter were of better material, if they must be seen, or were more comely, the crowds at this place would be more worthy of inspection. It is the universal remark that there are more commonly dressed women at Saratoga than at any other season, and this, too, is my judgment. Tinsel and antidyness do not go well together. On this account the balls are not attractive.

☞ The Islander of the 5th inst. says that oats, barley, turnips and potatoes will be abundant in Prince Edward Island this season. The hay crop will be deficient, and the early sown wheat has been attacked by the weevil.

A fellow was arrested for stealing ducks, and after a description of them, the counsel for the prisoner said, "Why, they can't be such a rare breed, for I have some of them in my own yard." "Very likely," said the complainant, "I have lost a good many ducks lately."

CRINOLINE AT CHURCH.—A visitor was condoling with the old woman who opens the pews for the congregation of an English church, on the great amount of work she had to do. "Yes," replied she, "we used to have to only open the doors, but now we have to push in the dresses."

No man should be so much taken up in the search of truth, as thereby to neglect the more necessary duties of active life; for after all is done, it is action only that gives a true value and commendation to virtue.

If God designed men to worship the *past* instead of pressing forward to new discoveries and new acquisitions, why didn't he place the eyes on the back side of the head?

Be not angry that you cannot make others as you wish them to be, since you cannot make yourself what you wish to be.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.
Exeter, June 1, 1859.
This testimony of my wife is correct.
IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]
GREENLAND, Nov. 20, 1858.
DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.
ENFIELD, Sept. 8, 1859.
Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.
This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS.
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, that we have never been able to say of any other medicine, NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its medical virtues. We speak, in this matter, *what we do know,* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects, acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is floooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casabeca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties of the gins are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifling aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in Spanish language, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose can repeatedly be taken with the public.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken in a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY, exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being protected as well as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. Its pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

S. B. FITTS. Proprietor,
au25w formerly of City Hotel, Newark, N. J.

Appledore House,

ISLES OF SHOALS.

This well known establishment, having been much enlarged and improved, is now open for the reception of boarders.

The Yacht **Sibyl** will run daily from Pier Wharf, Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

june28 2m THOMAS B. LAIGHTON.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious purveyors of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some pipunious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or, without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

Seven Octave Piano --- New Scale.
The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale,** which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.
Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.
Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE.*

DARK SIDE OF THE PICTURE.

The following from the Rockford Daily Register, was addressed to E. B. Ciark, brother of the miner who writes it, a respectable gentleman of Rockford:

ROCKY MOUNTAIN VALLEY,
July 24, 1859.

Dear Brother:—Yours of June 24th was received July 17th, and you may be sure I was glad to hear from home, as my last from there was dated May 5th. From what I can learn Horace Greeley has set the Eastern world in a great excitement with his glowing account of the gold discoveries in the mountains, and report says there are now 20,000 emigrants on the way hither, who would have been at home but for said report. Now I will tell you what he knew of the mines, and what I think I know.—The Gregory diggings had but just been opened, and they were yielding from 10 cents to $1 per pan. A large emigration had just landed, and the sight of gold, since their expectations had been blasted at Cherry Creek, produced a tremendous excitement. Every man felt himself worth thousands, because, forsooth, he was in the land of gold, and nothing to do but to dig it out. The miners, and in fact every one here, with a very few exceptions, are the greatest liars I ever saw. Greeley was here then a few days, and swallowed everything told him.

That there is gold here, and in large quantities, I do not deny; but that more than one in five hundred is doing better than a common day laborer in the States, is untrue. Some say one in a thousand is a fair average.

There are three kinds of diggings here, viz.; lead, gulch and bars. The leads are in the rocks on the mountains. They are found by the 'Blossom Rock,' as it is called; or burned stone on the surface, occasioned, as is supposed, by internal heat or volcanic action of some earlier day, which opened the rock, forming a seam now full of dirt or rotten stone, in which the gold is found.—Gregory's lead has only the flour gold, and they are or were the richest found. These leads commence at the foot of the mountain and run in a north-eastern and south-western direction. The dirt has to be washed, which requires considerable water, and all the water is produced of snow as it melts, and that is nearly used used up.

Some have dug eighteen to twenty feet in solid rock, and have not found the object of their search. Claims that once sold for $20,000 can now be bought for $1000.

A company from Cleveland, O., camped near us and purchased one of these claims, paying down all they had, even to guns and most of their provisions. They worked it nearly four weeks without one cent of pay dirt, when one of their company was nearly killed by the unexpected explosion of a blast. What will become of them God only knows.

Wages here are only $2.50 per day, and it costs at least one dollar per day for board, and work is very scarce at that.

There are a great many sick in the mountains—five died yesterday, and four the day previous, in our vicinity, of the mountain fever. Our company have been sick, all of us, during the past two weeks.

Hundreds are leaving every day, and as many more coming in. We shall start tomorrow for home.

☞ The New York Journal of Commerce says—"The largest iron beam ever rolled in one piece, was made some time since at the works of the Trenton Iron Company: it is forty feet four inches in length and nine inches thick. Last week this beam was tested, when it showed great strength. The span tested was thirty feet, the pressure being in the centre. The pressure was gradually increased to 9250 pounds, when the bar showed a deflection of 2.86 inches."

A HOAX.—The New York Tribune makes the following correction of the eight-children-at-a-birth story:—

"The Postmaster at Warren, Ohio, writes at the request of Mr. Timothy Bradley, of Johnston, Ohio, to say that the story of our correspondent announcing that Mrs. B. was the happy mother of eight children at a birth is a malicious hoax, and adds: "Mr. and Mrs. Bradley are both respectable persons of respectable families—have been married about six years and have never had any children."

THE LAST IN LIFE.—Him before whom thou art in a few moments to appear, set before thee now. If thou wouldst then choose hurtful lusts or excess, misuse any bounty God gives thee—profaning thyself, God's holy temple, seek men's applause, use careless speech, detract from a neighbor, lie, covet, defraud, gather up riches, neglecting Christ's door, spend what might be placed in God's treasury on vanities, then do it now! if thou wouldst then flee from those as thou wouldst from hell itself, flee now while thou hast strength to flee. That act, it has been said, is well done, which is done as though it were the last in life.

My father-in-law, a professor of religion, paid me a visit in the country, and as is his invariable custom on the Sabbath, invoked the Divine blessing at the table. After his departure, and at the next meal, my little daughter, aged five years, just as I was in the act of carving, interrupted the further proceedings and threw the occupants of the table into a burst of laughter with the interrogatory of, *"Parp, ain't you going to preach? Gampa does."—Cor. Boston Cour.*

SATURDAY, AUGUST 20, 1859.

NOVEL BUT USEFUL BAROMETER.—The barometer as generally constructed costs, if accurately adjusted, about sixteen dollars. As an indicator of the weather it is useful to the farmer, but the cost prevents its coming into general use. The Manchester American says:—"We have had the opportunity for several weeks past of testing a cheaper but to the husbandman an equally useful instrument for determining the condition and weight of the atmosphere. The construction is simple. Take two strips of clear, well seasoned pine and cherry wood, two inches wide and five feet long. Let them be carefully planed till they are each one-sixteenth of an inch thick. Glue them carefully together, the grain of the pine running crosswise, and of the cherry lengthwise the strip. When the atmosphere has its ordinary degree of moisture, the strip suspended in the open air will be straight. A rain storm is always preceded by an increasing moisture in the air. The pine absorbs the moisture, while the cherry does not. The swelling of the pine will therefore curb the strip on the cherry side. On the other hand, when the atmosphere is unusually dry, the pine contracts, and the curve is in the opposite direction.

KENTUCKY.—The tie which was reported in the Fourth Congressional District of Kentucky, between Christian, Democrat, and Anderson, Opposition, is reported to have been decided by lot in favor of Anderson. It is a curious fact that the laws of Kentucky provide that in such a case the Congressmen shall be elected by *casting lots*. The law says:—If two or more persons shall be found to have received the highest and an equal number of votes for the same office, the election shall be determined by lot, in such manner as the Board may direct, and in the presence of not less than three other persons. The Board referred to consists of the Governor, Attorney General, and Secretary of State, and in the absence of either of them an auditor fills his place.

☞ A correspondent of the Springfield Republican, who spent an afternoon with Edward Bates of Missouri, says that that gentleman's plan for stopping slavery agitation is simply to crush out politically the Democratic party: that he regards the long essays of Judge Taney and his associates, in giving their opinion upon the case of Dred Scott, as extra-judicial, and political, and entitled to no more weight or authority than the same number of speeches by eminent Senators in the Lecompton debate, and that he is thoroughly devoted to the emancipation movement in Missouri.

☞ A banquet for seventy-five thousand soldiers—for the Italian army—was ordered by Louis Napoleon to be given in the Park of St. Cloud, on Monday, the 15th inst. It was probably the grandest feast the world ever saw, given by Napoleon for his own glory, and in honor of his own campaign, to the soldiers that did his fighting. We have read of the triumphal entries of the Roman conquerors, returning from distant wars to the eternal city; but not the Cæsars in their greatest glory rivaled a demonstration so magnificent as this was designed to be and probably was.

☞ Horace Greely writes that—"Salt Lake City wears a pleasant aspect to the emigrant or traveller. It is located mainly on the bench of hard gravel that slopes southward from the foot of the mountains toward the lake valley; the houses—generally small and of one story—are built of adobe (sun-hardened brick), and have a neat and quiet look; while the uniform breadth of the streets (eight rods) and the "magnificent distances" usually preserved by the buildings, (each block containing ten acres, divided into eight lots, giving a quarter of an acre for buildings and an acre for garden, fruit, &c., to each householder,) make up an *ensemble* seldom equalled."

☞ Mr. Jose Joaquin Fernandez died in New Orleans on the 8th inst., at the good old age of 99 years. He was a native of Cuba, but has resided in New Orleans since the year 1780, and took his full share of the trials and dangers of the brief campaign which, in 1814-15, preserved the city from Wellington's veterans, and shed undying lustre on Jackson and his soldiery.

☞ On the Mobile and Ohio Railroad, not far from Jackson, in Tennessee, says an exchange paper, still stands the humble log cabin, 18 by 20 feet in size, built and occupied, while he lived in the district, by the far-famed Davy Crockett. Its logs are fast decaying and desolation surrounds it, but no traveller passes it without an eager desire to look upon the humble roof.

☞ In the case of Jesse Annis, Portland, on a search and seizure warrant for intoxicating liquors, he was fined $20 and costs, from which he appealed.

☞ The escape of the prisoners from the California State Prison is explained. The rascals were set to work originally to build their own cells. Taking a practical view of the subject, they varied slightly the plans of the architect, and laid the stones with reference to the easiest manner of breaking out; and for the greater convenience thereof, they buried in the mortar drills, bars, chisels and other tools.

When Sir Walter Scott was at school, a boy in the same class was asked by the dominie what part of speech *with* was. "A noun, sir," said the boy. "You young blockhead," cried the pedagogue, "what example can you give of such a thing?" "I can tell you, sir," interrupted Scott: "you know there's a verse in the Bible which says—'they bound Sampson with *withs*.'"

EVAPORATION.—"From the whole surface of the ocean," says Dr. Dick, "there rises, every twelve hours, no less than thirty millions of cubic feet of water, which is more than sufficient to supply all the rivers on the earth. This immense body of water is formed into clouds, carried over every part of the continent; and again it is condensed into rain, snow, or dews, which fertilize the earth.

Rev. Dr. Woodbridge, long pastor of the church of Old Hadley, has lived to witness the invitation given by his successor in the ministry to Rev. Dr. Huntington of Harvard University (a native) to occupy his pulpit; whose family (the venerable father, Rev. Dan. H., still living,) was excommunicated for heresy by the church under Dr. W.'s ministry.

☞ In England the proportion of persons injured on railways to the number of passengers carried, is about one in 250,000;—while in our country it has attained in late years the frightful figure of one in 100,000; and yet the trains on English railways are, as a general thing, propelled at a greater speed than in the United States.

ST. LOUIS, Aug. 18.—The mail from Salt Lake reached Atchison yesterday, but it brought no intelligence of importance. The Mormons had nominated Captain Hooper for Congress, to succeed Bernheisel. Hooper was formerly Secretary of the Territory. The sales of all the government mules had been completed. They all brought very high prices.

☞ Rev. Erasmus D. Eldridge, now supplying a church in the State of Georgia, has received and accepted an invitation to supply the Congregational church in Alton for one year, when his present engagement shall expire at the close of the year, and before if he can get a supply for his present field.

NEW BEDFORD, Aug. 18.—It is generally reported to-day, that Henry Harris, a merchant on Union street, has very suddenly left this city for New York, leaving an indebtedness of $40,000. The small property belonging to him has been attached.

DOG SLAUGHTER.—Since the first of June, in Boston, no less than fifteen hundred and twenty-eight dogs have been slaughtered, at an expense of some eight hundred dollars, the city paying a half dollar per dog. This is probably the greatest slaughter of the canine race ever known in Boston.

NEW YORK, Aug. 18.—A woman named Crawford was murdered yesterday on Atlantic street, Brooklyn, by her son-in-law, Robert Tofts. The culprit was afterwards beaten nearly to death by his indignant neighbors.

☞ On Monday, a man in Baltimore named Shroeder, set four fierce dogs upon a boy eleven years old, who was fishing in the vicinity of Shroeder's place of business. The boy was shockingly mangled. The owner of the dogs was arrested and committed to jail, and the animals ordered to be killed.

CINCINNATI, Aug. 18.—Wise, the aeronaut, came down five miles south of Crawfordsville, and arrived at Indianapolis this morning.

☞ Mr. Greeley, in a letter from Salt Lake City, dated July 12, estimates the total number of emigrants now on the plains and bound for California, at about thirty thousand persons, with teams of oxen, mules, horses and loose cattle, amounting at the start to little less than one hundred thousand head.

☞ A fire, originating in an unusual manner, broke out in a grocery store in New York Monday evening. It was caused by a clerk in the store thrusting a red hot poker into a cask full of liquor, which exploded and set fire to the building. Loss $2500.

☞ Mrs. Cordelia L. Smalley, a prominent woman, died on Sunday at the Bergen Heights Water Cure, Hoboken, of which institution she was resident physician. Mrs. Smalley was a native of Buffalo, but had resided for many years in Ohio.

AUTHORS.—Tom Hood, in an article of singular humor, states that the phrase "*republic* of letters" was hit upon to signify that, taking the whole lot of authors together, they had not got a sovereign amongst them.

Nathaniel Shelly was complaining that some one had insulted him by sending him a letter addressed to "Nat Shelly."

"Why," said a friend, "I don't see anything insulting in that. Nat is an abbreviation for Nathaniel."

"I know it," said the little man, "but blast his impudence, he spelt it with a G—Gnat!"

☞ By the Asia, we have Liverpool dates to August 6.—Cotton slightly declined, breadstuffs dull.

The Zurich Conference will assemble on the 8th inst.

A bill creating a naval reserve of 30,000 men was progressing through the House of Commons.

It is reported that an attempt had been made to poison Garibaldi.

It is said that France is intriguing to restore the Grand Dukes.

Naples admits breadstuffs free of duty.

The Calcutta mail of July 5 was telegraphed. European troops in India were accepting their discharges in large numbers.

The volunteers for the 30,000 naval reserve are to enter for five years, and they will be to the navy what the militia is to the army.

Steamer Great Eastern was to be delivered up by the contractors, completed, by August 18.

The strike among the builders in London grows more serious. It was expected 40,000 would be unemployed the day the steamer sailed.

SOUND DOCTRINE AND GOOD COUNSEL.—A theological critic says:—"Religion is not the straight-jacket system of the Pharisee, nor the semi-sensualism of the liberalist, but "denying ourselves of all ungodliness and worldly lusts, and living soberly, righteously and godly," "rejoicing in hope, patient in tribulation"—the sweetest and most precious enjoyments of religion being the results of tribulation, and the fruits of self-denial.

Learn in childhood, if you can, that happiness is not outside, but inside. A good heart and a clear conscience bring happiness; no riches, and no circumstances alone ever do. Alexander conquered all the world, and then, far from being happy, he wept because there were no more worlds to conquer.—*Traveller.*

NIAGARA FALLS, Aug. 18.—Mons. Blondin crossed the Falls again yesterday on his cable, carrying a man on his back.—During the performance a man named Colwell, of Stamford, got into a row with some Toronto firemen and was thrown over the bank of the river and killed, Colwell was about sixty years old, and was partially intoxicated. An inquest is now being held over his body.

Learning is not offensive in woman, if she only preserves a gentle and thoroughly feminine disposition. Some one has very significantly said that it does not matter how blue the stockings are, if the petticoat is only long enough to cover them.

I. P. Libbey, Watch and Clock Maker,
—WITH—
A. L. BENNETT, No. 7 Congress St.

Mr L. would inform his friends and citizens generally, he has returned to Portsmouth and will attend exclusively to WATCH AND CLOCK REPAIRING as above, and by close attention to business, hopes to merit a share of the public patronage. All work warranted.

CLOCKS.—Those having Clocks at their residences which are inconvenient to remove, I will repair at the house without extra charge. A good assortment of French and American Clocks constantly on hand at low prices.

AMERICAN WATCHES.—Particular attention given to getting up nice AMERICAN WATCHES of any pattern, with the purchaser's name on dial and movement, if desired. Having had five years experience in their manufacture, I can cheerfully recommend them as reliable timekeepers.

The present important question with the people of Warsaw, is,
"Will Poland soon be an independent Kingdom."
AUERBACH & CO.

Believe it will not take place very soon, but they do believe in thanking their Customers and the public generally, for past and present favors, at their present small location,

NO. 32 Penhallow Street,

And it gives them pleasure to announce to their patrons that notwithstanding their Stock of
CLOTHING AND FURNISHING GOODS
is rapidly diminishing, yet they will, in return for past favors, sell their remaining Stock at REDUCED PRICES.

This opportunity affords a rare chance to everybody in want of such articles; and more especially for mechanics; for they can buy at the above place a suit of clothes cheap enough to correspond with their low wages.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously endorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints,* make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

CONCORD, N. H., March 2.

Messrs. SETH W. FOWLE & CO.,—*Gentlemen:*—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry,* without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,
HENRY WOOD.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Scrofula, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. THE BEST LIGHT!!!
Cancemine Oil.

Every one is naturally desirous of obtaining the BEST LIGHT, at the SMALLEST COST; and this can be secured by the use of Cancemine Oil,—a new article which is rapidly superseding the Kerosene Oils, for the following reasons, viz:—IT COSTS LESS, GIVES MORE LIGHT, WILL NOT SMOKE, AND HAS NOT THE OFFENSIVE ODOR OF KEROSENE.

This Oil can be used in the ordinary Kerosene lamps; but an improved burner can be fitted to any lamp at a small expense.

This is by far the best light yet offered to the public. The subscriber has this Oil for sale in any quantity, also a supply of Lamps, &c.—A lamp may be seen in operation at store

The Best Medicine in the World.
YES—DECIDEDLY THE BEST—IS
Dr. Langley's Root and Herb Bitters

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom.—They act at once upon the very seat of disease.—They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all Bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs.
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigrous make,
Rouse drooping spirits and new blood create.
So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

Only 25 cts. for a pint, 38 cts. for a large bottle. Sold by all dealers in medicine everywhere.

FRUITS OF THE LIQUOR TRAFIC.—We arn that an assault was made on Rev. ril Pearl, of Baldwin, on Tuesday of t week, by one of his neighbors, on a unken spree, and but for the most cool d deliberate courage in managing him, a ious injury would probably have been flicted. Warrants were issued for the ar- st of the offender both for drunkenness d assault and battery. The sheriff was able to find him, but afterwards the fender came with his counsel, and begged r a settlement, or a stay of proceedings, promising to be a peacable, law abiding tizen. Consent was given to let the cases st for the present, in case such promises re fulfilled; the object being to protect ommunity from grievances too frequent. he result, was that on the night following, r. Pearl's horse was sheared in his pasture d his chaise top cut in a cowardly man- r. Both transactions are a very fit ad- rtisment of liquor and its legitimate fruits. *Portland Advertiser.*

DR. SWETT'S

CORDIAL OF DANDELION,

SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

ENFIELD, Sept. 8, 1859.

Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.

A. K. CURRIER.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine, —NEVER HAS IT FAILED, IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operation, and speak in terms of the highest comendation of its magical effects and medical virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD IN all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York

Price only 25 cents per bottle.

FIRE IN YORK.—On Thursday morning, Aug. 18th, about 2 o'clock, the house of Mr. Jonathan Plaisted, in York, was discovered to be on fire, and so speedily consumed that the inmates barely escaped with their lives, and without recovering any of their property. The first that was known of the fire Mr. P. was awakened by the fire falling on his bed from the wall over him. The house was insured.

FIRE AT SALEM, N. H.—We learn from the Manchester Mirror that on Saturday morning last, the freight house at Messer's Crossing, on the Manchester and Lawrence Railroad, was destroyed by fire, together with seventeen bags of wool, belonging to the Salem Woolen Mill. The passenger station was slightly injured. The loss is small.

Rev. C. C. Everett, of Brunswick, Me. has accepted the call of the Bangor Unitarian Society, to become their pastor. He will be ordained and installed early in September. Mr. Everett was for a time provisional professor of Modern Languages at Bowdoin College, but on account of his religious views failed to obtain a permanent settlement.

STATE FAIR.—We understand that Hon. Jacob Collamer, Senator in Congress from Vermont, has accepted an invitation to deliver an Address at the State Fair in this city in October next.

The contract for preparing the grounds and building the track has been taken by Col. Thomas Stackpole.—*Dover Enquirer.*

We would call the attention of readers to the specimens of preserved birds from the store of Mann & Brewster, Boston, at the bookstore of J. F. Shores Jr. Mr. Shores as their agent will attend to any orders left with him, either for preserved birds and animals, or forward favorite dead birds and animals for preservation. See their advertisement.

KIRBY'S VARIETIES.—The Haverhill Publisher says of the performance in that town, that many went with the idea that they were to be humbugged, but were happily disappointed. The performances were really novel, and somewhat marvellous. His ventriloquism is excellent. Mr. Kirby gave a popular performance at the Temple two years ago, which was attended by an overflowing house. See his advertisement.

PORTSMOUTH DIRECTORY FOR 1860.—We are purposing, should the subscription warrant, to issue a new City Directory at the commencement of the coming year, after the organization of City Government for 1860. Any memoranda of changes made since the issue of the last Directory, will receive attention, and aid us in canvassing the city. —*Journal.*

From the N. H. Gazette.

THE FISHERVILLE FIREMEN'S EXCURSION.—"Pioneer" Company No. 8 from Fisherville, accompanied by the Fisherville Cornet Band, visited this city last Wednesday, and were received by Chief Engineer Hadley and other officers of our Fire Department. They visited all the Engine Houses in the city, and gratified themselves by an examination of the "Tubs," which are always in condition for the most critical inspection. At the Hall of No. 6, they partook of an excellent collation; at the Granite Engine House they found additional refreshment, and when they reached the House occupied by No. 2 and No. 3—which, by the way, is altogether too small to properly accommodate both companies—they were joined by Company No. 2, who did escort duty during the remainder of their march. They afterwards visited No. 5, and accepted the polite invitation of Frank Jones, Esq., to visit his establishment and taste the excellent ale, for the manufacture of which Portsmouth is becoming celebrated. At one o'clock they sat down to a very fine dinner at the City Hotel, after which brief and appropriate speeches were made by Governor Goodwin, Mayor Morrison, Chief Engineer Hadley, True Osgood, Ex-Chief Engineer of Concord, Dea. McFarland, Editor of the Statesmen, Col. Abial Rolfe of Concord, and Mr. Alexander of this city.

The Company then embarked on board the schooner H. E. Bishop, and after a voyage of six hours reached Star Island, seventy out of the ninety having cast up accounts with the King of the Seas, feeling very indifferent whether school kept any longer. They were handsomely entertained at the Atlantic and Gosport Houses, and returned to this city yesterday (Thursday) highly pleased with their excursion, and very grateful for the kind and unexpected attentions received from the Department and citizens generally. The Company numbered 45 men, and the Band 25. The good discipline, stalwart appearance and orderly conduct of the Fire Company was universally commended. The Cornet Band, which has been organized only about a year, played splendidly, and with a reasonable amount of practice, will soon take a high rank among the Military Bands of New England.

Morning Chronicle.

The latest advertising dodge I saw, the other morning, in the shape of a procession of boys, uniformed *a la* Continental army, bearing banners "with this strange device" —"Use the Mount Vernon Tobacco." The boys were professors of profanity and vulgarity, I should judge from the style of their conversation, and the idea crept through what little hair I have, this hot weather, that perhaps the new sort of quid was calculated to make its devotees more *foulmouthed* than the "old familiar" kind. If so, commend me to an article of the *plug* order, if it *be* old fashioned!—*Boston Post.*

LIQUOR SEIZURE.—One day this week the rum shop of one Wright Boothcock, situated in the vicinity of Green street, was entered by our worthy City Marshal, who seized some ten gallons of liquor, and without waiting the action of any legal tribunal, destroyed the same upon the spot, dashing the demijohns to atoms in the gutter in front of the shop, where, as he remarked to us, the contents of similar vessels had so many times put him.

For fear that we might mislead the public by the above item, perhaps we should have stated that it was the City *Missionary*, Mr. I. W. Ambler, who made the seizure. —*Biddeford Gazette.*

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

'CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, HAVE PROVED their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PRESERVATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases as *third stage* cases, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and the SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The increased business of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the business faithfully attended bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twenty rejected applications, DIFFERENT grounds of rejection, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

AYER'S SARSAPARILLA.

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pars Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the disease Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service in this large class of our afflicted fellow-citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, DROPSY, NEURALGIA OR TOOTH DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of these many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to be relieved of corruptions, if it can but do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug has not had all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla, or anything else.

During many years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tban assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Dyspepsias, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled excellence of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above preparations, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on—Demand AYER'S, and take no other. The old was the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

THE GREAT ENGLISH REMEDY.

Sir Jas Clarke's celebrated Female Pills

Prepared from a prescription of Sir Jas. Clarke, M. D., Physician Extraordinary to the Queen.

Unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

CAUTION.—*These Pills should not be taken by females that are pregnant, during the* FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time, they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and do not contain any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,

JOB MOSES, ROCHESTER, N. Y.

$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail. July9

ROBERT GRAY.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, healthy and beautiful*, and if used by the young two or three times a week it will never fail or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. Your Hair Dye, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds one pint, 40 per cent more in proportion, and retails for $3 a bottle.

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders will be filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

S. B. FITTS, Proprietor,

Appledore House,

ISLES OF SHOALS.

This well known establishment, having been much enlarged and improved, is now open for the reception of boarders.

The Yacht **Sibyl** will run daily from Pier Wharf, Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and order as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl dly

GREELEY'S PATENT ELASTIC BACK AND CENTRE SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making pants is: they may be made snug to the person, and still be as easy as though they were uncomfortably large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Falsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a NEW AND VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color.
Silks, Silk Dresses and Ribbons watered.

Seven Octave Piano --- New Scale.
The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale,** which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.
Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.
Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE*

THE DIFFERENCE BETWEEN FRENCH AND AMERICAN BRANDY.—The Chester County (Pa.) Times is responsible for the following:—

A gentleman of our acquaintance wished to purchase some brandy to be used in sickness, and called on an old German liquor dealer in the city of Philadelphia, when the following dialogue ensued:

"Have you any imported brandy—genuine stuff?"

"Very good prandy. Come and trink some claret punch; dat ish goot, too, ven the vedder ish hot."

"No, I thank you, I want a little brandy for a sick man."

"Come and try the punch. One vriend from Germany peen here. I see him not pefore, for many years. We peen trinking de punch."

"Come and tell me about the brandy. I want a little of the best in the market."

The old gentleman was a little mellow—just enough to make him talkative; and the visit of his friend had so warmed his sympathies as to make him communicative.

"Now, my vriend, you wants goot prandy, and I sells you goot prandy. Dare ish some prandy I makes myself, and *dat* ish goot. Dare ish some I bought in New York, and dat is *sheap* prandy. Dare is some dat I imported from Vrance, and *dat* ish very goot too."

"Did you say you made that lot yourself?"

"Dat I makes myself, and I *warrants* dat. It ish made of de very best whisky."

"Whisky! I don't want any of your infernal concoctions made of whisky and called brandy."

(Old gentleman, solemnly.) "It is all made of whisky, my vriend, and dat ish the reason why de Vrench prandy is not so goot as goot American prandy. No prandy ish now distilled from wine any more; it ish not possible to make it sheap enough for dis market from wine, and de American people do not like de real prandy because dey are not used to it."

"Did you say that French brandy is not so good as our own manufacture? We import some brandy from France, do we not?"

"O, we import blenty of prandy to please de rich people, but it ish not goot. In Vrance, de prandy is made of potato whisky, and dat ish not so goot as de corn whisky what we makes into prandy here!"

THE STATE REFORM SCHOOL AT WESTBORO'.—The Trustees of this institution have decided to take immediate measures to make temporary repairs to accomodate a portion of the boys attached to the school. It is proposed also to hire the jail at Fitchburg for six months or a year. The Journal says:—

It is not probable that the institution will ever be rebuilt in the form in which it stood before the fire, the system being open to grave objections. Those in authority will probably advise a division of the school, and the erection of several smaller buildings, in which offenders can be more judiciously classified than under the present system.—One great evil hitherto existing in the institution resulted from the indiscriminate association of incorrigible and vicious boys, sent to the institution for punishment, with those who are less depraved and might otherwise be easily reformed.

CARLYLE ON BOOKS.—The following characteristic—and we may also add, true and admirable—passage occurs in a letter from Thomas Carlyle, written on the 18th of July last:—

"Readers are not aware of the fact, but a fact it is of daily increasing magnitude, and already of terrible importance to readers, that their first grand necessity in reading is to be vigilantly, conscientiously select; and to know everywhere that books, like human souls, are actually divided into what we may call 'sheep and goats,' the latter put inexorably on the left hand of the judge; and tending every goat of them at all moments, whither we know; and much to be avoided, and, if possible, ignored by all sane creatures!"

AN AMERICAN EDITOR IN EUROPE.—We learn that Isaac Butts, Esq., of the Rochester Union is quite *at home* in England, having settled down in housekeeping in a country seat a few miles from London Bridge. This, we presume, is not to be taken as an indication that he is to become a subject permanently of Queen Victoria, but simply having his family with him, they can live more comfortably in that way than in any other, during their residence in England.—*N. Y. Journal Commerce.*

Mr. Seward has been much sought after here by the Whigs, who desire to keep up the old reputation of their party for political hospitality. He does not make the same sort of impression amongst them as Mr. Sumner did when he first visited this country as a lion, and his manner is somewhat unfairly contrasted with that of the late Mr. Prescott, Mr. Everett, and other men of eminence from your side of the water, as if all men's ways of talking and thinking could be expected to be the same, or as if there were not as great diversities between the conspicuous personages of this and every other country. It is said that when asked by the Queen what he thought of what he had seen of public life in England, Mr. Seward replied—"Madam, I have come to Europe to study despotism." To which Her Majesty rather pointedly replied, "I hope you have found nothing of that kind to study here."—*London Letter N. Y. Times.*

Morning Chronicle.

Portsmouth, N. H.

MONDAY, AUGUST 22, 1859.

☞ The Concord (N. H.) Patriot, in speaking of the discussion between the Gazette and Union Democrat, says:

The Union Democrat, in replying to the Portsmouth Gazette, declares that the Cincinnati platform is good enough, and that it is ready to re-affirm it, word for word, and intends to adhere to its obvious spirit. That platform, it says, "was based upon the principles of the Kansas-Nebraska act, the true intent and meaning of which was declared to be, 'to leave the people perfectly free to form and regulate their domestic institutions in their own way, subject only to the constitution of the United States.'"

The Patriot then remarks (concerning the Gazette):

We are told now that they cannot do this as a Territory, but only when they become a State. Well, they could do that before; and if this interpretation is the true one, the *common* idea of popular sovereignty must suffer a large *discount*. We could easily show by volumes of extracts that, whether correct or otherwise, it was not the accepted meaning of the Cincinnati platform of 1856. The truth is, this is a *new* interpretation of that platform and of the Kansas-Nebraska act, as the whole history of the contest on that act and of the last Presidential campaign will conclusively show.

Uncle Toby is much gratified with this distinction. *Popular sovereignty*, to the *common* ear, sounds as if the people had some rights, and some powers. But the popular sovereignty intended by the men who repealed the Missouri restriction, was—that a few men should be sovereign to hold slaves, and that the many should have no power by law to prevent it.

It was a cheat and a sham from the outset—and it did cheat many Northern men into a support of slave power.

☞ The Dover Gazette, speaking of the Portsmouth Gazette as it now is, and especially on its interpretation of Popular Sovereignty, says:

The above shows very clear what sort of doctrine the new editor of the Portsmouth Gazette is attempting to impose upon the people of this State, under the label of "Popular Sovereignty." * * * Upon this theory, the whole idea of Popular Sovereignty is a delusion, and the Democratic party have been for ten years past laboring and suffering defeat, in one-half of the Union, to establish a vagary, an arrant humbug. But the Gazette is liable to the charge of going even farther than the most rabid pro-slavery fire-eater in the country. * * * It goes upon the ground that slaveholders, not only have the right to emigrate with their slaves to either a State or a Territory, but may hold them there under the Constitution of the United States in defiance of all local law,—a position that involves both the right and duty of Congress to interfere and enact laws protecting slavery everywhere. This doctrine we repudiate and abhor, and the Democratic party and the people of this country will repudiate it with a thundering indignation, that will hurl its advocates into hopeless and irretrievable oblivion and ruin. * * * With such a doctrine inscribed upon our banners, overwhelming and ignominious defeat justly awaits us, as sure as the month of November, 1860, is to come round.

☞ The Savannah (Ga.) Republican has all along insisted that the movement in behalf of the slave trade at the South is of but little importance, but in a recent number it concedes that the measure is growing upon Southern opinion, and states, in illustration of the fact, that nine-tenths of the delegates in the Democratic Congressional Convention of that district went for the repeal of the laws against the slave trade, while every single aspirant for the nomination declared himself for the revival of the trade. According to the Republican there are two classes of the slave trade party, one going for the actual revival of the traffic, the other for the repeal of the laws against it, not because they care about the trade, but because the laws are a standing moral condemnation of slavery.

☞ One of the hints of the times, says the Pittsburgh Gazette, is the return of that honest man, the Hon. John A. Gilmer, to Congress from North Carolina. A letter from that gentleman to a friend, under date Greenwood, Aug. 8, says:—"I am re-elected by 2000 majority over two opponents, one the regular Administration nominee, the other of my own party, bitterly denouncing my anti-Lecompton vote. Gen. Leech, Opposition, beats Scales 800; we doubt not that Vance is re-elected, and we hope that Shaw is defeated by Mr. Smith. I feel proud at being so nobly sustained by an intelligent Southern constituency for doing my duty in the hour of sectional madness."

☞ A New Orleans clerk was cutting a great swath at Saratoga, and spending money like a prince, when his employer arrived and stopped the fun by clapping him in jail. He had been drawing on his employer by forged signatures. Several belles among the ton were much chagrined at this interruption to their flirtations with the rich Southerner.

Half the secrets in the world are disclosed in order that those who possess them may let their friends know that they hold them.

AN INTERESTING WORK.—Among the unpublished manuscripts of the late and much lamented Dr. Wm. A. Alcott, was one bearing the following unique and expressive title:—"Forty Years in the Wilderness of Pills and Powders, or the Cogitations and Confessions of an Aged Physician." It bears the marks of having been added to, up to within a week of the decease of the venerable author. It may with propriety be called his Medical Autobiography, and is a work of quite remarkable character, being filled with facts and anecdotes of rare interest. It will doubtless have a large sale when published. We are informed that Messrs. John P. Jewett & Co. have the work in press, and will issue it at an early day.

☞ In Texas, 82 counties give Sam Houston a majority of 8000 votes. Lubbock, the Democratic candidate for Lieut. Governor, is probably elected. Frank N. White, Democratic candidate for Commissioner of General Land Office, has 2000 majority in the counties heard from. In the 2d Congressional District, Gen. A. J. Hamilton (Opposition) is reported ahead of Thomas N. Waul (Democrat.) Out of 54 members of the next Legislature, 29 are known to favor the return of Gen. Sam Houston to a seat in the U. S. Senate, and 20 are opposed to him.

☞ The Queen of England, desirous of paying a graceful tribute to the heroism and discipline of the officers and men who perished at the loss of her Majesty's troop steamship Birkenhead, has ordered a tablet, commemorating the event, to be placed on the colonnade at the Chelsea marine hospital. At the destruction of this ship, the sailors and soldiers embarked the women and children on board the boats, and, as the vessel was sinking, fell into line at the word of command, and fired a salute.

☞ A negro woman, belonging to Mrs. Cross, in Hanover, Virginia, died a few weeks ago. She complained of having a kind of choking sensation about the throat; her mistress gave her a glass of salt water, but it failed to have the desired effect.—Shortly after the negress discharged from her bowels a lizard, nearly six inches in length, causing her death in a short time.

☞ Rev. Henry Ward Beecher says of the "items column" in the newspapers, that it "is worth more than all the small fry of correspondents, with an editor thrown in to boot! Like a caravan, it stretches along in columns, with packages and parcels, spices and gems, bits of fragrance or cunningly wrought metals, gathered from the Orient and from the whole world besides."

☞ A poor fellow in New York, who is about to leave town because all the "nicest people" but *himself*, have joined in the August *hegira*, thus versifies the miseries of town life for the Evening Post. One of his stanzas will interest our fair readers, viz.:

"Every one a stranger whom I chance to meet,
Only rural damsels promenade the street,
With their funny dresses that never sweep the dirt,
It's a week since I'd the pleasure of treading on a skirt!"

☞ At the recent Temperance Convention held at Naples, Me., a speech was made which is thus reported in the Temperance Journal!

Joshua Dunn, Esq., of Portland, said that he considered intemperance one of the crying sins of the day. He approved of the present law—he voted for it—he was ready to defend it. He was satisfied that alcohol was not needed for a beverage—and the doctors should decide on its medicinal qualities.

☞ A new town bridge at Hooksett is to be built where the others were burnt.—Operations have already commenced upon the foundation. As an act of sheer justice to a sister town, the Representatives of Merrimack County, in Convention, last June, voted to appropriate $3,000 of the county tax to aid in the construction of the above bridge.

One day last week a heavy broad axe fell from the roof of the new station house, Concord, N. H., and passed so unpleasantly near the head of a gentleman on the floor beneath, as to cut his hat brim, and make a close shave at his ear and shoulder.—*Statesman.*

NOTICE.—The General Association of Congregational and Presbyterian Clergymen, and other Anniversaries, are to be held on Boscawen Plain, this week, commencing on Tuesday and closing Thursday.

☞ Baltimore papers are earnestly call upon the judiciary to enforce the penalties incurred by criminal offenders in that city. It would seem that rowdyism has at length reached its climax, and is no longer endurable.

☞ Two firms at Worcester have manufactured 2200 mowing machines within the past year, which sold for about $230,000.

Swinging is said by the doctors to be a good exercise for the health; but many a poor wretch has come to his death by it.—*N. Y. Ledger.*

☞ Professor Agassiz is now in Switzerland, and is expected home about the middle of September.

MR. MANN'S LAST HOURS.—A member of the Faculty of Antioch College thus describes President Mann's last hours:

On Monday morning, (August 1,) I was allowed to visit him, and my first glance convinced me that the chances were against his recovery. On Tuesday, at 5 o'clock P. M., the great soul mounted from the fallen tower. I was with him constantly during the last 36 hours of his life, and I must say that I never saw the excellences of his character so fully revealed. All that was cragy, angular and masculine had already died, and what remained was rich indeed. His real greatness never shone out more than in the death-hour. When he was told that he had but a few hours to live, his brain flashed up with all the glory of his best days, and he talked at least two hours in a strain of almost supra-mortal eloquence. The members of the family, students remaining here during the vacation, and many of his neighbors were called in at his request, and he had for each some word of warning or cheer. It was particularly noteworthy that his remarks to each person had some specific pertinency of adaptation.

His ideas, and the language in which he clothed them were really grand, and amazed all to silence—nay, melted us all to tears. A signal sweetness and tenderness pervaded every word. Not often in one's lifetime does one have the privilege of witnessing so great a scene. I am forced to confess that I never before appreciated the softness of the core that this masculine heart contained.

LITERARY APPRECIPTION.—An American gentleman relates, after leaving a paper of which he was the editor, and returning on a visit, he wrote a leader for the new editor, and he really though it good—better than he had written for months. Next day he met an old acquaintance with a paper in his hand. "Ah," said he, "this paper is but a miserable thing now—nothing like what it was when you had it"—and pointing to the article he had written, he continued: "Look, for instance at that thing! who would read such trashy stuff as that! Why didn't the fool let you write the article?"

☞ Mr. S. M. Hewlett, of Wisconsin, a famous temperance lecturer of the West, is now on a lecturing tour in Maine; he will be in Boston about the 1st of September, and may possible speak here on his way from Maine to Boston.

Ex-Secretary Dobbin recommends him highly, as instructive, amusing, and yet impressive. He has also many other high commendations.

☞ Pennsylvania, having sold its canals and railroads, is reducing its state debt at the rate of one million dollars a year.—New York, holding on to her public works, finds herself growing deeper and deeper in debt, with a decreased revenue and a sad financial prospect ahead.

FATAL ACCIDENT.—The Newburyport Herald learns that on Friday noon Mr. John Quested, a carpenter, belonging to West Newbury, fell from the new Orthodox meeting-house in West Amesbury, and was instantly killed. He fell about twenty-two feet and struck on his head. He was about twenty years old.

☞ The Washington correspondent of the Journal of Commerce says:

It is an ascertained fact that agriculture in the United States has been on the retrogade for some years past, instead of advancing at a pace equal with other arts.

☞ In Boston, a man named Patrick Carroll died at Police Station No. 3, Thursday afternoon, the result of hard drinking.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.
Sold by druggists and dealers generally, everywhere.

Dr. Wistar's Balsam of Wild Cherry,
Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.
The following Certificate from a distinguished gentleman is equally conclusive.
From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, N. H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.
CONCORD, N. H., March 2.
Messrs. SETH W. FOWLE & CO.,—*Gentlemen:*—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.
With respect, yours truly,
HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.
SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.
The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use.
SHE WAS SOUND.
Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.
Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.
This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

TO THE CITIZENS OF NEW HAMPSHIRE.
Charles's London Cordial Gin.
THE ORIGINAL AND ONLY LONDON GIN IMPORTED.
This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, VOLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.
For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

IRISH RATABLE POLLS.—On our 4th page to-day is an article from the N. H. Gazette, on Ratable Polls.

Uncle Toby rejoices in the present possession of the Revised Statutes of N. H., in which are found the three following items about ratable polls.

Upon the back of the list of voters used at the annual meeting, the selectmen shall enter the names of all the ratable polls in the town not included in said list, and shall file the same with the town clerk within one week after the town meeting.

In determining the number of representatives to which any town is entitled, every male inhabitant of the age of twenty-one years and upwards shall be considered a ratable poll.

All male polls, from twenty-one to seventy years of age, are liable to be taxed, except paupers and insane persons.

These items do *not* go to show that our number of ratable polls was not swelled by the new Irish voters, naturalized to vote last March,—but rather to help make it plain, and to help prove it.

It is no romance, but sober fact, that numbers of these men, who did not have much work last winter, were aided by almsgiving, and *kept* here till after election, but have disappeared since, and cannot now be found to pay their poll tax.

If any body supposes that *half* or a *quarter* of the 100 new Irish polls would have got upon the list of *ratable* polls without being on the *check lists*,—he knows very little about the manner of makiug up such documents in this city; and very little about how the election was carried.

☞ The great lack of rain has already had an injurious effect on vegetation, and especially on grass in pastures. This causes a depreciation in the quantity of milk, in consequence of which, milkmen have been obliged to raise the price of their milk to the original charge of five cents per quart. This seems to be cheap enough, too, in proportion to the prices of other articles of food. We also do not believe that it can be raised for less than the above price, and if a farmer should tell us that we were wrong in this particular, we should'nt make any direct insinuations, of course, but should be inclined to presume that the pump must necessarily be resorted to, in order to supply the deficiency in the quantity, as well as to make up the profits. We don't believe there is any watered milk brought into this city, but if, in the present scarcity of this article, some one should see visions of adulterated milk, we would merely suggest that the better way would be to bring the milk and water separate, and allow the customers to mix it; because they could suit themselves as to the quantity of water to put in a certain quantity of milk. This suggestion is only made on a supposition. C.

☞ We notice in Frank Leslie's Illustrated paper, an engraving of the La Tourette House at Bergen Point, New Jersey. Mr. Wesley W. Hill, formerly of Portsmouth, and for many years manager at the Irving House, New York, is the proprietor of the La Tourette House, which is one of the celebrated summer resorts of the New Yorkers, there being two steamboats constantly running between the house and the City of New York.

Mr. Hill is one of the few men who has the rare faculty of conducting successfully a large establishment of this kind; a business requiring talents not possessed even by men who have succeeded well in other enterprises. Our American cousin uttered a great truth when he told John Bull that a man might be a pretty smart fellow and yet he "could'nt keep a hotel."

DIED.—In this city, on Sunday, Aug 21, Mrs. Lucy Shores, at the advanced age of one hundred years and six days. Last Monday the anniversary of her birthday was celebrated at her house, and about one hundred visitors were present; the excitement of the occasion probably hastened her death. She retained full possession of her faculties to the last.

Funeral on Tuesday afternoon, at three o'clock, from the residence of Mr. Samuel Hall, Esq., on Sagamore road.

☞ The State Street Methodist Society have taken a ten years' lease of the vacant lot on the southern side of Daniel street, between Penhallow and Chapel streets; and are to erect a Vestry there forthwith. The building will be of wood, is estimated to cost about $1000, and will accommodate about three hundred persons—and is designed chiefly for the use of the Sabbath School.

KIRBYE'S VARIETIES, which exhibited at the Temple, Saturday evening last, was all that could be desired by the large audience that was called together on this occasion. Prof. Kirby and the other performers acquitted themselves in a creditable manner, and there can be no doubt but the audience was highly gratified with the variety of exhibitions that this company give. The last performance is announced for this evening, with an entire change of programme. Those who are fond of genuine [illegible] will.

THE NATIONS THAT WOULD NOT HAVE THE REFORMATION.—Austria, Spain, Italy, France, Poland—the offer was made everywhere, and it is curious to see what has become of the nations that would not have it. In all countries were some that accepted, but in many there were not enough, and the rest, slowly or swiftly, with fatal, difficult industry, contrived to burn them out.

Austria was once full of Protestants, but the hide-bound Flemish-Spanish-Kaiser element presiding over it, obstinately, for two centuries, kept saying:—"No; we, with our dull, obstinate, Cimburgus under lip and lazy eyes, with our ponderous Austrian depth of habituality and indolence of intellect, we prefer steady darkness to uncertain new light!" And all men may see where Austria now is.

Spain still more; poor Spain going about at this time, making its pronunciamentos; all the factious attorneys in its towns assembling to pronounce virtually this: "The old is a lie, then: good heavens, after we so long tried hard, harder than any nation, to think it a truth!—and if it be not rights of man, red republican, and progress of the species, we know not what now to believe or to do; and are as a people stumbling on steep places, in the darkness of midnight!" They refused Truth when she came, and now Truth knows nothing of them. All stars and heavenly lights have become veiled to such men: They must now follow terrestrial *ignis fatui*, and think them stars. This is the doom passed upon them.

Italy, too, had its Protestants; but Italy killed them; managed to extinguish Protestantism. Italy put up silently with practical lies of all kinds; and shrugging up its shoulders, prefered going into *dilettantism* and the fine arts. The Italians, instead of the sacred service of fact and performance, did music, painting, and the like; till even that has become impossible for them; and noble nation, sunk from virtue to vertu; ever offered such a spectacle before. He that will prefer *dilettantism* in this world for his outfit shall have it; but all the gods will depart from him; and manful veracity, earnestness of purpose, devout depth of soul, shall no more be his. He can if he like make himself soprano, and sing for hire; and probably that is the real goal for him.

But the sharpest cut example is France, to which we constantly turn for illustrations. France, with its keen intellect, saw the falsity in those Protestant times; and, with its ardor of general impulse, was prone enough to adopt the former. France was within a hair's breadth of becoming actually Protestant. But France saw good reason to massacre Protestantism, and end it in the night of St. Bartholomew 1572. The celestial apparitor of Heaven's chancery, so we may speak, the genius of fact and veracity, had left his writ of summons; writ was read, and replied to in this manner. The genius of fact and veracity accordingly withdrew; was starved off, got kept away for two hundred years. But the writ of summons had been served; Heaven's messenger could not stay away for ever. No; he returned duly, with accounts run up on compound interest, to the actual hour in 1792; and then at last, there had to be a "Protestantism;" and we know that was.—*Carlyle's Frederick the Great.*

NEW YORK, Aug. 25.—A New Bedford correspondent of the Tribune says a large schooner, called the Horace Staples, of Westport, has been lying in the harbor there for several weeks, and is evidently being fitted out for a slaver. The revenue cutter was watching her movements.

A dispatch from Washington says the government officer arrested there for defalcation, as mentioned last evening, is Major French, pay clerk of the Bureau of Construction. Connected with the charge of defalcation is the additional one of alteration of vouchers. Major French is a graduate of West Point. He is held in $10,000 bail.

PROF. WISE'S LETTER BAG FOUND.—*Lancaster, Pa., Aug.* 19.—The letter bag expressed by the postmaster of Lafayette, with proof of Wise's departure, was dropped from the clouds over Crawfordville, and passed through here to-day en route for New York.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "properly made and *chemically pure*. My *fac simile* signature is upon every bottle.

GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

TESTIMONIALS.

PORTSMOUTH, July 16, 1859.

Several months have now elapsed since one of these machines was first introduced for family use. For several weeks those who attempted to operate it having had no instruction, it was regarded as of little value, although some work could be done. But no sooner had one of experience taken hold of it, giving the proper tension to the cotton, proper oiling, &c. to the machinery, than it worked admirably—and now for months it goes on like clock work, doing handsomely all the work submitted to it, and accomplishing as much work in an hour as could be done by hand in a long summer's day. These machines are decidedly popular. We have never heard of one being sold to procure another from a different maker,—while we have known others to be laid aside to give place to Grover & Baker's. Any one can operate them after an hour's instruction from an experienced hand.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

DR. SWETT'S

CORDIAL OF DANDELION,

SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

(From Mrs. Ira Burnham, Exeter, N. H.)

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

(From Mrs. Ebenezer Blazo.)

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

ENFIELD, Sept. 8, 1859.

Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.

A. K. CURRIER.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

RATABLE POLLS.—In the Chronicle a few days ago we noticed the following:

"There are exactly 2000 ratable polls. (Last year 1880. The gain(?) is chiefly Irish voters naturalized before election.)"

A few days after the appearance of this article from which the above was extracted. "A Tax Payer" correspondent of the Chronicle says: "This increase is not natural or proper, and you, (the Editor of the Chronicle) have no doubt stated the nature of it true, that it came from the new Irish vote, made last spring to carry the election."

The legal as well as the political knowledge of the gentlemen who thus attempt to enlighten the public mind, is indeed, prodigious. "Tax Payer" would do well to ascertain what connection there is between "*new Irish voters*" and "ratable polls" before he spreads himself before the public again, and Uncle Toby himself would do well to know something about the subjects he discusses, unless it be his object to delude his readers and render himself ridiculous. Perhaps a copy of the Statutes of New Hampshire would be a serviceable addition to his office library.

OUT AT LAST.—We congratulate our friend of the N. H. Patriot on having at length taken a position on the Territorial question and the doctrine of Popular Sovereignty, but we are sorry that after so long a delay he should have chosen an unsound and untenable one. He has copied from the Union Democrat the article relating to ourselves, to which we replied last week, and endorses it as "sound, candid, logical and correct." By this full and emphatic approval of the sentiments of that article, our friend has at once ignored the Constitution, the Dred Scott decision and the Cincinnati platform, and unequivocally declared for *squatter* sovereignty in its broadest sense, or the *interest* right of the people of the Territories to form and regulate their domestic institutions in their own way and time and establish or exclude slavery at their pleasure!—thus out-Douglasing Douglas himself.

We regret that our friend after so long a delay should have committed himself to a doctrine so entirely erroneous and unsound as we conceive this to be, yet we are not surprised at it. It seems to be his lack to get on the wrong side of important issues. We remember him not a very long while ago as a most zealous advocate of the Wilmot Proviso dogma. But he hasn't said much upon that subject of late; and we predict that the period of a generation will not elapse when he will be silent upon the doctrine which he has now embraced.

Wonder who will be our friend's favorite for the Presidency since he has left Douglas so far behind.

FURNISHING AMMUNITION TO THE ENEMY.—It is the utterance, says the "Constitution," of such stuff as the following, from a prominent slave-trade journal in Mississippi, that rejoices the very heart of the black republican intriguer for the honor and distinction of office! The fanfaronade and nonsense of a few advocates of the importation of native Africans are eagerly caught up and imposed on Northern readers and audiences as expressions of Southern opinion, when, in reality, the South detests and abhors them. The paper to which we allude copies a story about landing a cargo of negroes fresh from Africa on the Florida coast, and accompanies it with this exquisite bit of commending rhetoric:

"May prosperous gales speed the honest 'pirates' in their noble mission to augment the supply of Southern labor, and to obey the injunction to feed the hungry and clothe the naked. The needs of the Southern people, and the requirements of commerce, call loudly for more and cheaper negroes, and, thanks to the adventurous slave-traders, they are coming."

QUICK WORK.—Mr. Frederick W. Rogers, who has a contract to haul a large quantity of coal from the wharf to the railroad, for parties in the country, recently discharged eight cargoes of coal, amounting in the aggregate to 1495 tons of 2240 lbs., hauled the same, and put it on board the cars on the Concord Railroad in nine days. This is probably the largest amount of freight ever discharged from vessels at our wharves, in an equal number of days.

Mr. Editor.—As every anecdote of Washington is now read and treasured with interest, I venture to write one or two which have been many years current in this vicinity, and are doubtless authentic though I have never seen them in print.

The first was related to me by the late George Wingate of Stratham. When Washington last visited New England, he passed in his own carriage from Portsmouth to Exeter; at the door of the Honorable Paine Wingate in Stratham he stopped to converse a few minutes with his old acquaintance and friend. Mr. Wingate raising his little son in his arms presented him to Washington, saying, "I have named him George." "For which George did you name him?" was the ready reply.

When Washington was in Greenland a crowd pressed about him to see him and to speak him. A little boy, unable to get through the crowd, was raised in his father's arms, that he might see the person who was attracting such enthusiastic attention. Looking at the General, the boy exclaimed in a tone of disappointment: "why he is but a man!" Washington heard the remark and immediately took the child in his arms, exclaiming with much feeling: "no, my boy, I am only a man!"

Greenland, Aug. 11th 1859.

WHEN DO THE BIRDS CEASE TO SING?—It is said that somewhere about the 18th of August, all the birds that have sung for us through the season stop singing, nearly all at once. If this be so, it will happen in the course of the present week, and observers and listeners will have an opportunity to verify or disprove the assertion. It is not said that the singing birds leave us at this time of the year, but that they no longer perch on trees and fences, and sing the usual bird-songs.—*Exeter News Letter.*

HALF FARE.—Fire Companies and accompanying Bands of Music will be transported to the Muster at Manchester, over the Concord, Manchester & Lawrence, and Concord & Portsmouth Railroads at half fare, if special previous arrangements are made with the Superintendent. All other persons will be obliged to pay full price over those roads.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
RECEIVED HIGHEST HONORS AT THE
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on the shortest notice, with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Models of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it Inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials here given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of securing a valid application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, Washington, Feb. 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part, I take pleasure in recommending all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber has prosecuted the large number, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

AYER'S SARSAPARILLA.

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pars Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, for which class of diseases, no such alterative can must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped to the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla, for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acute bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall restore the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and other eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given, with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be deceived by unprincipled dealers with other preparations by which they may profit on Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluide, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, render, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who laving my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds one quart, 50 per cent. more in proportion, and retails for $3 a bottle.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and the cash as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

His medicines can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

NEW STYLE!!
GREELEY'S PATENT ELASTIC BACK AND CENTRE SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making pants is: they may be made snug to the person, and still be as easy as though they were uncomfortably large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may26

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN:
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

Seven Octave Piano --- New Scale.
The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale,** which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.
Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.
Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE.*

FUNDAMENTAL STUDIES.—It has been too common for pupils to hasten their entrance upon the study of what are called the higher branches. But the branches chosen are not always such as are likely to be most practically useful in after life, and the study of them is often begun by pupils before they are duly prepared. The first object of a school, apart from moral influence, is learning to read, understand, and correctly use the English language. Having gained this point, all persons, who can procure books, may become self-teachers.—The pupil who has but superficial acquaintance with the fundamental branches never makes good progress, when he attempts the higher.

There can be no objection, certainly, to the study of the higher branches; but the practical should come first. It is well to know something about astronomy, but, in a practical point of view, the study of our *own* bodies is of more importance than that of the *heavenly.* The structure and operation of the government of our own country, are very imperfectly understood by multitudes of voters, even in enlightened New England. Young men who expect soon to become voters should immediately begin the study of this subject.—*Exeter News Letter.*

KITCHEN MEMORANDA. — Potatoes to be washed—meat to put to soak—lamps to trim—knives to scour—furniture to be dusted—silver to be polished—front entry to be washed—beds to make—apples to be pared—flour to sift—shirts to be ironed—dishes to be washed—beets to be cleaned—carpets to be swept—fires to be tended—dinner to get—pig to be fed—pudding to be made—a run to the store—front door to tend—children to be waited on—baby's frock to be washed—stockings to be darned—buttons to be sewed on the shirts—shirts to be done up—tea to get—griddle cakes—doughnuts, custards, gingerbread, preserves—dishes to clear away—company, evening meetings, bed time.

What merchant, politician, or president has a longer list of daily avocations than the good housewife? and yet how little are they considered. The hard and constant fatigue of the mother should elicit a deeper sympathy, and a more strenuous effort to lighten her burdens.

☞ Alexander Muhlholland, an Irish resident of Chicago, murdered his newly born infant on the 15th inst. while in a fit of jealousy. He took the infant in one hand and with the the other dealt it a blow which caused its death in a few minutes. He declared the child was not his.

☞ The eminent jurist, Blackstone, early in the reign of George III., had curiosity to go from church to church in London to hear every clergyman of note. He tells us he heard not a single discourse which had more christianity in it that the writings of Cicero, and that it would have been impossible for him to discover, from what he heard, whether the preacher was a follower of Confucius, Mohammed or Christ. What a change has three-quarters of a century wrought in that church.

"How long has O'Reilly been in the country?" asked the Judge when "naturalizing."

"Shure, and it's a great while."

"How many years?"

"Och, and it's many."

"Do you know what ship he came over in—was it the Mayflower—a famous emigrant ship, some years since?"

"And what else, be dad?"

"The same that the Pilgrim fathers came over in?"

"Indade, and they were on board."

Pat was naturalized upon that.

☞ A calliope accompanying a circus at Oswego, N. Y., caused a terrible horse runaway, which knocked down and seriously injured a number of people. No less than seven were so much injured as to require physicians. The circus people will be invited to pay the bills.

☞ Zanesville, Ohio, was the theater of an unsuccessful fugitive slave hunt, a few days ago. The hunters were from Parkersburg, Va., but the game had got to cover before they arrived—in the language of Cuffee, "dis was good for de woodchuck, but bad for de dog."

☞ The Laconia Democrat says that the moonlight excursion under the auspices of the Laconia Cornet Band was very successful—the number large—the moon bright—the weather fine—the lake smooth—the music first rate—and the ladies, oh dear!

☞ The work of placing the statue of Daniel Webster in the easterly yard of the State House at Boston is in progress, and it is proposed to set over against it in the westerly yard, the proposed statue of Horace Mann.

WASHINGTON, Aug. 20.—It is rumored that Mr. Ould, of the Richmond Examiner, who is now in this city, has come here for the purpose of fighting a duel with O. Jennings Wise, of the Richmond Enquirer.—The police are on the alert.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, AUGUST 23, 1859.

☞ The Boston Advertiser informs us that on Sunday morning, the House of Reformation.—constituting the east wing of the large city building on Deer Island, was destroyed by fire. It was set on fire by three boys, in the same manner that the State Reform School was fired at Westborough. The account of the latter fire informed these last incendiaries, who had *read* it, how to go to work. Owing to the solidity of a portion of the burned wing, the loss will not much exceed $10,000.

It is to be hoped that these boys are not *alone* in learning something by these incendiary fires. Legislatures and building committees, in case the Reform Buildings are of brick, should make them with as little wooden finish as possible. If of wood, make them coarse and cheap: pay more attention to strength than ventilation,—put on more iron and less paint.

So in *sentencing* the boys:—real *criminals*, old in crime if not in years, should 'go to their own place,' i. e. the States Prison, where they must work, but cannot very well set things afire: while truants, and those guilty of only minor offences, should go the Reform School.

When our Reform School in this State, calls for more room,—let us have a solid, safe structure, as near fire proof as may be.

The three incendiaries who fired the building on Deer Island, are thus described in the Traveller:

The ringleader was Michael Riley, 16 years old; committed nine months ago as an idle and dissolute boy. Some years ago he was sent to the Westboro' State Reform School, with an alternative to the House of Correction. While at Westboro' he made three attempts to burn that institution, after which he was sent to the House of Correction, and served out his sentence. Subsequently he was sent to Deer Island on the present charge.

Thomas Gordon, aged 14, sentenced for truancy: Wm. Coughlin, 16, for larceny.—These two have been looked upon as bad boys, but have never been very vicious.

All three were arrested, and upon being qustioned, made confessions.

We hope some editor will find out the parentage of these incendiaries, and those at Westboro'. From their names, and some other marks, we suppose them to be Irish catholic paupers.

☞ The Providence Journal suggests several reasons why Caleb Cushing is disqualified for a mission to Central America. 1st, he understands the language of that country; 2d, he understands French, in which language diplomacy is generally conducted; 3d, he is a scholar and statesman, and thoroughly acquainted with the history of our government; and 4th, he would settle all the difficulties in a month, and leave nothing to quarrel about! There is many a truth spoken in jest.

☞ According to the Washington States, a circular letter has been prepared for dissemination among the old line Whigs, in which some elaborate calculations are prefaced by this candid admission:—"Under present circumstances we are a nonentity—we are crushed and bruised and mangled between two mill stones. Another general election will exterminate us unless something is done to prevent it." So we should think. A tree "twice dead, plucked up by by the roots," might be considered as exterminated.

☞ One of the New York papers is alive to the advantages of a home in that place. It says:—"Probably there is no other city that affords so excellent an opportunity to surgeons in civil practice to study the bearings and results of gun shot wounds as the city of New York. It is a lamentable fact that more cases of this kind are sent to the New York Hospital than to any similar institution in any part of Europe."

☞ The Scotch printer in New York who was nearly beaten to death by his neighbors, for the alleged murder of his mother-in-law, has been found innocent by the Coroner who held an inquest on the body of the deceased—a verdict of death by apoplexy being rendered.

☞ Farmers will be paid who raise their own grass seed or buy of a reliable neighbor. This will be better understood from the statement of Prof. Breckland of England, who says he found in one pint of clover seed *seven thousand six hundred weed seeds!* In other grass seeds he found them equally abundant.

☞ Capt. Isaiah Rynders, of New York, is about to publish his political and personal reminiscences in a book, that will create a stir among the politicians.

☞ In North Sandwich, N. H., 9th inst., Mr. Elden McGaffey committed suicide by hanging. He had been for some time past afflicted with fits. His age was about 40 years.

☞ The Charleston, S. C., Mercury, of Aug. 13, says of Gen. Houston, who has just been chosen Governor of Texas:

A few years ago, in consequence of his reputed affiliation with the know nothings, and of his decided opposition to the passage of the Kansas-Nebraska act, he lost, apparently, every particle of the popularity he once enjoyed in Texas.

Runnells, pro-slavery, beat him by 10,000 majority, then, and he lost his election for the Senate also.

The Mercury says:

His national aspirations and base trachery to his section and the slave institutions of the South had destroyed him.

In the late election, the same paper tells us:

The State rights party of Texas have brought defeat upon themselves by making an impracticable and mischievous issue.—The people of the South should be informed on the subject; but to make it matter for *voting*, and a living issue, dividing our people, is a foolish and fatal move. When the South is in a position to *act* on it, it will then be time enough to make it an issue.—But until then, such a use of it is fraught only with evil. In this instance it has paralyzed the State rights party of Texas, and raised to power one of the greatest enemies of the *South*, and most unmitigated demagogues within our borders—a Southern *freesoiler*.

Houston himself wrote thus, before the election:

There are "isms" of a most dangerous character which threaten our safety as well as our existence, to which I am unalterably opposed. These are the "isms" of nullification, secession and disunion, and which are in vogue with many men who claim to be friends of the South, but are in realty demagogues, who live on agitation, hoping to be elevated by the confusion of the times.—Many of these are prominent advocates for the re-opening of the African slave trade, than which no greater evil is to be apprehended to the South.

☞ The southern argument for the revival of the African slave trade is forcibly stated by John Forsyth, of Albany, as follows:—

"Slavery is right, not merely because we have the 'niggers' and do not know what to do w't them—not merely because present good flows from it—but because it is a *divine* institution resting upon the same basis as government or marriage. The essential condition of *all* property is its capacity of being bought and *sold*. The buying and selling of slaves can, therefore, be criminal only if the holding of slaves be criminal—The buying and selling of slaves cannot be more criminal in one place than in another—in Africa than in Virginia. If the buying of slaves is morally wrong in Africa, it is morally wrong in Virginia, or anywhere else; and if it is morally wrong to buy slaves it is morally wrong to hold them.—The morality of the slave *trade*, therefore, can be assailed only by denying that slavery rests upon the same foundation as marriage and government, or the tenure of any species of property."

Those who defend slavery as *right* in itself can find no answer to the logical proposition of Mr. Forsayth. The inhibition of the slave *trade* contemplated and realized by the farmers of the Federal Constitution proceeded on the assumption that slavery that slavery was *wrong* in itself, and that it should be *abolished* as quickly as circumstances would allow.—When that truth is denied, the reopening of the slave trade follows as an inevitable sequence.—*Portland Advertiser.*

☞ The Democratic Standard disposes of the Dover Gazette in the following summary manner, while it recommends the Portsmouth Gazette.

The great ex-architect of the Dover Gazette, who was incapable of getting a living by his profession, is after the N. H. Gazette with a 'sharp stick,' for avowing its determination to support the rights of all the States under the Constitution. This powerful fellow also brings to bear the Saco Democrat and Augusta Age, two abolitionized democratic prints of the State of Maine, upon the N. H. Gazette. This sage man of Dover talks like a pope, as though he had power to put under the ban and ex-communicate all recusants from his own contracted faith. After the Charleston Convention, he will be himself glad if he is permitted to remain in Democratic Party. We believe this gentleman was originally a Whig, then a Know Nolhing, and finally became a democrat.—There are many good, sound, national democrats at Dover, and its vicinity. We have no doubt they will extend a cordial support to the N. H. Gazette.

SERIOUS AFFRAY.—Last evening about 5 1-2 o'clock, two men by the names of Henry Brown and John Hammond, had a fight upon the deck of a vessel upon Burnham's railway. Brown knocked Hammond over the rail and he fell to the ground, striking the cradle in his descent. His skull was fractured by the fall, and he now lies in a very critical condition. Both men were in liquor at the time. Brown was arrested by the police and is now in custody.—*Gloucester Telegraph.*

☞ A few nights ago, three professional burglars from New York, visited the quiet village of Haverstraw, and property was stolen of the value of $16,000. Fifteen thousand dollars of this amount was in a tin box from the office of Mr. Theodore Smith. They then stole a horse from one man's barn and a wagon from another, and departed. They left the stolen horse and wagon at the Weehawken Ferry, *and forgot to take out their tin box containing the* $15,000.

☞ The population of Texas, as shown by the late census, is 458,620. Of this number 40,000 are Germans, 20,000 Mexicans, 138,165 slaves, 1280 free negroes.

☞ The following lines were written as a school exercise by a young lady in Bangor:—

"I WOULD IF I COULD."

I would if I could,
Though much it's in use,
Is but a fallacious
And sluggish excuse;
And many a person
Who *could* if he *would*,
Is often heard saying,
"I would if I could."

"Come, John," said a schoolboy,
"I wish you would try
To solve this hard problem;
Now don't you deny;"
But John, at this moment,
Was not in the mood,
And yawningly answered,
"I would if I could,"

At the door of a mansion,
In tattered rags clad,
Stood a poor woman, begging
A morsel of bread;
The rich man scarce heeded,
While trembling she stood;
And answered her coldly,
"I would if I could."

The scholar receiving
His teacher's advice;
The swearer, admonished
To shun such a vice;
The child, when requested
To try and be good;
Olt give the same answer,
"I would if I could."

But if we may credit
What good people say,
That where a strong will is,
There's always a way:
And whatever ought to be,
Can be and *should*—
We never need utter
"I would if I could."

HUMBUG.—Some worthless fellow under the assumed *sobriquet* of "Harvey Brown & Co., Amoskeag, N. H.," advertises in some of the more remote papers of this State that to all who will enclose *ten cents*, some very valuable information will be given in regard to employment. If any one wishes to be duped in a cheap way—say to the amount of ten cents and a postage stamp, let them write to Harvey Brown & Co., Amoskeag.—*Manchester American.*

☞ Col. Asa P. Cate, for two years the Democratic candidate for Governor in New Hampshire, has written a letter, an extract of which appears in a Chicago paper, stating that two to one of the Democrats of New Hampshire are for Douglas.

☞ The Supreme Court of New York recently held that a divorce obtained in the State of Indiana, when the party goes there for the purpose of procuring such divorce, and then returns to that State, is wholly inoperative and void.

☞ The National Era, after a statistical review of the field, comes to the conclusion that, "unless the Republicans elect a President in 1860, no election by the people can take place."

☞ John Bross, old, blind and poor, committed suicide by hanging, at New York, on Friday.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Dr. Wistar's Balsam of Wild Cherry,
Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.
The following Certificate from a distinguished gentleman is equally conclusive.
From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.
CONCORD, N. H., March 2.
Messrs. SETH W. FOWLE & Co.—*Gentlemen.*—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.
With respect, yours truly,
HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.
SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.
The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,
SHE WAS SOUND.
Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.
Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.
This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.
This Gin, distilled in London, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.
It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.
Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.
Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."
It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.
For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.
May be had in Boston of G. C. Goodwin & Co., 11 Marshall st; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. THE BEST LIGHT!!!
Cancemine Oil.
Every one is naturally desirous of obtaining the BEST LIGHT, at the SMALLEST COST; and this is secured by the use of Cancemine Oil,—a new article which is rapidly superseding the Kerosene Oils, for the following reasons, viz.:—It is CHEAPER, GIVES MORE LIGHT, WILL NOT SMOKE, and HAS NOT THE OFFENSIVE ODOR OF KEROSENE.
This Oil can be used in the ordinary Kerosene lamps; but an improved burner can be fitted to any lamp at a small expense.
This is by far the best light yet offered to the public. The subscriber has this Oil for sale in any quantity, also a supply of Lamps, &c.—A lamp may be seen in operation at store

The Best Medicine in the World.
YES—DECIDEDLY THE BEST—IS
Dr. Langley's Root and Herb Bitters.
They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom. They act at once upon the very seat of disease. They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood, remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."
Doctors' prescriptions, clothed in Latin verbs, Now yield the palm to Langley's Roots and Herbs; Forsake vile drugs and cull from Nature's store, As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store, From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend, And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.
So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.
Only 25 cts. for a pint, 38 cts. for a large bottle.
Sold by all dealers in medicine everywhere.

LAFAYETTE LAIGHTON

LOCAL.

☞ We are informed on the best authority that the party of friends who visited the late Mrs. Shores, on her hundredth birthday, was a voluntary assemblage, with the exception of a very small number who were specially invited; and that she enjoyed the visit, and was not apparently injured by it in the least, but was as well as usual on Tuesday.

On Wednesday, however, she was attacked by dysentery, as she has been annually for some years past, at about this season; and, as before stated, her life on earth closed on Saturday by the action of this disease.

FIREMEN.—Protector No. 2, Capt. F. A. Johnson. of Milford, accompanied by the Milford Brass Band, will visit the Isles of Shoals on Tuesday, Aug. 23d, and have extended an invitation to Protector Co. No. 3, of Newburyport to accompany them. Both companies will visit Portsmouth on Wednesday, 24th

THE PORTSMOUTH CORNET BAND, being solicited by many friends, will make another Excursion down the harbor and to the Isles of Shoals, on *Wednesday* morning, Aug. 24th, if fair weather, (if not, the first fair day,) in the new and superior schooner H. E. Bishop, Capt. Amazeen—leaving Lyman's Wharf, near "The Spring," about 8 o'clock. Tickets 50 cents. The cabin will be reserved exclusively for ladies.

POLICE COURT.—Before Justice Odell. Daniel Green plead guilty to a charge of making a great [drunken] noise, brawl and tumult. Fine $3; costs $4.80.

Ellen Goslin plead guilty to a charge of being drunk in the street. Fine $2; costs $3.09.

☞ The Atlantic Monthly for September, 1859, is just received by J. H. Locke. The Minister's Wooing, chapter 22, is a pathetic and well told story. The Professor at the Breakfast Table does not flag in the least.

W. H. Y. Hackett, Esq., of Portsmouth, is talked of as filling one of the vacant seats on the Supreme Bench of this State. Mr. Hackett is an able lawyer, and would discharge thh duties of his office alike honorably to himself and creditably to the State. *Democratic Standard.*

MUCH ADO ABOUT NOTHING.—Rev. J. C. Gangooly, a famous, educated and talented Brahmin preacher, who has recently been lionized at Saratoga, was refused a place at the Glen House, White Mountains, a few days since, on account of his color. The Boston Transcript, which has published a communication from the indignant East Indiaman, says he is about the color of Tom Corwin of Ohio and Senator Hamlin of Maine, and does not look so much like an African as Senator Pearce of Md. Rev. S. W. Bush of Medfield, Mass., who was travelling with Mr. Gangooly, gives (in the Boston Courier) the following account of the great affair:

When Mr. Gangooly entered the office of the Glen House in company with other gentlemen, he wrote his name in Bengali, and in English, "Brahmin, Calcutta, India." When the clerk refused him admittance into the dining room, I informed him of Mr. Gangooly's position, caste and nation, and also that we had been travelling ten weeks, and had been received at the chief hotels, specifying several of these by name. This was done very fully and explicitly, but it was of no avail.

Soon after this I asked him to inform me the real ground of the refusal, adding that in the narration of the affair I desired to tell the truth. He declined to give me a reason, but referred me to the landlord. I then waited until nearly the time for the stage to leave. In the meanwhile the landlord had been in front of the hotel for some minutes and even stood near by on the piazza without a recognition. As the time drew near for us to start, I went up and asked him to inform me the precise ground of his refusal. He replied, "I will," or something to that effect, went in for a moment, then returned, and invited me to go with him to the parlor, and there, after we had waited nearly an hour, just as the stage was ready to start, and after all the rest of the passengers had been to dinner, he did apologize and invited us to dinner. We declined, and in less than five minutes after the apology was made the stage was on its way to Gorham, to which place we were going to take the cars.

The whole affair was just this: the waiter mistook a black Asiatic *Brahmin* of the highest *caste*, for a negro American of the *slave caste*. It was not prejudice against color,—for both are *black*—but it was prejudice against condition. It was poor *snobbery*, often dignified by the name aristocracy.

TENNESSEE.—The official returns of the 9th Congressional district elect Etheredge Ind., by a majority of eight votes over Atkins, Dem., the late member.

The majority for Harris, Dem., for Governor, will exceed 8000.

The Senate stands 14 Democrats to 11 Independent; House, 41 Democrats to 34 Independent.

☞ The ship Commander, 1100 tons, lately from Liverpool, with a cargo on board worth $150,000, was burnt at Battery Wharf in Boston, on Saturday afternoon, and scuttled and sunk to drown the fire.—Supposed cause, spontaneous combustion.

LOST—Somewhere in Market street, on Saturday afternoon last, a 3 dollar and 1 dollar bill.—The finder will be liberally rewarded on leaving the same at the Chronicle office.

LATER FROM EUROPE.

The Hungarian left Liverpool on the 10th inst.

The U. S. frigate Cumberland was at Madeira Aug. 1.

THE CONFERENCE.—All the members of the Conference have reached Zurich, and the Conference was fully constituted, as follows:—Austria—Count Colleredo and Baron Merpenberg; France—Baron Bourqueney and Marquis Bonneville; Sardinia—Chevalier Desambrois and Chevalier Jococan, the Sardinian Minister at Berne.

The Government of Zurich had visited and welcomed the Ambassadors, and were to give them a public dinner on the 11th.

The first formal sitting of the Conference took place on the 8th. The Sardinian representative assisted. The second sitting was held on the 9th. Nothing had transpired as to the proceedings.

In Great Britain, on the 8th, the affairs of Italy were debated in both Houses of Parliament.

The completion of the Great Eastern was formally celebrated on the 8th, by a banquet on board the vessel, which was attended by many members of both houses of Parliament, and the most distinguished engineers and scientific men. The engines, both screw and paddle-wheels, were set in motion for the first time, and the result was satisfactory in the highest degree, and far beyond expectation. Lord Stanley proposed a toast of success to the Great Eastern, and painted in glowing terms the marvels her success will accomplish. Burnett, the engineer, and Scott Russell, the builder, were toasted, but the former was absent, from ill health. The ship presented a beautiful and finished aspect, being almost ready for sea.

The city article of the London Times says, in regard to the stipulations of the treaty alleged to have been arranged between Minister McLean and Juarez, at Vera Cruz, that Mexico will, from the moment the treaty is ratified, virtually pass under American sway; says the result will be advantageous to Mexico and the world, but the extent to which private rights will be respected or jeopardized is an anxious question. The American government is urged at every step to protect the interests of foreign bondholders.

The strike among the building trades of London has assumed formidable dimensions. Estimates of men unemployed range from 20,000 to 40,000. The master builders have sought government intervention, but the Home Secretary did not see how he could interfere.

The elections for the National Assembly of Tuscany passed off harmoniously. All the Ministers elected were friends of Independent Tuscany.

The Opinione of Turin says that 50,000 French troops will remain in Italy provisionally, owing to the dangerous state of some of the provinces.

The Sardinian Commissioner at Parma, in notifying the municipality of his departure, says he left his Secretary charged with the sovereign powers of government in the name of the people. This produced a very bad effect.

HINGHAM, Aug. 19.—A sail boat capsized in this harbor about 1 o'clock to-day. Two men named Caleb Wilder, of Hingham, and Mr. Gideon, of Boston, were drowned.

NEW YORK, Aug. 21.—The Whiskey distillery of Summer Bennet, in Jersey City, was burnt last night. Loss about $20,000. It is rumored three of the workmen perished in the flames, but is not confirmed.

THE FROST AND THE CRANBERRY CROP. The immense cranberry meadows of Leonard Alden, in Dedham, have seen the blasting effects of the frost on Tuesday night, his entire crop having been destroyed.—*Boston Traveller.*

Wendell Phillips' letter to Mrs. Uncle Tom Stowe, on her dining at the Revere House, Boston, is not published yet.—*Springfield Republican.*

Nor is there any occasion for the letter aforesaid, since Mrs. Stowe made it a condition precedent that no wine should be *that.*—*Lowell News.*

☞ Amasa Walker, of North Brookfield, Mass., now in England, recently addressed a meeting of the Ballot Society in London upon the independence and secresy of the ballot, and more particularly spoke of the advantages of the Massachusetts law of 1852.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

GROVER & BAKER

SEWING MACHINE COMPANY,

No. 18 Summer Street, Boston,

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

TESTIMONIALS.

PORTSMOUTH, July 16, 1859.

Several months have now elapsed since one of these machines was first introduced for our family use. For several weeks those who attempted to operate it having had no instruction, it was regarded as of little value, although some work could be done. But no sooner had one of experience taken hold of it, giving the proper tension to the cotton, proper oiling, &c. to the machinery, than it worked admirably—and now for months it goes on like clock work, doing handsomely all the work submitted to it, and accomplishing as much work in an hour as could be done by hand in a long summer's day. These machines are decidedly popular. We have never heard of one being sold to procure another from a different maker,—while we have known others to be laid aside to give place to Grover & Baker's. Any one can operate them after an hour's instruction from an experienced hand.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED IN A SINGLE INSTANCE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its many virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and *energy* to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.

It will also, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York

Price only 25 cents per bottle.

CORDIAL OF DANDELION,

SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

ENFIELD, Sept. 8, 1859.

Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending on a DEFICIENCY OF VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In numerous cases the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. Of over twenty thousand cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE completely recovered, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and chemically pure. My *facsimile* signature is upon every bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington,

HAS REMOVED TO 376 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to prosecute claims, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. THOMAS EWBANK,

Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, REVERSING 12 of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce a alterative effective, such as that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIVE AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many a severe sickness may be stopped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; — cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation it enjoys. Many a cure needs but this to prove it has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of Sarsaparilla, but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acres bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend it to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not dwell upon it, for we assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and other eminent personages, have lent their names to certify the surprising benefitiness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis for our Amerikan Almanac, in which they are given; with full directions for the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER's, and take no other. Any sick man the best aid there is for them, and they should have it.

All our medicines are for sale by W. R. Preston, Portsmouth, and by all druggists and dealers in the civilized world. 9m—je14

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nervous system, and allays all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now offered, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact bald. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent, more in proportion, and retails for $3 a bottle.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consulting a physician, I would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are described upon his books as perfect cures.

Patients addressing by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

The medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are now acknowledged to be the best ever used.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

Seven Octave Piano --- New Scale.
The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale,** which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.
Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the Instruments which they are now making, far excel any of their former manufacture.
Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE.*

No. 24 MARKET STREET,
J. C. CARR.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS.
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine, —NEVER HAS IT FAILED IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted to speak in terms of highest effects and medical virtues. We speak, in this matter, "*what we do know,*" after ten years experience; and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion by fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it THE BEST and SURE REMEDY IN THE WORLD TO ALL CASES OF DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper throughout the world. Sold by Druggists generally. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.

Mrs. Winslow's Soothing Syrup.

GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston.
MACHINES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
TESTIMONIALS.
PORTSMOUTH, July 16, 1859.
Several months have now elapsed since one of these machines was first introduced for our family use. For several weeks those who attempted to operate it having had no instruction, it was regarded as of little value, although some work could be done. But no sooner had one of experience taken hold of it, giving the proper tension to the cotton, proper oiling, &c. to the machinery, than it worked admirably—and now for months it goes on like clock work, doing handsomely all the work submitted to it, and accomplishing as much work in an hour as could be done by hand in a long summer's day. These machines are decidedly popular. We have never heard of one being sold to procure another from a different maker,—while we have known others to be laid aside to give place to Grover & Baker's. Any one can operate them after an hour's instruction from an experienced hand.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.
CHARLES W. BREWSTER.
PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.
PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, AUGUST 24, 1859.

BAD FREIGHT.—An "Underwriter." in the Boston Transcript, complains, as he has a right to do,of the dangerous freight mixed in with the cargo of the ship Commodore, causing her to take fire. He says:—

Among the cargo of the said ship, which arrived on the 18th inst. from Liverpool,and which was discovered to be on fire about one o'clock on Saturday, the 20th inst., I notice "60 bales of shoddy" and "20 bales of flocks." These two articles may be and ought to be called *woolen waste*, a most dangerous article and very liable to spontaneous combustion, and ought never to be taken as cargo on board of any ship, and certainly not on board of so valuable a vessel as the Commodore. Censure is deserved by the party who is faulty in this matter.

We would add, that *such trash* should not be imported at all, into a country which could raise so many millions of sheep.

It is matter of fact, however that when the present policy of encouraging foreign manufactures at the expense of our own was brought up and adopted,—a New England friend of American Industry said, "This new tariff will put the knife to the throats of our sheep."

What was then prophecy is now history, and instead of wearing cloth made of American Wool, some Yankees wear a cotton warp, filled with old rags brought from England,—when they don't happen to burn a ship.

☞ Hon. Emerson Etheridge, who has just been elected to Congress in Tennessee, after one of the most severe contests ever held in that State, has accepted an invitation from a portion of the Opposition in Memphis to visit that city and make a speech, whereupon the Democratic paper in Memphis makes the following remarks:

We repeat that, as far as we are individually concerned, we would be gratified to see Etheridge in our midst: but for the sake of Memphis we would rejoice to see him pelted with the kicks and curses of an indignant and outraged people."

Mr. Etheridge is denounced in the national Southern papers as a Black Republican. If he is a Black Republican, it only shows how rapidly the principles of that party are extending in South, when it can elect a man like Etheridge in a district which gave, two years ago, a large Democratic majority.

NOT AN ABSTRACTION.—The Charleston Mercury combats the notion that the principle of protection to slavery in the Territories is a mere abstraction and of no practical value at the present time. It declares that if it had been insisted upon in season, both California and Kansas could have been made slave States. It is now necessary to adopt in view of the division of Texas and of the growing importance of Arizona. But the following extract shows where the next territorial contest will be, and how it will be fought by the slave power:

The Indian territory lies contiguous to Arkansas on the west. It is a large, rich and beautiful country, and will unquestionably ere long be opened to colonization from the States. Applications have already been made, as we have been assured, for leave to settle there by the Southerners expelled from Kansas. No one doubts but that the Indians will be removed to the more western locations of other tribes, and that the Anglo-Saxon will occupy the land in their stead. When that territory is opened, the principle of protection to slave property by the General Government willl have a "local habitation and a name" which the most unwilling devotee af Democratic official success and the Union will be able neither to mainsay nor ignore.

The Richmond Enquirer, discussing the subject of the Wise letter with the Presidential organ, thus intimates that some of J. B.'s letters might also be brought to public view:

"The Constitution had better be silent on that subject; it may get into deep, very deep water. It should not presume too much on forbearance. We, in the South, hold the private seal sacred, and never break it, unless it be in defense—never for attack."

HON. JOHN FORSYTH, editor of the Mobile Register, lately Mr. Buchanan's Minister in Mexico, but now an enemy of the President, has just been elected to the legislature of Alabama, on the Douglas platform. He is returned at the very head of the ticket. Mr. Forsyth favors the re-opening of the slave trade.

☞ Some days ago a new variety of fish followed a vessel from the Mediterranean to New York, where they created considerable excitement. The vessel was after a short time removed to another pier, at some distance from her original berth: the fish still followed her, and declined to give up the ship.

☞ The Concord Statesman says that Gov. Goodwin has re-appointed Mr. Boardman of Boston, State liquor agent for the coming year.

☞ The Galveston Civilian of the 13th, thinks that Houston is elected Governor of Texas by from 10,000 to 12,000 majority.

LABORERS WANTED.—The world, we are told, demands more sugar, coffee and cotton, and hence the revival of the slave trade, and of similar attempts to make Africans and others laborers against their will. Well, (says the Traveller,) if the world has a desire for more cotton, sugar and coffee, let the world go to work and make those articles. It has no right to say that this or that race, because it happens to be weak, shall be converted into sugar-makers against their wishes and will. Because a certain number of getlemen here long for an additional cup of coffee,to be sweetened with an additional lump of sugar, shall they proceed to organize theft and violate the divine law? The right of one man to coffee and sugar is not so great a right that he should commit a great wrong to effect its realization.—There are many things which it would be pleasant to have, which those who long for them cannot get. Ladies desire pearls and diamonds—which are almost as precious as themselves, but no one proposes that the natives of Brazil and Golconda, and the divers of Ceylon, should be compelled to procure those fine things for the adornment of the sex. It is very easy to say that there must be more sugar, &c., but the difficulty is how to get the amount now produced essentially increased. If the negro will not labor, save on compulsion, the white man has no more right to force him to work than the black man has to prevent the white man from working according to his tastes and capababilities.

A MAHOMMEDAN CHRISTIAN PREACHER.—A letter from Beyrout, Syria, informs the Traveller that a converted Mahommedan is now laboring among the Turks of that city, and finds abundant opportunities to pour the truths of the Bible upon the minds of his countrymen. He gathers large companies, and spends hours in reading to them out of the Bible, and explaining to them the great principles of the Christian faith. Among his auditors have been several Dervishes and two Persian Mahommedans. The preacher is also winning many friends among the Greeks of the city, and happy results are anticipated from his labors by those in the city who are longing to see the stupendous imposture of Mahomet come to an end.

☞ The Hartford Courant tells a shooting story. At Berlin, Mr. Bowles and Mr. Crane discovered a flock of sixteen black ducks in the stream near their factory in Newington. Standing on opposite sides, each with a double-barrelled gun, they brought down every mother's son of them at the fire, and secured them all. The Press intimates that the fee for telling the above story consisted of two of the aforementioned birds.

CHRISTIAN ZEAL.—A Bible agent on board a Russian steamer speaks of some Christian passengers as follows:—"A majority of the passengers were pilgrims bound to Jerusalem, mostly Russians and Armenians. Among the Russians were fifteen women who had come more than a thousand miles on foot to Odessa. Five of these must have been more than seventy years of age, tottering under the weight of their infirmities, yet eager to get to Jerusalem before death should overtake them."

NARROW ESCAPE.—On Saturday forenoon a boy about five years of age, son of Jacob Pokaronn, living at No. 42 Oneida, street, Boston, fell from a window in the fourth story to the ground, a distance of thirty-six feet. Fortunately the spot where the child struck is composed of loose sand and lime, otherwise he would have been instantly killed, As it was, he received a severe wound under the chin, and was badly jarred, but under the care of Dr. Foss is now doing well. It was a remarkable escape from instant death.

☞ There has been a flood in the middle of Long Island. On Saturday, the 13th inst., they had a tremendous storm of rain, accompanied by incessant thunder. At Mattituck the rain fell to the depth of twenty inches. The roads were terribly cut up; turnpikes a dozen years old were plowed away by the extemporized rivers, and the lawns covered with sand. It is thirty-three years since any such flood last visited the Island.

☞ A son of Mr. David Nelson, of Spencer, N. Y., aged 9 years, on the 8th inst., while driving a cow, in childish sport took hold of her tail. By some means his hand became fast in the long hair, when the animal took fright and ran, dragging the child after her, over fences, through bushes, and into the creek, when the agonized father succeeded in extricating his boy. The lad, mangled and bruised shockingly, was taken home senseless, and so remained till the 14th inst., when he expired.

☞ Edward Mulliken, aged 94 years and 9 months, died in Sidney, Me., on the 9th inst. He was a revolutionary pensioner, having enlisted as a soldier at the early age of fifteen years—being so small, as he often remarked, that "they had to stretch him up to make him measure enough."

HARD TIMES AT THE WEST.—Although the wheat crop has been a full one, and despite the present dry weather the corn crop goes up to 700,000,000 bushels; yet the western traders and farmers are threatened with hard times. The importations during the summer from Europe have been immense, and western traders have bought largely on credit, with the expectation that the coming crops would not only be abundant, but sell at a respectably high figure.

Now that the crops are nearly gathered, the fact stares them in the face that Europe wants no grain except at a low price. But the western farmers, half of whom live on mortgaged farms, are unwilling to sell at the cheap rates which must continue during the winter; hence but little new wheat as yet comes to Milwaukie and Chicago. Merchants who have kept the farmers going,relying on payment before September, are embarrassed by their refusal to sell. These traders owe heavy debts in New York and other eastern cities. The eastern cities in turn are heavily in debt to Europe.

The only remedy, and that a hard one, (says the Manchester American,) is for the west to send its wheat at once into the market. The price is better now than it will be in January. Next year let them buy American cloths, hardware, and manufactures of all sorts, and they will have a valuable market near home. Until they do this, they must expect to be *quasi* slaves to European manufacturers.

☞ At a meeting of the democratic party in Charleston, Mass., on Saturday evening, the same tumultuous proceedings that characterized the previous meetings were repeated.

The Irish and American portions of the party are at loggerheads, and from appearances are likely to be so. The office-holders' party prevailed on a test vote, 126 to 118,—but the Irish party prevailed on another vote, adopting the report of a committee on which is a majority of Irishmen, to constitute a City Central Committee.

☞ The Illustrated Pilgrim Almanac for 1860, has just been issued by A. Williams & Co. Boston, who publish it "in aid of the Monument Fund." It is printed in large octavo; and contains clear and plain Calendar pages, arranged for all parts of the country; chronological tables for each month; with a great many curious and valuable facts of Pilgrim History; and is illustrated by numerous cuts. Price only 25 cents; cheap enough for an Annual so interesting and instructive.

"Weigh your words," said a man to a fellow who was blustering away in a towering passion at another. "They won't weigh much if he did," said the antagonist, coolly.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Sold by druggists and dealers generally, everywhere.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

CONCORD, N. H., March 2.

Messrs. SETH W. FOWLE & Co.,—*Gentlemen*:—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,
HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 30th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use. It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

The Best Medicine in the World.
YES—DECIDEDLY THE BEST—IS
Dr. Langley's Root and Herb Bitters

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom.—They act at once upon the very seat of disease.—They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all Bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs:
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.

So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

LAFAYETTE LAIGHTON,

LOCAL.

Messrs. Editors:—A few mornings since, between the hours of two and three, I was awakened by a loud noise at a short distance from my window; and after collecting my senses I arose and proceeded to learn the cause. Three or four young men were standing on the corner of the street, and amid oaths and imprecations too shocking to repeat, were endeavoring to impress upon each other's minds the importance of getting home forthwith. But the truth was, they were *too drunk* to know whether home was up street or down. They remained there half an hour or more, disturbing the quiet morning hours by yelling, swearing, making speeches, and conducting themselves otherwise ridiculously, as every body does who indulges in strong drink.

Now this is only one case; many similar ones have recently come under my observation. But it is a deplorable fact that these objects of pity are *young men!* think of it, fathers and mothers; and then beware how you exert your influence.

Is not the fact that ale-houses and drinking saloons flourish like "the green bay tree" a sufficient index to the cause of the downward progress of the young in this city? Can we fail to recognize the disastrous effect of this vice? If so, why not *try* and remove the cause? G. C.

☞ Mr. S. M. Hewlett, of Milwaukie, Wisconsin, a celebrated lecturer on Temperance in that State, has recently lectured in Dover, and is now on a lecturing tour in Maine. It is expected he will lecture in this city, about the 30th of this month.

A gentleman in Dover writes as follows: "We had two regular wake-up temperance lectures on Thursday and Friday evenings last, by S. M. Hewlett of Wisconsin. Mr. Hewlett, as a lecturer, has few, if any equals in the country. His power is in mimicry and ridicule, imitating all the different positions of the intemperate, and showing their actions and arguments to be most ridiculous. His lectures combine wit and anecdote with solid argument, and are at the same time amusing and instructive. I would heartily recommend him as a lecturer, and wish him abundant success in his field of reform."

Hon. J. C. Dobbin, ex-Secretary of the Navy, says of him:—"S. M. Hewlett, who has been appointed lecturer for the 'Sons' of this State, has been arousing our citizens for three days past. He is a little giant in his way. His power is in ridicule; he places himself in the position of a liquor imbiber, or license upholder, argues as they argue, and makes them appear in a ridiculous position; in whatever he says, he "makes smiles from reason flow." As a mimic he is unsurpassed; whether as a live Irishman he gives the unadulterated 'discoorse,' or as a Frenchman, when attempting the jaw-twisting English, he confounds gender, person and case; his imitations are perfect.—His looks tell a story—each wrinkle on his face contains an anecdote—the twinkle of his eye propounds a query, and if there is a ludicrous point in any argument he will bring it out."

The Leavenworth, Kansas, Herald says: "Our citizens have never been presented with a greater treat than the series of temperance lectures delivered during the past and present week, by the celebrated Prof. Hewlett. The lecturer's power lies not in his pathos, nor in argument, but in description and the dramatic impersonation of character. His humor is inexhaustible; and in exquisite representations of diverse characters, he has perhaps no equal in America. Prof. Hewlett is accomplishing a good work; and we cheerfully commend him to the approbation and encouragement of the communities which he designs to visit.

THE PORTSMOUTH CORNET BAND, being solicited by many friends, will make another Excursion down the harbor and to the Isles of Shoals, on *Wednesday* morning, Aug. 24th, if fair weather, (if not, the first fair day,) in the new and superior schooner H. E. Bishop, Capt. Amazeen—leaving Lyman's Wharf, near "The Spring," about 8 o'clock. Tickets 50 cents. The cabin will be reserved exclusively for ladies.

PROTECTOR ENGINE CO. No. 2, of Milford, accompanied by Brooks' Milford Cornet Band, was to arrive at Newburyport on Tuesday at 2 P. M., and would be received by Protector No. 3, of that city. The two companies were to embark on board the schooner Tahmiroo, for an excursion to the Isles of Shoals, Hampton Beach and Portsmouth.

☞ Owners of houses in this city, worth $1500 or $2000, who would like to sell for cash, should look at Mr. Edmond's advertisement.

☞ The Alton (Ill.) Courier states that among the persons who attended the prize fight between Bryner and Connors, there were one hundred and sixty-two, each of whom had an eye gouged out. One of the boats, when returning, had to stop and back opposite to Alton, to pick up persons who had fallen overboard while fighting. The fools are not all dead yet.

BY TELEGRAPH.

Special Dispatch to the Chronicle.

BOSTON, Aug. 23.

NAVAL.—*Washington, Aug.* 22.—The administration has bestowed upon the subject of the African slave trade its earnest attention, and with a view of suppressing as far as possible this trafic, has initiated more efficient and extensive measures than ever before for that purpose. The Squadron for the coast of Africa, as arranged by the Secretary of the Navy, will consist of the following vessels:—Steamers Mystic, Snmpter, San Jacinto, and Mohican; sloops-of-war Constellation, flag-ship Portsmouth, Marion, and Vincennes. The most efficient officers are assigned to their command.—Those of the steamers Mystic, and Sumpter, are, respectively—Lieut. W. E. Leroy, and Lieut. G. T. Armstrong. These gentlemen were at their own request ordered to this service. Their vessels being of light draft, can penetrate water too shallow for those which have heretofore been on that shallow coast, besides having the advantage of steam. Hence slavers will be more closely pursued.

The joint treaty with England requires that the United States shall keep there a force of eighty guns, but, by the recent arrangements on the part of the administration the number of our guns will be 116.—Mr. Birney, who succeeds Mr. Morse as Naval Storekeeper, went out in the Constelation with instructions to remove the naval depot for the African Squadron from Poto Praya to St. Paul de Loando, which is 336 miles south of the Congo river, or about 2500 miles from Porto Praya. This new depot will, consequently, be much nearer than the former, to the principal points of triffic on the coast, and will in a great measure, obviate the necessity of long cruises.

On our own coast, too, there is to be an efficient naval force, composed of the steamer Crusader, Lieut. Maffit; the Mohawk, Lieut. Craven; the Wyandotte, Lieut. Stanley and the Fulton, commanded by G. G. Williamson. They are to cruise in the neigborhood of Cuba, for the purpose of capturing any slavers which may have escaped the vigilance of the African Squadron. These arrangements will soon go into operation, and the Secretary of the Navy is hurying the preparation of these vessels yet in port, for this important service.

What good can all this do, while juries find every culprit *not guilty*, and when slave vessels sell for a song, and the old owners buy them, and knock down the men who bid against them?

RAILROAD TICKETS.—A decision has just been made in the Circuit Court in New York in the case of a passenger who had bought a ticket, upon the face of which was printed the following conditions: "To be used within three days—Good for a continuous trip only."

The plaintiff claimed the right to use the ticket after the expiration of the three days.

It was in evidence that the fare paid by the plaintiff when he purchased his ticket, was at a reduced rate, while the route was competing with rival routes for through travel, and that the ordinary price of a passage from New York to Buffalo was about eight dollars.

The Court decided that the ticket with stipulations printed on it was evidence of the contract between the plaintiff and the railroad company, and binding on him—that the undertaking on the part of the company was to transport the passenger for the price agreed upon, within the time limited, and was not an undertaking to carry him whenever he might choose to go; and that having commenced his journey, he could not abandon the train that went through, and insist upon being taken up as a way pssenger at a future time. For these reasons the plaintiff was nonsuited—*Traveller.*

FIRE IN TRURO, N. S.—*Sackville, N. B., Aag.* 25.—We learn from Halifax that McHay's stable, at Truro, has been burnt and that all the horses, numbering ten, perished in the flames. As these horses included those used especially for expressing the steamer news from Halifax to this place for the Associated Press, it is feared there will be unusual delay with the Canada's news, now near at hand. The fire was doubtless the work of an incendiary, and as it may be part of the machinery by which some fraud is to be perpetrated in connection with the next news from Europe, the commercial public should be more than usually cautious until the authentic intelligence shall have been placed upon the bulletins of the Associated Press.

MILITARY AT MANCHESTER. — The Baltimore City Guards, 64 men, accompanied by the Independent Blues Band, arrived at Manchester Tuesday morning, and were received by the Amoskeag Veterans, 100 strong, with the Manchester Cornet Band.

☞ Much of the State of Maine is suffering from a severe drought, no rain having fallen for several weeks. The rivers are low, the crops brought to a stand still, and the pastures yellow and parched. It is also dry in Vermont and New Hampshire, and it is now becoming so in Massachusetts.

☞ Coal burning locomotives are fast superseding the old pattern adapted to the consumption of wood. All our principal railways, running through thickly settled districts, where wood is scarce and dear, will soon employ coal burners exclusively.

☞ Three fatal cases of cholera have been reported at Dundee, Scotland.

TESTIMONIALS.

PORTSMOUTH, July 16, 1859.

Several months have now elapsed since one of these machines was first introduced for our family use. For several weeks those who attempted to operate it having had no instruction, it was regarded as of little value, although some work could be done. But no sooner had one of experience taken hold of it, giving the proper tension to the cotton, proper oiling, &c. to the machinery, than it worked admirably—and now for months it goes on like clock work, doing handsomely all the work submitted to it, and accomplishing as much work in an hour as could be done by hand in a long summer's day. These machines are decidedly popular. We have never heard of one being sold to procure another from a different maker,—while we have known others to be laid aside to give place to Grover & Baker's. Any one can operate them after an hour's instruction from an experienced hand.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS.
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and concur in the commendation of its manifold virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and sickness, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.
stone, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. Morning Chronicle.

☞ A young married woman, wife of John Nichols, an employee of the Wheeler & Wilson Manufacturing Company, Bridgeport, Conn., was on Thursday burnt to death in consequence of the bursting of a can of burning fluid, with which it is supposed she was endeavoring to kindle a fire. Her face was burnt to a crisp, and her body badly scorched, caused instantaneous death.

Jenny Lind Goldschmidth is a member of the new Episcopal church of St. John, in the parish of Putnam, London, and Mr. Otto Goldschmidt is the organist.

☞ Mr. Moses D. Phillips, aged 46, an eminent bookseller and publisher, of the firm of Phillips, Sampson & Co., Boston, died on Saturday evening in Boston.

NEW BEDFORD, Aug. 22.—Mr. Frederick Crittenden of Wareham was killed this morning at Hammond's Crossing, on the Fairhaven Railroad, by the up freight train. He was crossing in a carriage, which was demolished. No blame is attached to the engineer, who was sounding the whistle and ringing the bell as usual.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *fac simile* signature is upon every bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary fees in Washington to procure a patent, and the usual great delay thereafter, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN ALL-ALLOWANCES, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of incalculable service to this large class of our citizens. How effectually we can accomplish this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULOUS AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of these many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and sloughy sores, through which our system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been made upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is loathed and despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be justciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of throat and lung complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which these are fully given, with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations that make more profit on them. Demand Ayer's, and take no other. The sick wan the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—jel4

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart—40 per cent. more in proportion than the small, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose will always relieve the Liver Complaint.

BILIOUS ATTACKS are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure RUPTURE by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after such orders come to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.

Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and refurnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

june23 2m THOMAS B. LAIGHTON.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to the sick of any of them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under hiscare, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with the cheap and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

TRUNKS, VALISES, CARPET BAGS.
A good assortment at
HEAD'S, 14½ Market Street.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.
JOSEPH HARVEY & SON.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a NEW AND VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces. Spots taken out without fading or changing color. Silks, Silk Dresses and Ribbons watered.

Seven Octave Piano --- New Scale.
The Subscriber having just received a superior SEVEN OCTAVE PIANO-FORTE, made according to his order by the celebrated firm of HALLET, DAVIS & CO., would offer it for the inspection of persons desirous of purchasing. H. D. & Co. have recently made great improvements in the manufacture of Pianos, the most important of which is the **New Scale**, which, while obviating the weakness which has hitherto been found in the upper part of Square Seven Octave Pianos, gives it a power of tone nearly equal to that of the Parlor Grand.
Having been for several years Agent for the sale of Pianos of the above make, Mr. P. is prepared to state that the instruments which they are now making, far excel any of their former manufacture.
Purchasers will find it greatly to their advantage to call and examine the above mentioned Piano, as it is the only one in Portsmouth which contains the *NEW SCALE*

No. 24 MARKET STREET,
J. C. CARR.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS.
We have put up and sold this article for over ten years, and *can say*, in *confidence and truth*, of it, what we have never been able to say of any other medicine. NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Nor did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest comendation of its marvellous effects and medical virtues. We speak, in this matter, "*what we do know*," after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others*, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.
Mrs. Winslow's Soothing Syrup.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.
[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.
Exeter, June 1, 1859.
This testimony of my wife is correct.
IRA BURNHAM.
[From Mrs. Ebenezer Blazo.]
GREENLAND, Nov. 20, 1858.
DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.
ENFIELD, Sept. 8, 1859.
Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.
This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

THE REVIVAL IN IRELAND.—The North of Ireland papers continue to give details of this remarkable movement. A large open air meeting was held in Belfast on Sunday, 10th ult., in the fields near Eglington street, to hear an address from the Rev. H. G. Guiness. Upwards of 30,000 persons were present. The Scripture selected as the text was, "Almost thou persuadest me to be a Christian," and the application of it to undecided Christians was earnest, plain and practical, and well calculated to impress the audience.

The Banner of Ulster says:—

"The work is steadily on the advance, and daily making more rapid progress. In towns, villages and country districts, where formerly the evenings were spent in frivolous and sinful amusements, the inhabitants, old and young, may be seen collected together by the wayside, or at the church, or in the fields, listening to the Word of God read and preached, with an attentiveness never before witnessed, and joining in the psalmody and devotions with an earnestness unprecedented."

Rev. W. Arthur, writing of the effects of the revival, says:—

"Ballymena was notorious for drunkenness; with a population af 7000, it had 120 public houses. Yesterday, Mr. Lindsay told me that a distiller recently returning from Ballymena said, 'There is no use in going into that country; the people will neither buy whiskey nor drink it.' At Belfast, almost every church of all denominations is daily open. Last night Mr. Hanna said in his pulpit, that within the last three weeks tens of thousands had been awakened in Belfast and the neighborhood. In Sandyrow, the former scene of riot and mischief, the policemen say that there is now *no drunkenness and no trouble of any kind.*"

A minister writing from Bellaghy, county Derry, says:—

"Before this, our day of merciful visitation, Bellaghy was the most degraded of Irish villages. Rioting and drunkenness were the order of each evening—profane swearing and Sabbath descration most fashionable sins. Many a time I longed to get out of it. But now we have a change that is truly gratifying. As you pass down the street you hear, in every house almost, the voice of joy and melody. We have had no isms for the past five weeks. We have made no unholy compromises. The foot of the cross is our common ground, where we meet and sing Psalm cxxxiii.; and a throne of grace is our meeting place, where with one heart and soul we say 'Our Father.'"

The Dublin correspondent of the N. Y. Courier and Enquirer, under date of July 19th, fully confirms the above statements, and says that means are in operation, in the South and West, as well as in the metropolis, to realize the benefits of this revival.—He says—"There is no question that a surprising and beneficial change has passed over the great mass of the people of the Province,—producing a regard for the Sabbath and religious ordinances, and sobriety, peacefulness and brotherly love, heretofore unknown."

THE SLAVE TRADE. — The New York correspondent of the Charleston Mercury reiterates his assertion that a dozen or twenty slavers leave that port annually. He describes different classes of operators in the business, such as the managers, brokers and capitalists. The second class are the most conspicuous, although the whole business is conducted with the utmost secresy. They are mostly Cubans, and flourish on the outskirts of good society, wherever money and the love of money are conspicuously in unison. The correspondent says:—

"I know of two ladies, now attracting adoration at a fashionable watering place, who invested in a little venture of this kind not long ago, and, as a result, have augmented their banking accounts—one to the extent of $23,000 and the other $16,000. The head-quarters of the traffic in this city are mainly in South, William, Broad and Water streets. Two vessels are now fitting out here for the business.

I have not written the above as a sensation paragraph, nor as a complete expose of the slave trade in its relation to New York."

SINGULAR CASE OF DISEASE. — The Gloucester Telegraph says that an unusual case of sickness is now in the hands of Dr. Haskell of Rockport. A boy, about five years of age, a son of Mr. Eben Knowlton, has contracted the disease of glanders by climbing in the stall where a horse affected with the disease had been kept, although it was not known at the time that the horse was affected. Cases of this kind are very rare, and most generally have proved fatal. The present case is a very severe one, and will probably have a similar result.

MURDER OF THE INNOCENTS. — Last week's report of the deaths in New York tells a terrible tale to parents. Out of the seven hundred deaths, four hundred and ninety-seven were of children under five years of age. No less than three hundred and eighteen were swept off in the first year of their age. Something must be wrong where this state of things is going on. Swill milk, unripe fruit, bad air, ignorance and carelessness must divide the disgrace between them.

☞ Classification, in all schools, is very important—and in Reform Schools a moral or criminal classification seems to be indispensable.

The Boston Journal, speaking of the late incendiary fires at two of these schools, says, quite pertinently:—"Whatever plan may be adopted for reorganizing the school at Westboro', one thing should be regarded as a *sine qua non*. There should be a thorough classification of the boys. The well disposed should be separated from the vicious; the young and inexperienced in vice and crime, from old and hardened offenders. Reform should not be dissevered from punishment, when punishment is necessary; but there should be a wide distinction in the treatment of boys who have been guilty of no crime, and of those who have long led the lives of criminals. The more thorough the classification, the more hopeful will be the results of the guardinship of the institution.

This principle of classification has been adopted with much success at the State Reform School for Girls at Lancaster, and the plan of that institution, with improvements which will be suggested by experience, might be copied at Westboro'. Instead of rebuilding one large building, several small houses should be erected, and the boys separated into classes or families. The expense of conducting the institution on this plan would not be materially increased, while the benefits which would attend this plan would be incaculable. The comparatively innocent and inexperienced who are subjected to the discipline of the institution would not, to a moral certainty, become depraved by association with the corrupt, and the institution itself would be in truth what it is now scarcely more than in name, one of reformation."

☞ The Manchester Union Democrat says:—"On Sunday evening, about half past nine, some men in a cellar, under a house belonging to the estate of Noah Clark, got into a drunken row, and (it is said) knocked a fluid lamp over, setting fire to some shavings, which communicated the fire to the tenements above, and also to another house, belonging to N. B. Hall.—Both of the houses were burnt, and the fire would probably have spread to a much greater extent, had not the steam engine been on the ground and done efficient service. The houses were insured.

The American says the furniture of the eight families was probably worth $250—not insured. The occupants were mostly "hard cases."

☞ The following amusing incident took place last week upon one of the Ohio river steamboats:—

While the boat was lying at Cincinnati, just ready to start for Louisville, a young man came on board leading a blushing damsel by the hand, and approaching the polite clerk, in suppressed voice:—"I say," he exclaimed, "me and my wife have just got married, and I am looking for accommodations." "Looking for a berth?" hastily inquired the clerk; passing tickets out to another passenger. "A birth! thunder and lightning, no!" gasped the astonished man, "we haint but just got married! we want a place to stay all night, you know, and—and a bed."

☞ Mrs. Bostwick, a favorite vocalist of Chicago, recently visited the wilds of Lake Superior, and sang before an audience composed principally of Menemonee Indians and half breeds. At first, with true Indian stoicism, they sat as stony as statues. But Mrs. Bostwick's beautiful tones soon melted the marble, and their delight found expression in a series of yells and war whoops, which, if not so harmonious, were vastly more emphatic than the applause of more civilized audiences.

☞ The chapparal upon the hills near Placerville, Cal., presents a novel peculiarity this season. The seed-pods, which are about the size of a marrowfat pea, are just now ripening, and as fast as they mature they shoot themselves off with a banging noise, like miniature hand grenades. At mid-day, when the sun shines fairly on a thicket of bushes, the popping is incessant, and as each bulb explodes, the seeds are hurled into the air to a height of fifteen or twenty feet.

☞ We have contradictory accounts from Pike's Peak, by one day's mail. In summing up, the St. Louis Republican says:

"In all the accounts we see nothing to change the opinion we have expressed, that there is not yet before the public any satisfactory proof that the mines will remunerate the labors of any large number of miners."

The Republican remarks that the amount of Pike's Peak gold thus far brought to St. Louis is trifling—some three or four thousand dollars. Including that reported in ported in private hands, the aggregate does not exceed $10,000 or $15,000.

☞ At Cincinnati, recently, a lady's hair caught fire while she was bending over a lamp, and, communicating the flames to her clothes, her neck, head and face were so badly burnt that her features will be marred for life. The girl had saturated her hair with a peculiarly inflammable oil, which caused her locks to ignite and burn as if she had thrust her head into a vessel of spirits of turpentine.

☞ The Boston papers of Wednesday, give glowing accounts of the horse-race which took place on Tuesday. The Advertiser thus describes the animals.

Flora Temple looked cool, indifferent and bony; but Princess was sleek, nervous, and extremely lively. The stranger to the merits of the two mares would have given Princess credit for the most life, and would perhaps have offered to pay Thomas, Richard, or Henry some specified amount of money if she should be defeated, provided that, if she were victorious, he should be the recipient of an equal amount. But among the initiated Flora was the favorite, and the result shows that their confidence was not misplaced.

The Atlas says, before the commencement of the race,—

Both animals were in good condition.—We learned of a few bets offered and taken at this time, but at fearful odds against Princess. Betting was at a discount and few offered more than the "cigars" and "drinks."

The horses passed a few times up and down the track, and were loudly cheered cy the crowd. The call was given for the horses to take positions, and all was breathless excitement. The friends of Princess were quite elated by the enconiums of the spectators as she passed in front of the judges' stand, and offers on her went up considerably. $100 to $75, and $50 to $30 ane $25 ware taken in a few instances.—The betting was done very quietly, what little there was of it, and although considerable money undoubtedly changed hands, very few people were aware of it.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Sold by druggists and dealers generally, everywhere.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated Journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

Prom Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

CONCORD, N. H., March 2.

Messrs. SETH W. FOWLE & CO.,—*Gentlemen:*—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,
HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

Goodrich are putting up a large building over ninety feet by seventy, on the corner of Market and Hanover streets; with three stores in the basement, a dwelling house in the second story, and room enough in other parts of the building for two or three workshops. Mr. Swindell is building an extensive brewery at the junction of Creek and Islington streets. A vestry for the First M. E. Society is about to be built on Daniel street; and it is said that Mr. Thomas Nowell is to erect a three-story building on the corner of State and Pleasant streets. A number of workmen are employed in laying an extensive drain on Middle and Summer streets, under the supervision of Samuel Treadwell, Esq. Also in different parts of the city repairs are being made on houses, &c.

☞ The Robinson Sisters are to give a concert in this city on Wednesday evening, Aug. 31, at the Temple. They have already sung here once; and those who heard them then, would be pleased to hear them again, in company with a very large audience. It is a very rare thing indeed, to listen to a quartette of four sisters, who sing in so good tune, whose voices mingle so well, and whose whole performance is so natural and yet so correct. They richly deserve a full house, and we hope they will have it.

☞ The Portsmouth Cornet Band with a party of about one hundred persons visited the Shoals on Wednesday, and although the day was dull, they returned in high spirits and doubtless had a good time. The H. E. Bishop, which took the party out, is a staunch schooner, a good sailer, and her captain is a thorough gentleman.

SINGULAR DEATH.—Some weeks since a Mr. Stalter, of Sloatsburgh, Rockland county, N. Y., killed a large rattlesnake, which he carefully skinned. Some days after he accidentally cut his thumb with the knife which he had used for that purpose, and his hand and arm began to swell. The family sent for a physician, who, not being informed of the facts in the case, prescribed for the swelling and left. Mr. Stalter became worse, and the physician was again sent for, found him past all medical aid.—Before he died his body was covered with livid spots resembling those on the snake which he had killed. The case is one of the most singular in the annals of medicine, as it has been generally supposed that the virus of the snake is confined to his poison fangs, and the body is harmless.

☞ A little girl, going home with a pitcher of milk, was run over and killed by a locomotive of the Black River Railroad, in the streets of Utica, the other evening.—She died saying, "God help my mother." The jury of inquest rendered two verdicts; one half saying that "the death appears to be accidental," but "strongly censuring the managers for not having a light on the engine;" while the other half simply say that they "consider the managers of said road highly culpable in neglecting to place a light on said engine. Not difference enough to divide about, or give comfort to the childless mother."

☞ Two dwelling houses were burnt by incendiaries on Monday night, at Piscataquog, Manchester, N. H. Also the Falls School House, which was 21 years of age, and burnt with a will, as if rejoicing that it had "come of age." Though used for schools, it was a great place of resort for all sorts of characters. It may have been set on purpose, and probably was, or the fire might have been accidental, dropped by parties taking refuge there.

THE PRESIDENCY OF ANTIOCH COLLEGE.—We hear that Rev. Thomas Hill, of Waltham, has been invited to succeed the late Horace Mann as President of Antioch College. The selection is excellent. It is urged by Rev. Dr. Walker, of Harvard, and others at Cambridge.—*Atlas.*

☞ Immense crowds of people are attending the Methodist Camp Meeting at Hamilton, Mass. From seven to ten thousand are estimated to be on the grounds each day—and the Eastern Railroad trains are delayed in conveying them.

☞ A gentleman in Newburyport, Mass., has something like one hundred toads, which he keeps in his garden to destroy insects. He has a house built for them, keeping them as he would chickens, and they are so tame that they will come at his call.

☞ The Union Democrat, under the head of "The House Lost," says the "loss of Tennessee, and the equal division of North Carolina in the House, cut off the chance of electing a Democratic President there."

☞ The Gardiner Journal says that Gen. Samuel Veazie is the richest man in Maine, and that he is the presiding officer of the Grand Division of the Sons of Temperance in Veazie.

OUTRAGES.—*Baltimore, Aug.* 22.—A dreadful series of outrages were perpetrated on Saturday night on board the steamer Express, which left here on the same evening, with a large company for the camp meeting on Choptank river. After the boat had got some distance from the city, a party of rowdies rallying under the cry of Enbolts, Ranters, and Rip Raps, made an indiscriminate attack upon the white and colored passengers, knocking them down in every direction. Many were horribly beatened and severrl stabbed. Many were robbed of their money and watches, the assailants blowing out the lights to prevent being recognized. One colored man was stabbed and his wife insulted and injured in his presence.

On Sunday morning the boat stopped at Cambridge when four of the ringleaders were arrested and committed to jail. It is reported that one colored man has died of his wounds.

SONS OF RHODE ISLAND. — *Newport, Aug.* 23.—The reunion at Newport to-day was in every way successful. A very great concourse of people assembled, including thousands of the sisters, besides the returning sons and daughters. The arrangements of the reception, the procession, the collation, &c., were carried out according to the programme, already published. The Governor, the Major General, and their suits, and other distinguished gentlemen, were present.

The Free Masons, the Odd Fellows, the Sons of Temperance, the Fire Department, with the Municipal authorities, swelled the procession. At the tent the company were welcomed by Mayor Cranston in a handsome speech, full of cordial feeling and hospitality.

NEW BEDFORD, August 24.—Booth & Hathaway's steam sawing and planing mill, on North Water street, caught fire at noon and is entirely destroyed, with a large quantity of stock. The wind was blowing strong from the east, and many shops and dwelling houses are already in flames. It was feared that the Parker House would be destroyed, but the wind changed to south-east, and the hotel will be saved.

The fire is still sweeping onward, destroying much valuable property.

BANGOR, Aug. 24.—Marshall S. Potter was put on trial yesterday for the murder of his brother, Oliver Potter, in Lee, on the 6th of April. Two other brothers and their aged mother are also supposed to have been killed by him—the house being burned to conceal the crime. The testimony for government includes several confessions of Potter. The counsel for defense, it is supposed, will endeavor to show insanity or idiocy on the part of the prisoner. The trial, which will occupy several days, does not excite much interest.

RIOT AT AN EXCURSION.—*Philadelphia Aug.* 23.—A riot occurred yesterday at Taconi, during the excurion of the St. Vincent Sunday Schools, with the Franklin Rifle Company. A party of rowdies attacked the soldiers during the target firing. The soldiers in defence used the butts of their rifles, and some loaded them with pebble stones, firing upon the rowdies.—About twenty persons were stabbed and others wounded. The riot was resumed on the arrival of the soldiers in the city, but prompt police interference prevented more serious results.

NOTICE.—*Executive Office of the Vigilance Committee, Napoleon, Ark., July* 29. From and after this date, all gamblers and vagrants will be prohibited from remaining in the city of Napoleon for a longer period than twenty-four hours. Should any of the above gentry act in violation of this notice they will do so at their own peril. By order of the Vigilance Committee of the city of Napoleon.

YARMOUTH PORT, Aug. 23.—Mr. Henry Gray, 41 years old, was found hanging in his barn this morning. He arose as usual and appeared in a perfectly calm state of mind. When discovered his body was warm, and life was not entirely extinct, but all means to restore him were unavailing.

NORFOLK, Aug. 23.—The U. S. steamer Fulton will try her armament before leaving for the cruise off Cuba and the adjacent islands.

The boiler of a dredging machine exploded this morning, in the Albemarle and Chesapeake Canal, near this city. Three men were killed.

☞ A negro and a four-foot shark had an exciting fight in the shallow water in Charleston (S. C.) harbor, last week. Negro came off conqueror, bringing the fish victoriously to the shore.

There are some who live without any design at all, and only pass the world like straw on a river; they do not go, but are carried.

Fools discover that frailty is not incompatible with great men; they wonder and despise; but the discerning find that greatness is not incompatible with frailty, and they admire and forgive.

☞ Police officer Switzer, of New York, attempted to arrest some disturbers of a picnic on Sunday, when his head was split open with an ax, and he received wounds from other weapons that render his chance of recovery very small.

"You'll kill yourself smoking so much, husband." "Indeed, wife, I must use the weed." "O, very well, I guess I shall have occasion for weeds myself pretty soon."

GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,
MACHINES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
TESTIMONIALS.

PORTSMOUTH, July 16, 1859.
Several months have now elapsed since one of these machines was first introduced for our family use. For several weeks those who attempted to operate it having had no instruction, it was regarded as of little value, although some work could be done. But no sooner had one of experience taken hold of it, giving the proper tension to the cotton, proper oiling, &c. to the machinery, than it worked admirably—and now for months it goes on like clock work, doing handsomely all the work submitted to it, and accomplishing as much work in an hour as could be done by hand in a long summer's day. These machines are decidedly popular. We have never heard of one being sold to procure another from a different maker,—while we have known others to be laid aside to give place to Grover & Baker's. Any one can operate them after an hour's instruction from an experienced hand.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.
CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.

PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & PAINE.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest comendation of its magical effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation, for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.
[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.
Exeter, June 1, 1859.
This testimony of my wife is correct.
IRA BURNHAM.
[From Mrs. Ebenezer Blazo.]
GREENLAND, Nov. 20, 1858.
DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.
ENFIELD, Sept. 8, 1859.
Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.
This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

Morning Chronicle.

☞ Kossuth's health is said to be much injured by his recent disappointments. At his time of life, failure so complete, and the sense that he has been thoroughly tricked, are no slight matters. He is at Aix, in Savoy, for the purpose of taking the baths for which that place is famous; but the waters of oblivion alone are capable of meeting his case. The diseased mind is beyond being healed by any human medicine.

☞ There is reported to be an increased demand for the Christian Scriptures in Italy, which the late war has opened to the Bible; in Russia, where the spirit of inquiry has been awakened within a few years, and especially by the Crimean war; and in Turkey, where the doctrines of the prophet are going to decay.

☞ Thirty portable steam saw mills are about to be shipped to Louisiana, from the Novelty Works, New York. They are designed for the sugar planters' use, in procuring fuel for boiling the cane. CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy." Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. M. LEE,

Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

AYER'S SARSAPARILLA.

A compound remedy in which we have labored to produce the most efficacious alterative that can be made. It is a concentrated extract of Pure Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our citizens. We think that a low concentrated this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels, by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered, or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, and more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the Blood.

They are sugar-coated so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of our remedies, testimonials, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick want the best, and there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fail or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well stocked with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class Hotel*, and patronage may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

S. B. FITTS, Proprietor,

au25w formerly of City Hotel, Newark, N. J.

Appledore House,

ISLES OF SHOALS.

This well known establishment, having been much enlarged and improved, is now open for the reception of boarders.

The fast sailing Yacht **Sibyl** will run daily from Pier Wharf, Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

june23 2m THOMAS B. LAIGHTON.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious fiend of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empiric have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

Females desirous the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.
[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.
Exeter, June 1, 1859.
This testimony of my wife is correct.
IRA BURNHAM.
[From Mrs. Ebenezer Blazo.]
GREENLAND, Nov. 29, 1858.
DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, wich has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.
ENFIELD, Sept. 8, 1859.
Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.
This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at NO. 12 CABOT ST., Portsmouth, N. H.

The Chronicle.

Portsmouth, N. H.

FRIDAY, AUGUST 26, 1859.

SUPREME JUDICIAL COURT.

The first term of this Court for the county of Merrimack, under the remodeled system, commenced at Concord, on Tuesday, the 16th, Judge Fowler presiding.—The Concord Patriot informs us that "after the calling of the docket, owing to the confusion and uncertainty caused by the change of the Courts, it was decided to hold an adjourned term on the third Tuesday of October, and that all civil actions for trial be postponed until that time. The petit juries were then discharged until Friday, to await the coming in of the Grand Jury.

The whole number of cases on the continued docket was 326. Number of new entries 343.

The Grand Jury came in on Thursday afternoon, with 41 indictments, 15 of which were for violations of the Liquor Law.

Mary Wooley, for stealing $15 from Cornelius McCarty, pleaded *nolo con.*, and was sentenced to 40 days in jail, a fine of $1, and to pay McCarty $30.

Warren N. Davis, for setting fire to the barn of Charles Moody, was sent to the House of Reformation until he is 21 years of age.

Curtice C. Chesley, for selling liquor, was *non est*, and his recognizance was forfeited.

Richard Sargent, for selling liquor, was tried, convicted and sentenced to pay $50, and will pay it by boarding in jail at the county's expense."

Note by Uncle T.—Exactly so. It would not take a wizard to guess what the man's politics and morals are. And the rum traffic whether licensed or put down by law, costs the county and State (i. e. the people who pay taxes) more than roads, schools, churches, and bridges! Next year the law may be so amended that such sentences can be served out at hard labor in some proper place. This is the way in Massachusetts. In this city, the drunkard can go to the City Farm—and why not the drunkard maker also?

"Judith Langley, for selling liquor, was tried and convicted on the testimony of a witness who swore that he was a member of a sort of a 'smelling committee'—that he walked 18 miles to buy liquor of this woman, and bought and drank the liquor in order to 'suppress intemperance by prosecuting her.' She was fined $50 and costs."

Note.—This looks as if the law was not quite a dead letter in Merrimack Co.; and as if the jury did not care much for the soft soap of the lawyers, nor the vinegar of the newspapers. There is no good reason why any man may not complain and testify in the same case to break up a nuisance.

"A second indictment against the same person was *nol pros'd*.

David B. Langley, husband of the above, three indictments for selling liquor. On the trial of the first indictment, the jury returned a verdict of guilty, and to the remaining indictments the respondent plead *nolo con.* Fined $50 and costs on each, and in default of payment will be boarded, until the fine and costs are remitted, at the county's expense. And the same will, of course, be the case with his wife."

Note.—Exactly so, again.—This beautiful pair of nuisances are rather a costly couple in jail, directly. But they were more costly out of it, indirectly, while their groggery was in full blast, by the pauperism and crime they caused.

Horace Benney, for selling liquor, was tried and convicted. Question of law transferred.

Ebenezer Clark was tried on three indictments for selling liquor. On two of them the jury returned a verdict of not guilty, and on the other they disagreed.

James Murphy and James O'Brien *alias* John Bishop were tried for breaking into the house of Joseph P. Stickney, found guilty and sentenced to the State Prison for 5 years.

John C. Hagar, of Concord, on three indictments for selling liquor, plead *nol. con.*; fined $50 and costs on each.

Several other criminal cases were continued to another term.

☞ A friend of the Rochester Union, who saw De Lave walk the rope on Tuesday, says his estimation of the value of crinoline is wonderfully increased since that event. Just as the rain storm commenced, he saw a beautiful and fashionable lady coolly take off her bonnet and deliberately fasten it underneath her skeleton skirt, and then tie a handkerchief upon her head; and after the storm her bonnet reappeared as good as new.

☞ The Oregonian gives the vote for Congressman in Oregon thus: Stout (Dem) 5300; Logan, (Rep.) 5291—Stout's maj. 9.

In Washington Territory, Stevens, dem., is chosen Delegate to Congress by 429 maj. Judge Crane is chosen in Nevada Territory by a majority of 61.

☞ At the recent land sales of Nebraska city, three hundred thousand acres of land were offered, but not more than two thousand found purchasers. It is believed that not more than $5000 will be realized from the sales. As soon as the sales are closed, lands may be located with warrants. Several dealers were on hand ready to monopolize immense tracts.

What I must do is all that concerns me, not what the people think.—*Emerson.*

GENERAL ASSOCIATION OF NEW HAMPSHIRE.—The fiftieth anniversary of the Association of Congregational and Presbyterian Ministers of New Hampshire, is held this year at Boscawen Plain, where the meeting commenced on Tuesday, Aug. 23, at 10 o'clock A. M., and was opened with a *concio ad clerum*, from the Rev. J. G. Davis of Amherst, founded upon Isaiah 54: 2 and 3. His theme was—"Home Evangelization the Function of the Local Church," urging that each church has the inherent power to carry on the work of converting men to Christ, and doing Christian duty in its own locality. The Association was called to order by Rev. Dr. Young of Laconia, Stated Clerk, and organized by the choice of Rev. Dr. Barstow of Keene as Moderator, and Rev. J. W. Ray of Manchester, and Rev. C. J. Hill of Nashua, as Clerks.

The Association was formed in Boscawen just fifty years ago. This is the semi-centennial, and has a special interest in view of this.

Of all who participated in the organization of this Association, but one now survives, the Rev. Ebenezer Price, formerly of Boscawen, but now living with his son, F. Sewell Price, Esq., in Boston. The old gentleman is in his eighty-ninth year, but, though somewhat feeble in body, he still retains his mental powers, and, at the earnest request of his friends, has gone to Boscawen in order to be present on this interesting occasion.

POSTHUMOUS FORGIVENESS. — During the recent Spiritualists' Convention at Plymouth, Mass., a large number of the members attended the Sunday morning religious exercises at the House of Correction. Speeches were made by several mediums, and among them a Miss Faunce, a girl of 14, was entranced by the spirit of Mr. Gardner, who was murdered by his wife, now a life prisoner in the House of Correction.—The medium, in tears, approached Mrs. Gardner, and affectionately pressing her hand upon her head, said:—"God, angels and spirits have forgiven this woman,—why will not mortals? I *was* your husband; I *am still* your husband. I have forgiven you, and why will not others do the same? Many who are not punished in this world have committed sins as bad in the sight of heaven as the sins which you have committed." Mrs. Gardner was much affected by this manifestation; she was convulsed with emotion, and wept like a child.

We think the "mortals" who govern Massachusetts, are quite merciful to Mrs. Gardner, and also to the community, in shutting up this female poisoner and husband murderer, where she cannot do much mischief. Probably no one cherishes any unforgiving spirit towards her—but that is no reason why she should be let loose. Her own good and the public peace require her to stay where she is.

☞ The fire at New Bedford on Wednesday was quite destructive and very formidable. The fire is supposed to have caught from shavings used for fuel in making the steam in a planing mill.

The conflagration was stopped at the corner of Ray and North streets, by blowing up buildings. The total loss of property is estimated at from $200,000 to $300,000, on which there is very little insurance. About twenty-five buildings have been destroyed. Many sea-captains have been made penniless by the destruction of their oil. The ship John and Edward was entirely destroyed.

☞ It has been demonstrated that the Missouri is navigable for steamboats a distance of over three thousand miles from its junction with the Mississippi. The steamer Spread Eagle, in connection with the Chippewa, from St. Louis, has just completed one of the most remarkable trips on record, in the navigation of the Western rivers, having traversed the Missouri river from its mouth to Fort Benton—a point within sixty miles of the headwaters of the Columbia, and a distance of three thousand one hundred and twenty miles above the mouth of the Missouri. This is nine hundred miles above the mouth of the Yellow Stone, and seven hundred miles further than any other steamboat has ever been.

☞ In New York on Sunday forenoon, Miss Mary J. Patterson surprised a burglar in her apartment, packing up silk dresses and other wearing apparel, and closing the front door, made him prisoner. The rascal made several attempts to knock her down, but she dodged all his blows, and determinedly kept the door for several minutes. He finally succeeded in pushing her aside, and escaped to the street, where she followed, and raising an alarm, the thief was captured. Miss Patterson is a brave young lady.

CRIME IN NEW YORK.—From the report of the New York Deputy Superintendent of Police, for the quarter ending Aug. 1, it appears that the number of arrests for the three months was 19,262, of which 2664 were for offenses against property, and 16,597 for offenses against persons or the public peace—14,019 of which latter are traceable to the use of intoxicating liquors. Of those arrested, 12,997 were males and 2265 females; 9630 were married, and 9732 were single persons; 11,388 could read and write, and 7874 were unable to do so.

LIST OF CANDIDATES.—The Boston Courier, speaking of the legion of names mentioned in connection with the next presidency, says:

As it would be impossible to enumerate them in order of their chances of success we set them down alphabetically, remarking only that there is more than one of them whose elevation to the Presidency would do honor to the nation, and that it would be a comparatively easy matter for us to designate our own particular choice. Fortunately for some of the gentlemen, however, the choice does not rest with us:—Bates, Bell, Botts, Breckinridge, Cameron, Chase, Cobb, Crittenden, Davis, Dickinson, Douglas, Everett, Guthrie, Hunter, Lane, Rives, Seymour, Seward, Slidell, Wise. And where is Fremont? Were his claims so fitful, and his merits so evanescent, that in so short a time there are found none so poor as to do him the honor of a re-nomination?

We hold that no man can have any *claim* to the presidency, though a man may have a claim *on his party* for a nomination. It is by no means certain that Fremont and Houston, Pierce and Buchanan, will not come into the list of names, and make up two dozen.

FROM HAYTI.—Advices from Port au Prince are to Aug. 6. The report that the Chamber of Representatives had offered the dictatorship to President Geffrard is formally contradicted by the Secretary of the House, who states the story was originated by the Republique newspaper, and that the Representatives never entertained any such idea. A law had been passed by the Chambers, and approved by the President, abrogating all the political laws and decrees of the late imperial government, especially a decree of 1848 punishing Haytiens by banishment and disfranchisement. The Free Masons had constituted President Geffrard Grand Protector of the Order, and the ceremonies on the occasion of investing him with the dignity were very imposing.

☞ The wag of the N. H. Telegraph suggests that "a good way to get rid of the old 'red cents' will be, when the Postmasters put up their contribution boxes for the Washington Monument, for every man when he goes to the Post Office, to deposit all tha the has 'about his clothes.'"

☞ The trot between Flora Temple and Princess, at Boston, Tuesday, has caused the history of these wonderful mares to be published anew. Flora was once sold for $80, but has since brought $8000. She was raised in New York, and is now about fifteen years old—as was also Lady Suffolk, when she made her best time. Flora is not pretty, not attractive any way, except when she is flying at her best speed.

Princess is a beauty,—and is appropriately named. She was raised in Claremont, N. H., and is younger. She has been sold as high as $5 000. She is now owned by a Mr. Teakle of California; Flora belongs to Mr. Daniel of Baltimore. Princess trotted ten miles inside the half hour in California. Flora has done her mile in 2:22 1-2, and two miles in 4:50 1-2. Of the five races in which they have recently met, Flora has won four—taking in Boston, on Tuesday last, $1000, in 2:32, 2:26 1-2, 2:34. This on that hard half-mile track is unequalled. The driver of Princess stated to the judges that his horse could not show her speed, from the fact that to keep her to the pole he would have to choke her, as she pulled so strong, on the right rein.

These mares go again for $1,000, on the Portland course, Thursday, Sept. 1st.

RAINS AT THE SOUTH.—South Carolina, Georgia and Alabama papers complain of recent heavy rains in those States, which they represent as likely to prove exceedingly detrimental to the cotton crop. In some localities the corn crop was benefitted by the wet weather, but in others the rain came too late. Copious rain storms have also occurred in Florida.

ADMITTED TO THE BAR.—Benjamin F. Prescott, of Epping, who has been pursuing his studies in the office of H. A. & A. H. Bellows, in Concord, and Henry W. Fuller, of Concord, a graduate of the Cambridge Law School, were examined and admitted to practice in all the courts of this State, last Friday.—*Independent Democrat.*

☞ The Emperor Alexander, when first he began studying the holy scriptures, put a cross before each verse he could not understand. These, at the commencement were very numerous. "But," said the pious monarch, "on the second perusal many crosses were erased, and since then they are diminishing continually."

In a neighboring town lives a person who has always refused to give anything towards the support of religious worship. A few days ago a new church was built, and that gentleman to the surprise of all, gave a bell for the new structure. On being asked the reason, he said he never put his money where he could not hear it ring.—*Newburyport Herald.*

☞ The amount of land sold at the recent Government sales in Kansas is said to have been astonishingly small, compared with former years; while the subsequent location of land warrants was very limited.

☞ The Paterson (N. J.) market is plentifully supplied with strawberries, of a second crop, which are remarkable for their sweet, delicious superiority over the spring crop. The price of them is high, however.

LAGER BEER.—The New York Express says that the bad quality of many kinds of lager beer manufactured in that city is generally observed. A large portion of the liquor on sale there is an oily, dark brown liquid, of a very disagreeable, bitter taste. Instead of quenching the thirst, like genuine lager beer, it affects the nerves and gives rise to a peculiar feverish state of the system. From the oily and disagreeable bitter taste of the stuff, it would appear that, instead of hops, some injurious narcotic substances have been used in the manufacture.

The idea that any *beer* or any *bitter* drink whatever can quench thirst, seems foolish to a water drinker. Beer, and tea, and other drinks, only quench thirst by the *water* they contain; and the bitters, or sours, or sweets, give a flavoring, a color, a stimulus, &c.

It would seem *now* that, instead of lager beer, the New Yorkers are drinking some diabolical compound. Better not take any of the stuff.

LEAVENWORTH, Aug. 24.—McCrea, who killed Clark, a pro-slavery man, in 1854, was arrested here to-day. Clark was the first man killed in the Territory for political causes.

☞ A lad twelve years of age, son of Charles Holbrook of Amherst, N. H., on Monday fell from the high beams of a barn to the floor, breaking both arms above the wrists, and his nose.

☞ A Sister of Charity, known as Sister Cyprian, was thrown from a carriage in Baltimore on Saturday, and falling on her head, struck a rock with such violence as to fracture her skull and kill her almost instantly.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Sold by druggists and dealers generally, everywhere.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

CONCORD, N. H., March 2.

MESSRS. SETH W. FOWLE & CO.,—*Gentlemen:*—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,

HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 30th of May, twenty-one days after she commenced its use,

" SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

The Best Medicine in the World.

YES—DECIDEDLY THE BEST—IS

Dr. Langley's Root and Herb Bitters.

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom.—They act at once upon the very seat of disease.—They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all Bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs:
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.
So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

THE TRUNDLE-BED PARTY, a company of young ladies and gentlemen from the rural districts none of them over ten years of age—rejoicing in newly-donned short frocks and jackets and trousers, visited Plum Island, Wednesday, to celebrate the first anniversary of their weaning. Their indulgent papas carefully harnessed the horses for the boys, while the mammas carefully pinned the little girls' bibs and supplied their baskets plentifully with pap, when the children were tenderly lifted into carriages and started off on their infantile spree.—How they found their way to the island is a mystery, though it is probably attributable to the instinct of their horses. Arrived at their destination, they put up under a clump bush, where they enjoyed the feast of reason and the flow of soul, for all the world just like folks. Each couple was provided with a nurse bottle filled with sweetened milk, over which these embryo Archanalians revived their recollections of maternal tenderness. We understand they did not venture over to the beach, as the little dears were frighted at the roar of the breakers. They reached home without any serious accident, and were undressed and put to bed by sunset, their usual hour.—Several of company who were just recovering from the croup, hooping-cough and toothache experienced great benefit from the sea air.—*Newburyport Herald.*

MESS-ROOM GOSSIP.—The late Duke of York once remarked to Col. W., at the mess of the 11th regiment that the Colonel was uncommonly bald, and though a younger man than his Royal Highness, he stood more in need of a wig. The Colonel, who had been of very long standing in the service, and whose promotion had been by no means rapid, informed his Royal Highness that his baldness could be very easily accounted for. "In what manner?" asked the Royal Highness, rather eagerly. To which Colonel W. replied, "By junior officers stepping over my head." The Duke was so pleased with the reply, that the gallant Colonel obtained promotion in a few days afterwards.

The Lombards are modestly expected by the Austrians to assume about $170,000,000 of the debt of the empire! This is the most outrageous piece of impudence ever known or heard of. The freed Lombards are not form above a fourteenth part of the population of the empire, and they had no part in the creation of the Austrian national debt. They ought not, in equity, to be asked to take a solitary farthing of the debt, part of which would represent the cost of their own subjugation and misgovernment. They were branded with the hot poker of Austria, and now they must pay the cost of making the instrument of torment.—*Trav.*

The national democrats of Illinois offer to bury the hatchet—in the heads of the Douglasites. They ask for one-half the delegates to the Charleston Convention! At the election of 1858, the Douglasites had 11,609 votes, and the "nationals" 5071.

THE NEW TERRITORY OF JEFFERSON. Far away to the Westward, at the foot of the Rocky Mountains, they are about forming a new territory. A convention has been held, and has adopted a constitution which is to be submitted to popular vote.—If sustained, the vote is to be considered as favorable to a State government, and if not to a territorial one. The convention adopted also a memorial to Congress, asking an immediate organization of a Territorial government. This, as well as the constitution of the proposed State, is to be submitted to the popular vote, either to be considered adopted, as the majority shall determine. This memorial asks Congress to pass an enabling act for the admission of Jefferson Territory as a State.

A resolution allowing foreign-born citizens, (?) under certain restrictions, the right to vote on the adoption of the constitution or memorial was lost. A report on corporations was so amended as to recommend provisions forbidding the circulation of bank indebtedness as money. A committee was appointed to draft a memorial to Congress, asking for the establishment of an Assay Office in Jefferson.

The size of the new territory is stated as follows:—From 27 to 43 degrees North latitude—417 miles. From 102 to 110 degrees West longitude on the South line—329 and one-fifth miles. From 102 to 110 degrees on the North line—310 miles and a fraction. Area 129,668 square miles, or considerably larger than the United Kingdom of England, Scotland and Ireland.—*Traveller.*

MORE LYNCH LAW.—*Louisville, Aug.* 24.—On Thursday night Jesse Williams, an old and wealthy citizen of Caldwell Co., under guard at Princeton, charged with murder and stealing, and cruelty to his slaves, was taken from the jail, carried seven miles and hung. His two sons, John and James, guilty of numerous crimes, escaped death by absconding. About the same time, Dr. Singleton and Messrs. Mansfield, Morse, and Strawmat, supposed to have been connected with Williams and his villanies, were severely punished and ordered to leave the country.

TRENTON, N. J., Aug. 24.—The Democratic State Convention assembled here today, and it was the largest and most stormy ever held. 2000 delegates were present.—On the 6th ballot E. R. V. Wright, of Hudson was nominated for Governor. The next highest competitor, was Chas. Skelton, of Mercer. The anti-Lecompton and Lecompton delegates of Sussex, had a long and tedious wrangle in regard to their admittance, and finally both withdrew. The resolutions are in favor of popular sovereignty, and oppose the opening of the slave trade, etc. The nomination of Mr. Wright was made unanimous. There is great rejoicing among his friends.

FALSE.—The story that our government has agreed to surrender the right of privateering originated in a typographical error, that is explained in the London Herald.—The paragraph should have read, "the American government has *refused* to abandon privateering." It was printed "has *resolved.*

THE STATUE OF FRANKLIN—A writer in the Atlantic Monthly says:

"Richard Greenough once told me, that, in studying for the statue of Franklin, he found that the left side of the great man's face was philosophic and reflective, and the right side funny and smiling. If you will go and look at the bronze statue, you will find he has repeated this observation there for posterity. The eastern profile is the portrait of the statesman Franklin—the western of poor Richard."

Success in any pursuit implies incredible labor and pains; but it is at the same time a genius for any pursuit that alone gives a passion for it, or that can supply the patience necessary to master the preliminary steps, from distinctly perceiving the consequences to which they lead, or that can in the end turn them to any account.

WOULDN'T GET MAD.

Old Harry Brewer, or "Hot-Corn Harry," as he was more familiarly known about the east side of town, was for many years a shining light in one of our African churches; and was, by long odds, the most powerful exhorter of the congregation. Old Harry was most undoubtedly a good Christian; and proved it by living up to the precepts he taught. His extreme good nature was proverbial, and many a bet was lost and won by the young men of Grand street and the Bowery, in vain attempts to make Harry lose his temper. "Go way, boys, go way!" was his answer, when they played their wild pranks upon him. "De good book says: 'When any one smites you on one cheek, you must turn him de oder.'"

The nearest approach Harry was ever known to make towards losing his temper, was about ten years ago. He had a plan whereby he preserved his corn perfectly fresh and green till December or January; and at that season of the year, he would go out and make the streets resound with his cry of—"Hot corn! hot corn! pipin' hot—just come out de bilin' pot!" and realize a handsome profit from its sale.

During the year in question, Harry was unfortunate, as his corn decayed; and out of a large quantity he had put away, he only saved enough to go out with one or two nights.

In the early part of December, Harry's voice was heard in the Bowery, singing his well-known song; and in one of the bar rooms a bet was made that Harry could be thrown off his guard. In a few moments Harry entered the bar-room, and set his bucket on the floor; but before he could get ready for business, he was being pulled around in all sorts of ways. One pulled him by the whiskers, and another by the coat-tail; and altogether he was made anything but comfortable. But all that could be got from Harry was—"Go way, boys, go way!"

All attempts to provoke him further failed; and, as a last resort, one of the young men took up his pail of corn, and said—

"Harry, I've a good notion to throw all your corn in the street!"

"Hush! hush!" said Harry, "don't talk dat way, for you make me feel bad; for if you frow my corn in de street now, you most ruin de old darkey. Ain't had no wood to saw hardly dis fall, and no white-washing. My wife's been sick dis two months, and my corn's all rotted; and I ain't got nuffin to 'pend on but the Lord!"

"Well, Harry!" said he who held the bucket, "you have got a good backer, so here goes the corn!" and suiting the action to the word, he threw the corn into the sewer.

Harry looked very sadly after his property; and, as he picked up his empty basket, he said:

"De Lord's will be done!" and then started on a brisk trot from the scene of his temptation, as if resolved not to give way to the wrath he felt rising within him.

In Elizabeth street, a new building was in the course of erection, and into the cellar of this building Harry descended, while the young men, who had followed him, crept stealthily after, to see what he would do.

Away back in a far corner Harry went, out of hearing from the street, and there, upon his knees, he gave vent to his feelings in this wise:

"O, Lord! I'se mose tempted to get mad, but I won't do it for de sake of a pail of corn. Dem was de wickedest boys I eber got amongst; but you made 'em, and I won't complain. It's a hard case, and you knows it as well as I do; for you know I ain't had no work most dis fall, and Hannah's sick; and I only sabed a little corn, and dem wicked boys had trowed it mose all away. But I won't get mad at 'em; for you hab say dat justice am yourn. But gib 'em justice, and make 'em repent of deir evil ways. Take 'em, O, Lord, and hold 'em ober the bottomless pit, and, if you're a mind to, singe 'em a little; but, O, good Lord, be very careful, and don't let 'em fall in; and when it feel so warm dey 'gin to repent, den let 'em go agin, and dey'll be better men!"

His prayer ended, Harry came forth, looking as good-natured as ever; and the young men, who were in waiting for him, took him back to the bar-room; and the proceeds of the bet, five dollars, was handed over to him, which amply remunerated him for the loss of his stock in trade.—*N. Y. Mercury.*

GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,
MACHINES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
TESTIMONIALS.

PORTSMOUTH, July 16, 1859.

Several months have now elapsed since one of these machines was first introduced for our family use. For several weeks those who attempted to operate it having had no instruction, it was regarded as of little value, although some work could be done. But no sooner had one of experience taken hold of it, giving the proper tension to the cotton, proper oiling, &c. to the machinery, than it worked admirably—and now for months it goes on like clock work, doing handsomely all the work submitted to it, and accomplishing as much work in an hour as could be done by hand in a long summer's day. These machines are decidedly popular. We have never heard of one being sold to procure another from a different maker,—while we have known others to be laid aside to give place to Grover & Baker's. Any one can operate them after an hour's instruction from an experienced hand.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

I. P. Libbey, Watch and Clock Maker,
—WITH—
A. L. BENNETT, No. 7 Congress St.

Mr L. would inform his friends and citizens generally, he has returned to Portsmouth and will attend exclusively to WATCH AND CLOCK REPAIRING as above, and by close attention to business, hopes to merit a share of the public patronage. All work warranted.

CLOCKS.—Those having Clocks at their residences which are inconvenient to remove, I will repair at the house without extra charge. A good assortment of French and American Clocks constantly on hand at low prices.

AMERICAN WATCHES.—Particular attention given to getting up nice AMERICAN WATCHES of any pattern, with the purchaser's name on dial and movement, if desired. Having had five years experience in their manufacture, I can cheerfully recommend them as reliable timekeepers.

The present important question with the people of Warsaw, is,
"Will Poland soon be an independent Kingdom."
AUERBACH & CO.
Believe it will not take place very soon, but they do believe in thanking their Customers and the public generally, for past and present favors, at their present small location,
NO. 32 Penhallow Street,
And it gives them pleasure to announce to their patrons that notwithstanding their Stock of
CLOTHING AND FURNISHING GOODS
is rapidly diminishing, yet they will, in return for past favors, sell their remaining Stock at REDUCED PRICES.
This opportunity affords a rare chance to everybody in want of such articles; and more especially for mechanics; for they can buy at the above place a suit of clothes cheap enough to correspond with their low wages.

PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington,
MORGAN BLOCK, CORNER OF MARKET AND PLEASANT STREETS,
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this to be MORE SO OVER SELL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
WASHINGTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PERFECTLY PURE and *chemically pure*. My *fac simile* signature is upon every bottle.

☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. Sold wholesale, at the lowest discount for cash, at the Sole General Depot in the United States, by J. WINCHESTER, American and Foreign Agency, 49 John street, New York.

Also, of P. H. NILES, No. 3 Arch street, Boston, Mass., Agent for the States of Mass., N. H., and Vt., to whom all orders must be addressed.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say*, *in confidence and truth*, of it, what we have of any other medicine, NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who tried it, but all were delighted with its operation, and commendation of its virtues. We speak, in this matter, "*what we do know*," after ten years experience, and *pledge our reputation for the truth of what we here declare*. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after this syrup is administered.
This valuable preparation is the prescription of one of the MOST SKILLFUL NURSES EXPERIENCED and in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.
It not only relieves the child from pain, but it will also relieve BOWELS, AND COLIC.
GRIPING IN THE BOWELS, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST remedy in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others, stand between your suffering child and the relief that will be SURE*—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions attending each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st., New York.
Price only 25 cents per bottle.

EMPLOYMENT.
$50 A MONTH AND ALL EXPENSES PAID.—An Agent is wanted in every town and county in the United States to engage in a respectable and easy business, by which the above profits may be certainly realized. THE GREAT ENGLISH REMEDY.
Sir Jas Clarke's celebrated Female Pills
Prepared from a prescription of Sir Jas. Clarke, M. D., Physician Extraordinary to the Queen.
Unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject.
TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.
Each bottle, price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.
For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.
CAUTION.—*These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time, they are perfectly safe.*
In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and do not contain any thing hurtful to the constitution.
Full directions accompany each package.
Sole Agent for the United States and Canada,
JOB MOSES, ROCHESTER, N. Y.
$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail. jaly9

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now in its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, Alabama, Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. BIDDLETON.
PHILADELPHIA, Sept. 3, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact bald. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.
PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS.
Is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.
One dose taken for eating BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents NIGHTMARE.
Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls will always relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.
A few bottles will cure DROPSY by exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.
Dr. SANFORD, Proprietor, 345 Broadway, N. Y.
Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

LOTTERIES.
THE LOTTERIES OF
WOOD, EDDY & CO.,
Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of
WOOD, EDDY & CO.,
are authorized by the Legislature of either State.
A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.
Whole tickets are $10; halves, $5; and quarters, $2.50.
No ticket sent unless the money accompanies the order. Prices vary from $20 to $50,000.
Every prize is drawn, and the result of drawing forwarded to all purchasers.
☞ A circular showing the plan of receiving it. All communications strictly confidential.
Write your address plainly, and direct to
WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.
☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

The Sagamore House, Frost's Point,
IS NOW OPEN.
This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, not three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.
The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
Those who prefer sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent as
AT OUR RISK AND EXPENSE,
from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

By using Hutchins' Liquid HAIR DYE, you can color Red or Gray Hair to a beautiful Brown or Black. This is the best article in use. A lady says it is cheaper to use it than to by caps to cover her gray hair.

Good at that gentleman's whiskers. Hutchins' Hair Dye makes them look so handsome. A new lot is just received for the accommodation of the public, by BRACKETT HUTCHINGS, No. 4 Market street june20

Dr. B. S. Goodwin, Indian Physician,

Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.

Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.

THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON

A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.

Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color.

Silks, Silk Dresses and Ribbons watered.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.
Exeter, June 1, 1859.
This testimony of my wife is correct.
IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]
GREENLAND, Nov. 20, 1858.
DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, with which I so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.
ENFIELD, Sept. 8, 1859.
Last spring and Summer I was troubled with the Liver Complaint, which caused my food to distress me badly; and I do not know what cured me, but one thing I do know, and that is, I took one bottle of Dr. S. Swett's Cordial of Dandelion, and the disease left me, and has not returned.
A. K. CURRIER.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine, —NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the highest encomendation of its medicinal effects and medical virtues. We speak, in this matter, "*what we do know,*" after ten years experience, and *pledge our reputation for the truth of the here declared.* In almost every instance where our *reputation for the here declared.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that, WE KNOW, will ABSOLUTELY SURE follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. *Beware of counterfeits.* The genuine is signed CURTIS & PERKINS, New York, is on the outside wrapper of each bottle. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.
Price only 25 cents per bottle.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, AUGUST 27, 1859.

AN EASTWARD TRIP.

Of all the routes which we have ever travelled, we prefer a jaunt down east. So, *taking* a few days for the purpose,—as to ever *having* any leisure for such use, it is idle for a business man, especially an editor of a daily newspaper, to think of it,—we placed ourselves in charge of the veteran conductor Akerman, of the P. S. & P. rail; and now a few words of what we saw, heard and thought.

Mr. Akerman, like all the old genuine stage-drivers, has a fund of anecdote and information which he is every ready to dispense for the benefit and interest of the traveller—at the same time attending to his duties most faithfully, though courteously. He drove his four-in-hand, with "U. S. M.," from Newburyport to Boston, thirty-four years ago, and has been on the same "eastern" line of travel ever since. He was labelled "conductor" in 1839, when the railroad first reached Newburyport, and seems not to have grown a year older since. His ride of 100 miles and upwards per day is doubtless more wearing than half that distance behind horses, besides being more hazardous; but in this long experience, and during this interminable journey of hundreds of thousands miles, he has been happily exempt from personal accident, as have also the multitudes under his care. Long may it be ere the train which always runs "downward," and which must ultimately take us "*all* aboard," has him as passenger.

The ride to Portland, though through a pretty, diversified country, was less interesting than usual. Maine is suffering severely from drought, and the evidences of it are apparent all along the road, as well as in that city. Eight o'clock, Saturday night, found us in Portland—and at the U. S. Hotel, alas! This probably aims or pretends to be a first class house, judging from the charges; but that is *all* that does come up to the mark of tolerable—neither the building, the table, nor the attendance, compare, at $2 a day, with what Col. Hadley for years furnished in this city for $1.—A new hotel is in course of erection, or rather a new house is to be altered and enlarged, for a hotel, on the old Judge Preble estate. John M. Wood's splendid white marble pile, commenced for a hotel long ago, is yet unfinished, and the work long since suspended. Mr. Wood devoted the whole of his mighty energies and vast resources to improve and beautify Portland; but when the day of his trial came, he was not supported and encouraged, as he deserved. He will no doubt soon work out of all pecuniary embarrassment, and complete his hotel—which will be a public blessing and a lasting monument to his munificence and good taste. Meantime, if the great ark of a steamship *does* come to Portland, we guess the Englishmen will lament the lack of its spacious accommodations.

Portland is altogether the finest city we ever visited, and the enterprise of its citizens is proverbial. This alone, and not its natural advantages have pushed it so far ahead of Portsmouth within the last fifteen or twenty years.

Two piers were built here, a year or two since in preparation for the visit of the Great Eastern, and to induce it—at a cost of $60,000. A splendid block for City Buildings, which is also to contain accommodations for the Maine Legislature, if it can be induced to remove from Augusta hither, (as doubtless it will.) The stone trimmings are of light buff freestone, called "Albert freestone," which we also see is being used in Boston. The new Custom House and Post Office building is of granite, with a circular front, and is very handsome. The Grand Trunk Depot is very massive, of brick, and the finest structure of the sort in the country. A Mr. Morse, of New Orleans, is building a residence which will cost from $70,000 to $120,000—as much as our new Post Office in Portsmouth. Wonder if he means to live forever in it?

More anon. Y.

☞ Of the *thirteen* Senators from the Northern States who voted for the repeal of the Missouri Compromise in 1854, the Boston Journal says it is a significant fact that only one now remains in the Senate. Mr. Douglas alone has saved himself by a fortunate interpretation, and by being too shrewd to make a second blunder when Lecompton came up; and it might have added, by an unfair apportionment of the election districts of his State, which gave him a majority in the Legislature, while the popular voice was really against him.

☞ Speaking of a young man at Crawfordsville, Ia., who was thrown into frightful tetanic spasms by drinking whisky, the New York Express says:—"A wise man now, in these days of bad liquor, would go about as soon to a drug shop and drink and eat in them the drugs in liquors, as go to the grog shops and drink there. Good liquor has about ceased to exist."

THE GREAT EASTERN.—This mammoth steamer is advertised to leave England early in September for Portland, Me., after having made a short trial trip. So the expectations of our Portland friends are likely to be realized at last. The arrival of the Great Eastern in this country will create a wide-spread curiosity to see her, and the resources of the Forest City will be seriously taxed to accommodate the rush of visitors.

The following are the Great Eastern's dimensions and tonnage, as given in a Parliamentary return just issued:—Length, 697 feet; breadth, 82 feet; depth of hold, 31 feet; burthen, exclusive of engine room, 13,344 tons; gross tonnage, 18,915 tons.—She will accommodate 10,000 *(ten thousand)* people.

☞ A veritable double-headed Eagle is to be sent to the Emperor Francis Joseph, of Austria. It is from Virginia, of enormous size, and resembles the common gray eagle so frequent there; but is bicipitous, or double-headed. The two heads are clearly defined, and seem to be perfect in all respects. It receives its food with the same facility in either beak, and apparently sees and hears alike through all its eyes and ears. It was captured when a mere fledgling, and has been carefully nurtured and fed. The Austrian Consul at New-York intends presenting it to the Emperor. A more appropriate present could not be made, as the national emblem of his vast empire is a double-headed eagle; but we will venture the assertion that this is is the first live specimen ever seen.

☞ The case of the State vs. Marshall S. Potter of Lee, for the murder of his brother, Oliver Potter, which has been on trial before the Supreme Court in Bangor, since Tuesday morning last, was submitted to the jury, about noon, and a verdict of guilty rendered at the opening of the Court at half past 4. The defence introduced no testimony, and the case was submitted without argument.

"KNITTING WORK."—The sale of Mrs. Partington's new work has now reached 15,000 copies. It is pronounced by the press generally, the best summer reading book issued this season. It is published by the enterprising and discriminating house of Brown, Taggard & Chase, Boston, from whom we have an advertisement of the book this morning. They are also the publishers of Laighton's "charming volume" of poems.

☞ The Great Eastern steamship is larger than Noah's ark, and is of greater tonage. It is therefore the largest vessel ever built, and the only one which has two sets of engines and two propellers. Her power is 12,000 horses, and she is 20,000 tons. She is expected at Portland, next month.

☞ At the New Bedford fire Chief Engineer Tillinghast P. Tompkins was seriously injured by the blowing up of the first building. His shoulder was fractured, and head badly injured. Mr. David M. Barker, blacksmith, had one of his arms broken.

☞ The act of the last Legislature of Massachusetts, abolishing the school district system, was made the subject of discussion at the meeting of the American Institute of Instruction, Wednesday. The speakers all concurred in their approval of this legislation, which, it was maintained, would be conducive to the best interests of the schools.

☞ The upper class of East Indian ladies are making a violent resistance to the introduction of English gowns among the lower classes of female coolies, as the gown enables the poor women to cover the breasts, and that is a privilege hitherto belonging to women of rank only.

☞ The Wisconsin Democratic State Convention on Thursday nominated H. C. Hobart for Governor, and A. S. Palmer for Lieut. Governor. It is very doubtful whether delegates to the Charleston Convention will be chosen at present. The Convention is decidedly anti-Lecompton.

☞ A crop of 7000 bushels of prime wheat has been gathered from one plantation in Davidson county, N. C. An offer of 90 cents per bushel was made for the entire crop at Lexington, N. C., but it was refused.

☞ The Boston Saturday Evening Gazette says we pay an instinctive tribute to the Catholic religion, when we admire a beautiful portrait of the Madonna.

☞ The British send fifty million dollars' worth of opium a year to kill the Chinese, and maintain a host of missionaries to save the souls of the victims of that infamous traffic.

☞ The sugar crop in Louisiana looks exceedingly well. In Texas, the sugar and cotton go on very finely, and a large crop is anticipated.

NAVAL.—*Norfolk, Aug.* 25.—The U. S. steamer Fulton passed out of the Capes last night, bound to the Gulf of Mexico.

Poets are all who love—who feel great truths
And tell them; and the truth of truths is love.
—*Festus.*

☞ An Irish boy, named John Andrew, 13 years of age, fell from an elevator in the Cocheco Mill at Dover, on Tuesday, fracturing his skull and causing his death shortly after.

☞ The Baltimore American of Aug. 27 publishes a call for a town meeting of the friends of law and order, without distinction of party, to put in nomination a candidate in opposition to the rowdy clubs.

SILVER SOAP—a most excellent preparation for cleaning silver, britannia, and tin ware, &c.,—can be obtained of the apothecaries and grocers.

☞ The drought is compelling the farmers in Ohio to sell their stock at a sacrifice. Good cattle in Ohio sell at $15 a head.

TWENTY-ONE SLAVES MANUMITTED.—The canal packet John B. Bortle, lying in the river above Broad street bridge, has on board twenty-one slaves, men and women, manumitted by the will of their late owner, Pleasant Burnet, of Mecklenburg county, Va. They are lively looking men and women, and with one exception looking forward with delight to the freedom and self-managment in store for them. They are under the charge of Robert M. Hutchinson and Charles H. Hutchinson, who have selected lands in Hardin county, near Kenton, for their location, and for which they will take the C. P. & Ind. Railroad this morning. The testator, Mr. Burnet, did not free all his slaves, only selecting those, who had been faithful and deemed competent to care for themselves. Good lands have been selected for the negroes to settle upon, in accordance with the provisions of the will, and they will be furnished with the necessary tools and implements to commence operations. God grant them success in their free homes.—*Ohio State Jour., 22d.*

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously endorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Cold Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, N., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

CONCORD, N. H., March 2.

MESSRS. SETH W. FOWLE & CO.,—*Gentlemen*:—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,
HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores: there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief, and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

The Best Medicine in the World

YES—DECIDEDLY THE BEST—IS

Dr. Langley's Root and Herb Bitters

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom. They act at once upon the very seat of disease. They remove all obstructions from the internal organs—regulate the Bowels—purify the Blood, remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all malignous disease—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house they live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs.
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.
So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

Only 25 cts. for a pint, 38 cts. for a large bottle. Sold by all dealers in medicine everywhere.

LOCAL.

☞ The Newburyport Herald and the Boston Transcript show up the folly of citizens of distant cities visiting Boston to make retail purchases, although they must necessarily buy higher, in consequence of the greater rates of rent and other expenses, and in many cases be obliged to put up with an article inferior to what may be obtained at their own door. An article in the Transcript, written by a lady, complains bitterly of the great dearth in the Boston shops of some of the most common articles. "Encourage your own," if you would be well served.

CONSUMPTION OF BERRIES. — Within the past six weeks, one retailer in this city informs us that he has bought and sold over forty bushels of this valuable article, at an average cost of over three dollars per bushel. The harvest of berries, which is now about over, has been unusually large; and the demand and price have probably been enhanced by the scarcity of apples.

☞ Our railroad trains have been late all the week, from Boston, on account of the crowds attending the camp meeting at Hamilton. It was estimated that 20,000 persons were present at or near the meeting on Friday.

FAST TRAVELLING. — The steamboat train on the Eastern Railroad, from Portsmouth to Newburyport, Wednesday evening, ran that distance in 18 minutes, which is more than a mile a minute.

We have no special report of the doings of the Advent Camp Meeting at East Kingston this week, but learn incidentally that the attendance is not as yet very large.—We shall endeavor to get over to the camp ground during the week, and if the participants are not in the interim translated, will endeavor to give some report of the exercises in our next issue.—*Ballot.*

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

☞ In Board of Aldermen, Thursday evening, the resignation of Joseph H. Hart as a Health Officer was accepted. Voted to fill the vacancy next Thursday evening.

☞ The Methodists are to hold their camp meeting this fall at South New Market, near the junction depot, commencing on Monday, the 5th of September.

Are we to have a series of out-door musical entertainments by the Cornet Band this season? It is quite time to be thinking of it.—*Ballot.*

HONG KONG STORIES.—The N. H. Patriot has some very lively "Letters from Abroad," written by Rev. Henry Wood, Chaplain in the Navy. In a letter from Hong Kong, dated May, 1859, he says:

The capacity of the English stomach is astounding. We had an English pilot, whom we took at Singapore, of the name of *Smith*. He told me at first he was a "temperance man," in compliment probably to my profession and my habits. His *face*, however, told secrets, for the skin was almost as red and thick as sole leather, while his little eyes, imbedded in fat, and inflamed, seemed to be struggling to get a peep of day. We spent three weeks at Penang, where he betook himself to a hotel. His bill was presented to the purser for payment, out of his fees as pilot, when I happened to see its daily charges. Every day from *seventeen to nineteen drinks of brandy* were put to his account, independent of wines and other liquors. For the three weeks his tavern bill amounted to close upon two hundred dollars! I called him thenceforward "Extra Billy;" he went a little beyond all the Smiths I had ever heard of, and even all the John Bulls. And yet he complained of his poverty and struggles to support his young family!

I gave you in a former communication a notice of the "execution ground" at Canton, and my visit to it. The other day a gentleman told me he was there a short time since, when he saw *twenty-four* Chinamen marched into the horrid arena, with their hands bound and their executioners at their sides. The prisoners were required to kneel and bend their heads forward, which they did without the least apparent fear, concern or emotion, when a single blow severed the head from the body, and both fell upon the blood-steeped ground. The Chinese system seems to attach no value to the lives of others or even their own.

The other day a steamer came in and anchored near us, which had on board a frightful article as part of her cargo. The name of the steamer was the "Fiery Cross," which sailed from Calcutta, and was close in our wake all our way from Penang.—That article was the body of Yeh, the late Governor of Canton, who had made the "execution ground" such a Golgotha by the decapitation on that narrow spot of more than a hundred thousand Chinamen in two years! Being at last taken prisoner by the English, after the capture of Canton, he was sent to Calcutta a year ago, where he was kept in confinement. He became sulky and silent when he found his dignity and power were gone, and the English and others ceased to lionize him, or even to show him the attentions they did to the most common men. His proud spirit was broken, he sickened and died. And such was the end of the monster. The steamer remained here but for a night, and then left for Canton, where the body was given up to the Chinese authorities for interment.

Dr. C. P. Bronson's New Cures

—FOR—

Consumption, Liver Complaints, Dyspepsia, and all other Chronic Diseases arising from over-use, General Debility, or Nervous Prostration.

These new and successful preparations of Food for the Blood (based upon its analysis in HEALTH, which gives the true standard, and in different DISEASES, when we ascertain the deficiencies in each case and then supply them with the proper materials for making pure and healthy Blood,) are among the most important discoveries of the age. They are destined to produce a revolution in the treatment and cure of CHRONIC DISEASES. Having a perfect scientific foundation, they are far removed from the sphere of all Nostrums and Patent Medicines. Physicians of all schools are using these PREPARATIONS (not *Medicines*) with the most satisfactory results. They are taken by drops, not spoonfuls.

THEIR RANGE OF CURE:

CONSUMPTION, THROAT DISEASES, BRONCHITIS, COUGHS, COLDS, DYSPEPSIA, LIVER COMPLAINTS, HEADACHES, PALPITATION OF THE HEART, NEURALGIA, LOSS OF APPETITE, INABILITY TO SLEEP, DEPRESSION OF SPIRITS, IRREGULARITIES, and MALE AND FEMALE WEAKNESS, &c. In all cases of Chronic Complaints peculiar to FEMALES, these Preparations will be found invaluable.

THEIR PARTICULAR SPHERE.

It is not claimed that they will cure all diseases; but in those specified above, (as thousands can testify,) they are the most efficacious of any now known.

Be particular, in ordering, to mention which of the three Preparations are required. If for Consumption, &c., the first and third alternately, are best; if for Liver Complaints, &c, the 2d; or Dyspepsia, (when inveterate) the 2d and 3d in alternation, are more successful. In moderate cases, *one* will suffice.

There are three preparations, one for Consumption in all its various forms; one for Liver Complaints and their attendants; (to which particular attention is called,) and one for Dyspepsia. Out of nearly two thousand strongly marked cases there have not been 20 failures.

From numerous testimonials we select the following:

A VERY INTERESTING CASE.

Mr. D. L. ELDER, (of this city,) is well known as one of the most hopeless cases of Consumption. Messrs. Horace Greeley and W. C. Bryant, (of the *Tribune* and *Post*,) are familiar with the following facts and circumstances:

Mr. ELDER was actively engaged in the last Presidential campaign, and his intense labors, day and night, broke down his health, which had not been good for many years; this was followed by a severe cough and bleeding from the lungs, which continued down to last December, when he commenced using one of these Preparations.—For the previous two months he bled every day, sometimes quite profusely, and his cough was terrible. In a month's time he was able to be about through the city during all weathers, and in less than two months after beginning to use the remedy, he was engaged in canvassing the city, and was on his feet nearly all the time from 9 o'clock in the morning till four in the afternoon, conversing with hundreds of persons, and transacting a large amount of business. He is now as hearty a looking man as one in a thousand. His present residence is at 562 Hudson-street, New York.

Dr. Bronson can be consulted either by letter, addressed to Box 3398, P. O., or at the office of the General Agents from 9 to 12.

These Preparations can be obtained through any respectable Druggist in the United States or Canadas. Price $1 per Bottle, with full directions. All orders must be addressed to

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure.* My *fac simile* signature is upon every bottle.

☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,
MACHINES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
TESTIMONIALS.

PORTSMOUTH, July 16, 1859.
Several months have now elapsed since one of these machines was first introduced for our family use. For several weeks those who attempted to operate it having had no instruction, it was regarded as of little value, although some work could be done. But no sooner had one of experience taken hold of it, giving the proper tension to the cotton, proper oiling, &c. to the machinery, than it worked admirably—and now for months it goes on like clock work, doing handsomely all the work submitted to it, and accomplishing as much work in an hour as could be done by hand in a long summer's day. These machines are decidedly popular. We have never heard of one being sold to procure another from a different maker,—while we have known others to be laid aside to give place to Grover & Baker's. Any one can operate them after an hour's instruction from an experienced hand.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHARLES W. BREWSTER.

PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

From the Journal.

ENTERPRISE.—It is refreshing in these dull times, to step into the store of our young neighbors, Messrs. Allen & Paine, and see the amount of business which they are doing in manufacturing Ladies' Capes, Sacks, Cloaks and Raglans. They employ about fifty girls, men and boys, distributing among them about $600 per month.

We understand that garments from this establishment stand "A. No. 1." in the market, in *style* and *quality*, workmanship and finish. They find a market for their goods in the principal cities of all the New England States.

With their facilities for buying cloths in large quantities cheap, they are enabled to furnish nearly all the ladies in this vicinity with garments, and no doubt sell nine-tenths of all the capes and cloaks at retail which are sold in Portsmouth. We certainly think they deserve success for their enterprise in starting an entirely new business among us, and have no doubt but they will meet with it.

THE JUDGESHIP.—The *Democratic Standard* (Concord, N. H.) says:

"W. H. Y. Hackett, Esq. of Portsmouth is talked of as filling one of the vacant seats on the Supreme Bench of this State. Mr. Hackett is an able lawyer, and would discharge the duties of his office alike honorable to himself and creditable to the State."

The handsome compliment to our townsman is very just, but his position is such that he would not probably accept the office if tendered to him. This Gov. Goodwin too well knows to make the nomination.

Among the other candidates for the vacancies named in the newspapers are Judge French, Hon. Amos Tuck and Charles H. Bell, Esq. of Exeter, Hon. Thomas E. Sawyer and Charles H. Doe, Esq. of Dover, Luther D. Sawyer, Esq. of Ossipee, H. A. Bellows, Esq. of Concord, and others—all of whom are worthy and well qualified, and either of whom would doubtless give good satisfaction.

THE CREEK BRIDGE.—A correspondent asks whether any patent has been applied for the new mode of bridging just introduced at the Creek.—Some bridges have *sleepers*, but the elevated planks over which one wheel mounts after the other, has such a thrilling effect on the traveller, that they deserve the name of *wakers*.

"BLESS GOD FOR THE RAIN!"—If ever there was a pleasant rainy day which every body seemed to enjoy, it was on Thursday last, when the clouds poured out their treasures bountifully upon the parched earth—2¼ inches of rain falling. As every acre of ground received about 1800 barrels of water, and Portsmouth contains almost ten thousand acres, there fell from the clouds within our own limits on that day no less than fifteen millions of barrels of water, all of which was actually needed to restore vegetation to a healthy state.

EASTERN RAILROAD IN N. H. *vs.* EASTERN RAILROAD.—We understand that some of the stockholders of the E. R. R. in N. H. have brought a bill in equity against the E. R. R. claiming the proportion of the profits of the Road (some forty dollars per share) which they say have been unwarrantably withheld. We published, a few weeks since, the well-drawn report of the Investigating Committee, which, unwisely we think, was not accepted at the annual meeting, although the resolution with which it closed was accepted in a modified form.

In an address to the Stockholders of the E. R. R. in N. H. by those in whose names the bill in equity has been drawn, they say—

The terms of the lease by which the Eastern Railroad holds our Road are too plain to admit of serious dispute. The net earnings of the whole road are to be divided between the two corporations in proportion to the capital stock of each actually paid in; and the share of the Eastern Railroad in New Hampshire is to be paid over, *whether the Eastern Railroad shall declare a dividend or not.* The annual reports of the Directors of the Eastern Railroad show "net income" to the amount of more than $800,000 within the last five years. Our share of this acknowledged balance would be more than $200,000, enough to have given us an average dividend of eight per cent. per annum for the last five years, and amounting to forty per cent. of our own capital at the present time.

The large sums of money which have from year to year been reported as "net income" of the Eastern Railroad has been absorbed by the large debt of the Eastern Railroad, created partly by the defalcations of unworthy servants, but principally by the construction of unproductive branches, and unwise alterations of the track of their own Road. For none of these expenditures or losses is the Eastern Railroad in New Hampshire responsible. Our stockholders never desired the construction of any of the worthless branches of the Eastern Railroad, nor was our consent thereto ever asked.—We had no voice in the expensive but useless change in the southern termination of that Road. We did not appoint the unfaithful agents by which that Road has suffered so largely; nor are we responsible for their misconduct. * * They have attempted to improve their property, and to obtain good dividends upon a greatly enlarged capital. The speculation was theirs, and it is just that they should bear the consequences of failure. If, as is insinuated rather than alleged on their part, they may expend our share in the earnings for a single year in extending or improving their road, they may do so till the end of the lease, and wholly deprive us of all benefit of our investment.

However personal interest may influence the parties concerned, there are few who doubt that there is some ground on which to establish a claim.

From the N. H. Gazette.

POLICE COURT.—Charles Lowell was brought before Justice Odell on Thursday, on complaint of Albert Chamberlain, for stealing a keg of whisky, the property of W. H. Laws, expressman. Lowell was found guilty, and sentenced to the common jail for 10 days, and to pay the costs, taxed at $4.97, and also to pay said Laws $18 being treble the value of the property stolen.

NEW DIRECTORY.—C. W. Brewster & Son, Publishers of the Journal, propose, should the subscription warrant the undertaking, to issue a new Directory of the City of Portsmouth, as soon as convenient after the organization of the city Government for the coming year. The last Directory was published in 1857. We hope that the enterprising publishers will receive such an expression of the desire of our citizens as shall induce the early publication of this much needed work.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from scrofulous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it is obstructed or sluggish in its veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting cealth. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acuce bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly doubted, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.
Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people the quality it kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and as a purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.

All our renedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, since the year of 1837.
78 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him also beyond question, to offer superior facilities for obtaining Patents.

All economy of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 3, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

EMPLOYMENT.

$59 A MONTH AND ALL EXPENSES PAID.—An Agent is wanted in every town and county in the United States to engage in a respectable and easy business, by which the above profits may be certainly realized. THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; It will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

New York, Jan. 8, 1858.

Messrs. O. J. Wood & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

Livingston, Ala., Feb. 14, 1858.

Prof. Wood—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

Philadelphia, Sept. 9, 1857.

Prof. Wood—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried everything without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Billious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 245 Broadway, N. Y.
Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. aug31 ly

LOTTERIES.

THE LOTTERIES OF

june23 2m THOMAS B. LAIGHTON.

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by unscrupulous pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

YOU HAD BETTER TR
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon the Salve, to make it accessible to such and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "My Mother's Salve" are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism

GREELEY ON MORMON POLYGAMY.—Mr. Horace Greeley, as is known, has lately been among the Mormons, and seen "the lions" there. After making various observations he closes one article with the following pertinent remarks on their polygamy:

I have a right to add here that the degradation (or, if you please, restriction,) of woman to the single office of child-bearing and its accessories; is an inevitable consequence of the system here paramount. I have not observed a sign in the streets, an advertisement in the journals of this Mormon metropolis, whereby a woman proposes to do anything whatever. No Mormon has cited to me his wife's or any woman's opinion on any subject; no Mormon woman has been introduced or has spoken to me; and, though I have been asked to visit Mormons in their houses, no one has spoken of his wife (or wives) desiring to see me, or his desiring me to make her (or their) acquaintance, or voluntarily indicated the existence of such a being or beings. I will not attempt to report our talk on this subject, because it assumed somewhat the character of a disputation, but one remark made by President Young I think I can give accurately. It was in these words, I think, exactly:—"If I did not consider myself competent to transact a certain business without taking my wife's or any woman's counsel with regard to it, I think I ought to let that business alone." The spirit with regard to woman, of the entire Mormon, as of all other polygamic systems, is fairly displayed in this avowal. Let any such institution become established and prevalent, and woman will soon be confined to the harem, and her appearance in the street with unveiled face will be accounted immodest.

SHOCKING CASE.—The Norwich Bulletin gives the annexed particulars of a shocking case at Lebanon, Conn.:

Charles Stark of Lebanon murdered his wife on Monday night or Tuesday morning, it is not definitely known which. They lived at a house in the woods, about a mile from any other dwelling.

On Tuesday forenoon, Stark was seen a short distance from the house, with the dead body of his wife upon a hand cart. She was shockingly cut, having two wounds upon her neck, either of which would have caused death; one in her left breast five inches long; and one through the arm near and below the elbow. Stark was immediately secured.

At the time of his arrest he was under the influence of *delirium tremens*, and while thus affected probably murdered his wife. He told his captors that he was going to take his wife to a place of safety; that four hundred Indians had been prowling around the house since the day before; that he was afraid they would kill himself and wife; and that, as a matter of safety they were going to leave the house.

They told Stark that his wife was dead already, but he denied it, and said that he was going to take her where she would be out of danger from the Indians. He was told to touch the body and see that she was dead. He did so and admitted the fact.

He was brought before Justice Washburne for examination and committed to jail.

He was more rational yesterday than when arrested, but told the same story of his fears of the Indians. Nothing can induce him to change it in any particular.—He admits that the cause of the affair was liquor, and said that if he had let rum alone he would never have had any trouble.

WASHINGTON MONUMENT.—*Washington, Aug. 25.*—Lieut. Ives, the architect and engineer, in charge of the Washington Monument, has made an official report to the Society in which he says that when raised to the height of 600 feet the entire weight of the shaft and foundation will be 70,000 tons. The weight of the structure in its present condition is 40,000 tons.—He has been unable to detect any appearance of settling, or indications of insecurity. By scientific calculations he has arrived at the conclusion that the weight alone of the Moument at its full height would offer a resistance nearly eight times greater than the overturning effort of the heaviest tempest to which it would probably ever be exposed.

It was proposed to the Monument Society many years ago to surround the foot of the obelisk with a base of a Pantheon form, and an engraving was made of the Monument as it would appear if completed in accordance with that plan. An impression has been in this way created throughout the country that the engraved design has been adopted, and cannot now be deviated from without tearing down what has already been built,—but as it has not been the intention of the Society to accept the plan referred to, and as the error which exists seems to have an injurious effect, Lieut. Ives suggests the expediency of notifying the public officially that the Obelisk is the only portion of the Monument, the form of which is decided upon, and the determination of the design of the base is still open for consideration. In this suggestion of Lieut. Ives the Society has concurred.

☞ The Washington correspondent of the N. Y. Tribune states that immediately on the accession of Lord John Russell to office as Foreign Minister of England, he addressed to this government a dispatch earnestly remonstrating against the re-opening of the slave trade between the United States and Africa, and against the lukewarmness of Mr. Buchanan's administration in that regard.

Portsmouth, N. H.

MONDAY, AUGUST 29, 1859.

AN EASTWARD TRIP.

Concluded.

The streets of Portland are broad and well laid out — though "heater" shaped blocks and *squares* are more numerous than we ever saw elsewhere. The shade trees are surpassed nowhere save in New Haven. Whole *streets* are entirely arched over by the most magnificent elms.

The houses of the citizens, many of them, are very fine — rather *too* expensive, it would seem, for the general prosperity of any place; and the "lay of the land" is well adapted for good sites. J. B. Brown, the great sugar manufacturer, has made a very paradise just out of the city, where recently all was a barren plain; and what is an improvement over most *modern* Edens, at least, there is no flaming sword or guardian to keep out the visitor. All is open to the public—the spacious grounds and luxurious greenhouses—without knocking or asking. Wonder if that man don't enjoy his beautiful premises himself, more than if he built a State Prison fence around the whole?

There are quite a number of sons of Portsmouth in Portland — among others, Allen Freeman has the best oyster saloon in the city; and a nice, extensive one it is too —and they serve ye up the bivalves there as a descendant of the pioneer Freeman ought to. James Freeman is also in the oyster business here. Mr. Ira Winn has an extensive machine-shop, and Mr. Geo. H. Perkins for clerk. Here they make, among other good things, great iron lighthouses, to let the sailors know when it is dark. Messrs. Augustine Dunyon and Daniel Senter, in the watch business, aim to keep the people up to time; Mr. A. H. Rowe, the efficient and gentlemanly road master on the P. S. & P. road, helps to keep them on the track; and Rev. Mr. Tuckerman, also of Portsmouth, supplies christian counsel and warning.

Cape Cottage, on Cape Elizabeth, three miles from the city, by land or water, is deservedly a popular place of summer resort —exquisitely located, and well kept. The landlord, Mr. Adams, formerly of the Elm House, Portland, is to be landlord of the new hotel in Portland mentioned above.

Early Sunday morning, we strolled into several of the churches. One, the richest we saw, built in gothic style, with groined arches and stained windows, admitting but "dim religious light," even on this bright morning, we took for Episcopal; but the sexton informed us it had a Methodist affix. Shades of John Wesley!

At the Union Church—a large new brick edifice, with a musical chime of bells, in an homely, ancient-looking, square brick tower, —we had the pleasure of hearing Rev. H. D. Moore. The text was, "Bear ye one another's burdens," and the theme was one well adapted to show the social, genial, kindly nature of the speaker. The singing is by the congregation, led by an organist and a precentor—a man who steps from his pew to the altar, at each tune, and leads with voice alone. The tune was well and strongly carried: but, somehow, this congregational singing, except in a very few of the oldest, best and most familiar tunes, always seems to us to lack body, richness, soul—probably because tunes are not well enough known by the people—have not become a part of themselves, like Old Hundred and a few others. No, give us a good choir, and let "all the people" join in once or twice each service.

In the afternoon, at the High Street (Congregational) Church, which has recently been very handsomely refitted, Rev. Dr. Chickering gave us a sermon from a text well calculated to draw out his doctrinal ideas; but if that was his orthodoxy, he draws it rather mild, compared with the fathers who sailed under the same banner but half or quarter of a century ago. The evening we enjoyed much, in and about the Cape Cottage—where we were instructed by the God of Nature direct—through the twinkling stars, shining down upon us, the gently restless waves, rippling against the wild and jagged rocks, and the soft breeze swaying the trees and fanning the brow,—blessing alike all, without regard to sect or clan.

Portland, with all her beauties and advantages, yet lacketh one great thing—water. There is no aqueduct or fountain, and the people depend on wells, cisterns, &c.—Bye and bye, Sebago Pond, eighteen miles distant, must be drained to supply the need; but meantime, Portland, especially in such dry times as these, is sadly in need of pure water.

But our visit to Portland was not long, we are sorry to say; and this article must also be cut off—which we will do, after advising any reader in search of a pleasant trip, to try down east. F.

☞ The name of Kerosene, given to the new illuminating oil, is derived from two Greek words—"Keros," signifying wax, and "zene," signifying light.

REV. DR. BOUTON'S HISTORICAL SERMON.—At the New Hampshire General Association on Thursday forenoon, Aug. 25, in Boscawen, there was a good house (tho' the day was rainy,) to hear Rev. Dr. Bouton's Historical Discourse, on the 50th anniversary of the association.

The half century past, he said, formed an eventful period in the history of the church. They could welcome one—the only one surviving of those who, fifty years ago, formed this association—the Rev. Ebenezer Price, formerly of West Boscawen, now in his eighty-eighth year. All of the rest had passed away. But there were living now, who were ministers then, Rev. Humphrey Moore of Milford, who was pastor for thirty-five years, eighty-one years of age;—Rev. Enos George of Barnstead, pastor forty-eight years, aged seventy-eight; Rev. Abraham Bodwell of Sanbornton, pastor forty-two years; Prof. Shurtleff of Dartmouth College, aged eighty-six years; Rev. Jonathan Ward of Brentwood, ninety years of age.

Fifty years ago this morning, said the speaker, two and a half miles west of this place, in a dwelling half hid from the road by the beautiful trees that surrounded it, in a southeast room, sat a company of men, serious, earnest and devout. Rev. Eli Thayer of Kingston was chairman, and Rev. John H. Church scribe. With them sat Rev. Jesse Remington of Candia, Samuel Wood of Boscawen, Thomas Worcester of Salisbury, John Kelley of Hampstead, Moses Bradford of Francestown, William Rolfe of Plymouth, William F. Rowland of Exeter, Abijah Wines of Newport—ten in all.—They completed the organization, declaring their object to be to promote harmony, co-operation, assistance and information. The basis of belief was the Assembly's Catechism.

The Association took the lead in the temperance reform, voting in 1831 not to use ardent spirits at their annual meetings, and subsequently banishing wine, and voting not to treat their friends, and then resolving to use all their efforts for total abstinence the world over.

The speaker said that the church membership in 1809 was 6500; that, notwithstanding the drain by emigration, the number of church members was now 21,500, 189 churches and 191 ministers. The total amount of contributions during the fifty years was rising seven hundred and seventy-seven thousand dollars!

No minister had ever been been convicted of crime in a court of justice in the State—no one had been deposed for immoral conduct; and but few had departed from the faith.

At noon, a bountiful collation was given by the ladies in the hall beneath the church. Three tables were laden with eatables and decorated with flowers. All present were invited to partake freely. The arrangement reflected great credit upon them, inasmuch as they most hospitably entertained the large number present.

"THE PRINTER" is the title of a large quarto monthly published in New York by John Henry, at $1 a year. It is now in the second volume, and each month increases in interest and value. The September number contains, among other good things, an able and exceedingly interesting article by Ben: Perley Poore, descriptive of the immense Public Printing Office at Washington — beautifully illustrated with the finest wood cuts.

The Printer is always full of matter interesting to the general reader, and invaluable to the craft.

NOT SO.—The newspapers make droll blunders about the New Hampshire General Association. One paper calls it a "Conference," and another calls it a "Council." It is neither a conference nor a council.—One paper says:—

"In the fifty years which have elapsed since the formation of the council, nearly all those who were its founders, have either died or removed. Among those who remain are Dr. Dana, of Newburyport."

Dr. Dana of Newburyport was *not* one of its founders, as his early ministry was in Massachusetts.

☞ The Bishop of Exeter, who has long been a leading politician and controversialist in England, will not resign his office, which was some one said was his intention. He is 82 years old, and means to remain in his See as long as he is in the land.

☞ Gen. Houston's majority is put down at 12,000. The vote for him must be almost unanimous, seeing that the whole Texan vote, at the last Presidential election, was short of 47,000.

Gov. Houston did not vote for Buchanan in 1856, a fact that rather militates against the position that his recent election is a Buchanan triumph.

☞ The way in which Napoleon III. disarms, is to withdraw old cannon from his ships and fortifications, and have rifle cannon ready to replace them at a minute's notice. We haven't the least doubt that he would give all his old guns to England, with full permission to use them against his fleets and armies.

A SINGULAR FACT.—There are probably some two hundred Unitarian congregations in the United States to enjoy the stated ministry of the Word. The Christian Register, of July 30, publishes a list of sixty-six unsettled ministers of the denomination, two-thirds of whom are in the immediate vicinity of Boston. Of this number from forty to fifty are supposed to be waiting as candidates for settlement, while the rest prefer to supply temporarily. Such facts seem to indicate that there is a large surplus of ministers or an alarming fastidiousness in the parishes.

We don't believe there is any surplus at all,—nor any alarming fastidiousness. The best preachers find their places, and the poorer ones theirs. And some, who have little breath or energy, or who get engaged in other avocations, do not preach at all or but rarely.

☞ On Thursaay night last a building occupied by James Cunningham as a stocking factory, at Laconia, N. H., was burned, and about $1500 worth of property destroyed; Mr. Cunningham's loss is about $800—insured for $500. The other losers are Louis Dimond and Louis Busiel, about $30 each in tools. A new machine for cleaning rice, belonging to L. F. Currier, and valued at $800, was burned. No doubt the fire was the work of an incendiary.

☞ Porter's Spirit says the trot between Flora Temple and Princess, in Boston, was no race at all—it says the purse was false, and the gate money shared by the respective owners of the horses. It says they will go to Saratoga, thence to Portland, thence to Baltimore, and thence to Philadelphia, and thence to Chicago, Detroit, Kalamazoo, and other Western cities, on a regular hippodrome excursion, trotting for purses when they are offered, and dividing the proceeds however the contest may terminate.

☞ Lieut. Maury isn't going to sea, but will continue his useful labors that enable other men to go to sea with success. Government knows better than to order him abroad, when there are so many men who could be sent abroad with advantage to themselves, if not to that of the country.

☞ The administration's organ don't like the statement that Gov. Banks is to ride a stallion at the Concord muster. His Excellency should import the organ-grinder for the occasion, and then he would be as well mounted as was Balaam.

Blondin is to try another feat on his rope, viz: proceed about midway of the line, cut it off, splice it, and then walk on his head to the other side!

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them **The Best in the Market!**

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

☞ Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Sold by druggists and dealers generally, everywhere.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, H., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

CONCORD, N. H., March 2.

Messrs. SETH W. FOWLE & CO.,—*Gentlemen*:—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,

HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow,** an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. R. Pecker, 20 Elm st.; J. Morgan, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. THE BEST LIGHT!!!

Cancemine Oil.

Every one is naturally desirous of obtaining the BEST LIGHT, at the SMALLEST COST; and this can be secured by the use of Cancemine Oil,—a new article which is rapidly superseding the Kerosene Oils, for the following reasons, viz:—It costs less, GIVES MORE LIGHT, WILL NOT SMOKE, AND HAS NOT THE OFFENSIVE ODOR OF KEROSENE.

This Oil can be used in the ordinary Kerosene lamps; but an improved burner can be fitted to any lamp at a small expense.

This is by far the best light yet offered to the public. The subscriber has this Oil for sale in any quantity, also a supply of Lamps, &c.—A lamp may be seen in operation at store

The Best Medicine in the World.

YES—DECIDEDLY THE BEST—IS

Dr. Langley's Root and Herb Bitters.

They are made from the most valuable Roots, Herbs and Plants in the vegetable kingdom.—They act at once upon the very seat of disease.—They remove all obstructions from the internal organs—regulate the bowels—purify the Blood—remove Humors—excite the Liver to a healthy action—give strength and tone to the stomach—cure Jaundice and Dyspepsia—create an appetite—increase and renew the circulation—remove all Bilious diseases—cure Piles, Headache, Weakness, &c., and are the best medicine ever discovered for all Female Complaints. The purify, heal, strengthen, build up and keep in order "the house you live in."

Doctors' prescriptions, clothed in Latin verbs,
Now yield the palm to Langley's Roots and Herbs;
Forsake vile drugs and cull from Nature's store,
As did the Patriarchs in days of yore.
Roots, Herbs and Barks, the best in Nature's store,
From broad Atlantic to Pacific's shore,
From North to South, their healing virtues lend,
And in these Bitters prove the people's friend.
They'll strengthen, warm, your bodies vigorous make,
Rouse drooping spirits and new blood create.

So if you wish to feel well, act well, do well and keep well, use this standard valuable medicine.

Only 25 cts. for a pint, 38 cts. for a large bottle. Sold by all dealers in medicine everywhere.

LOCAL.

☞ An Engine Company belonging to Milford, N. H., visited Newburyport one day last week, and were fraternally received by a fire company there.

The two companies together embarked in a schooner, in which vessel they proposed to visit the Isles of Shoals, Hampton Beach, and this city; but the wind and tide being both contrary, instead of going down river they went up, and cast anchor near the bridge.

In due time the tide turned, the anchor was weighed, and after a very short run, the schooner went on the half-tide rocks, where she and her passengers staid all night.

Next morning the vessel was again afloat, but soon ran afoul of a coal-droyer, and disabled her jib; in this trim she went ashore on the flats near Black Rock, and stuck fast.

This closed the sea voyage; but the courageous firemen took their land tracks abroad, and went to Hampton on the Eastern Railroad, and to the Beach like the people,—and have since gone home,—so that we are not to see them here at all.

☞ On Friday afternoon, about 1 o'clk, as Mr. William Jenkins of this city, with his son were fishing off York harbor, near the "Triangles," they were run into by a schooner, which knocked them into the water and sunk the boat. Mr. J. succeeded in grasping hold of the vessel, and then called loudly for help to come and save his son, who was fast succumbing to the watery element. After a lapse of some minutes, they succeeded in getting the boy on board, who was apparently lifeless. A rope was then thrown to Mr. J., and he was taken aboard completely exhausted. The unfortunates were brought home, and we learn that Mr. Jenkins is doing well, and his son will probably recover, although his condition on Saturday was somewhat critical.

☞ The N. H. Gazette informs us that Richard Sargent, "a foul-mouthed black republican," of Concord, who has been a constant violator of the liquor law ever since its passage, has now got into jail to board out a $50 fine at the County's expense.—[Serves him right, says Uncle Toby, and serves the County right too, for tolerating the nuisance so long.]

The Gazette further informs us that the one singular thing about the matter is, that he should have been prosecuted at all.—Well, so it is rather singular, but Uncle T. hopes it will not long remain so—but that the officers, now their hand is in, will bring up every foul-mouthed black republican rascal that keeps a den of wickedness and misery.]

☞ The State Reform School culprits, Daniel Creadon and his five accomplices, were, on Friday morning, rought before Justice Boynton in Westboro', Mass., and pleaded guilty to the charge of being principal and accessories, respectively, in setting fire to the school building, and were bound over, Creadon, in the in the sum of $5000, and his five accomplices in the sum of $2000 each, to appear at the October term of the Criminal Court, held in Worcester. In default they were committed to jail.

From California.—Steamer Moses Taylor, from Aspinwall, 19th, has arrived at New York, with 500 passengers, and $126,000 in treasure.

Among the passengers is Capt. Long, late commander of the Pacific Squadron.

U. S. ships Merrimack, Vandalia, and Warren, were at Panama, and the Roanoke, Jamestine, and Preble, were at Aspinwall.

☞ Marshall Potter, tried at Bangor, Me., and convicted of the murder of his brother, has been sentenced to be hung. A year will elapse before the sentence can take effect, and in the meantime the culprit will be subjected to solitary confinement and hard labor in the State Prison.

☞ Harper's Monthly for September is received by A. Williams & Co, Boston, and J. F. Shores, jr., of this city. This number contains the usual variety of matter, cuts, &c.—but is chiefly remarkable for containing in it Senator Douglas's Manifesto on Popular Sovereignty.

☞ The prejudices of some men about hair are irremovable. For instance, four red gentlemen took part in a sack race at Newport, recently, but wouldn't allow a white man either in a sack or on the race. This is all owing to abolitionism.

Mr. De Lave has set himself up as a rival of Blondin. Should he ever fall into the water, his fate would illustrate his name, perhaps make it illustrious. Patch is as important as Bacon.

LETTER FROM KEENE.

Keene, Aug. 24, 1859.

Friend Chronicle:—It is a long time since I have written you from Keene, and now, just as I was about beginning to write you a line, the first item is supplied by a fire. I saw the smoke, and heard the crackling, and ran out to see what it was. It was a "shanty" on "the Patch." Plenty of help was on hand from the railroad shops, and the shanty was soon torn to pieces and the fire subdued. A very strong S. E. wind was blowing at the time, and the fire might have spread to some of the numerous shanties and railroad buildings, and have been very disastrous. There was certainly danger. But, as a kind Providence would have it, it was between 3 and 4 o'clock in the afternoon, when the workmen were all in the shops, and were immediately on hand to help. Small as it was, it was the largest fire Keene has had for a long time. There has been two or three alarms within the year, but in each case, I believe, the fire has been extinguished before the Fire Companies could reach the spot. Keene has been highly favored in regard to fires, both as to number and size.

It is very dry here. Vegetation is suffering much. But there are indications of rain. We have had a very variable season. It was very warm here before the trees had put on their foliage. The mercury went up to 90°, and as the burning sun shone down upon you in the streets, you involuntarily looked up to the trees for shelter,—but shelter or shade they had none to give, for they were about as destitute of leaves as in January. It seemed very strange to walk the streets under such a burning sun, and look up to bare and wintry trees. It seemed almost as though we had dropped all at once into the middle of July. After this warm weather, we had those severe frosts, which were felt over a large extent of country, and did so much injury.—And, during the summer months, while we have had some very warm weather, we have also had much that was very cool. Last week both Tuesday and Wednesday nights were quite cold, and I am told that on one of them, there was some frost,—Tuesday night, I think, but not enough to do much injury.

Thursday Evening, Aug. 25.—We have had this day and last night, a beautiful rain. Yes, *beautiful*, for it truly seemed so, to see the benificent drops falling in cool profusion on our parched fields. It was a most grateful sight, doubtless, to all. The thirsty hills and vales were gladdened by it, and look refreshed. Many gardens and crops will probably be recovered by it from the utter desolation to which they seemed hastening. Some, perhaps, were so dry that no quantity of rain could give them life again.

Our Public Library is almost ready to be opened. The third of September next is fixed for the opening day. If the books are well selected, this Library must be of great advantage to the reading public.—Many times, people wish to consult some book, or look up some statistics or facts, which they have not the means of doing, and a Public Library should supply such works of reference.

The "Cheshire County Musical Institute and Convention," held its annual session here last week. There was a very full attendance, and much interest was manifested both by the members of the Institute and the listening public. The large and convenient Town Hall was filled to overflowing at nearly every session, and at the Concerts, one had to go very early to secure any kind of a seat. The singing was of a high order and gave much satisfaction.

I suppose you have seen some account of the new Iron Bridge at Winchester. It is said to be a very substantial structure, being built of iron and granite. The abutments are split granite, laid in cement. The flooring is of white oak plank, two and a half inches thick. It is thought that railroad managers will see the superiority of such bridges over the common wooden structures which decay, and cause such terrible accidents as have recently occurred on several railroads. The travelling public, also, have an interest in this matter, and the weight of public sentiment should compel railroad managers to replace speedily, all suspected bridges, with those of imperishable materials. Things have come to such a state that a person before starting upon a journey, might as well make his will and prepare for all emergencies, for there seems to be a good deal of a probability that he will meet with railroad accidents in some form or other.

Keene is very lively in the matter of buildings, &c. Many new ones are going up, and old ones being remodeled. Qui.

☞ Robert Ross and his daughter, of East Franklin, recently drank of some prepared bed-bug poison, not knowing what it was, and after lingering in great pain for twelve days, died.

☞ The wildcats are coming back upon the West, in the shape of banks, that are regular beasts of prey. They are nuisances of the worst kind, and ought to be brought down by the long rifle of the law.

A Croaker on the Street Commissioner.

What an easy thing it is to complain! It is one of the infirmities of our poor human nature, partly malicious and partly careless and silly, and in every way reprehensible. The croaker is never to be depended upon for the truth, being too lazy or ignorant to ascertain it, and relying upon his own self-sufficient conjectures, upon the deliberate falsehoods of others, or upon the street gossip.

These reflections are suggested by an article which appeared in the Journal three weeks since and was copied approvingly into the Chronicle, in which croaker animadverts upon the Street Commissioner's duties, and bitterly complains that he charges individuals for doing work which his salary was intended to pay, and that one of the Aldermen from partisan favoritism has been compensated for overseeing street repairs, which the Street Commissioner is paid to do; and intimates also that the Commisioner is overpaid for his services.

Now we call upon the correspondent of the Journal to specify a single fact coming fairly within either of these charges.

In the laying of side walks the Street Commissioner is required to grade and lay them out to correspond with the grade and width of the street; and here his duties end, and we challenge the Journal's correspondent to furnish an instance in which the present officer has charged an individual or the city one cent for this work or for overseeing it.

The Commissioner is also required to keep and maintain in good order and repair all the streets, lanes and alleys in the compact part of the city and no more, and we call upon croaker to instance a case in which any Alderman has been employed or compensated for doing that service. Once during the present year and once or twice during the past year, the Commissioner has been employed by persons laying sidewalks to do services outside of his duties, such as furnishing materials overseeing workmen, &c., for which he has received a moderate compensation from the individuals such as any other person would have received. And during the present year one of the Aldermen has been employed to open and clear out two common sewers, for which we presume he has received compensation.

It is possible that the writer in the Journal alludes to these services: if so, will he be so good as to inform us, the Section in the Charter or the Ordinance bringing them within the duties of the Street Commissioner. Are we to understand him as taking the ground that the holding of the office of Alderman or Street Commissioner precludes the incumbent from receiving compensation from the city for any service; so that if he be an Editor the city cannot advertise in his paper unless gratuitously, if he be a painter the city cannot have his services on the public buildings, if he be a tradesman he cannot sell goods to the city, or if a carpenter he cannot receive any jobs from the city. If so, one at least of the Republican Aldermen of Ward Two would be somewhat abridged in his privileges.

As to the Alderman being employed as a reward to a political partizan it may throw some light on the subject to say that he was so employed upon the motion of one of the Republican Aldermen from Ward Two, which motion was sustained by the other Republican members of the Board.

As the Chronicle was kind enough to copy from the Journal the article referred to, perhaps it will show this the same courtesy if not the same approval.

A "SLAVE CODE."—It is not surprising that our Black Republican cotemporaries should charge us with advocating a "slave code" for the Territories, but that Democratic editors should retail this black slang, as our friend of the Patriot and others have done, evinces a recklessness on their part which we did not suppose them capable of. We deny that we have ever said one word in favor of a "slave code," and defy those who make the charge to show that we have. Our position has been and is that the South has equal rights with the North in the Territories, and that those rights if endangered are entitled to adequate protection. But we have advocated no slave code to afford this protection, because we have never believed that such legislation would be necessary. On the contrary, we believe there is power enough in the courts and the executive, under the existing laws, to secure it. If it ever should prove otherwise in any case, as we do not think probable, legislation to meet such a case would not be a slave code.

GLASS HOUSES.—The editor of the N. H. Patriot, in the last number of that paper takes "the liberty to remind our [his] young friend of the Gazette that there is too much glass in all our houses to render it safe for us to indulge in the luxury of throwing stones at each other's dwellings. The editor of the Gazette is a very recent convert to Democracy, and a charge of inconsistency from him against so old a soldier as we are, comes with a bad grace." It is true that we were reared under "Whig" influences, but our faith in an opposite direction was pretty strongly established by a three years connection with the Patriot printing office, a period which we shall always remember as the happiest of our life. It is also true that with Gov. Baker, and many other Democrats we wandered into the K. N. camp, an entrance to the penetralia of which, we are credibly informed, was forbidden to our friend of the Patriot. But notwithstanding, we think our record is about as clean as that of many well known and now influential Democrats in and about Concord.

OUR OPINIONS.—The pretence of the Patriot editor that we have attempted to crowd our views upon our cotemporaries is shallow and untrue. We have sought no controversy with any of our friends, as every reader of the Gazette well knows. Our position has been entirely a defensive one. We have freely stated our opinions, as it was our right to do, without so much as alluding to a Democratic cotemporary, unless we have first been assailed. When this has happened, we have not hesitated to meet our opponents, if we thought it worth our while. We shall continue this course, and our veteran, though not correspondingly invulnerable, friend of the Patriot, will not be made an exception to our rule.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Purge the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, for disease and feeling will tell you when. Even where no particular disorder is felt, people enjoy better health and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with the pollutions of life circulating through it, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall prove the truth of the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their speedy eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need only assure the people that its virtue and quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, a REGISTERED ATTORNEY of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the novelty or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of scientific and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure to them as early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all of one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to secure their rights, for they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made twenty rejected applications, SIXTEEN APPEALS, EIGHT, ONE of which was decided in HIS FAVOR by the Commissioner of Patents.
Boston, [illegible], 1859. R. H. EDDY.

EMPLOYMENT.

$50 A MONTH AND ALL EXPENSES PAID.—An Agent is wanted in every town and county in the United States to engage in a respectable and easy business, by which the above profits may be certainly realized. UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp that are cured by hair dye, it will stop the hair from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to call for further proof, who am in and out of the N. Y. Wire Railling establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossy and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the back of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPARED BY DR SANFORD.

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, simply by applying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve Dyspepsia and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. We solicit a share of respectful and attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

The Sagamore House, Frost's Point,

IS NOW OPEN,

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and good cheer, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain injurious maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which had been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all forms of irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of imposition that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* never been able to say of any other medicine, —NEVER HAS IT FAILED, IN A SINGLE INSTANCE, when timely used. Never did we know an infant to be injured by any one who tried it. On the contrary, all are delighted with its operations, and speak in terms of the highest commendation of its magical effects and medical virtues. We speak, in this matter, *what we know, and pledge our reputation for the truth of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not specdily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—Persist to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York
Price only 25 cents per bottle.

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!
The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY or THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a
SPECIFIC REMEDY FOR CONSUMPTION.
Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * Out of twenty-two cases in the *third or last stage,* treated by my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."
BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure.* My *fac simile* signature is upon every bottle.
☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and cave from all possibility of deception. Sold wholesale, at the lowest discount for cash, at the Sole General Depot in the United States, by J. WINCHESTER, American and Foreign Agency, 49 John street, New York.

Portsmouth, N. H.

TUESDAY, AUGUST 30, 1859.

DEATH OF DR. DANA.

The venerable and reverend Daniel Dana, D. D., died in Newburyport, Mass., on Friday evening, at the age of 88 years.

Dr. Dana was born at Ipswich, July 24th 1771. His father, Dr. Joseph Dana, was the pastor of a Congregational church in Ipswich, and two of his brothers were also clergymen.

He graduated at Dartmouth College in 1788, and was for a year or two a tutor in Exeter Academy; was ordained in Newburyport, as minister of the First Presbyterian Church in 1794, and remained there until he was elected in 1820, President of Dartmouth College.

The acceptance of this post was the grand error of his life. Leaving the pastorship of a flourishing society, for which he was well fitted, he assumed the presidency of a college, for which office he soon found himself quite unfit, he resigned his place in 1821, and left the college.

In 1822, he became pastor of the old Presbyterian Church in Londonderry, N H., where he remained till 1826, laboring hard on a most unpromising soil,—nevertheless doing much good, especially in converting many of his flock from drunkars to total abstinents, which work he did against great opposition.

At the end of this time, viz. in 1826, Dr. Dana returned to Newburyport, where he was called to the 2d Presbyterian Church, the original members of which seceded from the first church thirty years before, on account of his settlement there. He remained pastor of the 2d Presbyterian Church until 1845, when, at his own request, he was released from the charge, since which time he has continued to reside in Newburyport, until his death at the advanced age of 88.

His funeral will take place to-day, at two o'clock, P. M.

The writer of this notice was commended to the doctor's pastoral care in 1818, by letter from a pastor then living in Portsmouth, —and never could any youth be more kindly received, or more safely advised, than by this eminent minister, then in the prime of ministerial life, dignity and success.

In Newburyport, the deceased was deservedly revered and beloved by the people as a father, and will be mourned with deep sorrow.

Dr. Dana was twice married, but lived a widower the last 40 years of his life: he leaves several children. A son is pastor of a Presbyterian church in Charleston, S. C., where he has resided for many years. One daughter is the wife of Rev. Mr. Bartley, o Hampstead, N. H.

Dr. Dana was emphatically an old-school gentleman and divine. He was one of the most courteous and agreeable of men in his manners, and one of the most faithful and affectionate of pastors.

As a writer he was distinguished for simplicity and purity of style; as a thinker, for clearness and discrimination. He held with undeviating firmness to the doctrines of the Westminster Assembly's catechism, as interpreted by the old school theologians. In fact, he was old in everything—manners, divinity and piety: and a better type of all these cannot easily be found.

He deemed the doctrines taught of late years at Andover Institution, to be heresies and departures from the faith;—and showed his sincerity in the matter by resigning an honorable trust, which he had held in that Institution for many years.

A correspondent of the Traveller bears the following testimony to the many excellent qualities of the deceased:

A great and good man has departed; the sun of his life, like that of a long and bright summer's day, has gone down to a beautiful setting. Three generations in the community in which he lived have walked in its light, and rejoiced in its blessed and holy influence. His eminent talent was adorned by graces peculiarly his own, yet shared and admired by all around him.

In a good old age he has passed to the rewards of the faithful, deeply lamented by his friends, among whom he was the delight of the social circle, and by the community of which he was confessedly one of its brightest ornaments.

SICKNESS AT SIERRA LEONE.—The Salem Register says that a letter received in that city from Sierra Leone, dated July 22, states that it was then, and had been for some time very sickly there, and that many deaths had occurred among the foreign residents. Twelve of the European houses were closed in consequence of the death of the heads of the respective firms. In one instance, where the head of the house had gone on a visit to Europe, all the clerks died of the fever shortly after he left.

☞ The Saratoga correspondent of the New York Herald writes that watering-place heiresses are as thick as blackberries —in short there are no marriageable ladies there worth less than a clean hundred thousand dollars, and they are quoted all along from that figure up to incredible sums.

DOUGLAS IN HARPER.

Harper's Magazine for September contains an article nineteen pages long, entitled "The Dividing line between Federal and Local authories. Popular Sovereignty in the Territories. By Stephen A. Douglas." This is understood to be the manifesto which has been announced as in course of preparation by Mr. Douglas, and its appearance in the form of a copyrighted magazine article occasions no little surprise. The article is written with the author's customary ability and shrewdness, and presents his views upon the subject of slavery in the territories with much force. The ground taken by him is so familiar that we need only copy the following paragraphs:

It is difficult to conceive how any person who believes that the Constitution confers the right of protection in the enjoyment of slave property in the Territories, regardless of the wishes of the people and of the action of the Territorial Legislatures, can satisfy his conscience and his oath of fidelity to the Constitution in withholding such Congressional legislation as may be essential to the enjoyment of such right under the Constitution. Under this view of the subject it is impossible to resist the conclusion that, if the Constitution *does* establish slavery in the Territories, beyond the power of the people to control it by law, it is the imperative duty of Congress to supply all the legislation necessary to its protection; and if this proposition is *not* true, it necessarily results that the Constitution neither establishes nor prohibits slavery *any where*, but leaves the people of each State and Territory entirely free to form and regulate their domestic affairs to suit themselves, without the intervention of Congress or any other power whatsover.

Reviewing the opinion of the Supreme Court in the case of Dred Scott, he denies there is anything there to justify the declaration that the Constituion carries slavery into all the territories, and says:

If the proposition be true, that the Constitution establishes slavery in the territories beyond the power of the people legally to control it, another result, no less startling, and from which there is no escape, must inevitably follow. The Constitution is uniform "everywhere within the dominions of the United States"—is the same in Pennsylvania as in Kansas—and if it be true, as stated by the President in a special message to Congress, "that slavery exists in Kansas by virtue of the Constitution of the United States," and that "Kansas is therefore at this moment as much a slave State as Georgia or South Carolina," why does it not exist in Pennsylvania by virtue of the same Constitution?

THE GREATEST MAN AT NIAGARA FALLS.—On Sunday, we are told, a curious indication of the state of feeling at Niagara Falls was manifested in the proceedings of a Sabbath School there. A gentleman from Cataraugus county was addressing the children, and inculcating the duties of reverence for God and obedience to the Supreme will. In the course of his remarks he desired to draw a contrast between God and the children's highest ideal of greatness on earth, and for that purpose he asked of the little ones before him, who was the greatest man at Niagara—the man most entitled to their respect? when, to his astonishment and chagrin, a dozen youthful voices responded, enthusiastically and in entire concord, "Blondin!" "Blondin!" "Blondin!"—*Rochester Democrat.*

☞ The Rev. S. H. Thompson once visited a settlement where no preacher had ever been. The entire population turned out to give him a hearty welcome, and to hear his message. In the midst of his discourse a man rode up to the edge of the assembly and alighted, whereupon every man, woman and child in the congregation rushed to the new comer to ask and hear the news. One of the party, with an encouraging look and gesture to the preacher, said, "Go on, parson, we'll all be back directly." In due time they returned, and Mr. Thompson proceeded with his sermon.

☞ Recent accounts from Sierra Leone state that Her British Majesty's brig Heron was capsized in a tornado on the 12th of May, about 200 miles from Sierra Leone. The only survivors were the captain and twenty seamen, out of the whole ship's crew. A barque of about 400 tons, supposed to be a slaver, was carried into Sierra Leone May 4, having been captured by the Heron in about 1 degree north latitude, having neither papers nor colors. She was taken about the 13th of April.

☞ The Hyannis Mecsenger says that Mr. Prince Crocker of Barnstable, now in his 88th year, has this year reaped and taken up his oats; is still strong and active, and daily engaged in the labors of his farm. His brother Joseph, who died about a year since, two years older than he, retained his faculties until within a week of his death.

ACQUITTED.—George H. Knapp, the teacher of counterfeit detecting, who was arrested at Hartford, Ct., last week, for passing counterfeit money, was discharged upon examination. The bad bill was passed by him in a state of *intoxication*, and the counterfeit money found upon his person was shown to be carried by him for the purpose of illustrating his instructions.

☞ Gen. Stetson's Astor House farm, in New Jersey, comprises 300 acres in a high state of cultivation, on which are fifty choice imported cattle, producing 450 quarts of milk per day, 400 head of swine, and 4000 hens, roosters, and other "gallinacious individdles."

OLD STORIES.—At the N. H. General Association, says the reporter for the Boston Journal, Thursday afternoon was devoted to historical reminiscences by the elder of the ministers present.

Rev. Dr. Bouton exhibited an old Bible belonging to the church in Boscawen, 179 years old. It has been in use up to a recent period, and is only laid aside to preserve it. He presented two large packages of Dr. Wood's manuscript sermons, which were eagerly taken by the members as memorials of him.

Rev. Mr. Burnham of Rindge, said that early ministry of Cheshire county was to some degree, immoral. One, who loved his grog, either took more than his brethren, or else he could not carry quite as much.—Once he was carried to his dwelling on a bier.

He, Mr. B., received, at the present time the same salary he did at his settlement, thirty-eight years ago. He received it on the day stipulated, with the exception that, whenever the day of payment came on Sunday, he received it Saturday.

Rev. Dr. Barstow of Keene said that among the early ministers of Cheshire county was one of remarkable wit. One of his parishioners believed in the transmigration of souls. "I can remember," said he, "the time when I was a horse—I can also remember when I was a hog!" "Oh, I can remember that," said the minister. (Great Laughter.) Another fellow—a young man —had thoughts of going into the ministry. He talked with the minister about it. "If," said he, "I was in the ministry, I should have great ideas." "You are a presumptous young man," was the reply; "if you should get a single idea into your head, it would burst like a bomb-shell!" (Renewed Laughter.) Dr. B. continued, and gave the serious side.

Rev. Mr. Buxton of West Boscawen made a most feeling address, alluding with great tenderness and feeling to the labors of his predecessor, Father Price, who sat before him.

Rev. Mr. Clement of Woodstock, Vt., formerly of Chester, said that he, when a boy, lived in Vermont, and the first church bell he ever heard was in Boscawen; for at that time there were not six bells in Vermont. He gave some interesting reminiscences.

Rev. Mr. Lawrence of Claremont stated that the Congregational order in the State in 1809 had one to thirty of the population, now it had one to fifteen.

Among the passengers by the steamer America, at Boston are Ex-President Pierce and lady. They arrived at their quarters at the Tremont House, about seven o'clock Saturday morning. Mr. Pierce is looking remarkably well, and this forenoon many of his political and personal friends have called and congratulated him upon his safe return.

Mrs. Pierce is somewhat wearied by the sea voyage, bus it is yet too early to tell its effect upon her health, which apparently remains about the same as at our previous advices respecting it. They propose to remain at the Tremont House about one week.—*Trav.*

☞ The Montreal Witness regards the summer frosts as a blessing. The opinion gains ground that the summer frosts which occasioned so much alarm, have been the means of saving the wheat crop. They kept back the midge until it was too late to do much harm.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

SPECIAL NOTICES.

Dr. J. Hostetter's Bitters meet with great favor as remedies for diseases of the stomach, and all other diseases arising from a disordered digestive system; and its component parts being entirely vegetable, it is more safe than the ordinary preparations offered to the public, while its pleasant effect on the system renders it vastly popular with those who use it. Dr. Hostetter's reputation is wide-spread, and the care with which he prepares his medicine, secures it always safe and reliable. The Bitters are most agreeable in flavor, and as it contains nothing that can impair the health, but, on the contrary, contributes to its preservation, this preparation must prove highly popular. It is a genuine and truly valuable article for any of the above diseases, and we sincerely trust that our readers may test its excellence.

Sold by druggists and dealers generally, everywhere.

Dr. Wistar's Balsam of Wild Cherry,

Ballou's Pictorial of 24th July says:—Realizing the true sense of responsibility attaching to the Editor of and Publisher of a widely circulated journal, we should deem it little less than a crime to recommend any medical compound the real virtue of which we could not conscientiously indorse. This balsamic compound has become a home fixture; and all persons who suffer, and have in vain attempted to cure their *Coughs, Colds, Bronchial or Pulmonary Complaints*, make use of this unequalled remedy.

The following Certificate from a distinguished gentleman is equally conclusive.

From Rev. Henry Wood, formerly Editor of the Congregational Journal, Concord, NH., more recently American Consul at Beyrout, Syria, and now Chaplain in the Navy.

CONCORD, N. H., March 2.

Messrs. SETH W. FOWLE & CO.,—*Gentlemen:*—Two years ago, a sudden and violent attack upon my Lungs confined me to my bed for several weeks, and when I recovered, I was so much oppressed by difficulty in breathing, that I was often unable to sleep or rest upon a bed by night. The suffering was extreme, and judging from the inefficacy of the remedies used, I supposed the disease incurable. Being persuaded to try a bottle of *Wistar's Balsam of Wild Cherry*, without confidence in its efficacy, I found the difficulty almost entirely removed before one bottle was used up. Sympathy with my fellow sufferers induces me to make this public statement, and recommend the article to others similarly afflicted.

With respect, yours truly,
HENRY WOOD.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not enough sound skin on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

Jaundice.

This yellow coloration of the skin is characteristic of an increased secretion of bile, or of its passage into the blood, in consequence of some obstruction in the circulation of the liver. Being itself but a symptom, the cause must be attacked in the central diseased organ; and ample experience proves that the PERUVIAN SYRUP acts in a wonderful manner in stimulating the liver to the proper performance of its duty.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. HIGHWAY ROBBERY.—On Friday evening the inhabitants of a house or two near Frenchman's Lane and White's road, were startled by the cry of murder: and on going out they found a coal-man going out of the city with his empty wagon, who told them he had been robbed by an unknown man, who had solicited a ride. The coal man complied with the request; and when they arrived at the junction of White's road with the Islington road, the coal-man felt the passenger's hand in his pocket, and his wallet was gone in a twinkling, as the robber jumped from the wagon. Notwithstanding the coal-man's efforts to hold him, he got away, and when the coal-man's cries of murder brought the neighbors to the spot, the robber was out of sight with his booty.

This and the blowing up of the safe at the railroad depot, look as if some of our two hundred loafers were growing desperate in their lack of money.

Messrs. Editors:—I observe by an advertisement in your paper, that the "Robinson Sisters" are to give one of their concerts at the Temple on Wednesday evening. Having had the pleasure of attending one of their entertainments given in this city last Spring, I can truly say that since the palmy days of the Hutchinsons, I have not listened to such melody as was my pleasure to hear at that time, and hope all of our citizens who enjoy a *good* concert, will go and hear them. They are highly spoken of in other places.

ONE WHO HAS HEARD THEM.

☞ The Robinson Sisters, four in number, all good singers, and well trained in singing together, are to give one of their beautiful and attractive concerts on Wednesday evening at the Temple, which will, as we hope, contain a good audience, tasteful as well as numerous.

☞ Mr. S. M. Hewlett, the temperance lecturer of Wisconsin, celebrated for wit, humor and satire, will deliver a lecture this evening at the Temple, on the subject of Intemperance. His lectures are highly spoken of by many persons who have heard them.
